

Security

Dear Parents,

We always keep our front door locked. We have recently installed a new keypad at the front door that requires a 4-digit code to unlock. For you to enter the building I will need a 4-digit code that will be your unique code to get in. You can either share one as a family, which is preferred, or each parent can create their own. Please fill in the form below letting me know what your 4-digit code will be so that it can be programmed.

Thank you for your cooperation,

Isabel Nussbaumer and the St. Paul's Staff

4-digit code
