Seth Levine	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	I would like to register my approval of the SDCOE board readjusting the San Dieguito Union High School Trustee Area Map after the board led a flawed and divisive map redraw/readjustment process that was confusing and frustrating for community members such as myself. I hope a process from outside with only the care for a fair map will end the disruption and division in our district.
Nancy Hardwick	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	Parents and grandparents of students in the SDUHSD are relying on the SDCOE to structure a district map with transparency and integrity and no political bias. We hope you will preserve the five elementary school feeder district communities of Cardiff, Encinitas, Del Mar, Rancho Santa Fe and Solana Beach as best as possible.
shirley platzer-stocks	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	b. Reserve the FIVE elementary school feeder district communities of interest (Cardiff, Del Mar, Encinitas, Rancho Santa Fe, Solana Beach) as best as possible. Respect incumbency of seated board members and voting cycle as best as possible.
Laurel Graziano	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	I am writing to THANK you for taking up this agenda item. I encourage you to REJECT the previously selected map 8. SDUHSD's Map 8 is not the 'gentle rebalancing' directed by CVRA - it is a blatant attempt to solidify the influence of certain members of the board. As a property-owning constituent who has 3 school age children attending public schools (all 3 in SDUHSD next year), I do NOT agree with this map or the approach of these trustees. Map 8 reduces the voting strength of Latino neighbors in Solana Beach as well as other groups of interest. It makes no sense why the small town of Solana Beach is divided up into 3 pieces in map 8. Other changes also are non-sensical and only serve to benefit certain trustees, NOT THE STUDENTS. I support a reconsideration of a new trustee area map and am glad the County of San Diego has taken this issue up. Please provide a revised map for SDUHSD rather than allow map 8 to proceed. Those of us opposing map 8 and the negative influences of certain Trustees are not small in number; we are not ill informed, confused or tools of the teachers' union. We are supporters of our schools and of our students. A gerrymandered map is not the right choice! Many thanks!

Theresa Beauchamp	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	San Diego County of Education Board members: I am a 35 year resident of Encinitas and my husband and two sons are all San Dieguito Academy graduates. I am grateful for each of you and your service during this unprecedented challenging time for leaders in education. What a relief it was to hear that you will take over the redistricting process for SDUHSD. I was very involved in the redistricting process at the county and congressional level. I was impressed by the Independent Commissioners non partisan approach, patience and time invested in respectfully listening to constituents and willingness to make adjustments along the process to best honor communities of interest and California Voting Rights Act. The process and its transparency bolstered the results. I know not everyone was satisfied 100% but many compromises were made to satisfy the majority of constituents in the process. That is true democracy. I have found the SDUHSD redistricting process a polar opposite. Due to what feels like hyperpartisan political power tactics, I have lost faith that 3 of the SDUHSD board members care to honor our communities of interest or California Voting Rights Act. I respect each of you wholeheartedly and feel like the cavalry has arrived and have full confidence that you will do the gentle redistricting needed that maintains communities of interests, provides middle school and high school within same district as feeder elementary schools and protects the positions of SDUHSD board members who speak for our most marginalized students. Thank you.
Duncan Brown	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	My name is Duncan Brown and for almost two years, I've been the president of the San Dieguito Faculty Association. I have also been a resident within the San Dieguito boundary for 24 years and worked as a counselor in the district for the same length of time. My wife has been a teacher in the district for more than thirty years and we have proudly raised a daughter who went through our schools and graduated in 2018. On behalf of our district's teachers, my family and so many others who would have been adversely affected by Map 8, I sincerely thank the County Board of Education for stepping into the CRVA redistricting process. Our interests in our community and our district run deep. We are confident that SDCOE will prioritize the interests of all our students and families first, above all else. We appreciate that SDCOE has the experience and resources to ensure that the SDUHSD redistricting process is managed ethically and transparently. We trust that SDCOE understands the communities of interest, the importance of preserving the culture of neighborhoods, small cities and the five feeder elementary school districts that come to our 10 middle and high schools. I would further ask that you consider three additional points, 1) Preserve the voting rights as intended in CRVA process of Latino communities in Encinitas and Solana Beach, as well as the Asian community in Carmel Valley. 2) Minimize any disruption to our residents to retain their ability to vote in the same area and election cycle they are currently in. 3) Draw lines that place one high school and one middle school in each trustee area, if possible. On behalf of the teachers of SDUHSD and members of our community, I want to thank you again for taking an interest in our district and preserving the integrity of a fair and democratic process.

Michele Jaffee	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	Regretfully, I am unable to attend tonight's meeting. I wish to express my gratitude to the SDCOE's decision to take over management of the San Dieguito Union High School District's redistricting process. As a 26 year resident of Solana Beach and former teacher in the San Dieguito district, it was disheartening to see SDUHSD'S School Board choose to dismantle the current Cranberry Map, disregarding the detrimental impact to Solana Beach and it's historic community of La Colonia de Eden Gardens. Moving forward, I am heartened to know the SDCOE will utilize professional demographers. Ideally they will create a map that accommodates the small population changes that have occurred over the past 10 years and make minor, yet necessary changes to the Cranberry Map. Ideally our new map would retain each elementary school feeder districts and retain the current election cycle per trustee area. I believe it is important not to disenfranchise our Solana Beach citizens. Thank you for considering my concerns. With Appreciation, Michele Jaffee
Robin Sales	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	I am a 2038 year resident of this district and my two daughters are alumna of SDA and LCC. I strongly support SDCOE's involvement in overseeing the "gentle realignment" of the boundaries to assure the following: In addition to following the CVRA and FVRA best practices for rebalancing trustee voting areas after a Census, we ask that SDCOE prioritize (in this order) our community wishes: Preserve minority voting block power, specifically for the Latinx communities in Solana Beach and Encinitas, as well as the Asian community in Carmel Valley. Preserve the FIVE elementary school feeder district communities of interest (Cardiff, Del Mar, Encinitas, Rancho Santa Fe, Solana Beach) as best as possible. This priority received extensive feedback, and was a priority, in the adoption of the 2018 SDUHSD Cranberry Map and continues to be identified by community members as a priority in the current process. Use a "light touch" to adjust the established 2018 SDUHSD Cranberry Map. This process was successfully followed by the Encinitas City Council. Read about it here: https://www.sandiegouniontribune.com/communities/north-county/encinitas/story/2022-03-11/encinitas-council-selects-new-redistricting-map Respect incumbency of seated board members, if possible. Retain the current election cycle per trustee area to ensure voters are not disenfranchised. The current cycle has a 2022 election for Trustee areas 1, 3, and 5, and a 2024 election for Trustee areas 2 and 4. Draw lines to place one high school and one middle school in each trustee area, if possible. Thank you.

Sandy Gereaux	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	To the Board of the SDCOE: Thank you for allowing for community input into the process of identifying a map for our school district. And, thank you for acknowledging that this process should be to make adjustments to trustee areas, not the wholesale re-writing of boundaries. I am a resident of Carmel Valley for over 20+ years. While I recognize that Carmel Valley is the highest growth area within the district and changes will be required, if I could please ask that you consider a few items: 1- P lease respect the incumbency of our current Board member, as many of us worked hard to put her into this position. 2- O ur communities of interest include Torrey Pines, Torrey Hills and Pacific Highlands Ranch. If these areas could remain as a whole, I think it could minimize any negative effect of the re-districting. 3- A s you know, Carmel Valley has an overlay of two elementary school districts; that is, Del Mar Union & Solana Beach but please try to include one high school and one middle school within this trustee area. Again, thank you for your consideration.
Adele Josepho	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	Thank you for your concern about redistricting in SDUHSD and ensuring that the CRVA and FVRA will be honored. I have man concerns about what has happened in our district, but will stick to one point. I favor retaining District lines in this voting cycle for each trustee area to make sure voters are not disenfranchised, and to ensure that incumbency of seated board members is respected. This overarching principle provides integrity of communities of interest, preserves the feeder district system and preserves minority block power. Thank you for your attention. Adele Josepho, Voter, Taxpayer and proud mother of a SDUHSD grad (CVMS, CCA).
Teresa Dezazzo	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	Dear SDCOE - Thank you for doing the right thing and holding transparent public meetings on the SDUHSD flawed redistricting map. In this priority, please (1) preserve minority voting block power (Encinitas, Solana Beach & Carmel Valley); (2) preserve 5 elementary school feeder school district communities of interest; (3) use a light touch to adjust the 2018 map; (4) respect the incumbency of seated board members when possible; (5) retain the current election cycle per trustee; and (6) draw lines to place one high school and one middle school in each trustee area. I am an Encinitas resident, and my child attended LCC. I am profoundly shocked and saddened at the shenanigans going on with our school district. I am sorry I cannot speak to you in person today. I hope you take my comments to heart and protect our school district from gerrymandering. Thank you.

Timothy Stiven	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	My name is Timothy Stiven. I teach History and Humanities at Canyon Crest Academy. Today, I just got back from the County of Educations' Teacher of the Year workshop. I am honored to be representing San Dieguito Union High School District. This meeting however, is so much more important. I teach both ethics and civics in my after-school Humanities Conservatory. And here we are discussing both. In an age of growing cynicism in our youth, if not hopelessness of the future, why would we even consider letting our legacy be one of this much dysfunction? Is our legacy to be that future students around the world will Google "Gerrymandered Maps" and our Map 8 pops up? This dysfunction is either purposeful or an embarrassment. And this isn't politics, this is Civics 101. If we can't do 21st century public education right at the top, then we are of no help to those who look to us for advice. Fox News reported just today that SDUHSD has two high schools in the top 10 in the State. It would be impossible to maintain this level of excellence if this ethical malfeasance continues. So therefore I thank you for stepping into this process and showing students like mine that this isn't politics, its Civics 101 - Foundations of Democracy. This is just Ethics 201, An Introduction to Deontology. Thank you for your time.
Jim Graziano	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Oppose/Opone	I do NOT support map 8 as presented. I DO support the county reviewing and supplying a more reasonable map per CVRA guidelines.
Alyssa Sepinwall	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	Thank you for taking over the 2022 San Dieguito Union High School District (SDUHSD) CVRA Redistricting Process, so that we can follow the CVRA and FVRA and preserve voters' rights to elect their representatives. Along with others in my community, I ask you to prioritize (in this order) our community wishes: 1) Preserve minority voting block power, specifically for the Latinx communities in Solana Beach and Encinitas and the Asian communities in Carmel Valley. 2) Preserve the FIVE elementary school feeder district communities of interest (Cardiff, Del Mar, Encinitas, Rancho Santa Fe, Solana Beach) as best as possible. This priority received extensive feedback, was a priority in the adoption of the 2018 SDUHSD Cranberry Map, and it continues to be identified by community members as a priority in the current process. 3) Use a "light touch" to adjust the established 2018 SDUHSD Cranberry Map. This process was successfully followed by the Encinitas City Council. 4) Respect incumbency of seated board members, if possible. 5) Retain the current election cycle per trustee area to ensure voters are not disenfranchised. The current cycle has a 2022 election for Trustee areas 1, 3, and 5, and a 2024 election for Trustee areas 2 and 4. 6) Draw lines to place one high school and one middle school in each trustee area, if possible.

Robyne Ruterbusch	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	<p>Dear SDCOE Trustees: I have been a parent in the SDUHSD school district for seven years and am the spouse of a 30-year Navy veteran. Because of our military family's personal commitment and sacrifices for our representative democracy, I have taken a special interest in the 2022 SDUHSD CVRA redistricting process. Unfortunately, since November 2020, the Republican SDUHSD board majority under the leadership of President Maureen Muir has launched an all-out attack on our once cohesive school district. They have allowed ugly, divisive, and discriminatory national political wedge issues to be brought into our community at the expense of our students and teachers. I'm tired of it. Therefore, I first want to say THANK YOU to the SDCOE for stepping in to rescue our community from yet another attempt by this Republican board majority to politicize our schools. I know that SDCOE understands the importance of the democratic values we teach our children and has the experience and resources to ethically and transparently manage the development of a map that actually represents our constituency. Most importantly, SDCOE has my TRUST, which is something that the current SDUHSD Board has lost over the last year and a half. I have been watching the CVRA redistricting process closely and have been appalled at the lack of respect this board has shown toward the public. From the beginning, there has been little transparency, and they made it intentionally difficult for the public to participate by: Failing to well-advertise the CVRA process EARLY and in multiple languages (the first CVRA presentation was given at 11 PM at the end of a long Board meeting in January) Failing to provide professional interpretation services for non-native English speakers Failing to offer multiple community input meetings, with professional interpretation services, where we could ask the demographer questions and provide feedback Failing to provide demography software to help the public create our own maps Failing to provide a professional online feedback system, in multiple languages, that required clear identifying information of participants (address and phone) so that the public could trust the that source of submissions was an actual community member and not a compromised trustee (we still don't know the creator of Scenario 8) Failing to provide a professional online feedback system, in multiple languages, that automatically generated a time-stamped confirmation of submissions Failing to properly notice and run public hearings and meetings, as per Brown Act Now that the adults have stepped into the room, I would like to provide my specific feedback regarding the new SDUHSD trustee map I hope to see. In addition to following the CVRA and FVRA best practices for rebalancing trustee voting areas after a Census, I ask that SDCOE prioritize (in this order) my wishes: Protect minority voting blocks, especially the La Colonia De Eden Gardens and other Latinx communities in Solana Beach and Encinitas, as well as the Asian community in Carmel Valley. Preserve the elementary school feeder district Communities of Interest. Follow the intent of the CVRA process to only "adjust" boundaries of the 2018 Cranberry Map versus doing a complete redraw. Keep trustees in their current districts, if possible. Keep trustee area numbers the same as the Cranberry Map as to allow voters to vote in their expected rotations. Draw lines to place one high school and one middle school in each trustee area, if possible. Again, THANK YOU so much for making the difficult decision to take over the SDUHSD redistricting process. Not only has this map situation been extremely troubling from a representative democracy perspective, it has revealed that this Board under the leadership of Maureen Muir is completely failing in its fiduciary responsibility to taxpayers. We need the bleeding of money to stop and a restoration of ethical leadership. Please HELP!</p>

Trish Crowe	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	Esteemed Board Members, Thank you so much for helping our district find a redistricting solution that follows the spirit of the federal and state voting rights laws. I'm writing today to add my voice to the Equity in Education group's message. There are many important aspects of this redistricting, but I am just going to mention a few that take top priority with me. My own children went through the Encinitas and San Dieguito school systems, and now my grandchildren are doing the same. Our family has been and continues to be a long-time "shareholder" in the local school districts. I am now retired, but I taught school in the Encinitas Union School District for 38 years. I was a bilingual teacher at Ocean Knoll Elementary School. I feel it is important to preserve the minority voting block power within districts so that all people (especially our Hispanic and Asian groups) have a voice and are represented and heard. I also believe it is very important that we preserve the five elementary school feeder district communities of interest (Cardiff, Del Mar, Encinitas, Rancho Santa Fe, Solana Beach) as best as possible. Each feeder district has a unique cohesiveness and sense of community and pride. Let's not destroy or divide neighborhoods and communities. Goodness knows there's enough division going on in the world today. Thank you again for helping us with this very important task. Best regards, Trish Crowe 3255 Circa De Tierra Encinitas, CA. 92024
Raj Gupta	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	Please rectify the complete lack of input the San Dieguito Union High School District has provided to the citizens. Map 8 that this district has chosen does not fit the spirit of the regulations and is an obvious attempt at Gerrymandering to rig future elections.

Kathie Flynn Misselhorn	2a PUBLIC HEARING - Proposed Establishment/Rearrangement/Adjustment of Trustee Area Boundaries in the San Dieguito Union High School District by the San Diego County Board of Education Acting as the San Diego County Committee on School District Organization	Approve/A favor	I want to thank the SDCOE Board for providing an opportunity to express my thoughts about the redistricting process at SDUHSD. As a 20 year resident of Solana Beach, I was very concerned when Map 8 was approved by the SDUHSD Board in spite of the public objection and legal considerations. Solana Beach is 3.5 square miles and has 13,000 residents. The map that was approved would have divided Solana Beach into 3 trustee areas. I would like to ensure that a fair and equitable map would be drawn that would promote an inclusive culture for students and families. A best practice approach would try to preserve legitimate communities of interest for a school district, which include small cities and communities of color. I urge the SDCOE to listen to the community feedback and rebalance trustee voting areas to reflect an adjustment to the current boundaries rather than drastically rearrange them. The salient question is "What is in the best interest of the students and their families?" We have a world renown organization in San Diego called the National Conflict Resolution Center. Perhaps there would be an opportunity to consult with them to work with the SDUHSD Trustees as well as impacted communities in North County. This could be an important teachable moment for the students as well as for our communities. Thank you for providing a forum to discuss ideas in an open, respectful and civil manner. Kathie Flynn Misselhorn
