Writing a Goal Statement

- Reference learnings of Environmental Scan (Prouds-Possibilities-Must Haves/Must Address), Stakeholder Engagement Report, Internal and External Stakeholder Surveys, Superintendent State of the District Report, and Stakeholder knowledge and expertise.
- Discussion:
 - What do you know about the topic area?
 - What improvement is needed in this area?
- Write a goal statement beginning with the phrase, “We will_____.”
- Write the goal on worksheet and type into Form Link.

Examples: Student Achievement

- Maximize academic achievement in a personalized learning environment resulting in all students graduating “choice” ready.
- Establish a teaching and learning framework that includes 21st Century skills, a personalized plan of progress for each student, and rigorous and relevant curriculum at all levels.
- Increase the academic achievement of all students through effective instruction, a challenging and engaging curriculum, and aligned assessments.
- Achieve the goals of the World’s Best Workforce for all students in the school district.

Objectives

- Relevant, directly support the goal, compel action
- Specific—quantify and measure the results
- Simple, easy to understand, realistic, and attainable
- Think of objectives as “enabling goals”
- May need several objectives to meet a goal
