Learn	Engage
Internet use and security	Microsoft Office Specialist (MOS) certification
Social media for business growth	Professional visual aids
Public speaking and oral presentation technique	Resume development and job applications

### Choose 1 of the following

Business and Marketing Essentials (060111) - Grades 8-10	Ethical Leadership (Dual Credit - LEAD 200) - Grades 11-12
Learn & Engage	Learn & Engage
Human Resources management	Manage internal and external business relationships to foster positive interactions
Use of information-technology tools	Fortune 50 Company - Innovation experience
Kings Island Marketing Day	Historical leadership site visits

### App Development @ Launch

The App Development program allows students to complete projects of their own design and interest, while performing the type of work they can expect in an app development workplace.

The listed courses are taught together during a 2period block at Launch @ 20 Grand.

### Courses

### AP Computer Science Principles (110711) - Grades 11-12

Learn	Engage
Characteristics of the Internet	Creation of computational artifacts
Cybersecurity concerns	Correct programming
Beneficial and harmful effects of computing	Development of algorithms
Computing in economic and social contexts	Models and simulations
Managing navigation and workflows	Data persistence and table views

### App Development with Swift (110821) - Grades 11-12

Learn	Engage
Documenting and building in Xcode	App Development with Swift certification
Strings, functions, structures, collections, and loops	Designing and prototyping iOS apps
Saving, sharing, and collaborating on design	ARKit and UIKit frameworks
Table-based interfaces	Object-oriented and protocol-oriented programming

### College & Career Options

- App Developer
- Computer Science
- Computer Information
  Technology
- Data Scientist
- Cybersecurity

# Business Analytics @Launch

The Business Analytics Flight Path provides students the opportunity to gain realworld experience in a new and growing business major and career. Students will work on solving data-centered business problems using project based learning.

The curriculum focuses on economics and applied mathematical skills, to analyze the global economy.

The Business Analytics Flight Path emphasizes the ability to formulate insightful questions using real and relevant data to interpret and improve decision making.

### College & Career Options

- Data Scientist, With An **Emphasis On Computer** Science
- Data Scientist, With An Emphasis On Analysis
- Quantitative Analyst/Modeler
- Data Business Analyst •
- Business Analyst Manager Or Consultant
- Market Research Analyst

### Courses

#### AP Economics: Macro (450605) -AP Economics: Micro (450606) -**Grades 11-12** Grades 11-12 Learn & Engage Learn & Engage Principles of an economic system as a whole Compare the roles of consumers and producers in the product labor and financial markets and the Economic performance measures economy as a whole Financial sector, stabilization policies, economic Principles of economics that apply to the functions growth, and international economics of individual economic decision-makers Operation of product and factor markets, Study of national income and price-level determination distributions of income, market failure Using graphs, charts and data to analyze, describe Role of government in promoting greater efficiency and explain economic concepts and equity in the economy

#### AP Research Project (230171) - Grades 11-12 Engage Deeply explore an academic topic, problem or issue Design, plan, and conduct a year-long research based investigation to address a research question of individual interest Understand research methods and employing Explore skill development, document process and ethical research practices curate artifacts in the development of scholarly work

Use productivity software	Professional resume	
Use information ethically	Data analysis	
Operating system basics	Presentations	
Identify the societal impact of technology	MOS Certification	
Fundamentals of Social Media Marketing (081310) - Grades 11-12		
Learn	Engage	
Use digital tools to collect, organize and share info	Social media business consultation project	
Compose social media strategies	Analysis of influencer and Reality TV market	
Entrepreneurial Mindset (Dual Credit - ENTP 201 ) - Grades 11-12	Ethical Leadership (Dual Credit - LEAD 200) - Grades 11-12	
Learn & Engage	Learn & Engage	
Small business partnership collaboration	Manage internal & external business relationships to foster positive interactions	
Industry and University site visits	Fortune 50 Company - Innovation experience	
Conceive, create and develop entrepreneurial concepts	Historical leadership site visits	

### Early Childhood Education

The Early Childhood Education pathway will address a skill set necessary to teach students ranging in age from infancy through eight years (grade three) depending on the school system and regulations.

This pathway is targeted for individuals preparing for careers related to early childhood education.

Students could also be eligible for Kentucky's Tech-Ready Apprenticeship program. Apprentices earn wages through on-the-job training at a child care center before, during, and/ or after school hours. Apprentices transition into a full-time position after graduation.

### College & Careers Options

- Early Childhood Educator
- Psychologist
- Nanny
- Pediatrician
- Midwife

### Courses

#### Early Lifespan Development (200223) - Grades 9-11

Learn	Engage
Describe human growth and development	HHS preschool program
Compare and contrast prenatal development	Real care baby simulation
Identify factors that promote growth in children	Flowerpots/Families project
Identify health and safety issues for children	Children's book project

### Childhood Development Services I (200261) - Grades 10-12

Learn	Engage
Explore philosophies of child development theorists.	HHS Preschool Program
Explain procedures for caring for a child under different circumstances	Work experience at local preschools/daycares
Identify records and tools for assessing child development	First Aid/CPR training
Analyze a daily schedule for children in group care.	Industry certifications

### Childhood Development Services II (200262) - Grades 11-12

Learn	Engage
Identify legal requirements of opening a childcare center	HHS Preschool Program
Explore effective communication with parents and guardians	Work experience at local preschools/daycares
Identify community resources available to use at a child care facility	Write age appropriate lesson plans

### FACS Essentials OR Co-op Early Childhood Education (Choose 1)

FACS Essentials (20113)	Co-op: Early Childhood Education (20021)
HHS Preschool Program	Receive work experience
Food Labs - Individual items and meals	Integrate classroom studies with work experience
Interior design space planning project	Exposure to facilities and equiptment

# Engineering & Technology Design

Courses

Engineering I (210221) - Grades 8-12

The Engineering and Technology Design program is designed for students interested in the various disciplines of engineering.

The sequence of courses will provide students with the opportunity to develop critical thinking skills and understanding of engineering concepts. Students then apply these skills in conjunction the engineering design process to solve realworld problems. It includes instruction in two dimensional and/or three dimensional engineering design software, solid modeling and engineering animation to solve real-world problems.

### College & Career Options

- Post secondary studies
- Engineers
- Architects
- Cad designers

#### Learn and Engage Learn and Engage Sketch and build projects Learn about the design process Perform modeling and create prototype Authentic projects with CAD Basic CAD functions Design and test with Dragster and Bridges

### Engineering II (210222) OR Architecture Design (210140) - Grades 9-12

Learn and Engage	Learn and Engage
Apply the design process	Earn Auto Desk Inventor certification
Create models and prototypes	CNC milling
Develop understanding of 2D and 3D CAD	Laser engraving

### Architecture Design (210140) OR Dual Credit NKU CAD I (EGT 212) -Grades 10-12

Learn and Engage	Learn and Engage
Earn Auto Desk Inventor certification	Earn Auto Desk Certification

Engineering Capstone (UC Dual Credit ) - Grades 11-12	

### or Engineering Co-op (210330) - Grades 12

Learn and Engage	Learn and Engage
Apply the design process involving problems	Work in teams to solve problems
Demonstrate competencies in 2D and 3D	Produce- CNC, milling, 3D, laser engraving
Internship (2103	331) - Grade 12
Internship (2103 Learn and Engage	331) - Grade 12 Learn and Engage

Produce- CNC, milling, 3D, laser engraving

Develop 2D and 3D drawings

### Entrepreneurship @Launch

The Entrepreneurship Flight Path helps students examine the essential roles of entrepreneurs in the global economy.

This Flight Path studies entrepreneurs, managers, and the enterprises that create a process of value creation. Students will be exposed to for profit, not for profit and corporate business structures to evaluate innovative business concepts.

### Courses

### Introduction to Management (060411) Grades 11-12

Learn	Engage
Different Styles of Management	Advertising consultation
Foster positive relationships with customers	Social Entrepreneurship - Shark Tank
Business and its contributions to society	

### Entrepreneurial Mindset (Dual Credit - ENTP 201) - Grades 11-12

Learn	Engage
View entrepreneurship as a value- creation process with ideation and opportunity recognition	Small business partnership collaboration
Conceive, create and develop entrepreneurial concepts	University and industry site visits
Analyze and critically evaluate the potential of new business concepts	

### College & Career Options

- Innovation and Entrepreneurial Studies
- General Business
- Project Manager
- Marketing
- Public Relations

### Ethical Leadership (Dual Credit - LEAD 200) - Grades 11-12

es	Learn	Engage
	Foundational knowledge of business ethics, laws & regulations	Fortune 50 company experience
	Manage internal & external business relationships to foster positive interactions	Business ethics analysis using TV show "The Office"
	Use critical-thinking skills to determine best options/ outcomes	Historical leadership site visits.

# Fashion & Interior Design

The Fashion and Interior Design pathway will address a skill set necessary for success in the fashion industry as well as a career in the residential housing and furnishings industry.

Fashion and Interior Design I counts as an Arts & Humanities credit. In addition to the courses listed, students may also complete a course in Fashion and Interior Design III (200826) in grade 11 or 12. In this advanced grading scale course, students complete projects in Marketing & Merchandising, and Recycling/Repurposing/ Reusing, and Fast Fashion.

#### College & Career Options

- Apparel/Textile Design
- Interiors: Planning, Strategy, and Design
- Retail Buyer
- Fashion Marketing

### Courses

FACS Essentials (200113) - Grades 8-10	
Learn	Engage
Peer and adolescent behavior	HHS Preschool program
Balancing work and family demands	Food Labs - Individual items and meals
Design elements and principles	Interior design space planning project

### Fashion and Interior Design I (200821) - Grades 9-12

Engage

Learn
Fashion throughout the world and cultures
Fashion history
Fashion and interior sketching
Fashion designing and fashion capital

Designing for "A Client" Sewing projects - minimum 2 Space planning project Quilt project

### Fashion and Interior Design II (200825) - Grades 10-12

Learning	Engage
Client based budgeting and choice	Student selected sewing projects
Serger and embroidery machine use	Designing a furniture line
Fiber and fabric characteristics	Textile projects - dyeing fabric and fiber burn tests
Pattern layouts and cuts	Bluebird Embroidery - student run business

### Internship: Fashion and Interior Design (200801) - Grades 11-12

Learn	Engage
Career awareness and career choices	Work experience related to career
Integrated classroom studies	Employability potential
Exposure to industry facilities and equipment	Planning and operating Bluebird Embroidery

### Health Innovation @Launch

The Health Innovations program is a collaboration between Highlands High School and Northern Kentucky University. It is designed to assist students toward a career in health studies.

Students who take part in this Flight Path would be working to develop skills that would open the door to hundreds of careers in the healthcare industry.

This Flight Path is appropriate for students interested in any healthcare field. Requires school counselor approval.

### College & Career Options

- Health Care
- Doctor of Medicine
- Nursing
- Emergency Medical Tech
- Dentistry
- Pharmacology
- Healthcare Administration

### Courses

### Intro to Health Professions (Dual Credit - HSC 101) - Grades 11-12

Learn	Engage
Healthcare delivery systems	Interactive field trips
Roles of healthcare practitioners	Visits to NKU Health Innovation Center
Communication, safety, and professinoalism	Clinical, radiology, cadaver, and CPR training labs for hand on experience
Healthcare trends	

### Safety and First Aid (Dual Credit - HEA 135) - Grades 11-12

### Health Professions Investigation (170111) - Grades 11-12

Engage

offices

#### Learn

College career paths for chosen field

Exposure to various healthcare professions

### Internships available at private offices

Shadowing healthcare professionals at hospitals and

Industry certification in Allied Health

# **Computer Information Support & Services**

The Information and Support Services pathway focuses on the design and maintenance of computing systems.

Courses associated with this pathway include Digital Literacy, Help Desk Operations, Computer Hardware and Software Maintenance, and Information Technology Internship.

At Highlands High School this includes students helping to maintain the district's 1:1 initiative. Students could become an Apple Certified Macintosh Technician (ACMT).

### College and Career Options

- Apple technician
- At Home Advisor •
- Help Desk Support •
- Cybersecurity
- **Computer Information Systems**

### Courses

### Digital Literacy / Computer Tech 1 (060112) - Grades 9-12

Learn	Engage
Use productivity software	Professional resume
Use information ethically	Data analysis
Operating system basics	Presentations
Identify the societal impact of technology	MOS certification

Help Desk Operations (110102) - Grades 10-12		
Learn	Engage	
Identify common support problems	ACMT certification	
Demonstrate professional communication	Real time technical support	
Methodically problem solve	Device repair management methods	
Use support and reporting tools	Help desk ticketing systems	

### Computer Hardware and Software Maintenance (110101) - Grades 11-12

Learn	Engage
Identify common basic diagnostic procedures	Device component replacements
Apply troubleshooting process and diagnoses	Upgrades of operating systems
Communication skills and professional behaviors	Communication
Utilize command line tasks	Beta testing applications and macOS

### Information Technology Internship (110919) - Grades 11-12

Learn	Engage
Demonstrate and practice safe work habits	Authentic hands-on experience
Gain career awareness and test opportunity	Career related workspace and equipment
Receive work experience related to career interest	Classroom and workplace integration

# Management & Entrepreneurship

The Management and Entrepreneurship Pathway generally prepares individuals to plan, organize, direct and control the functions and processes of a firm or organization.

The Pathway includes instruction in management theory, human resources management and behavior, accounting and other quantitative methods purchasing and logistics, organizations and production, marketing, and business decision-making.

\*Some of these courses take place at Launch. Please consult with your School Counselor if interested in this Pathway.

### College & Career Options

### **Media Arts**

Courses

Intro to Filmmaking/Broadcasting (480901) - Grades 9-12

In Cinematography and Video Production, students will be prepared to communicate dramatic information, ideas, modes and feelings through the making and producing of videos and cinematographic expression.

The pathway includes the theory of video, video technology and equipment operation, video production, video directing, video editing, cinematographic art, video and audio technique, and multimedia production.

### Media programming/ organization staff

College & Career Options

- Producer
- Director
- Media programming/ organization manager

Learn	Engage
History of filmmaking and broadcast	Industry standard software
Audience identification	Filmmaking equipment
Elements and principles of design	Pitch and presentation of film and broadcasting
Production process	News production

### News Broadcasting I (480911) - Grades 10-12

Learn	Engage
Project leadership and collaborative skills	Monthly news program
Hosting and ad lib announcing	Video announcements
Evaluation and critique of media arts	Directing and producing media programs
Framing and compositions	Recorded and edited spots

### Advanced Filmmaking (480910) - Grades 10-12

Learn	Engage
Lighting technique	Genre based scriptwriting
Sound capture and editing	Documentaries
Scripting, creating, and applying storyboards	Trailers and short films
Camera placement and operation	Adobe product certifications

### Video Production (480912) - Grades 11-12

### Learn Proposals and preproduction planning Camera, lighting, and sound principles Advanced postproduction processes

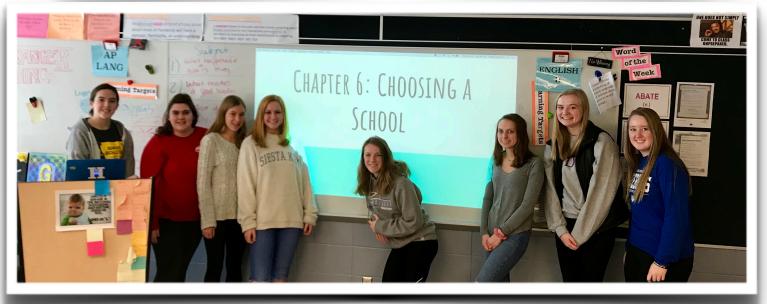

Engage

Community and school based video projects

Direct client interactions

Advanced graphics and special effects

### Teaching & Learning

The Teaching and Learning Pathway focuses on the general theory and practice of learning and teaching, the basic principles of educational psychology, the art of teaching, the planning and administration of educational activities, school safety and health issues, and the social foundations of education. Through a wonderful partnership with Northern Kentucky University's School-Based Scholars Program, students in this pathway have the opportunity to earn twelve (12) total hours of college dual credit coursework that transfer to the Teacher Education Program. These courses involve a hybrid approach of in-class and online course offerings.

The purpose the pathway is to empower students with the knowledge, dispositions, and skills to be effective educators in a variety of disciplines and grade levels. Cooperative experience, internships, shadowing, and mentoring opportunities provide depth and breadth of learning in the instructional program, and allow students to directly apply concepts

College & Career Options

- Teacher
- School Counselor
- School Psychologist
- Educational Consultant
- Professor

### Courses

### Orientation to Education (Dual Credit - EDU 104) / Introduction to Education (Dual Credit -EDU 305) Grades 11-12

Learn	Engage
Explore the education profession	Field experience
KY teacher standards	Educational career exploration
Contemporary educational theory	
Human Growth and Development (Dual Credit - EDU 300) - Grades 11-12	Racism & Sexism in Edu. Institutions (Dual Credit - EDU 316) - Grade 12
