

Verbal Questioning with CPS

Open CPS

Make sure you are in the Engage Tab

Click the Engage Button

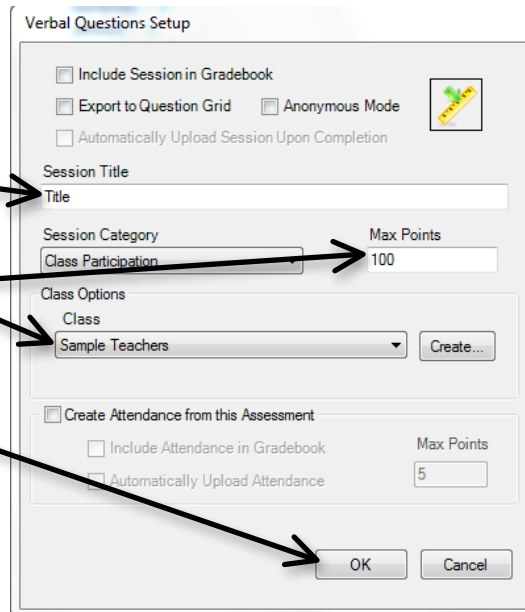

The following box will pop up:

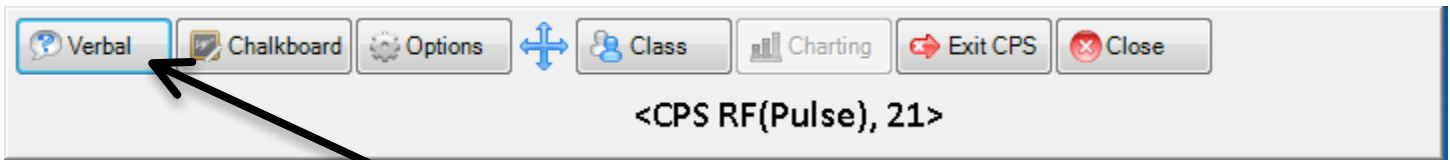

You may leave the title as **Verbal** or give the session a name.

You may also change points and class.

When it is like you want – click OK

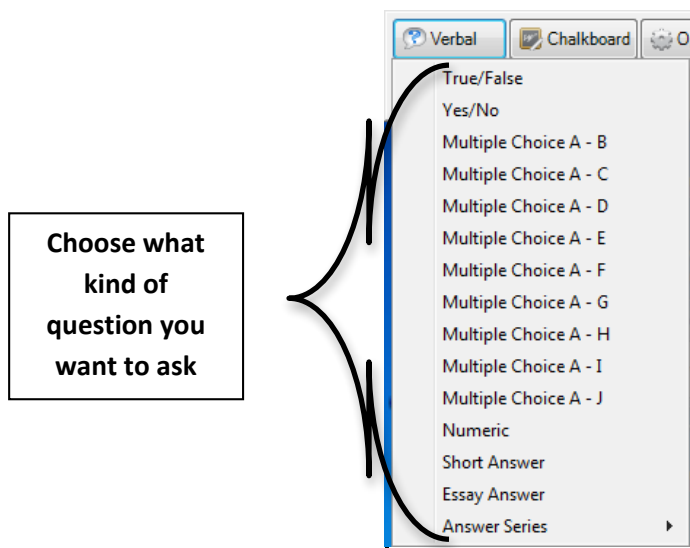

The following box will pop up:

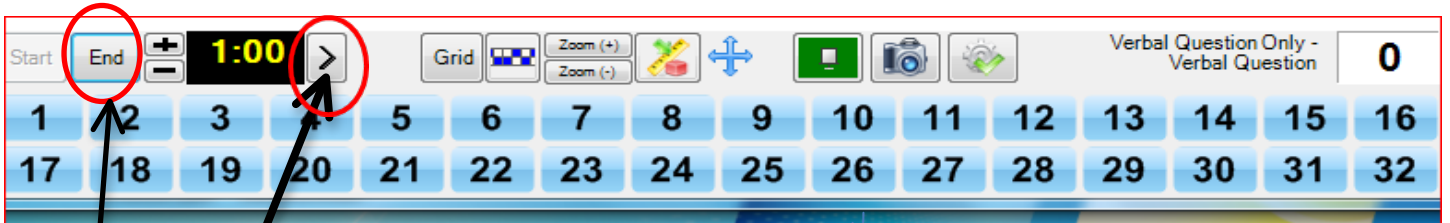

When you are ready to ask a question, click Verbal

This box will appear:

This bar will then be displayed:

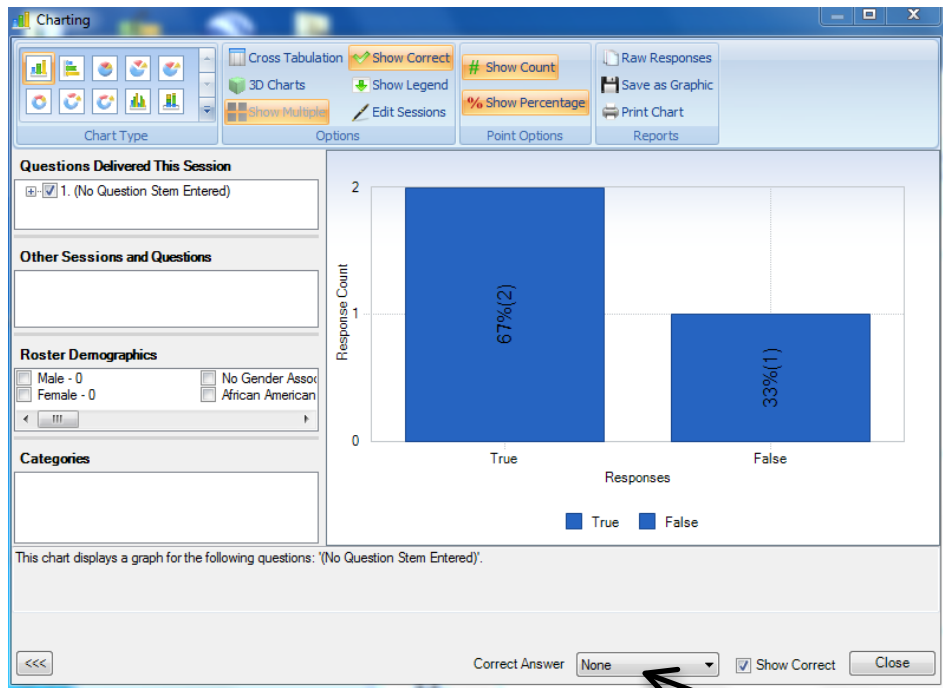

Click the play button

You may pause the timer at any time. The clickers will still register with it paused.

When all students have answered, click end.

A chart will then pop up showing how the students answered:

If you want to grade the session, click the drop down menu and select the correct answer:

After you close the window a new menu will appear:

Cumulative % Correct	Question % Correct
33	67

Pressing start will activate the same question type. If you want to change question type click on one of the buttons.

It will keep a running score of the class average and the average of the last question.

When you are completely done with this session click the red X in the bottom left corner. This box will appear again:

<CPS RF(Pulse), 21>

Click the CLOSE button and it will take you back to the CPS main page where you can run a report or close the program.
