Note: Not every item highlighted in yellow is an error. For example any class that isn't required to be reported in the TSDL, like TEC and Career Center courses will appear on the report. Because these classes don't have a state course code.

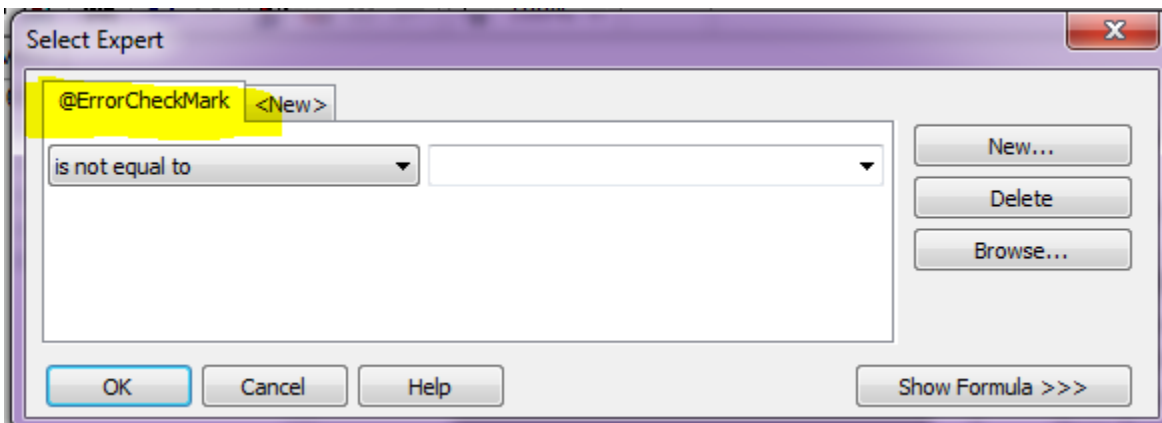

To filter the report so only possible issues and errors are on the report go the error column and right click on the Error Checkbox

Next Click on the hand with three circles

Verify the Error Check Mark field is in the tab, select from the drop down option "is not equal to" leave the next field blank and click on OK button. The report will now display only records with possible errors
