

April 7, 2022

Dear Cannon Parents:

We are thankful to be concluding another successful year of safe, efficient, and reliable transportation for our families. And while successful, the school year has not been without its challenges -- from my own health issues, COVID protocols, fuel price increases, and what seems to be a perpetual shortage of qualified bus drivers, we have had to adapt and be flexible with our operations this year. I am thankful for the great team of drivers that we have at Cannon, and I appreciate the patience and flexibility on the part of our families.

As we look ahead, I want to remind our families about the investments we have made and continue to make in our fleet – new buses brought into the fleet each year with three-point safety harnesses on all buses. We take pride and the utmost care in taking care of and maintaining our fleet, which in turn translates to a safe vehicle for our passengers.

As you prepare to enroll in our transportation service for the 2022-23 school year, please keep in mind that we require all families, both those who have utilized our service in the current and/or previous years and those who have not, to submit the Bus Transportation Agreement for 2022-2023 if bus service is desired. **Please note that we will not automatically roll-forward your enrollment from the current year to next year - you must opt-in to transportation services.**

If you have any questions concerning routes or stops, please contact me at 704-920-7203 or by emailing me at dwyke@cannonschool.org.

We look forward to serving your transportation needs again next year.

Sincerely,

Danny Wyke
Director of Transportation
