

SBA Practice & Training Tests

Students can use training tests at home to become familiar with the navigation and functionality of the Smarter Balanced Assessment (SBA). Follow these steps to access practice tests.

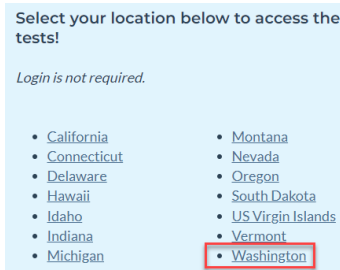

1. smarterbalanced.org/
2. Select **Our System** and pull down to **Supports for Students and Families**.

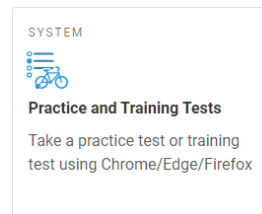

3. Scroll down to **Learn More: Practice Tests**.

4. Scroll down and select **Washington**.

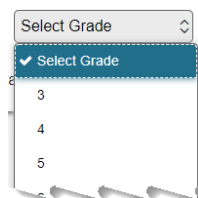

5. Scroll down and select **Practice and Training Tests***.

6. Leave **Guest User** and **Guest Session** toggle on and select  at the bottom of the screen.

7. Select a grade-level.

8. Multiple Practice and Training Tests are available to select. Once you have selected a test, you will see a screen with **Universal Tools**. These tools are available to ALL students during testing. The **Designated Supports** and **Embedded Accommodations** are need-based. Your student's teacher(s) would be able to provide more information if your student has used these during instruction and qualifies for these supports.

**Training Tests are designed for students in grades 3rd-5th; whereas Practice Tests are grade specific.*
