PTO Help Wanted

NOTE FROM PTO TO ALL PARENTS---PTO NEEDS YOUR HELP!!!!

PTO is in need of parent involvement. If more parents do not become involved, our Liberty-Curtin PTO will not be able to continue supplying our students with the fun activities that we provide each year (field trips, Christmas store, LC Laps, popcorn sales, any classroom needs, new playground equipment, end of the year celebration/carnival, etc). There will be a selection of new officers that will need to be filled. Please join us at our next PTO Meeting on Wednesday, March 9th @ 6:00PM.

OUR NATION'S HISTORY

The Pony Express debuted on April 3, 1860 when a rider left St. Joseph, Missouri with mail destined for Sacramento, California. Previously, mail had to travel from the East to the Golden State by slow stagecoaches, or by boat all the way around South America. But by swapping horses every 10 miles, changing riders every 100, and riding 24 hours a day, non-stop, the Pony Express could deliver the mail in just 10 days! The operation didn't last long – soon enough, the transcontinental telegraph could deliver short messages almost instantaneously, and larger mail could be transported cross-country by train.

Act 80 Day

No School

TIME TO BLOSSOM.

The flowers are coming out of hiding – and so should you! That resolution to exercise more that seemed so hard in the cold light of January is much more do-able as the weather warms!

EAT BETTER. PLAY HARDER. LIVE HEALTHIER. LEARN EASIER. WELLNESS IS A WAY OF LIFE!

Some vegetables are called "cold hardy." That means they can be harvested in the cool of winter in Florida or California. Or, in the colder states, they can be planted in early spring, up to 6 weeks before the last freeze. We've scrambled the names of some of these tough guys above. Unscramble them, then write the circled letters below and unscramble to name the cold hardy veggie that's pictured here!

BIG MOUTH

Hippos can open their mouths as much as four feet wide! They mainly just use that massive maw to graze on grass, and although they spend most of the day in the water, they are asleep much of that time and prefer to eat plants they find on dry land.
