Discussion Items

▪ **Financial Report**

Mr. Robinson discussed the changes in accounts beginning this fiscal year. As a result of changes in regulation, all monies collected as fees to be used as part of the instructional day are to be considered district activity funds. As a result, a significant amount of the school activity fund is being transferred to the district office to be managed as student expenditures. At present, the transfer of funds is being completed and as such a report was not available for the council other than a recap of instructional fund starting balance which was shared in March.

▪ **Preliminary AP Report**

Mr. Robinson shared the 2015 AP results. As a school we met our SIP goal by increasing the number of qualifying scores by 176 passing scores. The excellence and equity score indicating the % of graduates earning AP credit while at HHS decreased slightly from 62.2% to 60.3%, however the participation rate was the highest in school history while the overall pass rate also remained consistent with past years. Enrollment in AP classes has increased. A more detailed summary also provided to the Board of Education was submitted and is attached.

▪ **Preliminary ACT Report Classes of 2015 and 2016**

The preliminary Junior ACT report for the class of 2016 was presented to the council. The data was reported both in comparison to previous EPAS tests as well as in comparison to prior classes. The class of 2016 had the highest cumulative Junior score in HHS history increasing both their cumulative average as well as the percentage of students meeting benchmark in all four areas measured. The cumulative score for the class of 2016 is 24.1. The Graduating Class ACT was not yet available.

▪ Review of 2015-2016 SIP's and District Focus

The Council reviewed the 2015-2016 School Improvement Plan and District focus. These plans are important as they will help guide future decision making and prioritization.

▪ Dashboard of Indicators

Mr. Robinson discussed a list of indicators drafted to provide a measurement of school effectiveness. A copy was provided to council (attached). Mr. Robinson highlighted relative strengths (i.e. AP success, extra-curricular involvement) as well as areas of concern (reading performance).

▪ Summer Facility Update

Mr. Robinson and Mr. Schneider reported the projects from the summer. The Fieldhouse still has a few "punch list" items to complete but has been used since March. The field turf along with several stadium improvements were completed over the summer. The locker room is being used by the football team while the concession stand, training facility, and other areas are nearing completion. The gym is slated to be complete by September 1st. The lobby portion of the gym project does not reach substantial completion until the end of November. The final piece of the Highlands project to adjust the entrance to the circle is planned but not yet funded.
