

2022 Summer School Information

Dear Center School District Community,

For the Summer of 2022, the Center School District will offer a variety of options to students. **Elementary students** who are recommended by their 2021-2022 classroom teachers will receive in-person instruction during the month of June at Boone Elementary. Center School District Teachers will provide instruction for summer school students. Parents/Guardians of recommended elementary students will receive a letter from their child’s school principal. The **enrollment deadline will be April 29, 2022**.

Middle school students who did not pass all core content courses, and for **high school students** who need credit recovery due to failing one or more courses, in-person opportunities for support will be provided at Center High School. Secondary students will be engaged in learning through the online Launch platform. However, a Center School District teacher will be in the classroom to help aid and support the on-line instruction. Parents/Guardians of recommended secondary students will receive an email from their child’s counselor. The email will include a letter with a link to the enrollment form.

Extended School Year (ESY) will be offered to eligible students with an Individualized Education Plan (IEP) at Yellowjacket Early Learning Center, Boone Elementary, and Center High School (CMS students will attend ESY at CHS). Center Parents/Guardians of eligible students will be contacted directly by their IEP case manager regarding eligibility and services. The IEP case manager will provide a link to the enrollment form. The **enrollment deadline will be May 9th, 2022**.

Transportation will be available for all students and breakfast and lunch will be provided. Summer Transportation stops and schedules will be posted on the CSD website on or before June 1, 2022. COVID-19 health and safety processes and procedures will continue to be enforced and followed.

If you have questions regarding why your child was recommended to attend Center School District’s Summer School Program, please contact your child’s principal.

	Location	Date
