New Bleachers

Our new bleachers are UP! Our gym is one of our favorite Herron-Riverside spaces, from the historic naval art on the walls and the court to the many different ways it serves our teachers, scholars, and community as a space in which to gather.. We can't wait to see these bleachers filled with spectators at our next athletics event! A big thank you to Rusty Hughes, our Athletics Director and Facilities Coordinator, for his help and supervision.

Geometry Students Scale Project

Students in geometry have been learning about similar figures, scale factor, and proportions in images that are dilated. They culminated the unit with a project where they chose a college that they want to attend and traced the logo onto a small graph. Then, they used their knowledge of scale factors and proportions to create a dilated version of their logo, minimizing the extra white space on their larger graph paper.

ACP Biology Students "Make" Insulin

Students in Dr. Cruz's ACP Biology class acted as molecular scissors this week, using restriction enzymes to create a recombinant DNA plasmid. The goal was to create a plasmid containing the Insulin gene with antibiotic resistance to select the proper bacteria. Dr. Cruz said, "We hope to move on from paper models to transform real E. Coli bacteria!"

Indiana Junior Classical League State Convention

Mr. Kevin Harris, Benjamin Meyer, Maya Johnson, Amelie Soline (Herron-Riverside High School scholars) and Sophia Madrazo (Herron High School) attended the Indiana Junior Classical League (IJCL) State Convention last month. IJCL helps provide an avenue for our scholars who develop a passion for Latin and Classical cultures to dive even deeper into their education.

The National Junior Classical League is an organization of junior high and high school students, composed of local and state chapters made up of students of Latin and classical humanities, and is the largest classical organization in the world today. Its purpose is to encourage an interest in and an appreciation of the language, literature, and culture of ancient Greece and Rome and to give students some understanding of the debt of their own culture to that of classical antiquity.

The Herron Classical Schools chapter also received multiple awards:

- 2nd place overall in small school category; This means that all the awards we won as individuals and as a group added up to the 2nd most in the small school category.
- 2nd place in the Advanced level, state Certamen competition; this is an academic competition, like Quizbowl. The Advanced team was Benjamin, Maya and Sophia.
- Sophia won an Individual Academic Testing Achievement Award, meaning she was one of the top scorers overall in individual academic testing.
- Benjamin won an Individual Creative Arts Achievement Award and an Individual Graphic Arts Achievement Award, meaning he was one of the top scorers in both Creative Arts competitions and Graphic Arts competitions.

Congratulations, scholars!
