The 2022 National Autonomous Vehicle Expo aims at spreading awareness on the engineering, ethics, and policymaking of this emerging technology through speaker and workshop sessions as well as a hackathon. This is a great opportunity for students to not only learn about autonomous vehicles through speakers from industry-leading companies, such as Motional and Waymo, but also work on a small project of their choosing using the concepts that they've learned and their creativity. Students will also learn about various career paths in this growing field. The expo will be a 2-day virtual event held on Zoom from April 16th to 17th. Visit the website to learn more about this event (avexpo.org), the hackathon registration link (autonomous-vehicle-expo.devpost.com), and promotional flyer (avexpo.org/files/flyer.pdf).
