The South Whidbey School District (the "District") is pleased to be able to provide access to the Internet to students and staff. ACCEPTABLE INTERNET USE PROCEDURES AND GUIDELINES

1.0 Network

- 1.1 All use of the District's computer network (the "System") must be in support of education and research and consistent with the mission of the South Whidbey School District (the "District"). The District reserves the right to prioritize use and access to the System.
- 1.2 All use of the System must be in conformity to state and federal law, network provider policies and licenses and District policy. Use of another organization's network or computing resources must additionally comply with the rules appropriate for that network. Use of the System for commercial solicitation or other commercial purposes is prohibited. Use of the System for charitable purposes must be approved in advance by the Superintendent or designee.
- 1.3 The System constitutes public facilities and may not be used to support or oppose political candidates or ballot measures.
- 1.4 No use of the System shall serve to disrupt the operation of the System by others; System components including hardware or software shall not be destroyed, modified or abused in any way (including, without limitation, by the creation or uploading of viruses or other harmful code or intentional destruction of others' data).
- 1.5 Malicious use of the System to harass other users or gain unauthorized access to any computer or computing system and/or damage the components of a computer or computing system is prohibited.
- 1.6 Users are responsible for the appropriateness and content of material they store, transmit, or publish using the System. Abusive, libelous or defamatory statements, hate mail, harassment, discriminatory remarks, and other antisocial or illegal behaviors are prohibited.
- 1.7 Use of the System to access, store or distribute obscene or pornographic material is prohibited.
- 1.8 Connecting any hardware and/or cabling components to the System and/or entering site communications closets by anyone other than a network technician or other individual expressly authorized by the District is strictly prohibited.

2.0 Electronic Mail

- 2.1 Electronic mail ("e-mail") is intended to be used for educational and research purposes. E-mail messages sent or received for personal or other purposes are allowed and will be treated no differently from other messages. Consequently, e-mail should not be used for any information that the user desires to keep personal or private. Excessive use of the District's System for personal e-mail is not allowed.
- 2.2 Despite the password and other security provisions, e-mail is not necessarily secure, private, or confidential. For example, it is possible for any message sent by a user to be forwarded on to anyone else on the Internet, with or without the knowledge of the original sender. Even after an e-mail has been deleted, it can still be possible to retrieve it and read it. Therefore, users should avoid sending anything in e-mail that might cause harm to themselves or others if revealed to persons other than the intended recipient.
- 2.3 The security provisions of the e-mail system must be honored at all times. For example, one should not attempt to gain access to other people's messages and you should not share your password with others. Using the auto-login feature is not recommended.
- 2.4 Good judgment should always be employed in using e-mail. In addition to the general guidelines above, the following practices are specifically forbidden: Intentional impersonation and/or misrepresentation as to the identity of a sender or receiver of e-mail; modifying a message and forwarding without noting the changes (i.e. additions, deletions, modifications to the content, etc.); bypassing the user-security mechanisms of the e-mail system in a malicious manner (such as creating bogus accounts or "snooping" through mail addressed to other people); sending or forwarding "chain letters"; subscribing to listservs (unless specifically approved); and placing information on the e-mail system that would defame, or portray in a false light, the sender or recipient of an e-mail message.
- 2.5 Email messages are not kept on the mail server indefinitely (generally about 45 days). Messages you wish to keep should be saved to your hard drive or some other storage device or printed and filed.
- 2.6 Listservs should not be subscribed to without permission of the network administrator.
- 2.7 Under the Public Records Act (RCW 42.17) all e-mail as well as other documents on the district's System are subject to public disclosure.

3.0 Security

- 3.1 System accounts are to be used only by the authorized owner of the account for the authorized purpose. Users may not share their password with another person or leave an open file or session unattended or unsupervised. Account owners are ultimately responsible for all activity under their account.
- 3.2 Users shall not seek information on, obtain copies of, or modify files, other data, or passwords belonging to other users, or misrepresent other users on the System, or attempt to gain unauthorized access to the System or accounts.
- 3.3 If any user becomes aware of a security problem on the Internet, they should notify the System administrator and refrain from demonstrating the problem to other users.

4.0 Personal Security

- 4.1 Personal information such as addresses and telephone numbers should remain confidential when communicating through the System.
- 4.2 Students should not make appointments to meet people in person that they have contacted through the System without parental permission.
- 4.3 Users should notify the network administrator or other responsible adult whenever they come across information or messages that are dangerous, inappropriate or make them feel uncomfortable.

5.0 Copyright

- 5.1 The unauthorized installation, use, storage or distribution of copyrighted software/materials using the System or on District computers is prohibited.

6.0 General Use

- 6.1 Efforts must be made to conserve System resources. For example, users should frequently delete e-mail and unused files.
- 6.2 No person shall have access to the System without having received appropriate training. A signed User Informed Consent Form must be on file with the District. Students under the age of 18 must have the approval of a parent or guardian.
- 6.3 Nothing in these regulations is intended to preclude the supervised use of the System while under the direction of a teacher or other approved user acting in conformity with District policy and procedure.
- 6.4 From time to time, the District will make a determination on whether specific uses of the System are consistent with the regulations stated above. The District reserves the right to modify or revise these regulations at any time. Under prescribed circumstances non-student or staff use may be permitted, provided such individuals demonstrate that their use furthers the purpose and goals of the District. **For security and administrative purposes the District reserves the right for authorized personnel to review System use and file content, including, without limitation, the contents of e-mail messages.** The District reserves the right to remove a user account on the System to prevent unauthorized activity.

Violation of any of the conditions of use is cause for disciplinary action.
