Compiled by Ammie Marcum, Community Education Director

Presents Gulliver's Travels

Over 250 people were in attendance at the 14th annual Missoula Children's Theatre residency week performance on Friday, November 10, 2017. The audience was treated to an out-of-this world sci-fi adventure as Missoula Children's Theatre and more than 50 local students presented an original musical adaptation of Gulliver's Travels. MCT Tour Actor Steven

Thomas played the Invisible Force of Good, and the show was directed by MCT Tour Director Courtney Marks. The Missoula Children's Theatre residency in Clinton County was presented by Clinton County Community Education with support from Extended School Services. Thank you to Doris England, who served as accompanist for the week. And thanks so much to Grider Hill

Dock for providing housing for the tour team for the past fourteen years. We couldn't do it without you! If you missed the show, but would like to order a DVD of the performance, call Community Education Director Ammie Marcum at 387 – 3495, extension 1110. Cast group photos can be found on Page 16.

Donuts With Dads at ECC

Clinton County Early Childhood Center celebrated fathers and the letter "D" by hosting

a Donuts with Dads event on Thursday, November 2, 2017. Fathers of preschool

students were invited to share donuts with their children before school started.

Preschool Students Visit Dairy Queen

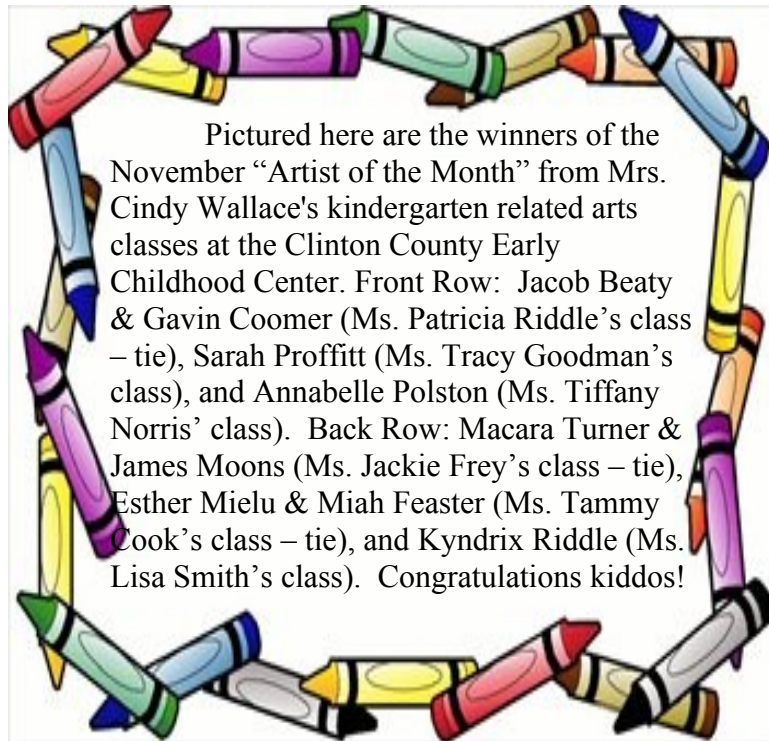

Preschool students at the Clinton County Early Childhood Center visited Dairy Queen on Wednesday, November 15, 2017 after

completing a unit about restaurants. All of the students enjoyed a kid's meal and ice cream. The Preschool students and staff would like to

thank Patrick and Lindsey Padron for inviting them to Dairy Queen!

ECC Artists of the Month

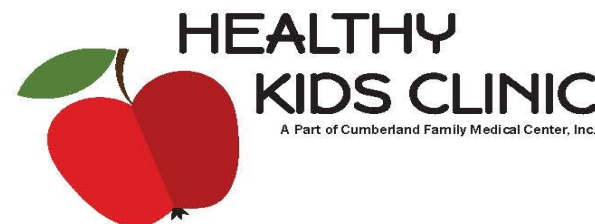

Pictured here are the winners of the November "Artist of the Month" from Mrs. Cindy Wallace's kindergarten related arts classes at the Clinton County Early Childhood Center. Front Row: Jacob Beaty & Gavin Coomer (Ms. Patricia Riddle's class – tie), Sarah Proffitt (Ms. Tracy Goodman's class), and Annabelle Polston (Ms. Tiffany Norris' class). Back Row: Macara Turner & James Moons (Ms. Jackie Frey's class – tie), Esther Mielu & Miah Feaster (Ms. Tammy Cook's class – tie), and Kyndrix Riddle (Ms. Lisa Smith's class). Congratulations kiddos!

New immunization requirements for Kentucky school children. *We can help!*

New immunization requirements for Kentucky school children are effective for the 2018–2019 school year. All children ages 18 months to 18 years of age must now get a two dose series of the Hepatitis A vaccine. All children ages 16 and older are required to have a meningitis vaccination, which is considered a booster dose from their 6th grade vaccinations.

We are pleased to provide these services. Immunizations will be done at your child's school nurses station by a licensed medical provider. If you have any questions, please check with your school nurse or call us at 1-844-435-0900.

Toll Free: (844) 435-0900 HealthyKidsClinics.com

Healthy Children. Healthy Schools.

Try Day Offers Honeydew and Yellow Tomato

Students at the Clinton County Early Childhood Center and Albany Elementary School have the opportunity to try new foods during lunch. The second "Try Day" of the

school year was on Tuesday, November 7, 2017 when the featured foods were honeydew and yellow tomato. Each nine-weeks, new foods will be offered for the students to try. This

program is a collaborative effort of Clinton County Schools Food Services and Healthy Hometown Project.

3rd Grade Recycling Projects

Students in Ms. Mindie Anderson's third grade class at Albany Elementary School recently created recycling projects after reading the story "Earth Smart." The story is about a green school in Ada, Michigan

that is always implementing ways to help the environment, such as using solar power, growing their own fruits and vegetables, and finding other uses for recyclable materials. Students in

Ms. Mindie's class created these projects and also discussed efforts that they could take at home and at school to be more conscious of the earth.

Fire Safety Day at AES

On Thursday, September 28, 2017, members of the Albany Fire Department, EMS, and Dispatch, as well as representatives from

Equity Group, presented a program on fire safety at Albany Elementary School. Equity Group provided each student with a booklet

about fire prevention and safety.

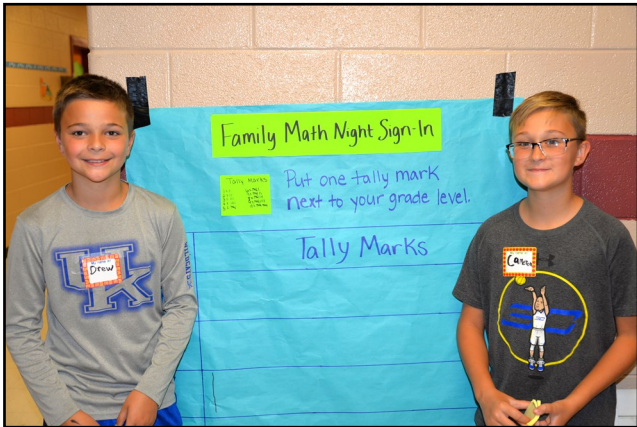

Family Math Night at AES

Family Math Night was held at Albany Elementary School on Thursday, October 26, 2017. Each grade level met in their classrooms and set up games. Six different grade level

games for students to play and take home were offered in each grade. Outside the classrooms, thirty 4th grade students volunteered to work at stations with math challenges, free materials,

and prize giveaways. These 4th grade students did an amazing job of setting up and working at their own stations!

Milk & Cookies at CCHS

CCHS hosted the kindergarten students from ECC for milk and cookies on Thursday, December 7, 2017. Annual staff students made photos of each student with Santa & Mrs. Claus. The students in Mr. Mike Beard's Humanities

classes made Christmas cards and ornaments for each kindergarten student. The students in Mrs. Kayla Mora's classes helped hand out the milk and cookies, and Mrs. Mora led the kindergarten students on a tour of the school to see all of the

decorated doors. Special thanks to Mr. Lucas Dalton & Mrs. Kathy Hunter for coordinating this event and for providing the milk and cookies.

Healthy Hometown Fitness Buddies

Clinton County Healthy Hometown is continuing the exciting “Fitness Buddies” program for students at Albany Elementary School this year. Eighth grade students from Clinton County Middle School are serving as “fitness buddies” for 3rd graders. During this

program, student volunteers from CCMS are visiting AES one day each week and working with AES students in the gym on fun, physical fitness activities. The goal of the program is to encourage students at both AES and CCMS to get up and get moving! Participants are

challenged to complete weekly nutrition and fitness goals, and are rewarded with small incentives along the way. Fitness Buddies participants were rewarded for their hard work with a trip to Sky Zone in Lexington on Friday, December 8, 2017.

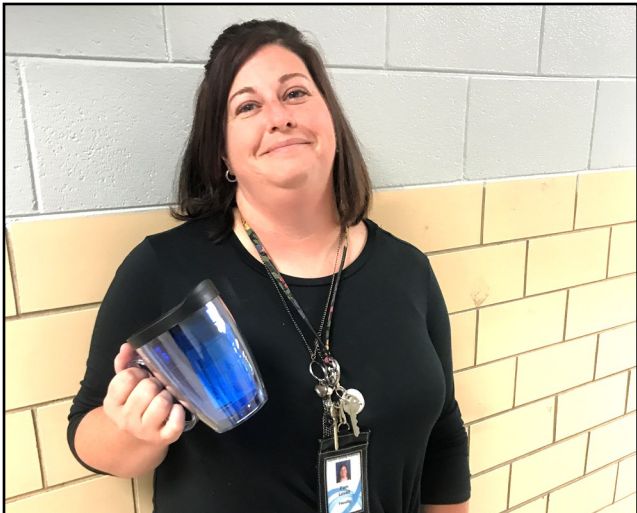

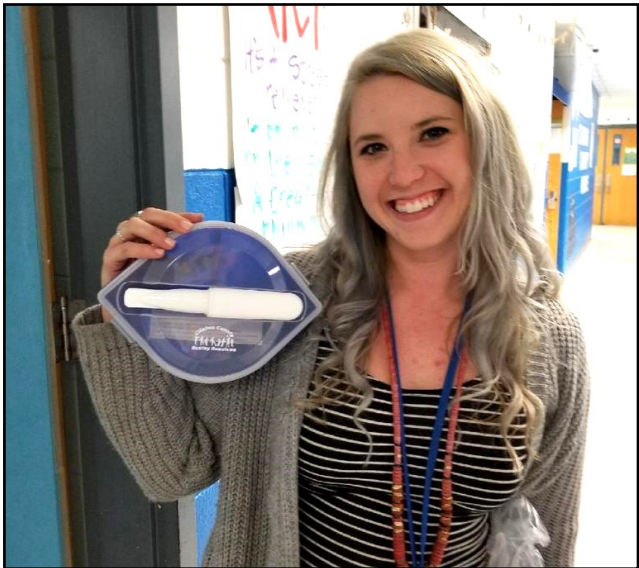

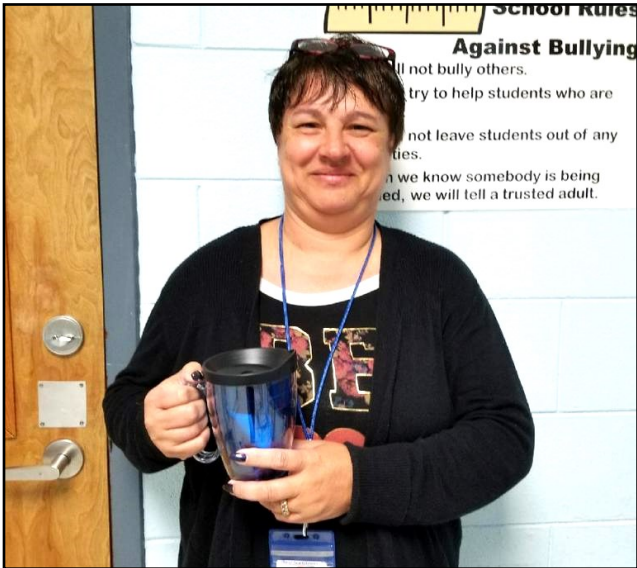

Be Active Club Rewards

Clinton County Healthy Hometown recently awarded prizes to faculty and staff Be

Active Club members for the second 9-weeks. Prizes included umbrellas, mugs, water bottles,

lunch containers, resistance bands, sports towels, and Bluetooth headbands.

Students Visit Speed Art Museum

On Friday, October 6, 2017, students in the Gifted & Talented program at Albany Elementary School were transported to the Speed Art Museum in Louisville, Kentucky. The Speed Art Museum is designed to inspire

curiosity, build visual literacy skills, inspire students to connect personally with art, and help students explore the way art relates to other subjects. Students visited several artworks during their guided tour and participated in

interactive gallery experiences that allowed them to explore the Speed's collection in fun and thought-provoking ways.

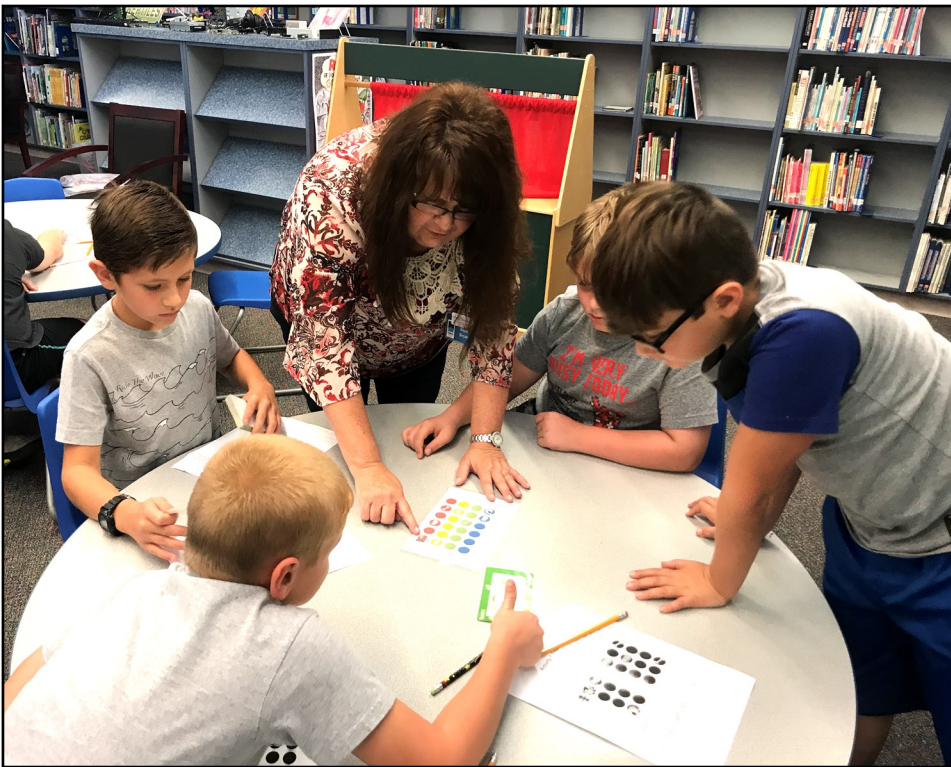

Challenger Program Visits AES & CCMS

On Thursday and Friday, September 28 and 29, 2017, Gifted & Talented students at Albany Elementary School and Clinton County Middle School were treated to an in-school Introduction to Engineering workshop provided by the staff from the Challenger Center. The program is intended to use short activities to

provide career based exposure on various engineering professions, along with engineering core concepts. AES 1st – 4th grade students learned about coding using a program called Tynker. CCMS 5th & 6th graders explored the world of robots, by building and battling their own battery-powered LEGO

robots. CCMS 7th & 8th grade students were introduced to logic and coding through scratch computer programming, learned about electrical engineering through a snap circuit lesson, and participated in an exciting virtual reality underwater experience.

Flipping Classes at CCMS

If I asked you to describe a typical classroom what would you say? Go ahead and think about it; I'll wait. The classroom you're probably imagining isn't as normal as you think. Over the past few years, the "normal" class has been "flipped" on its head and is putting more responsibility on students instead of teachers. Traditionally, your teacher will talk for a while then ask you to read, write, or do some other thing that helps you remember what they taught. This isn't what always happens in a flipped classroom. When a class is flipped, it means that the teacher adds videos, notes, edpuzzles, or whatever else students may need at the start of the lesson, identify the goals, then turn everyone loose to work at their own pace. At Clinton County Middle School, we have two teachers who have taken the idea of the flipped and are using it to fit their needs.

In seventh grade science, Ms. Erin Casada has been teaching her students how to examine problems, set goals, and discover ways to solve problems on their own. At first, things were hard but, as time went on, her students got used to the idea and were able to use the tools they had to solve problems on their own. She taught them to understand their learning targets and get to the resources they needed to learn their lessons. Sometimes, a topic or method that everyone had a hard time with would pop up.

When it happened, Ms. Erin would switch from "flipped" to "normal" lessons to help everyone at the same time. It took a little while but, eventually, everyone began to learn how to learn in Ms. Erin's class. There are still struggles every now and then but her and her students are learning how to get better with every lesson.

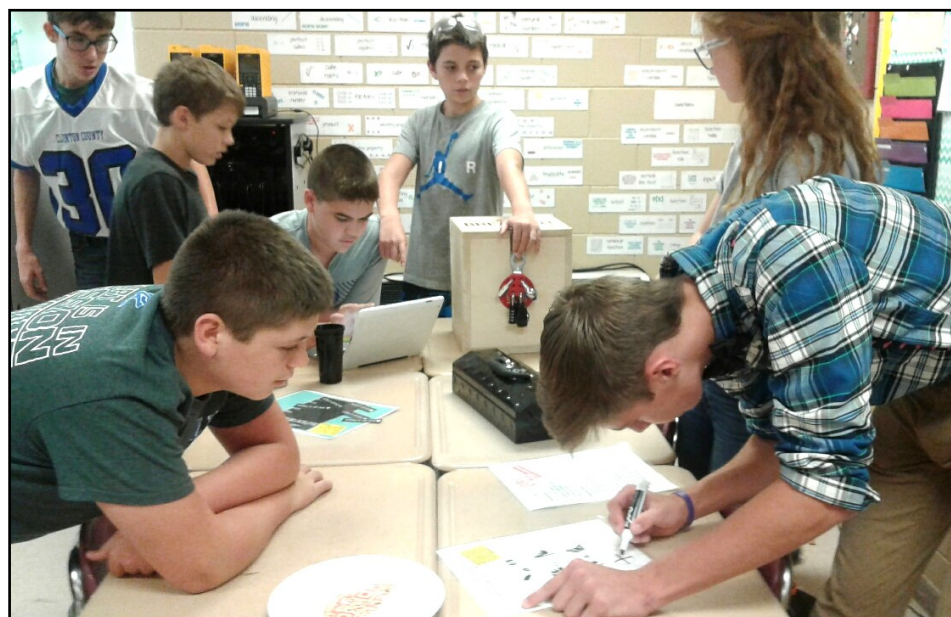

A little before Ms. Erin "flipped" her class, Ms. Reshea Fillingham was learning how to change her class. During her first few years of teaching, her classroom consisted of the students sitting and listening to her deliver a lesson with very little student interaction. When the middle school received the Chromebooks she took this as an opportunity to change the way she taught. She wanted her classroom to be more student-centered, where the students were actively learning the math lessons and where they could be more hands-on with the content. Her classroom is now comprised of math stations. Students rotate between the stations throughout the week to learn the content.

The first station is the Chromebook station. During this station, students watch videos of her teaching the lessons for the week on the website edpuzzle. Edpuzzle allows her to periodically stop the students to ask them questions to see if they understand. The software also allows her to see who has watched

the entire videos and to prevent students from fast forwarding through the lessons. In the second station, students complete a hands-on project or play a game with me what is being taught. She also uses this group to have more one-on-one time with students who may need the more examples or time with her.

The most valuable lesson that she wants the students to learn from her class is to take ownership for their learning and to be responsible for themselves. Like Ms. Erin, her classroom involves the students setting their own schedule and pace to getting tasks completed within a given deadline. She hope the students feel that math is a relaxing environment where they feel comfortable to take risks in their learning and to know that it is okay to not be successful every time they try something new. In Ms. Erin's classroom, students are using blocks to represent the distributive problem, playing equation race board games, making venn diagrams to classify numbers, playing battleship using the coordinate plane, and playing the escape game.

This article was co-authored by Reshea Fillingham and Donovan Hatfield

So...You Want to Be in Show Business?

Each year during the Missoula Children's Theatre residency week, the tour actor and director offer a variety of workshops that can be scheduled at the schools throughout

the week. On Tuesday, November 7, 2017, MCT Tour Team Courtney Marks and Steven Thomas conducted a workshop entitled *"So... You Want to Be in Show Business"* at Albany

Elementary School. This fun and interactive workshop helped students discover the world of show business, including the many jobs and careers that it takes to put on a show.

Bliss from Blessings

On Saturday, October 21, 2017, the "Keepin It Movin" Steve Ping organization hosted the second annual Bliss from Blessings event in Somerset, Kentucky. During the event, 1,000 new bicycles were given away to children in Pulaski, Wayne, Russell, Lincoln, Casey, and Clinton counties. The event is coordinated by David Bennett to honor the memory of Steve

Ping, founder of Cumberland Machinery Movers & Industrial Services, Inc. The goal of Bliss from Blessings is simply to create a blissful atmosphere to encourage our communities. Ninety four Clinton County children received new bicycles at the event. Participants were given golden vouchers and were accompanied by Kentucky State Troopers

to redeem them for bikes. The Clinton County School District, Sheriff's Department, and city & county government worked together to facilitate the participation of local children. Bus transportation was provided by the school district for families that needed it.

Gulliver's Travels

CAST

Above left, the Aliens of Blefuscu were played by Cade Ipock, Mikarah Mason, Layden Moss, Dannon Dalton, Allison Shepperd, Isabelle Upchurch, Owen Staton, Haven Stearns, & Alison Claborn. Above right, the Aliens of Lilliput were played by (front row) Sydney Lowhorn, Kaylah Boston, Jenson Johnson, & Bella Young and (back row) Noah Claborn, Esmerelda Pascual, Olivia Lee, & KayAlan Cross.

Above left, the Robots of Lapunta were played by (front row) Maggie Cross, Eli Melton, Loren Little, Ella Rose Smith, Chesney Harlan, & Jonna Upchurch and (back row) Aysha Sutton, Kellie Brown, Tatum Harlan, Kendall Hay, Mac Guffey, & Jasmine Brumley. Above right, Yahoos were played by (front row) Emily Sawyers, Camille Beaty, Saylor Hess, Madison Rigney, Luke Pyzik, & Kaylee Stearns and (middle row) Peyton Pyzik, Alyssa Rodriguez, Tessa Cross, Sadie Ipock, Corinne Beaty, & Landon Pittman. The Houyhnhnm Horses were played by (back row) McKenna Moons, Kendra Bertram, Moriah Moons, & Sadie Moons.

At left, the Giant King, Queen, and Princess of Brobdingnag were played by Autumn Langley, Katelyn Perez, and Ashton Daniels. The Giant Wasp was played by Lily Hickman. At right, Shelby Catron, Jase Sohm, Claire Guffey, & Emma Tompkins (front row) served as Assistant Directors. Hayden Garrett was Gulliver 1, Christian Derryberry was the Maniacal Scientist of Lapunta, Johnathan Richardson was JCN (Jason), and Evan Little was Gulliver 2.

“Deck the Halls” at CCHS

Faculty and students at Clinton County High school really did "Deck the Halls" this year. Up and down the halls at CCHS,

classroom doors are adorned with beautiful Christmas decorations. Several doors were decorated by the students in Mrs. Kathy

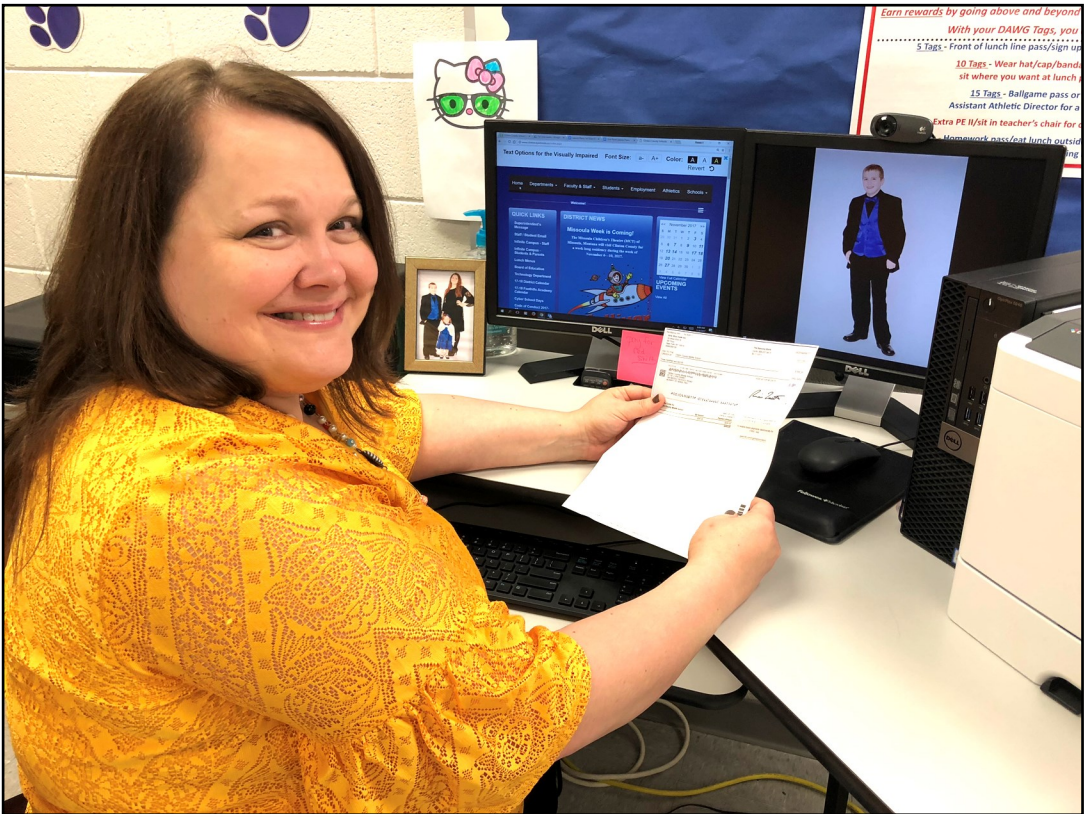

Hunter's classes and by Link Crew members, and many teachers decorated their own doors and hallways.

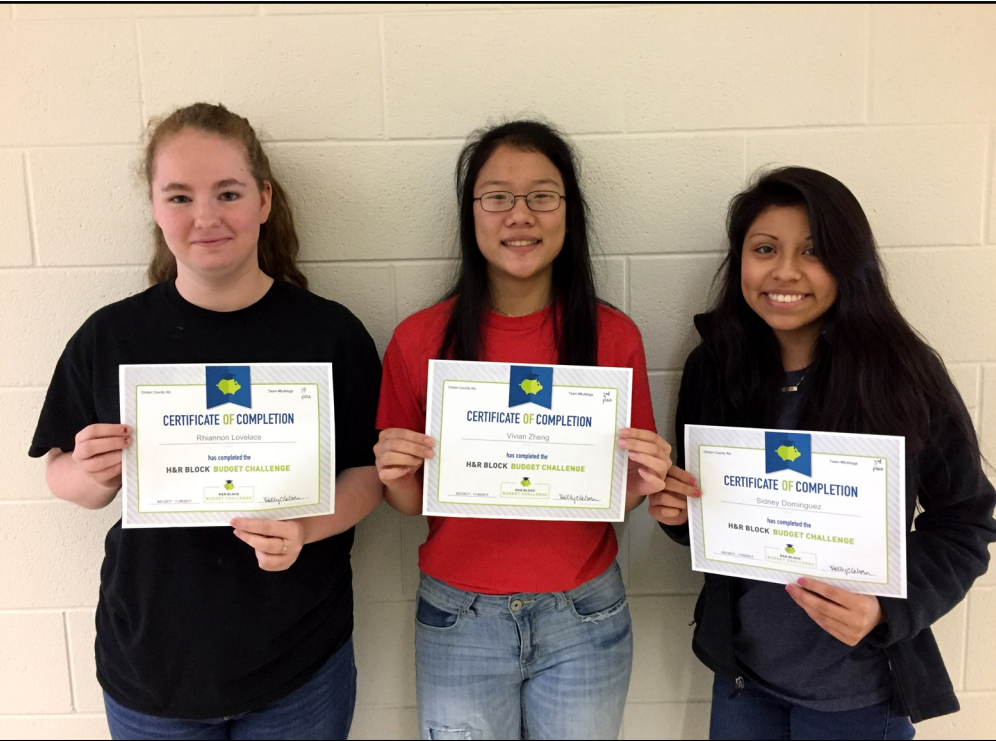

CCMS Receives Girls Who Code Grant

Clinton County Middle School Practical Living & Vocational Studies teacher Lora Grant recently received a \$300.00 grant from Girls Who Code. Girls Who Code started five years ago with the belief that computing skills are a critical path to security and prosperity in today's job market. It was founded with a

single mission – to close the gender gap in technology. The funds will be used locally for activities to increase the number of girls who participate in computer science. Mrs. Grant currently facilitates a Girls Who Code club after school on Thursdays as part of the 21st Century program.

H & R Block Budget Challenge Winners

Pictured here are the top three finishers in the H & R Block Budget Challenge for this semester at CCATC. Rhiannon Lovelace (left) was 1st place, Vivian Zheng (center) was 2nd place, and Sidney Dominguez (right) was 3rd place. The H& R Block Budget Challenge is a 9-week online simulation that

immerses students in real-world money management skills: Paying bills, managing expenses, saving money, investing in retirement and more. The challenge is used a supplemental teaching / learning tool in Ms. Holly Claborn's Financial Literacy class each semester.

New Breakfast & Lunch Options!

Clinton County Schools Food Service Director Paulette Brinley is pictured here with Alan Curtsinger of the Southeast United Dairy Association accepting a check in the amount of \$8,900.00 from Fuel Up to Play 60. Fuel Up to Play 60 addresses real-world circumstances of resource-strapped schools by offering funding opportunities to help schools make strides in meeting wellness goals. The program was launched in 2009 by the National Dairy Council (NDC) and the National Football League (NFL), in

collaboration with the U.S. Department of Agriculture (USDA). The funding will be used locally to purchase items to increase breakfast participation in the schools, including smoothie blenders, LED menu signs, and hot/cold bars. As a result of this funding, Clinton County School District Food Services is excited to introduce the new Hot / Cold Breakfast & Lunch Bar at CCHS! The hot / cold bar offers CCHS students a variety of “build your own” options for breakfast and lunch. Below is the breakfast bar & lunch bar schedule.

Breakfast Bar

Monday – Parfait Bar
Tuesday – Breakfast Burrito Bar
Wednesday – Waffle Bar
Thursday – Donut Bar
Friday – Pancake Bar

Lunch Bar

Monday – Potato Bar
Tuesday – Taco Bar
Wednesday – Sub Sandwich Bar
Thursday – Salad Bar
Friday – Fajita Bar

Asbury University Challenge Course

On Friday, October 13, 2017, Gifted & Talented students from Clinton County Middle School and Clinton County High School were transported to Asbury University Challenge

Course in Wilmore, Kentucky. The course is an experientially-based outdoor program focused on developing greater leadership, trust, communication, and initiative in teams. It is

designed to support personal skills development and self-confidence in an alternative setting.

History smArts Outreach Program

On Thursday, November 16, 2017, AES and CCMS students in the Gifted & Talented Program participated in the History smArts Outreach Program. During the sessions, students analyzed images from the Kentucky Historical Society's collection and artifacts from

their teaching collection. Students also participated in hands-on activities. First and second grade students made maps and constructed towns in their session on geography. Third and fourth grade students made clay pinch pots in their session on Native Americans. Fifth

and sixth grade students created campaign buttons and posters, and wrote speeches in their session on government. Seventh and eighth grade students did quill writing of bill proposals in their session on citizenship.

CCR Celebrations at CCHS

A College and Career Ready Halloween treat was awarded on October 31, 2017 at Clinton County High School to recognize students who are "spooktacular" and have attained the level college and career readiness as reflected in their ACT scores, Compass scores, or vocational studies exams. The fall College and Career Ready Luncheon was held on

Tuesday, November 21, 2017. The celebratory lunch was held at Eben-Ezer Mexican Restaurant. A Christmas Extravaganza was held on December 6, 2017 to honor the college and career ready students at CCHS. Students received lunch, decorated Christmas cookies, and listened to Christmas music. The students in Mrs. Kayla Mora's class made all the

decorations for the event. Santa Claus and one of his elves even made an appearance to hand out candy canes. These CCR celebrations are part of the recognition program at CCHS being held each month for students, honoring their dedication to becoming college and career ready. As more students become college ready they will join in the celebration.

Perfect Attendance Christmas Party

All students at CCHS who had perfect attendance during the month of November were invited to a Christmas party on Wednesday, December 6, 2017. Students enjoyed hot chocolate and decorating Christmas cookies.

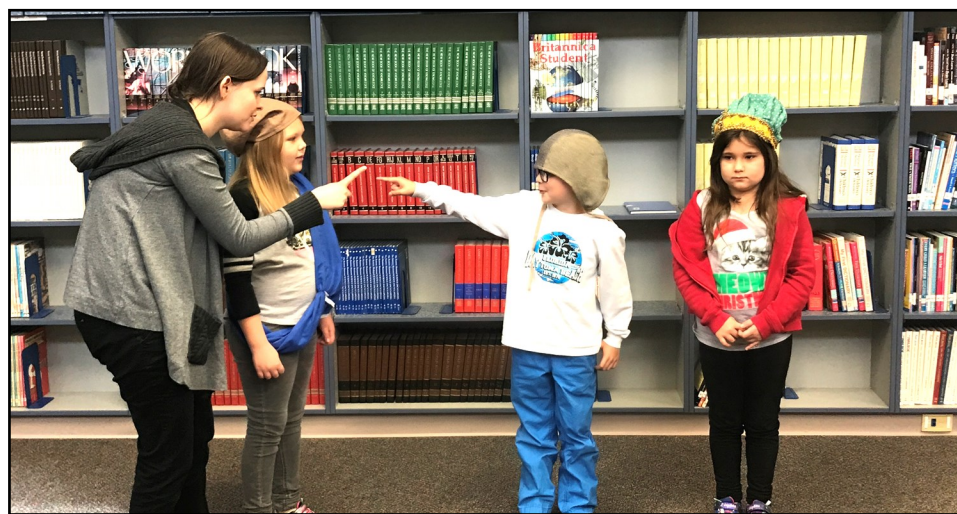

Kentucky Shakespeare Outreach Program

On Friday, December 8, 2017, Gifted & Talented students at AES, CCMS, and CCHS participated in workshops with Kentucky Shakespeare, a non-profit, professional theatre company. In the elementary session—Bard

Buddies—students performed the play *Twelfth Night* while exploring character, dialogue, and theme. In the middle and high school sessions — Boy Meets Girl Meets Shakespeare — Kentucky Shakespeare actors performed three

sections from *Twelfth Night*, *Hamlet*, and *Richard III*. The actors then discussed with the students the differences and similarities between the comedy, tragedy, and history in content, structure, relationships, and theme.

The Thanks-Giving Tree

The Link Crew members at CCHS helped to create a Thanks-Giving Tree to celebrate the season of giving thanks. All 9th grade students received a leaf, so that they could

write down what they were thankful for and place the leaves around the tree. The idea "branched out" to other students in the high school who wanted to participate as well and let

everyone know why they were thankful. Many students at CCHS stopped by the tree to read the leaves and to admire the hard work of the students who created the Thanks-Giving Tree.

Popsicle Stick Barns

The students in Mr. Ben Prewitt's Agriculture Structures and Design classes at Clinton County High School built barns out of Popsicle sticks!

Operation Christmas Child

The Health Occupations Students of America (HOSA) at the Clinton County Area Technology Center, along with their Instructors / Advisors Billie Frye, RN and Ashley King, RN, collected items for Operation Christmas Child. The donated items brought in

by the students included school supplies, personal hygiene items, and toys. The students collected enough supplies to fill nineteen Operation Christmas Child boxes. The boxes will be sent to needy children all over the world. A special thank you goes out to all the students

and their families who took the time to purchase and prepare the items, and donate money to help with the shipping cost. Thanks also to Cave Springs Baptist Church who took the donated boxes to the appropriate location.

Ye Olde History Club Field Trip

The CCHS History Club attended the annual Madrigal Dinner at the University of the Cumberlands on December 1, 2017. During the

event, guests feasted on seven-course meal, while watching Renaissance-costumed choir members perform skits and sing musical

numbers. The CCHS History Club sponsor is Mrs. Pam Lovell.

GEAR UP Corvette Plant & WKU Tour

On Tuesday, October 3, 2017, GEAR UP hosted a job site visit at the Corvette Plant and campus tour of Western Kentucky University in Bowling Green, Kentucky. CCHS students were selected for the trip based on their college and career surveys. Participants learned about the various jobs offered at

the Corvette Plant, levels of education needed for each position, skills or experience required, job requirements, and many other details about the plant. Students also toured the WKU campus where they learned about the programs offered, tuition costs, housing options, and recreation.

Front Row: Molly Cecil, Abigail Tallent, Jaden Mullins, Cheyanne Davis, Tucker Hickman, & Madison Craig. **Middle Row:** Hunter Pittman, Phillip Roberts, Abigail Flowers, Victoria White, Paige Hicks, Gavin Melton, Corey Latham, Lance Gibson, Chase Gibson, Conlan Beck, Emily Shelton, Kendra Cross, Kaylee Latham, Hailey Cole, & Madelyn Herald. **Back Row:** Dakota Miller, Noah Roeper, Devon Martin, Brennan England, Andrew Thrasher, Brianna Sparks, Victoria Honeycutt, Samantha Cross, Sally Johnson, Caleb Marlow, Hunter Burchett, Tyler Smith, James Smith, Alex Morrison, & Camren Staton.

Ornament Decorating Event

GEAR UP hosted an after school ornament decorating event on Tuesday,

December 5, 2017, for all freshmen students at CCHS and their parents. Information about

KEES money was also distributed to all who attended.

CCATC Students Tour TTAI

On September 27, 2017, the Industrial Maintenance students from Clinton County ATC participated in an industry tour of Toyotetsu America Inc. (TTAI). Students and Instructor Jerry Bell toured the facility that manufactures numerous body components for the Toyota Camry assembled in Georgetown. The tour was a collaboration between TTAI representative Richard Snowden and Clinton County ATC Industrial Maintenance Instructor

Jerry Bell. The purpose of the tour was to educate the students about the various career opportunities related to their career pathway studies at the ATC. Mr. Snowden and others led the group on an informative and exciting tour of TTAI, allowing students to see stamping operations, die maintenance, robotic welding, shipping / receiving, quality control, and “just in time” production techniques - just to name a few. Mr. Snowden also took time to promote

the KY FAME program and discuss the recent success of former Clinton County ATC student Daniel Duvall, as he participates in the KY FAME program. Clinton County ATC would like to thank Toyotetsu America Inc. for its hospitality and looks forward to a strong partnership with them and our school.

CCATC Students Tour Toyota

On November 3, 2017, 35 students from Clinton County ATC Automotive program had the opportunity to attend a tour of the Georgetown, KY Toyota Manufacturing Facility. Tours run through the week only, lasting up to an hour, and are free! The Georgetown Toyota Plant is America's first and world's largest Toyota Facility of the Camry Avalon and Lexus ES350. Students watched state of the art computer controlled production of the Toyota Camry, one of the 2,000 cars

made each day. Students were also given an opportunity to see the many different job options available there. All in all, 35 students went and 35 students had a very enjoyable time. The trip was not only enjoyable, but very informative. We got to see how much work goes into each and every Toyota Camry that's on the road today.

Kameron Stockton
Senior Automotive Student*

Students Visit UK Cadaver Lab

On Thursday, November 9, 2017, Clinton County Area Technology Center's Health Science students visited the University of Kentucky's Cadaver Lab. The Cadaver lab is located in UK's Outreach Center in Med Center Annex 5. The Outreach Center is designed to enhance the knowledge and learning of Human Anatomy and Physiology as well as to encourage students to study science. The lab

gives students the opportunity to actually see, feel, and hold human organs and various body parts. It allows the students to fully understand the anatomy of the organ and how it functions. Each of the students who attended received one-on-one time with Dr. Frasier and his assistant, Miss Stevens, tour coordinator. Dr. Frasier is a retired and well known physiologist who conducts presentations weekly with students

across the state on his own time. This field trip was a rare and unique opportunity that most will never get to experience. Mrs. Billie Frye, Mrs. Ashley King, and their students would like to thank the UK Outreach Center for their time. They encourage all health science related programs to attend. There is no better learning than hands on!

Air Evac Lifeteam Lands at CCATC

Air Evac Lifeteam visited Clinton County Area Technology Center and shared career opportunities with Health Science students. With plans to become a flight nurse, Clinton County High School senior Abbiegale Lowhorn got the chance to meet with the team, see inside the helicopter, and experience

firsthand what it would be like to be a part of the medical crew. Several other students who are planning to pursue a career in the medical / health field showed interest as well. The three-member team made up of pilot, paramedic, and flight nurse landed their helicopter behind the new Clinton County Area Technology Center as

the students watched. Clinton County ATC currently offers Pre-Nursing, Pharmacy Technician, and Phlebotomy Technician Career Pathways. Health Science teachers Mrs. Ashley King and Mrs. Billie Frye, were excited about this opportunity for the students to see the helicopter and hear about this important work.

FBLA Fall Field Trip

On Thursday, October 26, 2017, 38 members of the Clinton County Area Technology Center FBLA Chapter traveled to Louisville, KY, for a visit to Breakout Games and a campus tour of the University of Louisville. While at Breakout, members worked in teams to follow clues and solve puzzles to escape a room before the clock ran out.

Members then enjoyed lunch at the U of L student activities center before embarking on a tour of the beautiful campus. The 90-minute walking tour was led by current U of L students and featured student life, recreation, campus housing, and scholarship and athletic opportunities available at U of L.

Students Attend iBELIEVE Summit

A group of fifteen students in 9th and 10th grades from CCHS attended the iBELIEVE Leadership Summit at Eastern Kentucky University on November 28, 2017. The iBELIEVE Foundation strives to provide opportunities to Appalachian youth for the

development of 21st Century Skills such as leadership, communication, and problem solving. Leadership summits are designed to build on a foundation of experiential learning concepts. Students connect with leaders from different schools to discover, build and

strengthen the skills necessary to effective leadership. This year, the program focused on lessons about goal setting to develop a growth mindset. The trip was coordinated through the local GEAR UP program.

Reaching for Rainbows Fishing Derby

The 10th Annual Reaching for Rainbows Fishing Derby for students in Clinton and Russell Counties was held on Thursday, September 28, 2017 at Wolf Creek National Fish Hatchery. Students look forward to this trip every year and enjoy fishing for trout in the

hatchery creek during the annual event. Lunch was provided and all participants received a free t-shirt and medallion. Each participant also received a prize, courtesy of Russell and Clinton County Soil and Water Conservation Districts, as well as donations received from the Friends

of Wolf Creek National Fish Hatchery. CCHS student Codey Robertson also received a special prize for his sportsmanship. Each time Codey caught a fish, he gave it away to another student. Congratulations Codey!
