Maintenance and Operations Levy

Pro & Con Committee

Action Required by April 30, 2022

The District is going to be presenting a levy proposition to the voters in August 2022 for approval of a renewal of its operating support during the next four years. King County prepares a Voter's Pamphlet for that election, which will describe and discuss all matters on the August ballot.

The District will prepare an explanatory statement that describes the proposed levy. The Voter's Pamphlet also may include statements made by members of the public in favor of and opposed to the levy.

To prepare the pro and con statements, the District's Board of Directors shall appoint a pro committee and a con committee.

If you are interested in being a member of either committee, please contact the District at 360-677-2623 no later than April 30, 2022.
