## **RACE - ETHNICITY DATA COLLECTION**

Recently, the federal government expanded the categories for student ethnicity and race data. Because of these changes, we need to ask you to identify your child as Hispanic/Latino or not Hispanic/Latino and by one or more racial groups.

Washington state now has 222 racial categories to choose from. If one parent identifies with one race and the other parent with another, you will be able to check both races for your child.

#### Question 1: Is your child of Hispanic or Latino origin? (Please check ALL that apply)

## The Purpose of the Home Language Survey

The Home Language Survey is given to **all** students enrolling in Washington schools. The following information should help answer some of the questions you may have about this form.

#### What is the purpose of the Home Language Survey?

The primary purpose of the Home Language Survey is to help identify students who may qualify for support to help them develop the English language skills necessary for success in the classroom and who may qualify for other services. It is important that this information be correctly recorded since it can affect the eligibility of students for services they need to be successful in school. Testing may be necessary to determine whether or not additional language and academic supports are needed. No student will be placed in an English language development program based solely on responses to this form.

### Why do you ask about the student's first language and language(s) used in the home?

The two questions about the student's language help us to determine:

- if your student may be eligible for assistance with learning English, and
- whether staff at the school should be aware of other languages being used by the student at home.

The language your child first learned may be different from the language your child uses for communication at home now. The responses to both of these questions will assist the school in providing **instruction appropriate to the individual student's needs as well as help with communication needs that** may arise. Students who first learned a language other than English may qualify for additional supports. Even students who speak English well may still need support in developing the language skills needed to be successful in school.

#### Why do you ask where the student was born?

This information helps the school district and the state determine if the student meets the definition of immigrant for the purposes of federal funding. This applies even when **the student's parents are both US** citizens, but the student was born outside of the United States. This form is not used to identify students who may be undocumented.

#### Why do you ask about my student's previous education?

Information about a student's education will help ensure that the student's education both within and outside of the United States is considered in any recommendations made for participation in programs and district services. The student's educational background is also important information to help determine if the student is making adequate progress toward state standards based on their prior educational background.

Thank you for providing the information needed on the Home Language Survey. Contact your school district if you have further questions about this form or about services available at your child's school.

# **Immunization Record Requirements**

July 1, 2020

Dear Parent or Guardian,

Starting August 1, 2020, all immunization records turned in to schools or child care centers are required by state law to be medically verified. Immunization records must be turned into the school on or before the first day of attendance. This means immunization records turned in to the school must be from a health care provider, or you must attach paperwork from a health care provider to your handwritten form that shows your child's records are accurate. Your child cannot attend school until you provide these records.

Here are some examples of medically verified immunization records:

- A completed <u>Certificate of Immunization Status (CIS)</u> signed by a health care provider. Find the CIS form by visiting <u>https://www.doh.wa.gov/SCCI</u> and clicking on "Certificate of Immunization Status."
- A CIS filled out by you or another parent/guardian with medical records attached.
- A CIS printed by a health care provider or school from the Washington State Immunization Information System.
- A CIS printed from <u>MyIR</u> which is a free Department of Health online tool that allows families to view and print their official immunization records themselves. Go to <u>https://wa.myir.net/register</u> to begin the sign-up process.

If you are requesting an exemption from one or more of the immunization requirements, you must provide the school a completed Certificate of Exemption.

If your child already meets immunization requirements and has records on file with the school, you do not need to do anything. If you aren't sure, or if you have any questions, please contact [Insert contact name and information].
