CEO Board Report – March 2022 Meeting

Pandemic Response Update

Expectation: Share information about implementation of pandemic precautions and their impacts on the school year.

As of March 21st, the number new COVID-19 cases per 100,000 residents in Adams County over a 7-day period was 25 (down from 1,100 two months ago and 90 one month ago). The 7-day average positivity rate is 3.2% (down from 27% two months ago and 5.4% one month ago).

Positive cases and family close contacts among students and staff have declined considerably along with rates across Adams County. The number of students and staff members out has improved considerably.

We are still feeling optimistic about finishing the school year strong without further interruption, while also recognizing that school staff are still exhausted from an incredibly challenging first six months of the school year. As per updated guidance from CDPHE and Tri-County, the Health Clinic Team is shifting to a model of routine disease prevention rather than emergency pandemic response. This primarily affects clinic practices and shouldn't feel like a particularly noticeable change to families over the last two months of the school year.

Strategic Initiatives Update

Expectation: Share information about ongoing implementation of initiatives in support of The Academy 5-year Strategic Plan.

No new updates this month.

The Journey Starts Here...

Legislative Updates (10 minutes)

Expectation: COO to update committee on current status of legislative session and potential impacts. Review status of 22/23 budget scenarios.

The majority of our time was spent reviewing the process of budget scenario planning for 22/23. This includes reviewing the impact of our new salary schedule and raises alongside the total of our budget requests ahead of next year. These were then collated into scenarios using PPR, enrollment and MLE as the varying factors. As the session moves along, we will be sure to update the plans to be as clear as possible ahead of our usual budget approval.

The following links and resources were re-shared alongside discussion of anticipated timeline and current tone. At this time, there is a positive outlook to PPR with no predictions believing there will be any less than 5% support. Potential MLE support was reviewed on 3/18/22 with a decision expected very soon.

Futures Committee (10 minutes)

Expectation: COO to outline where long term planning conversations lie and gain input. The committee was informed of some of the initial conversations that have occurred since the start of this year. The most important message was that any future decisions will be made in collaboration with the Board and other relevant committees. Questions were raised about how to balance future funding between new, external projects and internal improvements as recommended by our CDE school report. We will dig into this a little deeper next month.

Self-Evaluation (5 minutes)

Expectation: Finance Committee members have the opportunity to provide feedback to COO to improve the processes and meeting efficiency moving forward. Committee rated at 4 (efficient meeting, meets expectations)

Next Meeting: 14 April, 2022
