

SCHOOL DEPARTMENT GOALS AND OBJECTIVES

Following an 18-Month Improvement Planning cycle and in response to stakeholder voice in the School District's Community Dialogues, improvement targets (or objectives) continue to change. The most recent improvement targets can be found on the School Department website. The School Department's Long Term Goals, however, remain static and are found below:

Goal 1: Provide world-class teaching and learning to ensure that each student is prepared to thrive in all spheres of living.

Goal 2: Ensure a welcoming and inclusive learning environment that guarantees the safety of all school community members, fosters meaningful relationship building, and promotes the physical, social, and emotional well-being of all.

Goal 3: Develop, in each student, the skills for engaged citizenship (locally and globally), the insight and appreciation of one's own and other's cultures, and the disposition to use individual talents to make positive changes in the world.

Goal 4: Foster and maintain a positive partnership with the Scarborough Community by responsibly managing school resources, utilizing available community and business resources, and communicating progress on school improvement efforts credibly, accurately, and regularly.
