

2022 Iron Range Summer Institute Camps

Hosted by the following schools:
Chisholm, Ely, Hibbing, Mesabi East,
Mt. Iron-Buhl and St. Louis County Schools

Transportation to and from home based
school. Lunch will be provided.

Free to all current 5th-12th graders in
these districts.

Registration must be completed by
May 10, 2022.

**Camp space is limited to numbers of
students allowed per camp. Registration
priority will be given to those registering
first. *Registration is subject to change.*

Robot Antics!

Grades 5 & 6

June 13 - 17, 2022

14 student limit

Connie Bryant, Cherry School - Room 136

Introducing Dot, Dash, and Cue! These fun, animated robots will introduce students into the world of coding. Coding is programming the computer to carry out our instructions. Coding prepares students for careers in the STEM fields. (Science, Technology, Engineering, and Mathematics). Students will work with a variety of coding programs which will allow them to gain a basic understanding of reading and writing code. Students will write code using Scratch and Turtle Academy. Students will build and code robots with Lego Mindstorms and Lego Spike. Students will participate in collaborative problem solving requiring computational thinking and creative communication. These are skills essential for the careers of tomorrow!

Parents: Students will need a working email to use during the camp. They will need to access this email with their password.

Sewing for Super Awesome Kids

Grades 5-8

10 student limit

Camp Session #1: June 13 - 17, 2022

Camp Session #2: July 11 - 15, 2022

Erin Cox, South Ridge School, Band room 405.

This machine sewing class is for beginners and those that have sewn in the past. We will be making several projects to take home, such as heating pads, mittens, key chains, pillows and a small quilt. Sewing machines provided (6) but bring your own if you like. All supplies are included.

Registration Link

<https://forms.gle/nCSkJ161TH6JrgyT7>

Cake Wars and So Much More

July 25th-July 29th, 2022

Grades 5-8

20 student limit

Stacey Jaspersen, Mesabi East High School FACS room 296. Students will enter by the swimming pool doors(door 22).

Students will learn how to make cake pops, learn cake decorating skills, and compete against their peers for a cake wars competition. Students will also learn basic hand sewing skills and make a mini monster of their choice. Students will take home baked goods every day.

This class is for incoming 5th through 8th grade students.

When registering please list any food allergies.

Rockhounding

Grades 5-12

30 student limit

June 6, 7, 8, 2022

Angela Koski & Lindsey Stachovich, Cherry Town Hall, 9831 Highway 37, Iron, MN.

Join us as we learn about rocks that are unique to our area. Day 1 will include learning how to be successful "rockhounds." We will learn about specific rocks, tools of the trade, how to spot agates, and so much more! Day 2 involves a bus ride to the Agate and Geological Interpretive Center at Moose Lake State Park to see the very impressive Lake Superior Agate collection and rock displays. We will visit the three designated agate gravel pits in this area in hopes of some successful agate hunting. Day 3 includes a trip to Lake Superior to walk the beaches in the Two Harbors and Silver Bay areas in search of our very own treasures...beautiful rocks!

Geocaching 101

Grades 5-8

June 6 & 7, 2022

14 student limit

Connie Bryant, Cherry School Room 136 and Cherry School Forest

Would you like to join in the world's largest treasure hunt? Geocaching is a game played using personal GPS systems. We will learn the basics of geocaching. Students will learn how to use a GPS, how to use coordinates to find exact locations, and how to work together. We will learn how geocaching works, work together to find "treasures" in the Cherry School Forest, and place our own geocache for others to find. This is a great family game that can be played anywhere in the world.

Camp Broadway

Grades: 5-12

20 student limit

June 6-24, 2022. This is a three week camp. However, on Friday, June 24th, the cast will have a cast celebration and an evening public performance.

Crystal Poppler & Michael Rouse, NorthEast Range School Auditorium

The cast attending "Camp Broadway" would learn many of the basics involved in musical theater:

- Stage Direction and Production
- Choreography
- Vocal Technique
- Theater Terminology
- Collaboration ... working as part of a team
- And most importantly ... FUN!

Camp Broadway will conclude with a public performance of a Broadway style musical that the cast has spent three weeks perfecting!

Mrs. Poppler and Mr. Rouse have produced many shows together over the past almost 10 years with students as young as 4th grade to adults in community theater. Many of the students that started out in one of our productions are now involved in musical theater in high school, college, and community theater. This is a great experience that can start a lifetime of opportunities.

Drawing and Woodworking Class

Grades 5-8

June 20-24th, 2022

15 student limit

Pat Rossini and Amy Rossini, Cherry School- Shop classroom & room 142

DRAWING-Students will learn how to create 1, 2, and 3 point perspective drawings such as drawing their rooms, hallways, buildings and city landscapes.

WOODWORKING—In this section of our class students will choose a small project to build and take home such as: a bird house, an iPad holder, a sign with their school logo, candy dispenser or possibly something they design of their own. If time permits we will also be working on a boardwalk in our school forest, building picnic tables, or benches for outside of the school.

Gardening and Gathering in Northern Minnesota

Grades 5-8

June 28-July 1, 2022

24 student limit

Angela Koski and Lindsey Stachovich, Cherry School Room #144

Students will learn about plants and how to successfully design, plant, and care for a garden. In addition to learning about soil and what plants successfully reach maturity in our area, we will learn about the types of plants grown and gathered by the Indigenous people of Northern Minnesota. Students will research the many wild and cultivated plants that the Ojibwe and Dakota people used. We will discover how and when gardens were planted long ago. Students will plant a "Three Sisters Garden." Students will also learn about the importance of plants that are used for beautification and medicinal purposes. We will conclude our week with a visit to Owl Forest Farm in Forbes, MN. (www.owlforestfarm.com)

Camp X-Stream

Grades 5-7

10 student limit

July 11-15, 2022

Janessa Kringle & Meghan Kolkind, Hibbing

Greenhaven Elementary Room-37

Join us for a week of X-STREAM fun as we explore science, technology, reading, engineering, art and math through a variety of hands-on activities. This popular learning acronym takes on a new meaning as we explore all things fun! Campers will dabble in circuitry and codings as well as spend some time in the Greenhaven garden, cultivating and harvesting some of the many vegetables. We will use this produce to make some fresh dishes to sample and use the power of the sun to do some cooking! We will have time set aside each day to explore our artistic side. There will be several week long art projects to choose from so kids can walk away with their own unique creations.

<https://forms.gle/ybuNUAq8VwdZBr66>

Water-Our Most Precious Resource

Grades 5-12

July 6-8, 2022

26 student limit

Angela Koski & Connie Bryant, Cherry School Room #144

Students will learn how to preserve and protect our water. Special attention will be given to local lakes, streams, rivers, watersheds, continental divides, and Lake Superior. Becca Reiss from North St. Louis Soil & Water Conservation District (www.nslswcd.org) will teach us about the importance of clean water. She will provide resources and information about preserving, protecting, and enhancing water quality.

We will spend a day hiking at the Laurentian Divide which is known by the Ojibwe as the "Hill of Three Waters." We will investigate how water from this hilltop can travel to Hudson Bay, Lake Superior, or the Mississippi River which eventually reaches the Gulf of Mexico!

We will travel to Superior, Wisconsin to board the Blue Heron. This working research vessel, operated by the University of Minnesota-Duluth, will be docked and waiting for us on Lake Superior. We will have the opportunity to conduct lab tests and work beside UMD's scientists. (Unfortunately, K-12 students are not allowed to leave the safety of the dock) For more information about this incredible experience on the Blue Heron, be sure to check out the website:

<https://scse.d.umn.edu/large-lakes-observatory>
