

Health Insurance

Dear New Bath County School Employee,

We are so happy to have you join our team! We want to welcome you and make you aware of our health and life insurance policies. Health insurance forms must be completed **within 30 days** of hire. It will become effective the first day of the second month following your hire date (Example: Hire date is July 7, your insurance becomes effective Sept 1). **Even if you have health insurance with another agency or are a transfer from another school district, you will still need to stop by central office to complete an application.** There are waiver options available if you already have coverage through somewhere else. We will work with you to determine what may work best for your situation.

If you do not complete an application within the 30 days you will be automatically defaulted to a limited high deductible plan.

We also offer state life insurance. You are automatically covered under a \$20,000 life policy that is free to you. There are also additional self and dependent policies available at an added cost to you.

Please call or stop by as soon as possible to discuss your options and fill out this important paperwork. We look forward to meeting you!!
