

WRS Level II Certification

Individuals who have completed Wilson Reading System® (WRS) Level I Certification may seek WRS Level II Certification. This advanced WRS coursework provides in-depth strategies to expand knowledge and practice of the Wilson Reading System.

Completion of WRS Level II Certification makes one eligible to receive the professional credential of Wilson® Dyslexia Therapist (W.D.T.).

Advanced Courses

One track focuses on how to implement multisensory structured language instruction successfully in **small-group settings**:

- WRS Advanced Strategies for MSL Group Instruction Course
- WRS Group Mastery Practicum

The other track focuses on teaching students at **advanced levels of decoding and encoding (WRS Steps 7-12)**:

- WRS Advanced Word Study: Online Course (Steps [7-12](#)).
- WRS Steps 7-12 Practicum

The tracks may be completed in either order (Group then Steps 7-12, or vice versa) or during the same period of time. Availability of appropriate practicum student(s) may help determine which option is best for your situation.

Successful completion of all four advanced courses results in WRS Level II Certification and eligibility to receive the professional credential of Wilson® Dyslexia Therapist (W.D.T.), but this does not qualify one as a Wilson® Credentialed Trainer. Wilson commends educators who demonstrate the dedication and expertise needed to reach this high level of achievement.

Interested in registering? All Wilson Reading System Level I and Level II Practicum lessons must be delivered using 4th edition materials.
