

## Spring Make and Take Family Game Night

Studies suggest that if students do not engage with academic content over the summer months, it is possible to lose some of the gains they made during the previous school year. Let's work together to combat that!

The Title I team wants to be sure you have tools at your disposal to support your child over the summer. We will have stations set up at each elementary school with grade appropriate activities to create engaging games and activities to take home and play throughout the summer!

Join us at Jaindl on May 24th from 5:30-6:30PM!

Families will make a few games that will engage children in reading and math skills that can be used for summer review. We will also add to the fun by playing bingo for book prizes! Let the games begin!

Please register each family by May 11th using the slip below or by completing the form online at: <https://bit.ly/TitleMake-Take>. **RSVP required. Space is limited.**

- Yes, we will attend the Jaindl Spring Make and Take Game Night.
