Our collaborative learning environment encourages students to learn from each other.•Keep It!...Students keep their stories and video games online with Scratch® and can access it and expand upon it at anytime. Scratch® is an MIT created and monitored, kid-safe web interface. It uses a drag and drop programming interface to teach students of all levels coding practices. For engineers and builders ready for a challenge using LEGO® bricks! We've saved our most challenging engineering projects for this summer camp. Students build a robotic DogBot, a motorized BugBot, geared up Racer and a scary Bat...all challenging for any connoisseur of LEGO® bricks. Students then use these projects (and more) to investigate engineering concepts. We keep it fun too with open ended, creative projects for the students. Unshackle the ball and chain of summer brain drain. Sign up today. Visit YouthEnrichmentLeague.com for sample pictures and more details.
