

Independent Evaluations

When an independent educational evaluation is conducted at public (local taxpayer) expense, the criteria under which the evaluation is obtained shall be the same as the criteria, which the local education agency uses when it initiates an evaluation. These criteria (standards) are established by Chapter 1107 of the New Hampshire Standards for the Education of Handicapped Students. The District has established rates and maximum allowable charges for specific assessments, which are on file with the Superintendent of Schools and the Director of Special Education.
