

Curriculum Development/Adoption

No basic course of study shall be eliminated or new courses added, without the approval of the School Board, nor shall any substantive alteration or reduction of a course of study be made without such approval.

New programs and courses of study shall not be acted upon by the Board at the meeting at which they are presented. This provides Board members with the opportunity to review the proposed program.

The Board encourages and supports the professional staff in its efforts to investigate new curriculum ideas, develop and improve programs and evaluate results.

To this end, the Superintendent, Curriculum Coordinator, and Principal will oversee and coordinate curriculum development for the school system. The Superintendent will keep the School Board informed of all ongoing curriculum development efforts.
