

Developing Education Specifications

To insure that facilities being planned are designed to best implement the educational program, the Superintendent will provide for the establishment of educational specifications to apply when planning and building District school facilities.

The educational specifications will include:

- A. Description of the pupils to be housed.
- B. The kinds of educational activities to be carried on in each area.
- C. The kinds and amount of furniture and equipment needed.
- D. The relationships among areas.
- E. Suggested traffic patterns.
- F. Special site considerations.
- G. All other unique information, which will give guidance to an architect in arriving at a solution.
