### Message from the Principal:

May 22, 2018

Parents/Guardians:

The Office of Educational Quality and Accountability (OEQA) has recently released the 2017 School Profile Report for Mustang High School. This report provides statistical information about our school's test scores as well as demographic and community information. This report is generated to help schools in measuring students' progress and to inform parents and community members about the quality of education being delivered to students.

As stated in the OEQA report, the state of Oklahoma adopted higher performance standards in 2017. The results are therefore not comparable to those from previous years. The report continues to show that the collective performance of Mustang High School students is above the state average in the areas of ELA, Math and U.S. History. An additional performance measure included in the OEQA report that we would like to highlight is the 2017 Senior Graduation Rate of 99.4%. We are proud of this accomplishment and the success it represents for our students and this community. At MHS, we work diligently to realize our mission of people working together with purpose, passion and pride to ensure learning for all.

Additional information regarding our school profile and the performance of our students is available on the Mustang High School's website or at <http://www.edprofiles.info/>. If you have questions regarding our School Profile Report, please do not hesitate to contact me.

Sincerely,

Teresa Wilkerson, Ed.D.  
Principal
