Proportions

- middle of eye is typically edges of lip
- shadows - light - dark pattern
- Eye - pupil is in middle, patterned iris

By Elimination...

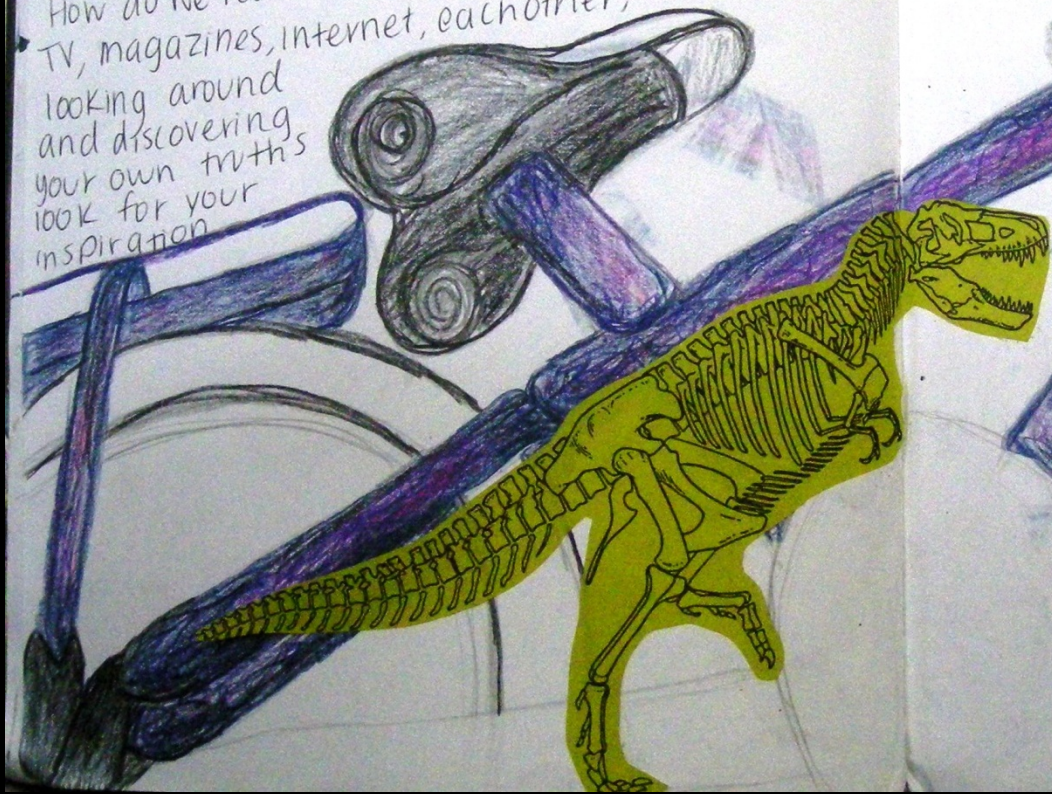

I eliminate the things I find will be too time consuming or frustrating. I will either procrastinate it or I will find a way around it. In art sometimes I'll panic and paint too quickly without really thinking about what I am doing. I doubt my self too much.

"Great Artists Steal" - Picasso

When Picasso said this he meant that great artists get their inspiration from looking at other artists. Artists grow from learning from each other. Make your own work off of someone else's idea.

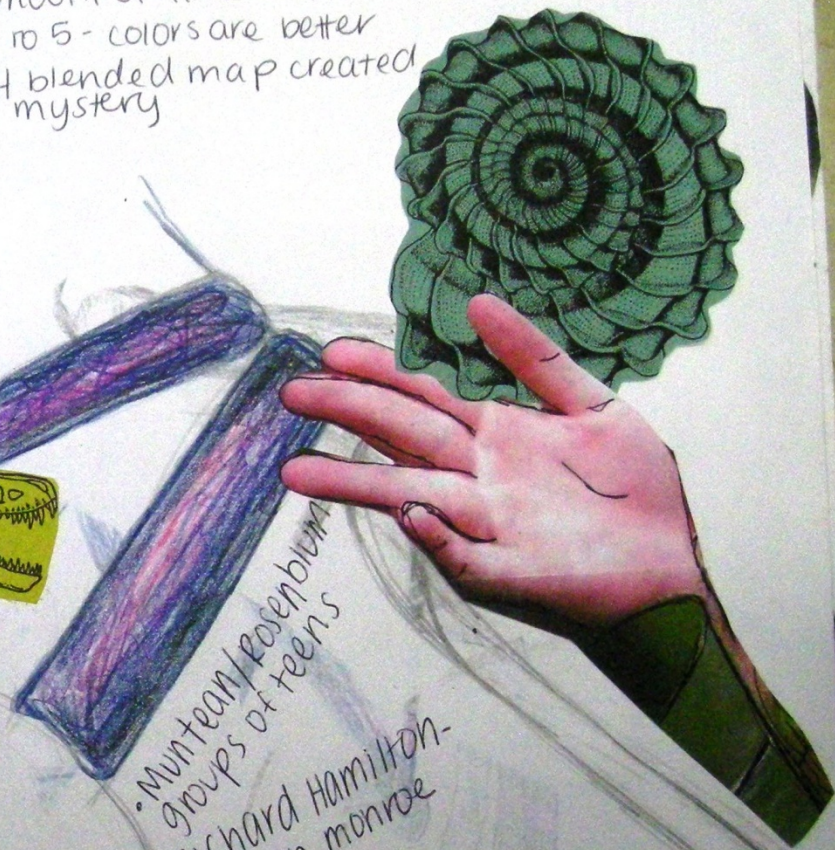

How do we research in everyday life?

TV, magazines, internet, each other, looking around and discovering your own truths look for your inspiration

improvements

- two paintings done in short amount of time - on time
- 4 to 5 - colors are better

COVER STORY

My Dad

"I decided my dad fit perfectly because even though he doesn't always understand it he ALWAYS shows he cares for my art always, even today. He still thought everything he said yesterday he said yesterday. Sometimes it's so hard to remember everything he said yesterday. He would be right if that's the world we live in."
