Pathway Completed: Programming & Software Development

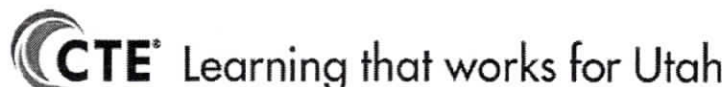

How did completing a CTE Pathway prepare you for life after high school—college and career?

The programming & software development CTE pathway gave me valuable computer-oriented skills that will make me a more valuable college student and that will give me a competitive advantage in my future career. Computer skills and computational comprehension are crucial to navigate today's world. I feel so much more confident in my ability to communicate through software and have an impact in the world because of the work I put in to complete this CTE pathway.
