

Minimum Specifications for Dunlap High School Auditorium Sound System

GOAL: Sound reinforcement that adequately covers our 1,100 seat auditorium (main floor, balcony, and under balcony).

Due date for bids: May 6, 2022 by 3:00 p.m.

Basic Requirements:

1. Digital mixing console of at least 32 channels.
2. Power, processing, and speakers to adequately reinforce the sound to all of the seats in the auditorium. (Existing wiring may or may not be capable)
3. A control option for novice users that only requires use of one or two microphones and an AV input.
4. Touchscreen control on stage right

Optional Add-ons:

1. 20 Wireless Microphones (all to include a body-pack transmitter and 6 of which to include handheld)
2. Charging station for wireless transmitters
