

## FDLRS Network

The FDLRS Network receives its priorities from the Bureau of Exceptional Education and Student Services and works in collaboration with Districts to best provide quality programs and services at the local level. FDLRS supports Florida's Goals of: Higher Student Achievement, Skilled Workforce and Economic Development, Seamless Articulation and Maximum Access and Quality Efficient Services.

## Human Resources Development (HRD)

FDLRS/Alpha is dedicated to supporting educators and administrators with professional growth. We offer professional learning opportunities including face to face workshops and a variety of online and blended learning, contributing to professional growth and increased student achievement.

We design and deliver targeted professional development that aligns to District and school improvement goals. Our professional learning is researched based and aimed at raising student achievement. Our goal is to empower teacher implementation of new learning while impacting student outcomes. We provide follow-up support, coaching, mentoring, and technical support as requested.

Examples of professional learning opportunities include: Collaborative Teaching, Differentiated Instruction, Disability Awareness, Instructional Strategies, Quality IEP's, Strategic Instruction Model (SIM), Transition, and Professional Development Alternatives (PDA).

## Parent Services

FDLRS/Alpha Parent Services provides information, training, and support to District and families, to promote effective parent participation in the education of children who are exceptional and/or have special needs.

We include assistance in the development of family friendly programs, training and support for services for children with disabilities, and the support of partnerships between schools and parents to support student achievement. Contact our Parents As Liaisons (PALs) at 561-434-8393

## Florida Inclusion Network (FIN)

The Florida Inclusion Network (FIN) collaborates with all Districts and schools to provide customized services and supports ensuring all students with disabilities have the same educational, social, and future opportunities as their peers.

This is accomplished by developing, implementing, and monitoring regional, district, and school-based action plans and will be guided by the results of "Best Practices for Inclusive Education" (BPIE) Assessment.

Uses a data driven, small group problem solving process within a multi-tiered system of supports and services tied to the least restrictive environment, increased student achievement, and increased graduation rates.

## Child Find

FDLRS/Alpha Child Find assists in locating, identifying, and obtaining services for children who have special needs.

Promotes general public awareness of programs and services available for children and youth who have disabilities.

Provides coordination, training, and support to assist service providers in evaluating children and youth.

Conducts screening in the areas of communication, motor developmental, vision, hearing and school readiness skills. In this way, problems may be detected early and a plan can be developed.

Contact Child Find at 561-434-7337

## Technology

FDLRS/Alpha helps students, families, and educators identify, acquire, and make effective use of assistive and instructional technologies.

Train teachers to integrate technology with effective teaching, assisting with Universal Design for Learning (UDL), and Accessible Instructional Materials (AIM) leading to improved student outcomes.

Disseminates information and training through face to face and distance learning options in conjunction with Multi-tiered System of Supports (MTSS) and statewide technical advisory committee.
