

Pocatello/Chubbuck School District No. 25

**Student Use of District Owned Electronic Devices, Software, Systems and Network Equipment  
User Agreement to be Completed by Parents for Students under the Age of 18**

As a parent I understand that my student will have access to District owned hard wired and portable electronic devices and as such I realize my child must abide by various assurances which commit to ensuring that the District's property is being used for an educational purpose and that the District's electronic devices, software, the network, and any information stored on the District's servers are properly safeguarded. Accordingly, I acknowledge that the District's Policy and Procedure 8161 - Student Use of District Owned Electronic Devices, Software, Systems and Network Equipment may change from time to time, and I commit that my child will adhere to any future use changes. Thus, I understand and agree to the terms of Policy and Procedure 8161 which outline use of District owned hard wired and portable electronic devices, software, systems and network equipment. Further, I acknowledge the following:

- Any use is subject to educational use only and to monitoring by the District, and that any use may be "locked down" by authorized District personnel at any time.
- Devices will be password protected in order to safeguard the information contained on the device, as well as to prevent unauthorized access to District data.
- All District owned portable electronic devices shall be connected only to District approved on line data storage.
- Any District owned device shall not be used as a private or personal device.
- Users shall not download non-school related and non-school appropriate applications onto the District's owned devices.
- Users who experience equipment or system malfunction should report such malfunction, damage or destruction to a school employee for assistance.
- Users shall not attempt self-repair nor arrange for a third party to attempt repair.
- Users may be assessed restitution dependent upon the circumstances of loss of equipment or damage to equipment.
- Users will not disable or circumvent mobile device management or location tracking systems.

In addition to the above stated conditions, student users who check out District owned electronic devices shall adhere to the following:

- Check out the device in accordance with the District/school/teacher's procedures.
- Maintain the device in one's own care throughout the time of possession and refrain from subjecting it to extreme conditions.
- Maintain the data as it is stored on the device.
- Return the device to the assigned location at the designated time in the same condition as it was when it was checked out.

As a parent, further understand that any violation of the terms of this Agreement may result in the denial of access to any District owned technology equipment, software, and network use. I understand that any violation of the Policy or Procedure may result in disciplinary action and may also result in a criminal offense which would in turn result in legal action.
