

**South Whidbey School District  
Student Information Release-  
Office Copy**

During the course of the year, South Whidbey School District, schools or individual staff members may take photos, video images and/or recordings of students or their work. This release may be used on our district website for displays or sent to the media.

South Whidbey School District will provide your child the ability to access the internet, Google apps for education and district email accounts. All computer use is monitored by staff and we use an internet content filtering system.

Parents have the right to ask that the school district refrain from releasing their child's information and limit access to the internet. If you do not want information about your child released or you do not want your child to use the internet or Google apps, please fill out the information below.

- I do not wish to have information about my child or their work released.
- I do not wish to have my child to access the internet or use Google apps.
