

March 2022

Dear Parent/Carer,

I am delighted that you have chosen to accept a place for your child at Coombe Wood School.

Whether in the classroom, in House tutor groups, in one of our many clubs or performance groups, in their Health Related Fitness journeys or just generally in and around school, the current Year 7, 8 and 9 students are developing into fine young adults under the guidance of a team of teaching and support staff who care greatly about their progress and well-being. Covid has challenged everybody in the last year, but we are very proud of the way that our students have responded. Whether in school or doing online live lessons from home, they have shown great positivity and displayed our core values of Teamwork, Respect, Enjoyment, Discipline and Sportsmanship, every day.

Rest assured your child will be given every one of these same opportunities at CWS and that all the staff and students here are now focusing on helping their transition to secondary school run as smoothly as possible.

With this in mind, I would ask that you take the first steps towards helping your child settle in well by finding quiet time at home to go through the new registration process and look through all of the Year 7 Induction information.

This year the New Year 7 registration will be completed online and you should receive a link and your username details via our **pre admissions service platform Admissions Plus in due course. Please ensure that your child's registration process is completed by the date requested so that we have all the information required.**

The process will involve verifying your child's profile and completing the necessary form(s). This is so that we can support your child in time for the planned Induction Day and on their very first day at CWS on **Tuesday 6th September 2022..**

You need to download, read, sign and return the Home School Agreement which is on the CWS website. Please follow this link to download and print off: [HomeSchoolAgreementCWS.pdf](#)

Thank you in advance for your swift cooperation with this matter.

Finally, one early date for your calendar is the evening of **13th September 2022** when we will be holding an Information Evening for all New Year 7 Parents to provide further details about the year ahead and to explain how you can best support your child at home.

We very much look forward to your child joining our thriving school and wish them all the very best for their remaining time at primary school.

Yours sincerely,

Ms N Williams, Headteacher
