

STRATEGIC PLANNING AND DISTRICT GOALS

Policy 112.1

Waunakee Community School District

Page 1 of 1

The Board of Education recognizes the value of long-term planning and goal setting.

The Board intends for the District's leadership team to, at a minimum, establish and then, on at least an annual basis, evaluate and affirm and/or modify the following:

- A list of Board-approved strategic priorities for the District;
- A list of Board-approved short-term and long-term District goals; and
- The means by which progress toward such strategic priorities and goals will be measured or otherwise evaluated.

An important responsibility of the Superintendent is to work with the Board to establish and implement a long-term planning and goal-setting process, which may be incorporated within a broader strategic planning process. The Board may invite or direct the participation of other stakeholders in such planning and goal-setting.

Nothing in this policy restricts the administration from establishing additional, complementary goals for particular schools, programs, operational areas, etc.
