

Policies of the Board of Education

Series 400: Students

IMMUNIZATIONS

453.2-Rule

- I. A) No principal, teacher or administrator of any school shall admit any child who does not meet the immunization requirements prescribed by the Department of Health and Family Services.
 - B) As a part of the enrollment process for each first time admission, the school shall obtain from the parent/guardian an accurate and complete immunization history for that student indicating that the student meets the minimum immunization requirements or permission of the parent/guardian for the child to be immunized:
 - 1) by a private physician specified by the parent and/or
 - 2) by the local public health agency.
 - 3) Immunization requirements may be waived for the student, if an adult, or the student's parent/guardian submits a written statement to the school objecting to the reasons of health, religion or personal conviction.
- II. The immunization history shall be in a format prescribed by the department.
- A) If at that time the history indicates that the child does not meet the minimum immunization requirements (based on Advisory Committee on Immunization Practices (ACIP) recommendations and described in the compliance form issued by the department) under state law, and the parent/guardian chooses not to grant permission for the student to be immunized, the school shall obtain from the parent/guardian one of the compliance alternatives within 30 days.

Immunization requirements may be waived for the student, if an adult, or the student's parent/guardian submits a written statement to the school objecting to the reasons of health, religion or personal conviction.
 - B) By October 1 or within 30 days after admission for any particular student, the school shall submit a report to the local public health agency indicating the name, immunization status, and the compliance alternative selected for each student who does not meet the minimum immunization requirements. The initial report by October 1 shall be in a format prescribed by the department and shall also include statistical information concerning the compliance alternative selected for all first time admissions.

- C) The school shall maintain on file, the immunization histories of children entering school for the first time and the compliance alternatives selected by the parent/guardian of each student who does not meet the minimum immunization requirements. These shall be maintained as part of the student's progress records.
- D) The school shall update these immunization histories with information supplied by the local public health agency, parents/guardians or private physicians.
- E) The immunization history or record of any student who transfers from one school to another shall be forwarded to the new school in compliance with legal requirements.
