Thinking of auditioning for the fall musical?

Join us for a workshop focused on selecting and preparing audition material, learning the audition choreography and developing acting and vocal techniques. This workshop will be a chance for you to test your audition material and receive feedback.

Come be a part of this amazing team!

Please come prepared with the material required of the audition:

- 16-32 bars of a musical theatre song that best showcases your voice
- Participants are encouraged (but not required) to be able to perform their songs to the best of their ability without music in hand.
- Choreography will be taught at the workshop. Please wear appropriate clothing and footwear to dance.
- Please bring marked sheet music *in the correct key* to the workshop.
