"Formal education" in #7 does not include refugee camps or other unaccredited educational programs for children.

The Purpose of the Home Language Survey

The Home Language Survey is given to *all* students enrolling in Washington schools. The following information should help answer some of the questions you may have about this form.

What is the purpose of the Home Language Survey?

The primary purpose of the Home Language Survey is to help identify students who may qualify for support to help them develop the English language skills necessary for success in the classroom and who may qualify for other services. It is important that this information be correctly recorded since it can affect the eligibility of students for services they need to be successful in school. Testing may be necessary to determine whether or not additional language and academic supports are needed. No student will be placed in an English language development program based solely on responses to this form.

Why do you ask about the student's first language and language(s) used in the home?

The two questions about the student's language help us to determine:

- if your student may be eligible for assistance with learning English, and
- whether staff at the school should be aware of other languages being used by the student at home.

The language your child first learned may be different from the language your child uses for communication at home now. The responses to both of these questions will assist the school in providing instruction appropriate to the individual student's needs as well as help with communication needs that may arise. Students who first learned a language other than English may qualify for additional supports. Even students who speak English well may still need support in developing the language skills needed to be successful in school.

Why do you ask where the student was born?

This information helps the school district and the state determine if the student meets the definition of immigrant for the purposes of federal funding. This applies even when the student's parents are both US citizens, but the student was born outside of the United States. This form is not used to identify students who may be undocumented.

Why do you ask about my student's previous education?

Information about a student's education will help ensure that the student's education both within and outside of the United States is considered in any recommendations made for participation in programs and district services. The student's educational background is also important information to help determine if the student is making adequate progress toward state standards based on their prior educational background.

Thank you for providing the information needed on the Home Language Survey. Contact your school district if you have further questions about this form or about services available at your child's school.

Race / Ethnicity Self-Identification Form

The American Indian/Alaska Native (AIAN) race and ethnicity category is disaggregated into two subgroups: Federally Recognized Tribes and Non-Federally Recognized Tribes. The Task Force wishes to respect the unique sovereignty and treaty rights of tribes. In addition to the relationship with the U.S. federal government established through nine treaties, the [Centennial Accord](#) provides a framework for the government-to-government relationship between the state of Washington and each of the twenty-nine federally recognized, sovereign tribes. Students belonging to tribes outside of Washington are able to select their race and ethnicity on the survey by checking a fill-in box and writing in their tribe.

GUARDIAN NOTIFICATION ELECTRONIC RESOURCES USED BY OUR STUDENTS

As the parent or guardian of the child named below, I have read and understand Mead School District's [Policy 2022](#) and [Procedure 2022](#) on Electronic Resources (<https://tinyurl.com/MSD-Board-Policies>). I acknowledge the District will provide all students access to the Internet, to computer network services, including an email account and to online learning platforms as needed for classes in which they are enrolled.

Mead supplies minimal COPPA-compliant information to these platforms. For more information visit these sites: https://edu.google.com/k-12-solutions/privacy-security/?modal_active=none and <https://www.ftc.gov/search/site/coppa>.

The majority of platforms we use support the Student Privacy Pledge (<http://studentprivacypledge.org/>).

A student's access to electronic resources may be abridged if he/she fails to abide by Mead School District's Policy and Procedure 2022 and Electronic Resources.

I understand and agree my child will abide by Mead School District's Policy and Procedure 2022 on Electronic Resources. I have discussed with my child the rules and regulation and he/she will abide by them.

Hold Harmless

Mead School District makes no warranties of any kind, whether express or implied, for the electronic resources it provides. Use of any information obtained via the network is at your own risk. The Mead School District specifically denies any responsibility for quality of information obtained through its electronic systems. Users must be aware that there are services available on the network that might be offensive to certain groups of users. The District will not be liable for any direct or indirect, incidental or consequential damages, costs, expenses or fees that may be suffered or incurred due to information gained, data lost or inability to use the network.

Student Image Opt Out

If you wish to have your student's image excluded from publications such as yearbooks, student directories, newsletters or web platforms, please submit a letter naming your child and specifying the publications from which you prefer to exclude your child to your building principal no later than the first Monday of October or within 10 days of registration.

Revised January 2021

Text Messaging

Mead School District engages SchoolMessenger, an industry leader, to provide the communication tools we use to deliver important information to you. **SMS text messaging**, or Short Message Service texting, enhances our existing means of communication (e-mail and phone calls) by allowing us to send quick, brief messages directly to your phone. Currently the district plans to use this service only to provide alerts and emergency information.

In order to participate in this free* service, you must indicate your willingness to receive text messages to your phone. The process is simple and only takes a few seconds to complete.

You'll want to repeat the opt-in process for any wireless numbers that you wish to include.

Simply text any one of the following to the number **67587**:
Subscribe, Optin, Yes or Y.

You'll know you were successful if you receive the following reply message:

You are registered to receive aprox 3 msgs/mo. Txt STOP to quit, HELP for help.

You may also opt out of these messages at any time by simply replying to one of our messages with **"Stop"**.

Please note: In addition to performing the opt-in process above you must ensure that the district has your wireless number(s) in our student information database. If you haven't already provided that information to your school please contact them and do so.

The district will be officially launching the new service in late March, 2018, so until then you won't receive any text messages.

SchoolMessenger is compliant with the Student Privacy Pledge™, so you can rest assured that your information is safe and will never be given or sold to anyone.

**Opt-In from
your mobile
phone now!**

**Just send
"Y" or "Yes"
to 67587**

Info on SMS texting and Short Codes:

SMS stands for Short Message Service and is commonly referred to as a "text message." Most cell phones support this type of text messaging. SchoolMessenger uses true SMS protocol developed by the telecommunications industry specifically for mass text messaging, referred to as "short code" texting. This method is fast, secure and highly reliable because it is strictly regulated by the wireless carriers and only allows access to approved providers. If you've ever sent a text vote for a TV show to a number like 46999, you have used short code texting.

*Terms and Conditions – Message frequency varies. Standard message and data rates may apply – check with your carrier. Mobile carriers are not liable for delayed or undelivered messages. See schoolmessenger.com/bxt for more info.

1. Print your child's name and birthdate, and sign your name where indicated on page one.
2. Write the date of each vaccine dose received in the date columns (as MM/DD/YYYY). If your child receives a combination vaccine (one shot that protects against several diseases), use the Reference Guides below to record each vaccine correctly. For example, record Pediarix under Diphtheria, Tetanus, and Polio as IPV.
3. If your child had chickenpox (varicella) disease and not the vaccine, a health care provider must verify chickenpox disease to meet school requirements.
 - ☐ If your health care provider can verify that your child had chickenpox, ask your provider to check the box in the Documentation of Disease Immunity section and sign the form.
 - ☐ If school staff access the IIS and see verification that your child had chickenpox, they will check the box under Varicella in the vaccines section.
4. If your child can show positive immunity by blood test (titer), have your health care provider check the boxes for the appropriate disease in the Documentation of Disease Immunity section, and sign and date the form. You must provide lab reports with this CIS.
5. Provide proof of medically verified records, following the guidelines below.

Children can enter and stay in school or child care if they are catching up on required vaccines for school or child care entry. Children can enter and stay in school or child care in conditional status if they are catching up on required vaccines for school or child care entry. (Vaccine series doses are spread out among minimum intervals, so some children may have to wait a period of time before finishing their vaccinations. This means they may enter school while waiting for their next required vaccine dose). To enter school or child care in conditional status, a child must have all the vaccine doses they are eligible to receive before starting school or child care.

Students in conditional status may remain in school while waiting for the minimum valid date of the next vaccine dose plus another 30 days time to turn in documentation of vaccination. If a student is catching up on multiple vaccines, conditional status continues in a similar manner until all of the required vaccines are complete.

If the 30-day conditional period expires and documentation has not been given to the school or child care, then the student must be excluded from further attendance, per RCW 28A.210.120. Valid documentation includes evidence of immunity to the disease in question, medical records showing vaccination, or a completed certificate of exemption (COE) form.

Transportation Services

The Mead School District provides transportation to and from school for K-12 grade students who live outside the suggested walk area for their assigned school.

We require families to pre-register their children if they plan on using bus transportation. Please visit www.mead354.org and click on Transportation. You will find the registration link near the center of the transportation page. Once you have registered you can find your bus stop location by following the link on our web page or go directly to:

<https://www.infofinderi.com/ifi/?cid=MSD57UEZPVK9&cid=MSD57UEZPVK9>

We utilize over 100 buses to transport student to and from school and extra-curricular/sporting events. Our goal is to provide both a safe and enjoyable school bus ride for all students. Our buses are equipped with GPS units and video systems. These systems aid in locating buses in emergency situations, help with routing efficiency and to assist our drivers and schools in supporting positive student behavior on the bus.

We encourage students to arrive at their **assigned** bus stop 5 minutes prior to the scheduled pick-up time and ride the bus to AND from their **assigned** bus stop.

Transportation Department office hours, during the school year, are Monday-Friday, 6 am to 5 pm. You can reach us by phone (509-465-6107) or email (transportation@mead354.org). Our address is 12304 N Market St, Mead WA.
