

**MSD PIKE TOWNSHIP**  
**College Park Elementary**  
**CLINIC INFORMATION**

Please read, check each area, and sign the bottom for parental understanding of our school clinic and district procedures:

\_\_\_\_ Only minor first aid services are available in the school clinic. Our school nurse is an RN, not a doctor. She cannot diagnosis an illness or condition.

\_\_\_\_ Students may not attend school when they have a temperature of 100° or higher.

\_\_\_\_ Students must be fever free without medication (Tylenol, etc) and post vomiting for at least 24 hours before returning to school.

\_\_\_\_ Students will be contacted by the school nurse or designee if your child becomes ill during the school day with a temperature, vomiting, rash, red eyes, or other symptoms deemed necessary to be seen by a doctor.

\_\_\_\_ Students being sent home from the clinic must be picked up by parent or designee within 30 minutes of being contacted. Parents need to have a back-up plan involving family or friends who are able to pick up their child when needed.

\_\_\_\_ Parents will be contacted of serious illnesses or injuries. A copy of the clinic referral form is sent home with your child if they visit the clinic for all reasons other than receiving medications.

\_\_\_\_ Over-the-counter medications are only dispensed with a signed parental permission slip. A physician's consent is required of all prescription medications.
