The statement must be a font style and size that is plainly legible. The statement should read: "Putnam City Schools does not discriminate on the basis of race, color, religion, sex, pregnancy, gender, sexual orientation, gender identity and expression, national origin, age, marital or veteran status, disability, or genetic information."
EDUCATIONAL PHILOSOPHY AND GOALS

The acquisition of basic skills in reading, writing, math, language, and spelling is essential for effective cognitive development. Education is best achieved when students become involved in experiences meaningful to their lives in today’s world. The educational process should develop habits, attitudes, understanding, and skill necessary for a productive, satisfying life in civilized society. Each student should be helped to understand the duties and the privileges of responsible citizenship as it relates to the student as an individual and to the larger community.

The goal of the District is to provide an opportunity for all students to develop into adults who can stand confidently, participate fully in our society, learn continually, and contribute meaningfully to our world.

Membership: The Board is the governing body of the District and shall consist of five (5) members elected by the school district electors or appointed as provided by law. Each member shall be elected from and reside in one of the District's five (5) election districts. Members shall serve a term of five (5) years or until such time as their successors are duly appointed or elected and have qualified as prescribed by law. Any vacancy occurring other than by expiration of term shall be filled by appointment by the Board or, if such appointment is not made, by a special election called as provided by law. Eligibility to be a candidate for a position on the Board shall be determined by law. After election or appointment and prior to beginning their term, members of the Board shall take such oaths of office as are required by law.

Election Districts: The District shall be divided into five (5) election districts. Following each federal decennial census, the Board shall reapportion by resolution the District’s election districts if required in accordance with law. The resolution shall contain the legal descriptions of the election districts. The Superintendent shall maintain in the Superintendent's office for review by the public a true and correct copy of the resolution and a map accurately representing the boundaries of the election districts.

Conflicts of Interest: No person shall be elected or appointed to serve on the Board if he or she is related to any other member of the Board or any employee of the District as provided by law. The Board shall not make any contract with any of its members or with any company, individual, or business concern in which any of its members shall be directly or indirectly interested, except as provided by law.

Powers and Duties of Board: The Board shall have all powers and duties expressly set forth in the laws of the State of Oklahoma, those powers implied by law, and those powers necessary to carry out the duties imposed on it. The Board shall be responsible for the development of policy as guidelines for the administration of the District and shall be responsible for the adoption of a budget appropriate for the District's goals.

Authority of Board: All of the powers of the Board lie in its action as a group; therefore, individual Board members exercise their authority over District affairs only as they vote to take action at a legal meeting of the Board. No individual member of the Board, including the President, shall have the power and/or the authority to act individually on behalf of the District or to bind the District unless the Board, pursuant to a vote, has delegated such authority to the individual Board member. The District's employees and the public at large shall take notice that the District can only be bound by Board action or through authority specifically delegated by the Board.
Election and Duties of Officers:

A. **Election of President and Vice President:** At the first regular, special, or emergency meeting following the annual school election and certification of election of new members, the Board shall elect from its membership a president and a vice president, each of whom shall serve for a term of one (1) year or until a successor is elected and qualified.

B. **Election of Board Clerk:** The Board shall also elect a Board Clerk and, in its discretion, a Deputy Board Clerk, who may or may not be members of the Board. The Board Clerk and the Deputy Board Clerk, if elected, shall hold office during the pleasure of the Board and shall receive such compensation for services as the Board may allow. If the Board elects a Board Clerk who is not a member of the Board, the Board Clerk may also be employed as the Encumbrance Clerk and/or the Minute Clerk. No superintendent, principal, treasurer, assistant treasurer, instructor, or teacher employed by the Board may be elected to serve as Board Clerk, Deputy Board Clerk, Encumbrance Clerk, or Minute Clerk. The Deputy Board Clerk may perform any duties and exercise any of the powers of the Board Clerk.

C. **Duties of the Officers:** The duties of these officers are as follows:

1. **President:** It shall be the duty of the President to preside over all meetings of the Board, to sign all warrants ordered drawn by the Board upon the school treasury for disbursement of school funds, to make appointments to committees as is necessary, and to perform such other duties delegated by the Board as required by law.

2. **Vice President:** It shall be the duty of the Vice President to perform the duties of the President in the absence of the President from a Board meeting.

3. **Clerk:** It shall be the duty of the Board Clerk to countersign all warrants drawn upon the treasury by the Board and perform such other duties as the Board may require.

**Education for Board Members:** As required by law, new Board members shall complete the necessary hours of instruction on education issues. If a new Board member fails to complete the required hours of education within the time allowed, the Board shall declare the position vacant and fill the vacancy according to law.

As required by law, Board members shall complete the minimum hours of continuing education during the term of their office. The failure to comply with the continuing education requirements shall result in the board member being ineligible for reelection.
Board Committees: The Board functions at the regular and special meetings of the Board as a committee of the whole. In addition, the Board President may appoint standing committees who shall advise the rest of the Board. Committees shall meet from time to time to consider matters in more specific detail and understanding than can normally be considered during the proceedings of a Board meeting.
DISTRICT OFFICIALS AND PROFESSIONAL SERVICE PROVIDERS

Superintendent: The Superintendent shall be the executive officer of the Board and shall be the administrative head of the District. The Superintendent shall be responsible for all aspects of school operation and for such duties and powers pertaining thereto as the Board may direct or delegate. The Superintendent may delegate responsibility and the authority necessary to discharge such responsibility to other District officials and shall develop such procedures and regulations as deemed necessary to ensure efficient operation of the schools.

The Board will respect the Superintendent’s professional competence and will extend to the Superintendent full responsibility for implementation of Board policy decisions. The Superintendent is expected to keep the Board informed about school operations and to notify Board members as promptly as possible of any happening of an emergency nature which occurs in the District.

Encumbrance Clerk and Minute Clerk: The Board shall employ an Encumbrance Clerk and a Minute Clerk or may employ one (1) person to perform both functions. The Board may not employ a superintendent, a principal, an instructor, or a teacher as either the Encumbrance Clerk or the Minute Clerk. The Encumbrance Clerk shall keep the books and the documents of the school district and shall perform such other duties as the Board may require. The Minute Clerk shall keep an accurate account of all proceedings of the Board, notify all members of meetings of the Board, assume responsibility for District records, and perform such other duties as the Board may require. The Encumbrance Clerk and the Minute Clerk shall each provide a bond of not less than One Thousand Dollars ($1,000.00) with sureties approved by the Board which bonds are conditioned upon the faithful performance of their duties. If both functions are performed by the same person, only one (1) bond shall be required. The District may pay the premium for such bond(s).

Treasurer: In addition, the Board may appoint a Treasurer and/or an Assistant Treasurer to serve at the discretion of the Board. The Treasurer and/or Assistant Treasurer shall be responsible for the funds of the District and shall not pay out any District funds except upon District warrants issued by the Board and signed by the President and Board Clerk. When requested by the Board, the Treasurer and/or Assistant Treasurer shall submit written reports regarding the finances of the District. The Treasurer and/or Assistant Treasurer shall provide a bond of not less than the amount of money the Treasurer and/or Assistant Treasurer will have on hand at any one time, and the District may pay the premium for such bond.
Independent Auditor: The Board shall engage an independent auditor to conduct an annual audit as required by law and may utilize the services of such auditor to assist the Board in preparing the District’s budgets and such other financial reports as may be required or requested. Such auditor shall be qualified as provided by law.

Legal Counsel: The Board may engage legal counsel to provide professional services to the District in such manner as the Board, the Superintendent, and/or other designated administrators may direct.

Architects and Engineers: The Board may engage architects and engineers to provide professional services when required by law and/or when deemed necessary.

Consultants: Upon its own volition or upon the recommendation of the Superintendent, the Board may engage such consultants as deemed necessary and appropriate for the operation of the District.
BOARD MEETINGS

Regular Meetings: Unless otherwise scheduled, regular meetings of the Board shall be held on the first and third Monday of each month. When Monday is a legal holiday, the regular meeting shall be held on the next business day, unless otherwise scheduled. Regular meetings shall be held in the Administration Building unless another location has been designated.

Special Meetings: A special meeting may be called by the Superintendent or by the Board President as authorized by law. Business transacted at any special meeting shall be limited to that permitted by law.

Emergency Meetings: Emergency meetings of the Board may be called by the Superintendent or the Board President as permitted by law.

Notice of Meetings: Notice of all meetings shall be given as required by law.

Agenda Preparation and Dissemination: The Superintendent, in consultation with the Board President, shall prepare all agendas for meetings of the Board. In doing so, the Superintendent shall consult with appropriate members of the staff.

Items of business may be suggested by any Board member, staff member, student, or citizen of the District. Items suggested by staff members, students, or citizens must be submitted to the Superintendent by Wednesday before a Board meeting on Monday and their inclusion shall be at the discretion of the Superintendent. The Superintendent may make exception to this in emergency situations.

The Board shall follow the order of business set up by the agenda unless the order is altered by a majority vote of the members present. Items of new business as defined by Oklahoma Law not on the agenda may be discussed and acted upon in a regularly scheduled meeting if a majority of the Board agrees to consider them.

A finalized agenda, together with supporting materials, shall be distributed to Board members sufficiently prior to the Board meeting, if at all possible, to permit them to give items of business careful consideration. The agenda and appropriate agenda materials will be made available to the school personnel, representatives of the community, press and to others upon request. In addition, the board of education meeting agenda will be posted on the door of the Administration Building as required by law. It is the responsibility of the clerk to make sure that agendas are posted and made available to the public.
Quorum and Voting: A majority of the members of the Board shall constitute a quorum for the transaction of business. If a quorum is not present when the meeting is called to order, the only action that the members may take is to continue the meeting to another date and/or time. Each member shall have one (1) vote, and all votes shall be publicly cast and recorded. All motions shall be carried by a majority of the members present or as otherwise required by law. An abstention from voting by a member present at a meeting shall be deemed a “no” vote for purposes of determining a majority vote.

Minutes: The Clerk of the Board shall keep, or cause to be kept, complete records of meetings of the Board. These minutes shall include:

1. Those members present and absent and all matters considered by the public body;
2. In the case of an emergency meeting, the nature of the emergency and the proceedings occurring in such meeting, including the reasons for declaring an emergency meeting.
3. A record of all actions taken by the Board, with the vote of each member recorded;
4. Resolutions and motions in full; reports and documents relating to a formal motion may be omitted if they are referred to and identified by title and date;
5. A record of the disposition of all matters which the Board considered but on which the Board did not take action.

Copies of the minutes shall be made available to all Board members before the meeting at which the minutes are to be approved. The minutes shall become permanent records of the Board and shall be in the custody of the Minute Clerk. The Minute Clerk shall make them available to interested persons upon request.

Executive Sessions: Executive sessions, which are closed to the public, may be held as prescribed by law. The fact that an executive session was held and the purpose for which it was held shall be recorded in the minutes; however, the discussions held in executive session shall be confidential and shall not be made public. The Superintendent shall attend all executive sessions, unless the Board President shall determine otherwise. The Board President may invite other persons to attend an executive session or a portion of an executive session. The decision of the Board President to include or to exclude any person from an executive session may be overruled by a majority vote of the Board members present. No official action may be taken while the Board is in executive session.

Livestreaming: The District will make every effort to broadcast in real time District’s regular Board meetings. The broadcasting and/or live-streaming of District’s regular Board meetings:

1. Will only include the public portion of the meeting.
2. Will not include any proposed executive sessions that are properly noted and cited on the posted agenda.

3. Will only be available online and live while the event is occurring.

4. Will not be available once the Board officially adjourns the live meeting.

A link to the public broadcast will be available on the school district's website on the day of the regular meeting. The inability to broadcast a regular Board meeting shall not preclude the Board from continuing with a properly called and posted Board meeting. In addition, the District will post in a visible location notice to parties entering District facilities that they are entering an area where live streaming, photography, video and/or audio recording may occur.

During portions of regular meetings of the Board, members of the public are provided an opportunity to make comments regarding school related matters at public meetings as indicated in Board Policy AH. Persons addressing the Board must be physically present. The ability to make online comments will not be available.
Policy Development: The Board shall determine policies for the operation of the District. The Superintendent shall be responsible for the implementation of these policies and for developing and implementing administrative regulations. The Board shall update, amend, delete, and add policies as necessary to comply with changes in the law and to meet the needs of the District and its students. Suggestions and proposals for policy development should be communicated to the Superintendent.

Policy Adoption: Proposed policies shall be announced and distributed at a meeting of the Board. The Board may then review, discuss, and/or take action on the proposed policies at that meeting or at any subsequent meeting. All policy proposals shall be properly titled and shall be coded in accordance with the codification system used in the policy manual. Any policies which are adopted shall be attached to and made part of the minutes of the meeting at which they are adopted. Upon adoption, policies and amendments to policies shall be effective immediately unless a specific effective date is provided. When circumstances require, the Board may waive the above procedures for adoption and may take immediate action to adopt, delete, or revise any policy.

Policy and Regulation Review and Dissemination: The Superintendent shall establish and maintain a procedure for preserving and making accessible all policies and administrative regulations. All policy and regulation manuals distributed shall remain the property of the District and shall be subject to recall for updating or for any other reason. The District’s policies and regulations shall be considered public records and shall be open for inspection at the District’s administration building. The Superintendent shall periodically review all policies and regulations, shall make proposals for amendments, additions, and deletions of policies as necessary, and shall amend, add, or delete administrative regulations as necessary. The Superintendent may develop and disseminate employee handbooks setting forth appropriate policies and administrative regulations to the extent that they are deemed necessary.

Review of Administrative Regulations: The Superintendent shall prepare, approve, and disseminate those administrative regulations necessary to implement Board policy and shall review such regulations periodically to determine their effectiveness in carrying out policies.

The Board shall retain the prerogative to review any and all administrative regulations and may suggest or direct that certain regulations be added, modified, or deleted.

Administration in Absence of Policy or Regulation: When there is no policy, regulation, or Board guidance regarding a matter, the Superintendent shall have the discretion to act accordingly in accordance with law and established education practices.

Suspension of Policy: The Board may suspend the operation of any policy or section of policy that is not required by law or contract upon a vote of a majority of the Board members.
COMMUNICATION WITH BOARD

Presenting Concerns To Board: Members of the public or District employees who have concerns regarding school personnel, school services, facilities, or items not on the agenda of a regular meeting may communicate with Board members in writing regarding their concerns. The Clerk of the Board can provide mailing addresses of Board members or, if the person desires, can deliver the correspondence directly to the Board member.

Board Communication: The Board of Education encourages communication. Two way communication with the public and employees is important. There should be no attempt to restrict communications dealing with public information.

Board members will be available to staff and public to hear concerns, to answer questions or direct questions to the appropriate office or person. Staff members will be available to Board members to provide information and to answer questions. Those who direct questions to members of the Board of Education shall be given an answer from the Board member or referred to the appropriate administrative office.

If a Board inquiry or request will require the preparation of a new report or official document, the request should be directed to the Superintendent. The Superintendent may assign the task to a staff member or ask for the request to be put on the agenda. A copy of the report or document shall be provided to all Board members.

Public Participation at Board Meetings: The purpose of a Board meeting is for the Board to conduct the District’s business and to deliberate and act upon matters before the board, unless the Board is specifically conducting a public hearing on a matter. The public is encouraged to attend and to observe meetings of the Board and to participate whenever a public hearing is being held.

District employees are also encouraged to attend Board meetings but shall not be afforded the opportunity to address the Board at Board meetings on matters of a personal nature relating to their employment, unless such right is otherwise granted by law or negotiated agreement.

During portions of regular meetings of the Board, a limited opportunity may be provided for members of the public to make comments regarding school related matters. To make such comments, members of the public are to complete the required form and submit it to the Clerk of the Board before the meeting is called to order.
Persons addressing the Board during the “Comments by the Public” portion of a regular Board meeting shall:

1. be recognized in the order the Clerk received the requests;

2. limit their comments to three (3) minutes or less; and

3. not be permitted to criticize individuals or to engage in disruptive behavior.

If an extremely large number of requests to speak are received, the Board President may set a reasonable time limit for the total “Comments by the Public” portion of the meeting. The Board may extend the total time limit for comments set by the President by a majority vote of the members present.

Public Decorum at Board Meetings: In order that Board meetings operate smoothly and without disruption, the following guidelines shall be followed:

1. Members of the audience shall not interrupt any person who has been recognized as having the floor by the Board President;

2. Members of the audience or persons attending Board meetings shall not display or place any banners or signs in the room where the Board meeting is to be held.

3. Persons who cause a disruption or disturbance of a Board meeting shall be warned once by the Board President that such disruption or disturbance may result in eviction from the Board meeting. If the person continues such disruption or disturbance, the Board President may contact the Campus Police Department or any other law enforcement agency and request that the person be removed from the Board meeting. In addition, the person may be charged with any possible criminal violations for the disruption or disturbance if the District decides to pursue such charges.

The District responsibilities include the actual participating and serving as examples to the students and the community. The Administration is responsible for developing and implementing procedures and regulations consistent with the Board of Education’s policy.

The Putnam City School District limits district-wide fund-raising to three endeavors:

1. The Putnam City Schools Foundation exists to enhance educational opportunities for students of the district. The district supports the fund-raising activities of the Foundation. Employees may elect to contribute through payroll deduction.

2. The District has a partnership with the Oklahoma Medical Research Foundation. The District accepts donations that provide equipment needed by the Foundation to conduct research. This fund-raising activity includes the students, parents and employees of the District.

3. The Putnam City School District also participates in the annual United Way fund drive. This fund-raising activity is limited to employees of the District and payroll deductions are permitted.

The Board of Education allows building principals and staffs to select and support other worthwhile causes.

Charities and non-profit organizations: Any charity or non-profit organization that wishes to hold a fund-raising event must first obtain approval. The Superintendent or his/her designee will either approve or disapprove. This requirement only applies to the fund-raising events operated by charities or non-profit organizations that are not associated with the Putnam City Schools.

Procedures:

1. To request approval the charity or non-profit organization must complete the Request for Fund-raising Events Form.

3. All requests for fund-raising events will be forwarded to the Superintendent.

4. The Superintendent will either approve or disapprove the event.

If a fund-raising event is approved by the Superintendent, the District's Business Manager will determine the method of accounting to be used for the donations.

**Methods of Accounting:**

**Payroll Deduction:** Fund-raising event involves only employees of the District, a payroll deduction will be allowed. The employee must give the payroll office written authorization of the amount to be withheld and remitted to the organization. A remittance will be made to the organization at a minimum of once a month.

**School Activity Fund Sub account:** When a fund-raising event involves employees, students and others in the community, a sub account within the School Activity Fund will be established.

The Board of Education must approve the account prior to the fund-raising event. The purpose of the fund-raising event will be for donations. The only authorized expenditures will be the remittance of the donations to the organization. The remittance will occur after it is certain that all reasonable donations have been received.

The patriotic society shall provide verbal or written notice to the principal of its intent to speak to the students. The principal shall provide verbal or written approval of the specific day and time for the society to address the students.

The primary use of District buildings, facilities, and equipment shall be for the District’s educational and extra-curricular programs. However, the community is encouraged to use District buildings, facilities, and equipment when appropriate. Therefore, in accordance with Administration regulations and appropriate fee schedules, District buildings, facilities, and equipment shall be available for use by the community when such use does not conflict with the District’s educational and extra-curricular programs.

Smoke Free Environment/ Tobacco Use Policy: The District is committed to providing a healthy, comfortable, and productive environment for all persons using school facilities. The District recognizes that the use of smokeless tobacco, tobacco smoking and the environmental tobacco smoke (second hand smoke) has been shown to be linked to illnesses and disabilities and that
federal law prohibits smoking in any indoor facility or the grounds thereof, which is used to provide educational services to children. This policy is intended to improve the health and safety of all individuals using the schools.

1. Therefore, smoking, chewing/dipping, or any other use of tobacco, tobacco products, vapor product, or vapor products by faculty, staff, students, and members of the public is prohibited on, in or upon any school property, school vehicles, or at any school-sponsored or sanctioned event or activity. It is the intent of this policy to prohibit tobacco use of any kind by anyone on school property 24 hours per day, seven days per week, including non-school days and will apply to all students, faculty, staff and visitors and to any outside agency using the district’s facilities. Possession of tobacco products (or a lighter) is prohibited by students on, in or upon any school property.

- “School Property” is defined as all property owned, leased, rented, or otherwise used by any school in this district including but not limited to the following:

  - All school grounds and buildings over which the school exercises control including areas surrounding any building, playgrounds, athletic fields, recreation areas, and parking lots.
  - All vehicles used by the district for transporting staff, students, and visitors.
- “Tobacco” is defined as any lighted or unlighted cigarette, cigar, pipe tobacco, bidi, snuff, chewing/dipping tobacco and all other kinds and forms of tobacco prepared in such manner to be suitable for chewing/dipping, smoking (or both), and includes cloves or any other product packaged for smoking.

District employees will be compensated at 1½ times their daily rate of pay.

4. Groups renting facilities shall be held responsible for damage to the building and equipment.

5. Religious groups may rent District facilities on a temporary basis. Renewals shall be considered up to six (6) months. Rental shall be based on emergency conditions or during organizational efforts to build a facility.

8. Bluebirds, Brownies, Campfire Girls, Girl Scouts, Cub Scouts, Boy Scouts and homeowners associations are approved to hold their regular meetings in District facilities without charge. Arrangements must be made in advance with building principal.

9. District school regulations on the use of a particular facility shall be given at the time of rental.
10. Adult sponsors must supervise groups at all times. Activities must be confined to the area assigned.

11. No intoxicants or narcotics shall be used in or about District buildings and premises.

12. Smoking in District buildings is prohibited.

SAFETY PROGRAMS

General: The regulations, practices, and procedures of the District shall promote safety throughout the District and shall establish and maintain conditions, which are reasonably safe and healthful for District employees, students, and visitors. The District Safety Officer shall have overall responsibility for the safety programs of the District. General areas of emphasis shall include, but not be limited to, in-service training, accident record-keeping, facility inspection, driver and vehicle safety programs, fire prevention, emergency procedures, traffic safety, and the safety of all persons present on District property or attending District-sponsored events.

Reporting Child Abuse: In accordance with state law, any District employee who has reasonable cause to know or to suspect that a student under the age of eighteen (18) has been subject to abuse or neglect or who has observed the child being subjected to circumstances of abuse or neglect shall immediately report or cause to be reported such situation to the Department of Human Services and local law enforcement. Such report shall be made according to any applicable Administrative Regulations or forms, and a copy shall be submitted to the District's Health Services Office. Employees shall not contact the student's family or others to investigate any suspected abuse or neglect.

District shall post in clearly visible public area of the school, a sign that is written in English and Spanish and contains a toll-free telephone number operated by the Department of Human Services to receive reports of child abuse or neglect. The statewide toll-free hotline for DHS is 1-800-522-3511.

Any District employee who as a reason to believe that a student who is eighteen (18) years of age or older is a victim of abuse or neglect shall report the matter immediately to local law enforcement. Local law enforcement will keep confidential and redact any information identifying the reporting school employee unless otherwise ordered by the court. Any school employee with knowledge of a report made by another school employee shall not disclose information identifying the reporting school employee unless otherwise ordered by the court or as a part of an investigation by local law enforcement or the Department of Human Services.

Sexual Abuse of Students: Three essential practices for employees to keep in mind with respect to the prevention of sexual abuse of students are as follows:

1. Avoid engaging in behaviors which could be mistaken for boundary invasion or grooming behaviors. Keep interactions with students on a professional level. Refer students who need emotional or other support to appropriately trained staff such as counselors or school psychologists. Staff can be caring while maintaining professional boundaries.
2. Report situations where such behaviors by other employees take place.
   - Do not make your own inferences or waste time determining whether or not to report the behavior, inform the principal immediately.
   - Do NOT confront or discuss the matter with the adult engaging in the boundary invasions unless immediate intervention is necessary.

3. Maintain confidentiality. Do not discuss concerns with anyone other than the appropriate administrator, Child Protective Services, or the police.
   - Maintain your own documentation. Document who you notified, where and when, and what you reported.

**Threatening Behavior**: An officer or employee of the District or a member of the board shall notify law enforcement of any verbal threat or act of threatening behavior which reasonable may have the potential to endanger students, school personnel or school property. Threatening behavior means any verbal threat or behavior, whether or not it is directed at another person, which indicates potential for future harm to students, school personnel or school property. Persons making such reports in good faith will be immune from employment discipline as well as civil liability.

**Suicide Awareness and Training**: District will provide training to all staff on a biennial basis that addresses suicide awareness and prevention. District will select curriculum for its training in accordance with the standards provided for by law and will post the course outline for the curriculum on its website. Beginning with the 2022-2023 school year, the board may also provide training to address suicide awareness and prevention to students in grades seven (7) through twelve (12).

Immediately upon determining that a student is at risk of attempting suicide, teachers, counselors, principals, administrators or other school personnel shall notify the parents or legal guardians that such risk exists. Teachers, counselors, principals, administrators and other school personnel shall be immune from liability and discipline as provided for by law.

**Safety Education**: The practice of safety shall also be considered a facet of the instructional plan of the District by virtue of educational programs such as traffic and pedestrian safety, driver education, fire prevention, and emergency procedures which are appropriately suited for students of different grade levels. In addition, safety education shall be provided as is necessary and appropriate to students
participating in laboratory science courses, shop courses, and physical education courses. Each principal, under direction of the superintendent of the school district, shall conform to the written plans and procedures adopted by the district as required by Oklahoma law. The school district shall document all safety drills in writing and by school site with a copy of the report remaining at the school, a copy filed with the district administrative office and a copy with the Oklahoma School Safety Institute as created by the Oklahoma Office of Homeland Security.

Safe Schools Committee/Healthy and Fit School Advisory Committee: District and the families of the District’s students should work together to address concerns of safety and the threat of violence in schools. Therefore, the District hereby authorizes the establishment of a single committee to perform the functions of both the Healthy and Fit School Advisory Committee and the Safe School Committee at each school site: Committee shall be composed of at least seven (7) members and shall include teachers, parents of enrolled students, students, and a school official who participates in the investigation of reports of bullying. The Committee may include administrators, school staff, school volunteers, community representatives, and local law enforcement agencies.

Each school site’s principal shall appoint the members of the Committee. The Committee will be involved in the monitoring, implementation and evaluation of the law with respect to access to foods of minimal nutritional value. The Committee will also assist the District in promoting a positive school climate by assisting with the planning, implementing and evaluating the effectiveness of bullying prevention and response. In addition, the Committee shall study and make recommendations to the principal at least once each year regarding:

Health Issues:
1. Health education;
2. Physical education and physical activity; and
3. Nutrition and health services.

Safety Issues:
1. Unsafe conditions: possible strategies for students, faculty and staff to avoid physical and emotional harm at school, student victimization, crime prevention, school violence, and any other issues which relate to the providing and the maintaining of a safe school environment for all students
2. Student bullying
3. Professional development needs of faculty and staff to recognize and implement methods to decrease student bullying

4. Methods to encourage the involvement of the community and students, the development of individual relationships between students and school staff, and the use of problem-solving teams and resources that include counselors and other behavioral health resources within or outside the school system.

5. Professional development needs of Faculty and Staff to recognize and report suspected human trafficking.

The Committee shall review the district policy for the prevention of bullying and the list of research-based programs appropriate for the prevention of bullying of students at school compiled by the State Department of Education. In addition, the Committee may review traditional and accepted bullying prevention programs utilized by other states, state agencies, and/or school districts.

**Disaster Plans and Safety Drills:** The District shall have written plans and procedures for protecting students, staff, and visitors from natural and man-made disasters and emergencies. Disaster plans shall be placed on file with the District and with the local emergency response organization within the district, which may include police, fire, emergency medical services, sheriff and emergency management of the appropriate jurisdiction. The plans shall be submitted in a format acceptable to the emergency agency no later than November 1 of each year. Annually, the Administration shall report to the Board the status of emergency preparedness and identified safety needs for each school.

In addition, District's board of education shall coordinate with the emergency medical services providers serving its area to develop an Emergency Action Plan for each facility and athletic practices, events or activities held at District facilities. The Emergency Action Plan shall meet all requirements provided for by law and shall be reviewed, updated and rehearsed annually with school officials and local emergency medical service providers. The Emergency Action Plan shall be placed on file with the District and the emergency medical services provider and shall be updated to reflect any potential significant change that would affect implementation of the plan.

The Emergency Action Plan shall be digitally transmitted to a visiting school administrator or coach, or posted to the District’s website, prior to any athletic event or activity involving athletes from visiting schools.

The District shall conduct the following drills:
Security Drills: Each public school within the District shall perform at least four (4) security drills per school year as required by law. No security drill shall be conducted at the same time of day as a previous security drill conducted in the same school year, and no more than two security drills shall be conducted in one semester. Additional drills may be conducted at the discretion of the District. Security drills shall be conducted for the purpose of securing school buildings to prevent or mitigate injuries or deaths that may result from a threat on or near the school. The drills shall conform to the written plans and procedures adopted by the District. All students and employees shall participate in the drills with the extent of student involvement to be determined by the district.

In addition to the four (4) security drills, all districts are required to conduct a minimum of six (6) safety drills as follows:

**Tornado Drills**: The District shall have two (2) tornado drills per school year with at least one drill being conducted in the months of September and March.

**Fire Drills**: Principals shall prepare and publish a plan for the evacuation of their respective buildings in case of fire. Fire drills shall be conducted at least twice per school year. Each fire drill must occur within the first fifteen (15) days of each semester. The fire drills shall include the sounding of a distinctive audible signal designated as the fire alarm signal. Each fire drill shall be documented in writing by public school site, and such records shall be preserved for at least three (3) years and made available to the State Fire Marshall or his agent upon request.

The Principal and the Superintendent shall determine the additional safety drills to be performed consistent with the risks assessed for the particular facility or the recommendations of the Safe School Committee and/or local fire and law enforcement.

The District shall conduct a minimum of eight (8) safety drills per school year, in addition to the two (2) lockdown drills. The principal and the superintendent shall determine the additional safety drills to be performed consistent with the risks assessed for the particular facility or the recommendations of the Safe School Committee and/or local fire and law enforcement.

**Emergency Closings**: The Superintendent may close the District’s schools, dismiss school early, delay the beginning of school, or take other appropriate measures in the event of hazardous weather or other emergencies which necessitate such action.
Health and Safety Emergency: District’s primary concern in any emergency situation is the health and safety of the students, staff and their families. In the event of an emergency that endangers health and safety in such a manner that a person's physical presence in a school building could potentially expose them to pathogens which could lead to illness, no students or families are permitted to be inside a school building until the Superintendent has declared that it is safe. In addition, no staff member shall enter a school building unless the purpose is to provide "essential" services. Any staff members who the Superintendent classifies as "essential" or necessary to perform "essential" duties may be required to be physically present on school property at certain times as designated by the Superintendent. Any staff member who is required to be physically present in a school building shall strictly follow all health and safety guidelines established by the Center for Disease Control ("CDC") and/or the Oklahoma State Department of Health ("OSDH").

**Bomb Threats:** Bomb threats shall be handled according to District's Emergency Procedures Guide.

**Accidents:** Accidents involving employees, students, or visitors shall be reported to the Superintendent and investigated as deemed appropriate.

**Hazard Communication Standard:** The Superintendent or the Superintendent’s designee shall maintain and make available to District employees such accident and safety reports and chemical hazard information as required by law, including, but not limited to Material Safety Data (MS), Asbestos Containing Materials (ACM), and Chemical Information Listing (CIL). The District shall report any health and safety information as required to the appropriate governing agency. Any accident resulting in the hospitalization of five (5) or more employees or the death of one (1) or more employees shall be reported to the Oklahoma Department of Labor within forty-eight (48) hours of the accident.

The Administration, in conjunction with other appropriate officials, shall identify hazardous substances on District property, shall maintain proper labeling, notice, and storage of containers of hazardous substances, and shall provide appropriate safety training and equipment as set forth in Administrative Regulations.

**First Aid:** Nurses or health aids shall perform all first aid and emergency care in accordance with applicable laws and regulations. In the event that a nurse or health paraprofessional is not available, first aid may be administered by a principal, an administrator, secretary, counselor, and other qualified personnel as designated.
In the event of a serious injury to a student, school personnel shall contact emergency services (911) if deemed appropriate and shall attempt to notify the student's family or guardian as soon as possible. If a family member or guardian can be reached, that person shall determine whether the student is to be transported to a designated hospital or picked up by the family member or guardian. If a family member or guardian cannot be reached and school personnel deem the injury serious enough to warrant emergency treatment, an ambulance shall be requested. The District is not responsible for any transportation and/or medical costs associated with emergency care.
Hazard Communication Program

In order to comply with the Hazard Communication Standard, the following written Hazard Communication Program has been established for Putnam City Schools:

**Container Labeling**

1. The Safety Officer will verify that all containers received for use will:
   
   A. Be clearly labeled as to contents.
   
   B. Display the appropriate hazard warning.
   
   C. List the name and address of the manufacturer.

2. The Head Custodian, Maintenance Foreman, Food Service Manager, Science Teacher, Teacher, Art and Journalism Teacher in each section will ensure that all secondary containers are labeled with either an extra copy of the original manufacturer's label or with the generic labels which have a block for identity and blocks for the hazard warning.

3. The Safety Officer will review the school labeling system every year and update as required.

**Material Safety Data Sheets/Chemical Information List (MSDS/CIL)**

1. The Safety Officer will be responsible for obtaining and maintaining the data sheets/information lists for the school.

2. The Safety Officer will review incoming MSDS/CIL for new and significant health/safety information. Such officer will assure that any new information is passed on to the affected employees.

3. Copies of MSDS/CIL for all hazardous chemicals to which employees of this school may be exposed will be kept in the Buildings and Grounds Office, 5720 N.W. 41st Street, and in the Principal's office.
4. MSDS/CIL will be available to all employees in their work area for review during each work shift. If such are not available or new chemicals in use do not have MSDS sheets, immediately contact the Safety Officer, 495-6182.

Employee training and information

1. The Safety Officer is responsible for the employee training program. He will ensure that all elements specified below are carried out.

2. Prior to starting work each new employee of the Putnam City School District in the custodial and service groups will attend a health and safety orientation and will receive information and training on the following:

   A. An overview of the requirements contained in the Hazard Communication Standard.
   
   B. Chemicals present in their workplace operations.
   
   C. Location and availability of the written hazard program.
   
   D. Physical and health effects of the hazardous chemicals.
   
   E. Methods and observation techniques used to determine the presence or release of hazardous chemicals in the work area.
   
   F. How to lessen or prevent exposure to these hazardous chemicals through usage of control/work practices and personal protective equipment.
   
   G. Steps the company has taken to lessen or prevent exposure to these chemicals.
   
   H. How to read labels and review MSDS/CIL's to obtain appropriate hazard information.
   
   I. Location of MSDS/CIL file and location of hazardous chemical list.

3. After attending the training class, each employee will sign a form to verify that they attended the training, received the written materials and understood the school's policies on Hazard Communication.

4. Prior to a new chemical hazard being introduced into any section of a school, each employee of that section will be given information as outlined above. The Safety Officer is responsible for ensuring that MSDS on the new chemical(s) are available.
Hazardous Non-Routine Tasks

Periodically, employees are required to perform hazardous non-routine tasks. Prior to starting work on such projects, each affected employee will be given information by their section supervisor about hazardous chemicals to which they may be exposed during such activity. This information will include:

A. Specific chemical hazards,

B. Protective/safety measures the employee can take,

C. Measures the district has taken to lessen the hazards including ventilation, respirators, presence of another employee, and emergency procedures.

Hazard Program

The hazard communication program shall be reviewed by the District Hazard Communication Committee.

All work units of the school are included within this program. The written program will be available in the Buildings and Grounds Office, 5720 N.W. 41st Street.
SAFETY DRILLS

The School District will conduct ten (10) safety drills each school year. The Superintendent shall be responsible for ensuring that all ten (10) drills have been appropriately conducted at each school site within the school district. It shall be the duty of the site principal, under the direction of the superintendent, to conform to the written plans and procedures adopted by the school district. All students and teachers shall participate in the safety drills. The ten (10) drills shall consist of the following:

1. Lockdown drills. A minimum of two (2) lockdown drills shall be conducted at each site within the first fifteen (15) days of the 2nd and 4th quarters. No lockdown drill can be conducted at the same time of day as a previous lockdown drill in the same school year. Lockdown drills shall be conducted for the purpose of securing school buildings to prevent or mitigate injuries or deaths that may result from a threat on or near a school.

2. Fire drills. Each school site shall conduct a minimum of four (4) fire drills per school year. Each fire drill shall be conducted within the first fifteen (15) days of each quarter. The fire drills shall include the sounding of a distinctive audible signal designated as the fire alarm signal. Fire drill procedures are developed by each school. A copy of each report should be sent to the District Operations Office and a duplicate copy kept on file in the principals/s office. Such records shall be preserved for at least three (3) years and made available to the State Fire Marshal or his agent upon request.

3. Intruder drills. Each school site shall conduct a minimum of two (2) intruder drills per school year. Intruder drills are conducted for the purpose of mitigating injuries or deaths by executing a plan as an alternative to the lockdown method. An intruder drill shall be conducted within the first fifteen (15) days of the 1st and 3rd quarters.

4. Tornado drills. Each school site shall conduct a minimum of two (2) tornado drills per school year. Tornado drills are required by law to be conducted in the months of September and March. Each site will determine the signal to be used for the Tornado Drill and make sure all school personnel and students know how to distinguish it from other signals.

Documentation of completion of all drills shall be maintained. The principal or designated staff member shall submit a copy of the completed Drill Check Sheet, BC-R3-F, to the District Operations Office or designee, the same day the drill is held. A duplicate copy of each report should be kept on file in the principals/s office. The school district shall document all safety drills in writing and by school site with a
copy of the report remaining at the school, a copy filed with the district administrative office. The District Operations Office will provide a copy to the Institute for School Security Resources.
Definition of Terms

1. A tornado watch indicates that, within a period of several hours, a tornado may strike in a designated area.

2. A tornado warning indicates a tornado has been spotted or indicated on radar and that the tornado is likely to strike in a designated area immediately or within the next hour.

3. The municipal warning siren, when sounded, indicates there is a situation that demands attention. The warning siren may be sounded in reference to severe weather or any other emergency situation. When the warning siren is sounded, the administrator must gather information on the situation and act accordingly. For severe weather events, the municipal sirens are sounded when the National Weather Service issues a weather warning for that area. The warning sirens may sound repeatedly as warnings are issued. There is no “all clear” signal.

When a tornado warning has been received, the superintendent or designated administrator shall notify all schools in the area. Upon being notified of a tornado warning, the principal or designated staff member must check weather conditions in the area to determine if it is necessary for students to be moved into the refuge areas. A designated staff member will monitor commercial radio or TV for tornado warnings and information.

It is not necessary for schools to wait for the “weather alert” before moving students into the refuge areas. If the principal or designated staff member deems it advisable to move students into the refuge areas this should be done immediately. Designated staff members will be assigned to bring in children from playgrounds or other outdoor areas during a tornado warning.

Each principal or staff representative is expected to use individual best judgment as to when students should leave the refuge areas and return to the classrooms.

Refuge Areas

1. Students that are housed in single story buildings should be moved into the interior corridors.

2. Students housed in multiple story buildings should evacuate the top story. Move as many students as possible into the corridors of the lower floor. If this space will not accommodate all
students, then use the corridors of the second floor. In all cases, move all students into or as near to the ground floor as possible.

3. In situations where a part of the students are housed in annexes, adjacent to the main building, move the students from the annex into the main building when space is available.

4. Avoid the use of large enclosed areas as places of refuge, such as auditoriums, gymnasiums, cafeterias, etc.

5. Refuge areas for each district building are designated based on the particular and individual characteristics of the building.

6. Boiler rooms and Mechanical rooms are **NOT** to be used as refuge areas.

**Teacher’s Responsibility**

The classroom teacher has the responsibility for preparing the students for the drills as well as the real emergency. Information given by the teacher will do much to protect the emotional health of the child. Statements by uniformed or poorly informed individuals can cause students to become emotionally upset.

**Variety**

It is recommended that safety drills be held under all kinds of conditions and circumstances, and from all parts of the building in order to prepare students for any emergency that would make it necessary for them to be moved into the refuge areas. Among these would be the following situations:

- from regular classrooms
- from regular classrooms with a blocked exit
- from assemblies
- when part of the students are in the classrooms and others are on the school ground or in the cafeteria
- when students are in the process of changing classes
- any other situation in which students might be found
- from cafeteria
Dismissal of Children

1. School will not be dismissed because of a tornado watch or warning.

2. Children will not be permitted to leave school during a tornado warning alert in the Putnam City School area.

Exception: Parents may go to the school and get their children. When parents go to the school after their children, they should contact the principal's office and let a member of the school personnel get the student from the classroom. When parents go to the classroom, it excites the other students and disrupts teaching.

3. If at dismissal time a storm is approaching and it is believed the children will not have time to reach home before it strikes, keep the children in the building until it is deemed safe to dismiss them.
SAFETY PROGRAM
BOMB THREATS

When a bomb threat has been received, the following procedures shall be followed:

1. The principal or supervisor shall request the person who received the notification to immediately complete the Bomb Threat Checklist for the purpose of determining the validity of the threat.

2. Notify campus police immediately.

3. A decision whether to evacuate the building shall be made by the principal or supervisor.

4. A search of the premises shall be conducted by the building principal or supervisor, police officers, and custodians.

5. If any foreign object is located, the police office shall notify the bomb squad for further investigation and removal.

6. If a thorough search has been conducted and nothing is found, the principal or supervisor shall notify employees that re-entry will be permitted.

Adopted: 09/97. Rev. 8/13
DISTRICT POLICY

HEALTH AND COMMUNICABLE DISEASES

Communicable Diseases: Any employee or student with knowledge of a suspected or confirmed case of a communicable disease is responsible for reporting this information to the appropriate personnel. Exclusions from school may be required when it is deemed necessary to promote the safety and well being of all students and employees. Decisions about how best to provide educational services to those students shall be made by the administration of the District, and the administration may consult with and seek the advice of available district and/or county health officials.

In dealing with communicable diseases, the District believes that:

1. Public education should be made available in the least restrictive environment that is appropriate to the individual needs of the student.
2. Public education should be provided in a safe and orderly environment.
3. Each student and employee should be treated with dignity and has a right to confidentiality.
4. Students or employees infected with HIV (the AIDS virus) or other related conditions will not be subjected to illegal discrimination but will be dealt with in a manner consistent with the District's legal obligations to the infected student or employee as well as its obligation to all other students and employees of the District.

Communicable diseases shall be evaluated on an individual basis considering whether the condition is life threatening, the degree of communicability, and whether the disease has been or should be confirmed with laboratory documentation.

A. Placement of Students: If a student is diagnosed with Acquired Immune Deficiency Syndrome, the State Department of Health shall be notified. In determining the placement of a student with a communicable disease, a multi-disciplinary team may be convened as provided by law. If a student is to be excluded from school because of a communicable disease, the student shall be placed on the home bound program until the student is able to return to school. No entry regarding a communicable disease shall be made on the student's cumulative record, health card, the computerized student data base, or other record maintained by the District.

B. Placement of Employees: No employee may be dismissed or have his contract not renewed merely as a result of having a communicable disease except as allowed by law. School
personnel who are required to be absent from their work due to a communicable disease shall be
subject to the sick leave policy of the school.

Re-admittance to school and/or work may require a statement by a physician or other health professional
stating that the individual is no longer infected and/or is no longer able to transmit the disease. No entry
regarding a communicable disease shall be made in the employee's personnel file.

**Bloodborne Pathogens:** Body fluids of any person may contain infectious or contagious bacteria or
viruses which may be spread from one person to another by accidental or careless handling of body fluids
during sanitation work, custodial work, or the administration of emergency first aid. In accordance with
the Bloodborne Pathogens Act, the Board shall promote an environment within which all employees and
students are protected from contagion.

The Superintendent shall establish regulations which shall include a control plan, vaccination procedures,
the handling and disposal of body fluids, and exposure follow-up procedures in order to comply with the
Bloodborne Pathogens Act. The District shall provide appropriate instruction in the handling of body
fluids through inservice presentations or other means. The Superintendent shall also direct the
identification of employees who may, as a result of their job duties, be in contact with blood or other
potentially infectious materials. Any employees so identified shall be offered Hepatitis B vaccinations at
the District’s expense. The District shall also make personal protective equipment available to employees
for use in handling and disposing of body fluids.
HEALTH AND COMMUNICABLE DISEASES

HEAD LICE

Procedure for students with head lice:

1. A student shall be sent home from school at the end of the day for treatment when direct inspection of the hair and scalp reveals the presence of crawling forms (lice). The student’s parent/guardian will be contacted to inform them of this condition and to educate them about treatment and care that needs to be done before the student returns to school the next day.

2. Educational material will be given to the student to take home at the end of the day.

3. If the student presents him/herself for a recheck on their return to school and live lice are found, the parent of the student will be called to inform them of this. A recommendation will be made that they contact their primary care doctor for help with further treatment since they cannot be retreated at this time.

4. Exceptions to these regulations are left to the principal or designee. If a student is found to have an infestation of live lice or an abnormal amount of nits, every effort will be made to contact the parent and to send the student home during the school day.
HEALTH AND COMMUNICABLE DISEASES

BED BUGS

Bed bugs are small parasitic insects that feed solely on the blood of people and animals while they sleep. They are not known to spread any kind of disease and are not considered a medical or public health hazard. However, their presence in a home can significantly affect quality of life, and their presence may cause itching, secondary skin infections from scratching and loss of sleep.

Because bed bugs live where people sleep, schools are unlikely places for infestations. However, bed bugs may be inadvertently transported from infested homes to school on the clothing, backpacks and belongings of children. It is important that if this happens, schools proactively address the situation actions to help stop the spread of bed bugs.

Procedures for a Suspected Bed Bug

1. If a suspected bed bug is found on a student, be sensitive to the problem and to the student’s emotions, use discretion and don’t overreact. The student should be temporarily removed from the classroom so the school nurse, health aide or an administrator can perform an inspection of the student’s clothing and other belongings (including: hat, shoes, jacket, backpack and school supplies). It is not necessary for the student to be sent home or isolated from other students. It is important to treat each student with discretion, dignity and respect during this process.

2. When a bed bug or suspected bed bug is found, place it in a plastic Ziploc bag and seal tightly. Do not crush the bug because it will be difficult or impossible to accurately identify it.

3. The bag containing the bug should be given to the principal.

4. The bag should be labeled with the date, school and room where the bug was found. If the student rides a bus, the bus number should be put on the bag.

5. The principal should place the specimen in specific, out-of-the-way place in the office area where until it is picked up.

6. When students are out of the classroom, the school nurse, health aide or an administrator should check the areas where the student sits or affected belongings may have been placed for extended periods of time.
7. Student belongings such as backpack and other personal items not needed in the classroom or at recess should be double bagged using plastic zip-lock bags. Make sure the bags are sealed tightly.

8. Keep these bagged items in a designated sealable plastic storage tub out of site in the office or other secure area where they will remain undisturbed until the child retrieves them at the end of the day.

9. After the students belongings have been removed from the storage container, inspect it for any stray bed bugs.

10. Do not treat the storage container with pesticides. Wash it with detergent or wipe it down with alcohol.

11. Parents should be notified by the principal of the possibility of bedbugs and told they will be contacted after the bug is positively identified.

12. School staff are not to attempt to use any pesticides. This includes, but it not limited to, sprays, alcohol and pesticide bombs. The chemicals and bombs are ineffective against bed bugs and can pose a health risk to people with respiratory problems.

13. The principal should contact the Director of Buildings and Personnel Safety. The Director of Buildings and Personnel Safety will arrange for the district’s pest management company to pick up and identify the specimen. The identification should be made as quickly as possible, if possible the same day.

14. The pest management company will notify the Director of Buildings and Personnel Safety of findings, who in turn will notify the principal.

Procedures Following Positive Identification of Bed Bug

1. If the specimen from the school is positively identified as a bed bug, the Director of Buildings and Personnel Safety will work with the principal to arrange for inspection and treatment of the site during after school hours.

2. Using an electronic form to be created and placed on .pc, the principal should make a record listing

   - The date and time the bug was found.
   - The school and room where the bug was found.
• Exactly where the bug was found (on a student, on a student’s belongings, on walls or furniture, etc.).

• If the student is a bus rider, the bus number the student rides.

• Date and time of contact with the Facilities Safety and Service Crew Director.

3. The principal should maintain on an annual basis a schematic or drawing of the building mapping the location and date of all confirmed bed bugs.

4. If the specimen is confirmed as a bedbug, and if the student is a bus rider, the Director of Buildings and Personnel Safety will also notify Transportation. Transportation staff will check the bus and keep records of potential bed bugs on buses. After three potentials on one bus, the Director of Buildings and Personnel Safety will arrange for the district’s pest management company to examine the bus.

5. If the specimen is positively confirmed as a bed bug, and it is determined the school needs professional inspection and extermination services, do not remove books, furniture, rugs or anything from the affected area unless directed to do so by the pest management company.

6. For two weeks following positive identification of a bed bug, the classroom should be thoroughly vacuumed with special attention to cracks and crevices in furniture, equipment, walls and floors. HEPA vacuums are the best choice. When finished, place the vacuum cleaner bag into a trash bag before leaving the area and then discard the bag immediately. Never use the vacuum cleaner in another uninfested area without replacing the bag first. These procedures should be monitored by the Buildings and Personnel Safety Director.

7. Repeated weekly inspections by school personnel are important to be sure the problem has been taken care of.

8. If a student is believed to have brought a positively identified bed bug to school, the principal should notify the student’s parent or guardian. Parents should be encouraged to promptly respond to bed bugs in the home for the benefit of the family and school community. Share the following suggestions with parents:

• If the home is being rented, notify a landlord immediately, especially if an infestation is suspected.

• If the home is owned by the parent or guardian and an infestation is suspected, a professional pest management company should be consulted immediately.

• Send only essential items to school with the student.
• Keep school items sealed in a plastic bag or plastic storage box with a lid at home to limit the likelihood of re-infestation.

• Keep clean clothes sealed in a plastic storage box with a lid or trash bag until the student puts them on in the morning.

• Also share with parents a copy of the Oklahoma City-County Health Department fact sheet at https://www.occhd.org/system/files/3361/original/Bed_Bugs_Fast_Facts.pdf?1405627400

• Notification of other parents should occur only if a classroom infestation is identified by a pest management company.
General Provisions: The Board requires and encourages close cooperation between its employees; the Putnam City Schools Campus Police Department; local police, fire, and sheriff departments; safety officers and risk managers appointed by the District; and the District’s insurance companies in maintaining the safety and the security of all buildings and grounds.

Limited Access: Access to school buildings and grounds outside of regular school hours shall be limited to authorized personnel. An adequate key control system shall be established to limit access to buildings and to safeguard against the potential of entrance to buildings by keys in the hands of unauthorized persons. Records and funds shall be kept in a safe place and under lock and key when required. Protective devices designed to be used as safeguards against illegal entry and vandalism shall be installed when appropriate.

Surveillance Videos: The District utilizes video cameras to enhance its security operations. Video cameras may be placed in buses, hallways, parking lots, common areas, cafeterias, stadiums, auditoriums, and any other areas except locker rooms and bathrooms. These video cameras are monitored and are under the control of the District’s Campus Police Department. The District’s Campus Police Department is responsible for the creation and maintenance of any surveillance videos. Building principals may request copies of any recording made by any surveillance video cameras from the Campus Police Department.

Surveillance videos are NOT considered to be educational records of students unless used for disciplinary action on a student, which are protected by FERPA and not subject to the Open Records Act, but are considered to be records of a law enforcement unit. As records of a law enforcement unit such records are not subject to the right of inspection by subject to disclosure under the Oklahoma Open Records Act. Surveillance videos may be used in disciplinary actions against students and employees and may be publicly disclosed during such disciplinary proceedings.

Videos will not be retained unless the District’s Campus Police Department determines that a video is needed. Any requests from the media for copies of videos are to be handled by the Communications Director. All other requests for copies of videos should be submitted to the Campus Police Department. The District shall have discretion as to the release of surveillance videos.

Reporting and Prosecuting Criminal Acts: Employees, students, and citizens of the District should report any criminal activity occurring on District property to the Putnam City Schools Campus Police Department. The Superintendent or the Superintendent’s designee shall be authorized to pursue a
DISTRICT POLICY

criminal complaint and to press charges against persons suspected of criminal activity occurring on District property as deemed appropriate.

If an employee is subject to an assault, a battery, or an assault and battery during the performance of any school duties, the employee shall notify the Superintendent, the building administrator, or a member of the Safe School Committee. Any building administrator or member of the Safe School Committee so notified shall notify the Superintendent. Each school site shall post the following notice in a prominent place:

FELONY CHARGES MAY BE FILED AGAINST ANY PERSON(S) COMMITTING AN AGGRAVATED ASSAULT OR BATTERY UPON ANY SCHOOL EMPLOYEE.

Visitors: Parents and patrons of the District are encouraged to visit the District and to observe the activities of the District. Except as otherwise provided, all visitors to the District shall report to the school office upon entering the building, shall sign the visitors’ register, and shall request appropriate authorization to visit the school from the District official in charge of each building. When parents, patrons, and friends have been invited to a school for a particular activity or program, it shall not be necessary to sign the visitor’s register or request any additional authorization to visit the school.

Unauthorized Persons: Any unauthorized person on District property should be reported to the Putnam City Schools Campus Police Department. As authorized by law, the District has the authority and power to direct any person to leave District property who is not a student, officer, or employee and who interferes with the peaceful conduct of activities, commits an act which interferes with the peaceful conduct of activities, or enters the institution for the purpose of committing an act which may interfere with the peaceful conduct of activities.

Any person may be directed to leave any District property and to not return for a period of days specified and as allowed by law. During the period of days specified, the person removed from District property may not be on any District property without first obtaining written permission from the Superintendent or the Superintendent’s designee.

When a person is directed to leave District property and to not return for a specified period of days, the person shall be given written notice of such directive and shall be advised in writing that he/she may appeal the directive to the Superintendent or the Superintendent’s designee in writing within five (5) days of receipt of the directive to leave. The request for an appeal shall set forth the reasons that the directive to leave should be reversed. The employee directing a person to leave District property shall be entitled to respond to the appeal in writing. The Superintendent or the Superintendent’s designee shall make a decision as to whether the directive should be upheld, amended, or reversed and shall communicate such decision in writing to the appealing person and the employee who directed the person to leave District property. The decision of the Superintendent or the Superintendent’s designee shall be final.
In addition, if a person fails to leave District property after receiving a directive or returns prior to the expiration of the period of days specified, the District may pursue criminal charges against the person as authorized by law. Posting Requirements: District will post, on its website, all materials used to train the Compliance Officer or Title IX Coordinators, Investigators, Decision-makers, and any other person who facilitates an informal resolution process.

Burden of Proof: Title IX proceedings provide for a “preponderance of the evidence” burden of proof, meaning that in order to prevail, the Complainant must introduce sufficient evidence that his/her claims are more likely true than not. In determining whether alleged conduct constitutes sexual harassment, the totality of the circumstances, the nature of the conduct, and the context in which the alleged conduct occurred shall be investigated and considered.

Reporting and Investigation:

Victims of sexual harassment are encouraged to report such claims by utilizing the process set forth in this policy. Students may also report complaints of sexual harassment to the principal of the building at which the student attends school.

Once an allegation of sexual harassment has been reported, District is deemed to have actual knowledge and must act. Actual knowledge may be attributed to any District employee. Once District has actual knowledge, District will notify the Complainant and the Respondent, or the parent/guardian of either the Complainant or the Respondent if either of the parties are under the age of eighteen (18), of the accusation of sexual harassment.

If the Complainant does not proceed with a Formal Complaint, no further investigation or action will take place unless the Compliance Officer determines to initiate a Formal Complaint.

If the Complainant desires to proceed with a Complaint, then, within ten (10) days of an alleged violation, the Complainant shall submit a written and signed Complaint to the Compliance Officer and such action shall be considered a Formal Complaint. The Complaint shall, at a minimum, state the Complainant’s name, the nature of the alleged violation, the date of the alleged violation, the names of persons responsible, any witnesses, and the requested action or relief sought.
Upon receiving a Formal Complaint, the Compliance Officer will conduct an initial assessment, may offer supportive measures, will notify parents if students are involved, and will notify the designated Investigator who will investigate allegations of discrimination. Additionally, the Compliance Officer may direct an investigation without a Formal Complaint according to the procedures set forth herein whenever the Compliance Officer deems such action to be appropriate.

During the initial assessment, the Compliance Officer will determine whether the allegations rise to a violation of this Policy. The Compliance Officer will consider whether the allegations meet the definition of Sexual Harassment, whether the conduct occurred on District property or during District-sponsored activities, whether the Complainant is still a District student, whether the Respondent is no longer enrolled in District or an employee of District, and whether there are any other circumstance which would prevent the Investigator from gathering evidence sufficient to reach a determination as to the Formal Complaint and its allegations. If the Compliance Officer determines to dismiss a Complaint at the initial assessment stage, the Compliance Officer will provide written notice of the dismissal to the Complainant and the Respondent. If a Complaint is dismissed and the Respondent is a student, the District may address the issue under its Student Code of Conduct. If a Complaint is dismissed and the Respondent is an employee, the District may address the alleged conduct as a personnel matter. A Complainant or a Respondent may appeal the dismissal of the Complaint as set forth below.

After receipt of a Formal Complaint the Compliance Officer, shall provide written notice to the Complainant and the Respondent of the allegations of the Complaint including if known, the identities of the parties, the date and location of the incident, and the specific alleged Policy violations. The notice will include a copy of the Title IX procedures, will state the Respondent is presumed not responsible until the determination of responsibility is final, and advise of the right to have an advisor of their choosing. Additionally, if the Compliance Officer determines that the Formal Complaint may be resolved without an investigation by providing the relief sought by the Complainant, the Compliance Officer may resolve the Formal Complaint.

The Investigator will conduct a fair, thorough, and impartial investigation and provide both parties with an equal opportunity to present facts, witnesses, and evidence to support their positions. The Investigator may request that the Respondent a written answer or response which shall confirm or deny the facts upon which the allegation is based, indicate acceptance or rejection of the Complainant’s requested action, and/or outline alternatives. The Respondent may also identify witnesses who should be contacted to provide input during the investigation.
The Investigator shall initiate an investigation which may include, but is not limited to, interviewing both the Complainant and the Respondent and any witnesses identified by either party, identifying any documents or tangible evidence supporting or opposing the Complaint, and undertaking any further investigation deemed appropriate by the Investigator. If reasonably possible, the investigation should be concluded within one hundred twenty (120) days after receiving the Complaint, but the Investigator may extend the period of time for an investigation by notifying the Complainant and the Respondent. Additionally, when a law enforcement agency is investigating the same alleged conduct, an investigation may be delayed temporarily so as not to interfere with the law enforcement investigation and so as to meet the needs of the law enforcement investigation.

Each party is entitled to select an advisor of their choosing to advise them during the investigation. An advisor may not be a witness in the investigation and may not be someone whose participation will create a conflict of interest. An advisor shall not act in a manner that obstructs or disrupts the investigative process.

After completion of the investigation, the Investigator shall prepare a written report and shall provide a copy of the written report to the Complainant, the Respondent, and the Compliance Officer. The written report shall include a time line, a summary of the investigation including the statements of all persons interviewed, a synopsis of the evidence, and any applicable credibility determinations. (“Investigative Report”.) The Investigator shall include in an appendix all relevant physical or documentary evidence.

The Complainant and the Respondent shall have ten (10) days to review the Investigative Report and provide written feedback and/or responses to the Investigator about the information contained in the Investigative Report. After the ten (10) day review period, the Investigator shall incorporate relevant elements of the parties’ written responses into the Investigative Report, finalize the Investigative Report, and provide it to both parties.

The Investigator shall also refer the Investigative Report to the selected Decision-Makers to make a determination regarding responsibility and, if applicable, appropriate disciplinary action.

Within ten (10) days of receipt of the final Investigative Report, the Complainant and/or the Respondent may submit written, relevant questions that the party wants asked of another party prior to the determination of responsibility. Both parties will be provided with the answers and follow-up questions.

After the ten (10) days to submit written questions, the Compliance Officer shall send a Notice of Decision-Making to the parties and the Decision-Makers. The Notice of Decision-Making shall include a
description of the alleged violation, a list of all policies allegedly violated, a description of the applicable procedures, and a statement of the potential disciplinary actions.

Determination of Responsibility: Within sixty (60) days of receipt of the Notice of Decision Making, the Decision Makers will review the Investigative Report to determine responsibility and will issue a written Determination of Responsibility which:

- Identifies the allegations that potentially constitute sexual harassment;
- Describes the District’s procedural steps taken from receipt of the Complaint to the determination;
- Includes Findings of Fact to support the determination;
- Includes Conclusions regarding applicable discipline;
- Includes a statement of, and rationale for, the result as to each allegation, including a determination of responsibility, any disciplinary sanctions, and whether remedies to restore or preserve equal access to the District’s educational programs or activities will be provided to the Complainant; and
- The procedures and permissible basis for appeals.

Appeals: Within ten (10) days of receipt of Decision Maker’s determination of responsibility, or dismissal of a Complaint, therein either party may appeal for one of the following reasons:

• A procedural error affected the outcome.
• New evidence that was not reasonably available at the time of the determination and could affect the outcome;
• Conflicts of interest on the part of the Compliance Officer, Investigator, or Decision Maker that affected the outcome.

If an appeal is made, District will provide written notice of the appeal to both parties. Both parties will be provided an equal opportunity to submit a written statement in support of or challenging the determination within ten (10) days of receipt of the written notice to both parties of the appeal being filed. The appeal will be heard by an Appeal Officer who is not the Compliance Officer, the Investigator, or the Decision Maker. The Appeal Officer cannot have a conflict of interest or bias against complainants and respondents generally or the particular complainant and respondent. The Appeal Officer will receive training as mandated by law. The decision of the Appeal Officer will be final and non-appealable. The written decision of the Appeal Officer will be provided within ten (10) days of the deadline for written statements supporting or challenging the initial determination. The written decision will be provided simultaneously to both parties.
Extension of Time: Except as otherwise provided, any time limits established by this policy and these procedures may be extended by mutual consent of the parties involved.

Retaliation: No person shall take any retaliatory action against a Complainant, a Respondent, or any person who participated in the investigation of alleged discrimination. Employees or students who engage in prohibited retaliation may be disciplined as set forth in District policies.

Confidentiality of Records: All records, complaints, notes, documents, and statements made during or relating to allegations of discrimination shall be maintained on a confidential basis by the Compliance Officer. However, in the event official proceedings relating to such allegations are initiated by a party or District, such records may become public in accordance with law. District shall maintain information pertaining to Complaints under this policy for three (3) years after completion of the investigation.

The District provides a wide variety of opportunities for students and employees to use the computers to access the Internet. Through the Internet, it is possible to access material that may contain illegal, defamatory, inaccurate, pornographic, and/or offensive content. Due to the nature of the Internet, the District cannot guarantee that students and employees will not access such material. However, the District is committed to enforcing a policy of Internet safety, teaching appropriate online behavior, and monitoring the Internet activities of its students and employees.

The District makes no warranties of any kind, either express or implied, regarding the Internet access being provided. The district shall not be responsible for any damages users suffer, including but not limited to loss of data resulting from delays or interruptions in service. Nor shall the District be liable for the accuracy, nature, or quality of information stored on District's computer equipment or of information gathered through Internet access provided by the District. However, the Administration shall develop, implement, and maintain regulations and forms to restrict the use of the District's computers and Internet access to legitimate and acceptable purposes and to regulate students’ and employees’ privilege of access and use.

Acceptable Uses: The District's computers, equipment, and software are intended for administration, education, and academic research purposes only and shall be used only as according to administrative regulations. Acceptable uses of the District's computers and the Internet are activities which support learning and teaching or which promote the District's mission and goals.

Prohibited Uses: According to Administrative Regulations, the District's computers and the Internet access provided by the District shall not be used:

1. To violate an individual's right to privacy;
2. To access materials, information, or files of another person or organization without permission;
3. To violate the copyright laws;
4. To spread computer viruses or malware;
5. To deliberately attempt to vandalize, damage, disable, or disrupt the District's electronic property or the electronic property of any other individual or organization;
6. To locate, willingly receive, transmit, store, or print files or messages which are profane, obscene, or sexually explicit, or which use language that is offensive or degrading to others;

8. To campaign for or against any political candidate or ballot proposition.

9. For any commercial purpose resulting in personal gain or other commercial purposes not authorized by the Administration, Board or Board policies and regulations.

10. To engage in any illegal activity.

11. To engage in cyberbullying at school or in the workplace.

Consequences for Misuse: The use of the District's computers and/or the Internet access provided by the District is a privilege, not a right. Any student or employee who inappropriately uses District computers or devices, personally owned devices, or the Internet through any other means may have the privilege of using electronic devices and access to the Internet or network denied, revoked, or suspended and may be subject to other disciplinary sanctions.

No Expectation of Privacy: No student or employee shall have any expectation of privacy in any electronic mail being sent or received by the District's computers or the District-provided Internet access. The District's system operators may access any electronic mail and may remove any inappropriate material from any electronic mail sent or received using the District's computers or the District-provided Internet access.

All Internet usage will be monitored and recorded to ensure compliance with the Children's Internet Protection Act ("CIPA"), as codified at 47 U.S.C. § 254.

Use of Software: Students are prohibited from installing, copying, or downloading any copyrighted or illegal obtained material or software on District's computer hardware. The Board delegates to the Administration the authority to determine matter that is inappropriate for minors.

The District will enforce the operation of the technology protection measures on its computers with Internet access. An administrator, supervisor, or other person authorized by the Superintendent may disable the technology protection measure during an audit, to enable access for bona fide research, or other lawful purposes.

Records Retention: The District will retain its Internet Safety policy documentation for five years after the E-rate funding year in which the policy was relied upon to obtain E-rate funding.
INTERNET ACCESS, INTERNET SAFETY, PERSONALLY OWNED DEVICES
AND USE OF ELECTRONIC RESOURCES

Student Internet Access Agreement: Students and their parent or guardian must sign a Student Internet Access Agreement in order to use the Internet and access the BYOD (Bring Your Own Device) network. A parent can withdraw approval at any time.

The District maintains the right to place reasonable restrictions on the material accessed or posted through District networks. The District's networks are considered a limited forum, similar to the school newspaper, and therefore the District may impose restrictions for valid educational reasons.

Acceptable Uses: The District’s networks and the Internet may be used for activities resulting from specific tasks and assignments which support learning and teaching, and which promote the District’s mission and goals. Students bear the burden of responsibility to inquire with school administrators and/or teachers when they are unsure of the permissibility of a particular use of technology prior to engaging in the use. Students and employees are to use the system only for educational activities, administrative activities, and academic research.

Prohibited Uses: Prohibited uses are those which violate an individual’s right to privacy or access to materials, information, or files of another individual or organization without permission; violation of copyright laws or software licensing agreements; those which spread computer viruses; deliberately attempt to vandalize, damage, disable, or disrupt the property of the District, another individual or individual, organization, or the network; or any effort to locate, receive, transmit, store, or print files or messages that are profane, which depict nudity, sex, sexual acts, excretion, and exhibition of genitals, or use language that is offensive or degrading to others.

1. Students and employees may not use the District’s networks and the Internet for commercial purposes that result in personal gain.

2. Students and employees may not use District’s networks and the Internet for political lobbying. Students and employees may use the system to communicate with elected representatives and to express their opinions on political issues.

3. Students and employees will not attempt to gain unauthorized access to the District’s networks or to any other computer system through the district networks, or go beyond individual authorized access. This includes attempting to log in through another person’s user name or accessing another person’s files. These actions are prohibited, even if only for the purposes of “browsing”.

Adopted: August 18, 1997; rev. 5/99, 10/01, 9/02, 7/07, 6/10, 1/13, 5/14, 7/15
4. Students and employees will not make deliberate attempts to disrupt the computer system or destroy data by spreading computer viruses or by any other means.

5. When instances of use outside of school carry over to the school day in a way that disrupts the instructional process and the learning environment, the school is empowered to deal with the disruption in a disciplinary action.

6. Social networking websites are a popular method of communication among students and employees in the off-campus hours. When off-campus use carries over to the school day in a way that disrupts the instructional process and the learning environment, the school is empowered to deal with the disruption in a disciplinary action.

7. Personally and district-owned devices are permitted for educational purposes and/or in approved locations only. The use of personally owned devices in locker rooms, restrooms, and nurses’ offices is prohibited.

8. Students are not permitted to use any electronic device to record audio or video media or take pictures of any student or staff member without their permission. The distribution of any unauthorized media may result in discipline including suspension or criminal charges.

**Personally Owned Devices**: All district students shall review and agree to this policy before connecting any personally owned device(s). The District reserves the right to restrict student use of district owned technologies and personally owned devices on school property or at school-sponsored events. Students who disrupt the safety and/or well-being of the school are subject to disciplinary action.

A personally owned device will include all existing and emerging technology devices that can take photographs; record audio or video; input text; upload and download media; and transmit or receive messages or images. Examples of a personally owned device shall include but is not limited to: tablets, laptops, smart phones, wearable technologies, as well as any device with similar capabilities.

The student network is made available as a resource. The District may block or remove student access if deemed necessary. All personal devices accessing the Internet through the District network will be subject to the District’s content filtering system. Students are responsible for all content accessed from their device.

Not all devices may be compatible with the network authentication system. Devices must be able to securely connect to an 802.1x-enabled network.

Students and employees joining the District network with personal devices will self-register their devices and those devices will be electronically tied to that person for a set time period. Students and staff may be limited on registering the number of concurrent devices.
The District shall not be liable for the loss, damage, misuse, theft of any personally owned device brought to school.

The District reserves the right to monitor, inspect, copy, and review a personally owned device or file when administration has a reasonable suspicion that a violation has occurred.

**Obeying the Law:** Students and employees are responsible for respecting and adhering to local, state, and international laws governing use of information and the available technologies.

**Personal Storage Devices:** The teacher in charge may disallow the use of personal storage devices on network computers.

**Inappropriate Communication:** Inappropriate communication includes, but is not limited to: obscene, profane, lewd, vulgar, rude, inflammatory, threatening, or disrespectful language or images typed, posted or spoken by students; information that could cause damage to an individual or the school community or create the danger of harassment (persistently acting in a manner that distresses another person) or stalking of others; knowingly or recklessly posting false or defamatory information about a person or organization; and communication that promotes the destruction of property, including the acquisition or creation of weapons or other destructive devices. If a student or employee is told to stop sending communications, they must cease the activity immediately.

**Appropriate Language:** Language typed, printed, and/or sent will be appropriate at all times.

1. Restrictions against inappropriate language apply to public messages, private messages, and material posted or viewed on web pages.

2. Students and employees will not use obscene, profane, lewd, vulgar, rude, inflammatory, threatening, or disrespectful language.

3. Students and employees will not engage in personal attacks, including prejudicial or discriminatory attacks.

4. All communication will be courteous.

**Personal Safety:** Personal addresses and phone numbers are not to be given to strangers on the Internet. Students and employees should not post personal contact information about themselves or other people.

The educational use of social networking sites, blogs, chat rooms, and other electronic interactions can be a positive experience for students and employees, but if they are not used safely, can be a damaging experience. Everyone is encouraged to be aware of the dangers in providing personal information on social networking sites, blogs, chat rooms, emails, or instant messages. Users should choose carefully
whether or not to make their profile on social networking sites publicly viewable and available, or to keep it private and limited to the friends of their choosing.

Personal contact information includes addresses, telephone numbers, school addresses, work addresses, etc. Students will promptly disclose to their teacher, library media specialist, or other school employee any message they receive that is inappropriate or makes them feel uncomfortable.

The District will provide instruction about appropriate online behavior, including interacting with other individuals on social networking web sites and chat rooms. Additionally, cyberbullying awareness and response will be taught annually.

Individual Student and Employee Privacy and the Privacy of Others: Email is not private; system administrators will have access to all mail. Files stored on school-based computers will not be private. Administrators and staff members may review files and messages to maintain system integrity and ensure that users are acting in a responsible manner.

1. Students and employees should expect only limited privacy in the contents of personal files on district networks. The situation is similar to the rights students have in the privacy of their lockers.

2. Students and employees will not re-post a message that was sent to them privately without permission of the person who sent the message.

3. Students and employees will not post private information about another person.

4. Students and employees will not infringe upon another’s folders, work, or files.

Inappropriate E-mail: Inappropriate e-mail and other electronic documents transmitted on district networks or shared on electronic devices prohibited at school will be brought to the attention of a school or district administrator for review and possible disciplinary action.

Security: Measures taken to ensure security shall be respected and enforced.

1. Employees must secure their passwords at all times.

2. Employees will not share their passwords with anyone.

3. Employees will not allow anyone to use a device that they are logged into.

4. If an employee feels that their password may have been compromised, they must change it immediately and report it to the technology help desk.
5. Any attempts by a student or employee to circumvent district security protocols or any to gain unauthorized access are subject to disciplinary action.

Property Rights: All information accessible via the network is assumed to be private property; copyright statutes apply.

1. Students and employees will not plagiarize works that are found on the Internet.

2. Students and employees will respect the rights of copyright owners and licensing agreements. Copyright infringement occurs when an individual inappropriately reproduces a work that is protected by copyright. If a work contains language that specifies appropriate use of that work, the expressed requirements must be followed. If unsure how a work can be used, permission should be requested from the copyright owner. Copyright law can be very confusing. Questions should be directed to a teacher, media specialist, or the director of instructional technology.

Personal Files: Personal files should not be stored on the network, nor is the district responsible for retention or loss of any person files on district equipment. Personal files may be deleted without advanced notice. This includes movies, music, and photos.

Violations: Any attempt to violate the guidelines for use of technology, the network, or the Internet, may result in revocation of user privileges, and/or other disciplinary actions consistent with Board of Education Policy.

Reporting of Violations: Any violation of the guidelines for use of the network and/or the Internet should be reported to the teacher in charge.

Employees will notify their principal or supervisor of any message they receive, or activity they observe, that is inappropriate or makes them feel uncomfortable.

INTERNET ACCESS, INTERNET SAFETY, PERSONALLY OWNED DEVICES, AND USE OF ELECTRONIC RESOURCES

EMPLOYEE AGREEMENT

Before signing, please read the following document carefully. The document you will sign is legally binding.

Access to the Internet is available in every classroom, lab, media center, and office in Putnam City Schools. The Internet offers vast, diverse, and unique resources. Access to these resources is provided for the purposes of administration, education, and academic research, and those activities which support learning and teaching, or which promote the District’s mission and goals.

With access to computers and people all over the world also comes the availability of materials that may not be considered to be of educational value in the context of the school setting. Putnam City Schools has taken available precautions to restrict access to inappropriate materials. However, on a global network it is impossible to control all materials, and an industrious user may discover inappropriate information. Network administrators will conduct regular assessments of Internet use, e-mail, and documents that are stored on district networks and computers, and in doing so, may need to access Internet sites that fall outside the regulations outlined in this document.

The smooth operation of the district’s computer network relies upon the proper conduct of employees who must adhere to strict guidelines. These guidelines are provided here so employees will be aware of the responsibilities associated with all aspects of network use. This requires efficient, ethical, and legal utilization of the network resources.

Occasional use of district networks for incidental personal use is permitted with good judgment.

The use of district networks to send district-wide e-mail messages requires the approval of the superintendent or designee. This use of district-wide e-mail will be reserved for messages that are important, urgent, or necessary.

Only legally obtained district approved software will be installed on district computers.

Employees of the district will not allow any person to use their login name and password. Employees of the district will not log onto the network or access data for students or any other person.

If an employee violates any of these provisions, his/her network access will be terminated and future access could be denied. The signature on the next page is legally binding and indicates the employee who signs the document has carefully read the terms and conditions and understands their significance.

Employees are expected to maintain an appropriate and professional relationship with students, parents and patrons at all times and in all forms and manners of communication.

**District-sponsored Social Media Use**

Teachers, administrators and other staff who wish to have a classroom, club, activity, school or organization page on a social media site shall create a District-sponsored social media vehicle for that purpose. Examples of social media include, but are not limited to: Facebook, Twitter, Pinterest, Instagram, Vimeo, YouTube and Flickr. Employees who use District-sponsored social media for school or District purposes are expected to adhere to these specific guidelines:

Employees who wish to create District-sponsored social media sites must inform the appropriate principal or supervising administrator in writing. Notification to the principal or supervising administrator must include the type of social media site to be created and the specific purposes the social media site will be used for.

Employees who manage and maintain District-sponsored social media sites are responsible for site content.

All District digital communication and social media sites shall adhere to FERPA requirements, HIPPA requirements and all other applicable state, federal and local laws, regulations and policies.

Only District employees – never students, parents or volunteers – should have administrative rights for District-sponsored social media sites.

Social media sites that accept comments or postings by anyone other than the site administrator must be diligently monitored to ensure that information displayed fits within guidelines and is appropriate to the subject matter of the page.

District employees should not send personal or non-school related messages from District-sponsored social media to students who are currently enrolled in District schools.
Last names of students should not be used in conjunction with photos of them. An exception to this rule is in regard to secondary school athletics, in which students first and last names may appear with photos.

Names and photos of foster children should not be posted on District-sponsored social media sites.

Use of photos of students in digital communication and social media sites must be in accordance with FERPA requirements and existing district guidelines.

**Texting/Messaging**
With few exceptions, texts and messages sent by teachers, coaches and other staff shall be sent to an entire class, team, club or organization, not to individual students. Exceptions may include situations involving confidential medical issues, emergencies, or times when students in crisis reach out for support. Administrators should be notified about any individual messages to students that are personal or confidential.

**Digital Communication Guidelines and Restrictions**
All digital communications between employees and student, whether via social media, texting or other means, should be about legitimate school business. Digital communication is an extension of the physical classroom. What is inappropriate in the classroom is inappropriate in digital communications.

District digital communications, content posted by district employees and comments posted by participants in District-sponsored social media sites should not contain:
- Profane language
- Language that is harassing, hazing, accusatory, intimidating, demeaning, defamatory, maligning, inflammatory or verbally abusing toward any person or entity
- Language that threatens personal safety or may tend to compromise personal safety or security
- Language that promotes, fosters, or perpetuates discrimination on the basis of race, creed, color, age, religion, gender, marital status, status with regard to public assistance, national origin, physical or mental disability or sexual orientation
- Language that incites or encourages attempts to interfere with or disrupt the normal educational process
- Language that encourages illegal activity;
- Language or images of a sexual or flirtatious nature or links to sexual content
- Support or oppose district bond proposals or candidates for office
- Solicitations of commerce for personal gain;
- Content that violates a legal ownership interest of any other party

**Privacy**
Staff shall have no expectation of privacy when using district technology, the district network and or district-sponsored social media.
Parent Notification
At the beginning of the school year or season, as appropriate, employees should communicate with parents in writing about the manners in which they will communicate with students about classroom activities, clubs or extracurricular activities students are part of.

Media Inquiries
Any media contact stemming from District-sponsored social media sites managed by district personnel shall be referred to the District's Communications Department at 495-5200, x1204.

Personal Use of Digital Communication or Social Media
Employees’ personal social media sites, pages or platforms may contain content, including photos or video, that shines a positive light on the district, schools, students or other members of the district community. Before posting photos or videos of students on personal social media, employees must 1) verify with the school principal (or designee) that the student’s parent(s) have not have officially opted out of photos or video of their child appearing in district publications; and 2) verify in PowerSchool that the student's parents have not restricted release of directory information; and 3) verify that use of photos does not violate FERPA.

Appropriateness
Employees are expected to maintain a professional and appropriate relationship with students. The District strongly recommends that employees not communicate via personal social media with students who are currently enrolled in District schools, with the exception of communication about non-school issues with students who are relatives or children of personal friends. The District recommends employees consider politely discontinuing existing, personal social media profile interaction with current students.

In regard to digital communication and social media use, unprofessional relationships include writing personal letters, email or text messages; calling students on cell phones or allowing students to make personal calls to you unrelated to class work or school activities; sending inappropriate pictures to students; discussing or revealing personal matters about your private life or inviting students to do the same; engaging in sexualized dialogue in any form.

Any inappropriate contact or remarks via digital communication or social media from a student to an employee should be reported by the employee to his or her supervisor as soon as possible.

Inappropriate or offensive content sent as digital communication or posted to social networks by employees may be investigated by school and district officials and, if warranted, may result in discipline, dismissal from employment, notification to the State Department of Education or criminal investigation.

District employees who have personal social media accounts are encouraged to use appropriate privacy settings. At the same time, employees should also understand that privacy settings are no guarantee of privacy, and that in various manners any post in a personal digital communication or
social media account could become public. A good rule of thumb is that if a staff member does not want to see something on the front page of the paper, they should not text it or post it.
RELATIONS WITH OTHER ENTITIES

Law Enforcement Agencies: The District may allow law enforcement agencies to question students at school during the school day only when the students’ parent or guardian is present, unless law enforcement personnel have a valid warrant or court order. In cases in which the principal or other administrative officer determines that an emergency exists which might impact the safety and welfare of a student or other person, the principal or other administrative officer may allow law enforcement agencies to question students at school without the student’s parent or guardian being present. Intended Use of Data:
District’s board of education, in consultation with parents, teachers, and administrators, has developed and adopted this policy to promote the involvement of parents/guardians of children enrolled within the District.

1. The District encourages parent participation in the school so that parents and teachers can work together in areas such as homework, attendance, and discipline. Teachers will provide parents with their contact information in order to facilitate communication regarding concerns in the above listed areas;

2. Parents may request additional information from the administration regarding their child’s course of study and learning materials, including the source of any supplemental educational methods;

3. Parents may withdraw their child from any activity, class, or program where the parents object to the learning material or activity on the basis that the activity, class or program is harmful. This includes objections based on beliefs or practices in sex, morality, or religion. The objection must be stated in writing to the administration and parents are hereby informed that withdrawal of a child from any state mandated course could prevent the child from being eligible to receive a high school diploma;

4. If the District offers any sex education curricula pursuant to Section 11-105.1 of Title 70 of the Oklahoma Statutes or pursuant to any rule adopted by the State Board of Education, parents may opt their child out of participating in such instruction by providing a written objection to their child’s participation in the sex education curricula to the administration;

5. Parents are hereby notified of the ability to withdraw their children, through written objection to the administration, from any instruction or presentations regarding sexuality in courses other than those which include formal sex education curricula;

Definition: A “service animal” is defined as any dog that has been individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability.

1. Under the Americans with Disabilities Act (ADA), the service animal must be a dog. Other species of animals, whether wild or domestic, trained or untrained, do not qualify as service animals for the purposes of this definition.

2. The work or tasks of the animal must directly relate to the handler’s disability. This includes, but is not limited to, guiding individuals with impaired vision, alerting individuals with impaired hearing to intruders or sounds, providing minimal protection or rescue work, pulling a wheelchair or fetching dropped items.

3. An “emotional support animal” is a pet and does not qualify as a “service animal”.

Guidelines for Usage: If it reasonably appears to the District that a dog meets the definition of a “service animal” as outlined above, the District shall permit use of the service animal subject to the following policies and procedures:

1. All notifications/requests for an individual with a disability to be accompanied by a service animal must be addressed in writing to the Superintendent. Such request must identify the need for the service animal as it relates to the staff member or student’s disability and the work or task the service animal has been trained to perform.

2. The individual making the notification/request shall also provide evidence that the animal’s immunizations are current pursuant to [Okla. Admin. Code 310:599-3-9.1] as well as contact information for the animal’s veterinarian. All service animals must be treated for and kept free of fleas, ticks, mange, and ringworm. All service animals must also be groomed and kept clean. No documentation may be requested or required regarding certification, training, or licensing as a service animal.

3. Where possible, notification/requests for use of service animals on District property must be made no less than three (3) weeks prior to the proposed commencement of service animal usage. Notification should be made through use of District approved form.
4. Under the Individuals with Disabilities in Education Act (IDEA), the District is required to provide students with a free appropriate public education (FAPE). If the parent/guardian of a student with disabilities believes that a service animal is required for the student to receive FAPE, the student’s Individualized Education Program (IEP) team should consider the request and make a determination on a case-by-case basis. If the service animal is necessary for that child to receive FAPE, the accommodation should be made. The District will take into consideration the health, safety, and disabilities of other students when making its determination. However, service animals will not be excluded on grounds of health or safety as a blanket policy.

5. Use of a service animal on District property may be subject to a plan to introduce the service animal to the school environment, any appropriate training for staff and students regarding interaction with the service animal, and other activities or conditions deemed reasonable and necessary by the District.

6. Service animals should wear proper identification and must have a harness, leash, or other form of restraint mechanism, unless either the handler is unable because of a disability to use a restraint mechanism or use of a restraint mechanism would interfere with the service animal’s safe, effective performance of work or tasks. In this case, the service animal must otherwise be under the handler’s control. In the case that the handler will not be with the service animal at school, identified staff must be trained at the expense of the disabled staff member or student to give commands to the service animal.

7. The District is not responsible for the care or supervision of the service animal. The District is not responsible for providing a staff member to walk the service animal or to take the service animal outside to eliminate. All owners/handlers are responsible for taking the service animal outside for elimination and for cleaning up after the service animal, including proper disposal of the animal’s waste while it is on District property.

Revocation of Service Animal: The District’s approval of the use of the service animal on District property is subject to periodic review, revision, or revocation by the District. A school administrator may ask an employee with a disability or a student’s parents/guardians to remove a service animal from District property under the following circumstances:

1. The service animal is out of control and/or aggressive and the animal’s handler does not take effective action to control it;

2. The service animal is not housebroken;

3. The service animal’s presence is fundamentally altering the nature of the service, program, or activity; or
4. The service animal poses a direct threat to the health and safety of others that cannot be eliminated through reasonable accommodation.

If a service animal is excluded, the District must give the individual with the disability the opportunity to participate in the service, program, or activity without the service animal.

**Liability:** The staff member or parent/guardian of the student who uses the service animal is liable for any harm or injury caused by the service animal to other students, staff, visitors and/or property. Any costs incurred due to damage caused by the service animal will be the responsibility of the staff member or the parent/guardian of the student who uses the service animal on District property and/or at District functions.

**Student Transportation Services:** Service animals for students are permitted in District transportation vehicles. The parents/guardians of each student riding in the District transportation vehicle have been notified in writing of the inclusion of the service animal, and the service animal is under the control of the handler at all times, as discussed above.

BUDGET PROCESS

The District's budget describes the funding of the District's programs to be conducted during the fiscal year from July 1 to June 30 and is the operational plan, stated in financial terms, for the conduct of the District's programs. A budget is required for every fund that the District has, including, but not limited to, general funds, building funds, bond funds, sinking funds, and child nutrition funds. No District funds shall be used to pay for any indebtedness in excess of the total adopted budget for expenditures for such funds except as provided by law. The budget shall attempt to establish and provide for a carryover fund balance of at least seven percent (7%) of the prior year's revenue.

The Superintendent or the Superintendent's designee shall be responsible for preparing, presenting, and administering the District's budget. The budget shall be prepared, presented, and adopted according to applicable state laws and State Department of Education regulations.

Once adopted, the Superintendent or the Superintendent's designee shall be responsible for administering the District's budget and for insuring that the expenditures of funds do not exceed the amounts allocated for expenditures. In administering the operating budget of the District, the Superintendent or the Superintendent's designee shall comply with all legal requirements of the State of Oklahoma and with the rules and regulations of the State Department of Education. The Superintendent shall prepare, or have prepared, any financial reports required by the Board and/or the State Department of Education.
General: The purchasing, receiving, storing, and distribution of necessary supplies, equipment, and services for use in the District's programs and services represent a significant expenditure of District funds. Therefore, purchases shall, when practicable, be made competitively and without prejudice in order to obtain the maximum educational value for every dollar expended.

Purchasing shall be made with consideration given to the following criteria:
1. best possible quality;
2. lowest possible cost which meets the specifications required;
3. availability of goods or services;
4. least possible expenditure of time for person requesting; and
5. suppliers’ and vendors’ compliance with Board policies and past performance.

Purchasing Authority: The Board authorizes the Superintendent to approve expenditures for the purchase of supplies, equipment, and services from District funds according to the District's budget. The Superintendent is further authorized to delegate purchasing authority to those persons designated in an administrative regulation specifying the purchasing authority of each such person to whom the authority is delegated. All expenditures for purchases approved by the Superintendent or persons designated by the Superintendent must be within unencumbered balances of budgeted appropriations. Building Site Administrators shall have the authority to purchase items utilizing funds allocated for their use at their building site as approved by the Board. Teachers shall have the authority to purchase items utilizing funds allocated to them in any applicable negotiated agreement. The Board's approval of a construction project, after meeting all applicable requirements, shall be construed to include approval of all purchases and expenditures necessary to complete the project assuming sufficient funds have been encumbered for such purchases and expenditures.

Purchasing Procedures: The Administration shall develop, maintain, and implement purchasing regulations and procedures consistent with this policy. Such regulations and procedures shall specify when solicitations, bids, and quotations are required to be utilized. The District shall have the right to refuse any and all bids or quotations even though the bid or quotation may be the lowest.

Bids or quotations shall not be required for purchases of:
1. insurance,
2. bonds,
3. sureties,
4. professional services,
5. consulting services,
6. services of independent contractors,
7. testing and evaluation services,
8. fuel for transportation purposes;
9. utilities;
10. used vehicles and/or equipment;
11. services, supplies, and equipment from vendors holding state-wide contracts issued by the Oklahoma Department of Central Services;
12. items peculiar to a single vendor; and

Any regulations and procedures developed and implemented by the Administration may provide for the purchase and the storage of items in bulk when such purchases will result in the efficient and economical procurement of such items and may provide for the establishment and publication of a list of low-bid items and vendors for commonly used items of small unit value.

**Receipt of Items Purchased and Payments:** The Administration shall develop, implement, and maintain procedures and any necessary forms for the verification of delivery where applicable and the payment of vendors, contractors, and providers.

**Emergencies:** Purchases of more than $7,500 for an expenditure for services, materials, supplies, or equipment required due to an emergency, such as a fire, natural disaster, or when the health or safety of children or the public is endangered or the protection of public property is required shall be exempt from the solicitation of competitive bids upon declaration of such emergency by the Superintendent or the Superintendent's designee. Ratification of such emergency expenditures shall be required by the Board.
Departments will follow the guidelines for small purchase procedures as stated in the Compliance Document.

Price or rate quotations shall be obtained from an adequate number of qualified sources. Factors such as product quality, delivery and availability will be utilized in the selection criteria. Consideration will be given to such matters as contractor integrity and record of past performance. Procurement by noncompetitive proposals may occur if an item is available only from a single source, or an emergency exists which will not permit the delay resulting from competitive solicitation.

**Code of Conduct:** The following conduct will be expected of all persons who are engaged in the award and administration of contracts supported by CNP funds.

- No employee, officer or agent shall participate in selection or in the award or administration of a contract supported by program funds if a conflict of interest, real or apparent, would be involved.

PURCHASING

General: The intent of the Putnam City Schools purchasing system is to provide assurance that good business practices are followed. Adequate records must be maintained to document the purchasing process. These records will document the quotes received, the creation of a purchase order, the encumbrance of funds, the purchase and receipt of goods, timely invoicing by the vendor and subsequent payment(s) for the service or product. State statutes and Board of Education Purchasing Policy CC are the foundation for this regulation.

Purchasing Authority: The superintendent authorizes and delegates purchasing authority to administrators and those persons charged with budget responsibility. These authorized purchasing agents will follow the procedures detailed in this regulation.

Purchasing: The following purchase requirements refer to the total amount of any one line item on the face of a purchase order. A purchase order may contain several line items; thus the purchasing requirements do not apply to the total amount of a purchase order. The purchasing requirements are:

1. $0 to $2,500 – no quotes are required;
2. $2,500 to $7,500 – telephone quotes are required;
3. Over $7,500, but not public construction – written quotes are required;
4. Public construction over $50,000 – compliance with the Public Competitive Bidding Act is required.

However, price quotations are not required for those purchasing categories specifically exempted in Board of Education Purchasing Policy CC.

Purchases $2,500 to $7,500:

Telephone quotes will be obtained from at least three (3) reliable vendors.

Board approval is not required.

The telephone quotes form will include identification of the project, specifications of the item, vendor’s name and contact person, cost, delivery date and site.

Items on the State contract bid list meet the requirements for telephone quotes.
Purchases in excess of $7,500:

Board approval is not required.

Request written quotes from at least three (3) reliable vendors. Written quotes will be accepted by delivery in person, by mail, and by fax.

Newspaper ads and catalogues for prices may be used to compare with written quotes.

Items on the State contract bid list meet the requirements for written quotes.

The invitation for written quotes form will include identification of project, specifications of the items, the due date and time for acceptance of written quotes, the delivery date and site, and instructions for quote submission.

Written quote sheet forms will include the vendor’s name and contact person, cost, date and site of delivery, and the date and time that the quote was received.

Purchases of more than $7,500 for an expenditure for services, materials, supplies or equipment required due to an emergency, such as a fire, natural disaster, or where the health or safety of children or the public is endangered or the protection of public property is required will be exempt from the solicitation of competitive bids upon declaration of such emergency by the superintendent or superintendent’s designee. Ratification of such emergency expenditures will be required by the Board of Education at the next regularly scheduled meeting.

Public construction contracts in excess of $50,000:

The Public Competitive Bidding Act of 1974, Title 61, Oklahoma Statutes, Sections 101-138, governs public construction contracts in excess of $50,000. All such contracts must comply with the provisions of this act.

Purchasing Procedures: The purchasing steps are:

Step One
A requisition form is prepared when a service or product is needed.

The requisition form will be completed in triplicate.

Step Two
Appropriate quotes will be obtained for any line item on the purchase order that exceeds $2,500.
The lowest and/or best vendor is selected. If low bidder is not selected, the reason(s) must be detailed on the quote form.

**Step Three**
The requisition form is completed and approved.

The budget administrator will approve all requisition forms.

An example of an appropriation ledger is available to all sites. The appropriation ledger is used to record budgeted appropriations, purchases and balance of budgeted appropriations. Although not required, it is recommended that each site maintain an appropriation ledger.

**Step Four**
The budget administrator will send requisition forms and the original quotes to the Business Office.

The Business Office will review each submitted requisition form for completeness and accuracy.

**Step Five**
The encumbrance clerk will issue the purchase order and encumber the funds.

The encumbrance clerk will issue a purchase order only if the requisition form and supporting documentation are complete and appropriations are available.

**Step Six**
The Business Office orders the service or product.

The encumbrance clerk will record the requisition number on the purchase order.

The encumbrance clerk will return one copy of the purchase order to the budget administrator.

The encumbrance clerk will mail or fax one copy of the purchase order to the vendor.

**Step Seven**
The budget administrator receives the purchased services and/or products as well as the related invoice(s).

The person receiving the services/products will compare the products received to the products listed on the purchase order. Once the receipt of the correct products has been verified, an approval for payment stamp will be imprinted on the packing slip. The person receiving the product(s) will date and sign the appropriate line(s) on the payment stamp indicating receipt of the correct products.
The budget administrator will imprint the approval for payment stamp on the original invoice. The approval for payment stamp will include the signature of the budget administrator, date of approval for payment and a determination as to whether the payment is final or partial.

If the purchase is canceled, the budget administrator will affix an approval for cancellation stamp to a copy of the purchase order. The budget administrator will send the stamped purchase order to the Business Office.

**Step Eight**

The Business Office will review the forms for completeness and accuracy.

If forms are complete and accurate, the invoice is batched for payment.

Payment is made to the vendor.

**Other Regulations:**

1. No signature stamps allowed.

2. No purchase order will be issued until the appropriate procedures have been completed, including completed forms.

3. Sample forms are available from the Business Office.

4. Change orders, which increase the purchase order, cannot exceed the lesser of $25.00 or 10% of the original encumbrance without approval by the business manager or his/her designee.

5. One original Non-Kickback Affidavit will be obtained for all vendors who submit an invoice to the District, which is in excess of $25,000. Only one original affidavit per fiscal year is required for each such vendor.

6. Under no circumstances will transfers be allowed between purchase orders.

Revised 7/04, 12/04
SCHOOL ACTIVITY FUNDS

General: The purpose of the School Activity Fund is to promote the general welfare, education, and morale of all students and to finance extracurricular activities of student body organizations. The Board shall exercise complete control over all School Activity Funds. At the beginning of each fiscal year and as needed during each fiscal year, the Board shall approve all Activity Fund sub-accounts, all fund-raising activities, and all purposes for which the monies collected can be expended. An annual audit of all School Activity Funds shall be made by a certified public accountant selected by the Board. As necessary, the Superintendent may develop, implement, and maintain written regulations and procedures governing School Activity Funds.

Activity Fund Custodian: The School Activity Fund Custodians shall provide the Board with periodic financial reports reflecting the status of each sub-account. A School Activity Fund Chart of Accounts shall be maintained by the School Activity Fund Custodians and shall include the sub-accounts approved by the Board. The School Activity Fund Custodians shall be appointed by the Board and shall provide a surety bond in an amount to be determined by the Board, but not less than $1,000.00, for which the premium shall be paid by the School Activity Fund. Prior to the beginning of each fiscal year, the Business Manager shall review the amount and nature of financial transactions that have occurred in the School Activity Fund during the prior year and, subject to the approval of the Superintendent, shall make a recommendation to the Board as to the amounts of the surety bonds required for the School Activity Fund Custodians for the following fiscal year.

Fund-raising Activities and Revenues: Projects for raising revenue for the School Activity Fund shall, in general, contribute to the educational experience of pupils and shall add to, not conflict with, the instructional program. Revenue from those sources identified by statute and proceeds from Board-approved fund-raising activities shall be deposited, as received and without making any withdrawals, reimbursements, or substitutions, and shall be credited to the appropriate School Activity Fund sub-account. Contracts with third parties for School Activity Fund fund-raisers must be submitted to the Board for approval.

Disbursements: Purchases from School Activity Fund accounts may only be made by the sponsors of the activity or person designated to be responsible for a sub-account and shall be done utilizing the purchasing procedures provided for in Policy CC. No funds from a School Activity Fund sub-account shall be used for any purpose other than the purposes for which the account was created, unless there is a transfer of funds approved by the Board. The District and its School Activity Fund shall not be liable for any purchase or obligation entered into by any individual or organization unless the procedures required for disbursements from the School Activity Fund have been followed in advance of such purchase or obligation.
The School Activity Fund Custodians may provide cash advances to the sponsors of groups, classes, or organizations for travel expenses of students and sponsors. Any cash advance shall only be paid from the School Activity Fund sub-account directly involved in the travel and only if the travel is one of the stated functions or purposes for the account. Receipts for all expenditures of cash advances shall be kept and shall be submitted to the School Activity Fund Custodians upon completion of travel.

Where practical and feasible, money raised from the student body as a whole shall be expended so as to benefit the student body as a whole and shall not be expended for the benefit of a special group. When possible, School Activity Funds shall be expended in such a way as to benefit those pupils who have contributed to the accumulation of such money.

**General Fund Refund Account:** A General Fund Refund Account may be established within the School Activity Fund and may include revenue from fees for the rental or use of District property or equipment, reimbursement for loss or damage to District property or equipment, reimbursement for services, and reimbursement for payment of substitute teachers. Such revenue shall be deposited to the credit of the “General Fund Refund Sub-account”, and the source of such revenue shall be itemized and recorded. Periodically, the Treasurer may transfer funds deposited to the credit of the “General Fund Refund Sub-account” of the School Activity Fund to the General Fund.

**Organizations Exempt from School Activity Fund Limitations:** The District recognizes that the involvement of student achievement programs, parent-teacher associations, and other adult organizations are essential to the provision of quality educational services and are vital in fostering the community-school relationship. However, student achievement programs, parent-teacher associations, and other adult organizations and the funds raised by those programs, associations, and organizations may not be subject to control by the Board.

All student achievement programs, parent-teacher associations, and other adult organizations shall submit an application for exemption on the forms provided. The Superintendent may request such information as is necessary to evaluate the application for exemption including, but not limited to, the following:

1. By-laws;
2. List of current officers;
3. Statement of purpose;
4. Statement of fund-raising methods and activities; and
5. Proposed schedule of fund-raising activities indicating the location, the dates, and the time of such activities.
The Superintendent shall review the application for exemption of any program, association, or organization and shall make a recommendation to the Board regarding whether the program, association, or organization shall be exempted from control by the Board. The Board shall review and consider the Superintendent’s recommendation and, if necessary, the information submitted and shall issue a determination regarding the exemption status of the program, association, or organization. If the Board determines that the program, association, or organization is in fact a non-exempt student organization, then it shall be subjected to the applicable law, Board policy, and any applicable Administrative Regulations regarding School Activity Funds. If the program, association, or organization refuses to comply with the applicable law, policies, and Administrative Regulations regarding School Activity Funds, it shall not be entitled to utilize the District’s property or facilities for any purpose.

The District shall exempt from its control and regulation those programs, associations, or organizations, and the funds they raise which:

1. Do not represent themselves as a District program, association, or organization but clearly identify themselves as a student achievement, parent-teacher organization, or other adult organization separate from the District;
2. Maintain banking and financial matters separate from the District; and
3. Maintain their own tax identification numbers separate from the District.

The Superintendent and the Board may also consider the following criteria in determining whether to exempt a program, association, or organization:

1. Whether it is managed or operated by parents or adults, rather than students;
2. Whether it has adult officers;
3. Whether it has only minimal student assistance and such assistance is not provided by students during the school day;
4. Whether it uses or consumes District-owned materials in advertising its activities or collecting funds;
5. Whether it raises funds on District property during classroom hours.

**Student Organizations Exempt from School Activity Fund Limitations:** All student organizations which are covered by the Equal Access Act (20 U.S.C. § 4071 et seq.) shall submit an application for recognition and exemption to the Superintendent. The Superintendent may request such information as is necessary to evaluate the application for exemption including, but not limited to, the following:

1. By-laws;
2. List of current officers;
3. Statement of purpose;
4. Statement of fund-raising methods and activities; and
5. Proposed schedule of fund-raising activities indicating the location, the dates, and the
   time of such activities.

The Superintendent shall review the application for recognition and exemption and shall make a
recommendation to the Board regarding whether the student organization shall be exempted from
control by the Board. The Board shall review and consider the Superintendent’s recommendation and the
information submitted and shall issue a determination regarding the exemption status of the student
organization. If the Board determines that the student organization is in fact a non-exempt student
organization, then it shall be subjected to the applicable law, Board policy, and any applicable
Administrative Regulations regarding School Activity Funds. If a non-exempt student organization refuses
to comply with the applicable law, policies, or Administrative Regulations regarding School Activity
Funds, it shall not be entitled to utilize the District’s property or facilities for any purpose.
GENERAL: The purpose of the School Activity Funds is to promote the general welfare, education and morale of all students and to finance extracurricular activities of student body organizations. 6. All organizations and associations wishing to be sanctioned shall make application to the Board of Education.

7. Any Student Achievement Program or Parent Teacher Association or Organization that does not seek an application for sanctioning by the Board of Education must deposit its funds within the District’s School Activity Fund and shall be subject to all such rules and regulations pertaining to the School Activity Fund.

8. Sanctioning by the Board of Education in no way grants the Student Achievement Programs, Parent Teacher Associations and Organizations “tax-exempt” status for its operations, nor does it grant “tax-deductible” status to its donor. The organization or association should consult a tax professional for advice on these matters.

DISTRICT POLICY

TRAVEL AND EXPENSE REIMBURSEMENT

Employees, Board of Education Members, Candidates for Employment

General:

The District recognizes that its officials and employees may need to incur travel and other related expenses in the performance of their duties or responsibilities to the District (hereinafter referred to as “District Travel”). This policy applies to all employees, Board members, and candidates for employment (claimants) but not to independent contractors. Individuals who are subject to this policy should exercise the same care in incurring expenses that a prudent person would exercise if traveling on personal business. Reimbursable expenses for District Travel may include airfare, mileage when the individual’s own vehicle is utilized, taxi or limousine fare and a tip, bus or shuttle fare, subway fare, railroad fare, lodging, registration fees, and other miscellaneous expenses related to District Travel (hereinafter referred to as “Travel Expense”). Mileage reimbursements will not be paid to and from the local airport.

The District will not reimburse actual expenses for meals and related tips. Reimbursable meals for a full day of in-state or out-of-state travel shall be reimbursed at the prevailing per diem rate specified in the “State Travel Reimbursement Act” of the State of Oklahoma (74 O.S. Sections 500.1 et.seq.). A day shall be calculated as 24 hours and reimbursement of meals for any part of a day of necessary travel shall be one-fourth of the per day amount for each six hours or fraction thereof.

If meals were provided as a part of the registration costs of a professional meeting, the claimant shall have deducted from any daily meal allowance an amount equal to one-fourth of the daily allowance times the number of meals provided through registration.

Per diem will be paid for local conferences where a dinner program is a scheduled conference event and the meal is not included in the cost of the conference registration.

Approval for Travel and Expenses:

Any person who is planning District Travel which will involve an overnight stay shall submit a request to the Administrator responsible for the appropriation from which the Travel Expenses will be reimbursed. The Administrator shall review the request and, if approved, submit it for Board approval as part of the Consent Agenda. The Approving Administrator shall consider the purpose of the District Travel, how it will benefit the District, its employees, and/or students, whether other District personnel are attending, the extent to which the person has engaged in District Travel during the current fiscal year, the cost of the District Travel, the availability of funds, the length of the trip, and any other information deemed relevant. Substitutions may be allowed as provided in Administrative Regulations.
Reimbursement Requests:

Upon completion of authorized travel, persons requesting reimbursement shall submit the appropriate documentation for reimbursement of Travel Expenses within thirty (30) days after completion of authorized travel. Appropriate documentation shall include a signed travel voucher which itemizes the various expenses incurred and an itinerary and schedule of official functions attended. Itemized receipts of all expected reimbursable expenses (except meals and related tips) shall be attached to this voucher. Reimbursement requests shall not cover periods of over thirty-one (31) days. Where the travel period is continuous, subsequent claims for reimbursement shall be submitted as necessary to cover the continuous period.

All reimbursement requests shall be submitted to the appropriate budget Administrator and shall include the appropriate Purchase Order Number.

Personal Leave in Conjunction with District-Sponsored Travel:

When personal leave or vacation leave is taken in conjunction with an employee’s approved District-sponsored travel, the person’s travel claim must indicate the exact date and time of departure from and/or return to official travel status. Individuals shall not be reimbursed for meals and/or lodging expenses incurred more than twenty-four (24) hours before and/or after the object of travel (i.e., the scheduled meeting, workshop, or conference) begins and/or ends unless there is a savings in travel costs related to airfares which exceeds the costs of any extra meals and/or lodging.

Student Travel Expenses and Reimbursement

Student travel may be reimbursed through the district General Fund upon written approval from the Superintendent or designee. The policy and procedural guidelines for General Fund reimbursement of student travel shall be the same as those for non-student travel reimbursement set forth above.

Student travel may be funded by the district Activity Fund via travel advance as permitted by state statute and utilizing the procedures and supported by the documentation detailed in the district’s School Activity Fund Handbook.
TRAVEL AND EXPENSE REIMBURSEMENT

Mileage Reimbursement: Employees are sometimes required to utilize their personally owned vehicles for district travel. Prior to an employee taking any travel utilizing his/her own vehicle, the employee is required to obtain approval from the appropriate budget administrator. When a vehicle is utilized in lieu of air transportation, the claimant must submit a justification for ground travel and a verification of the single airfare cost.

Non-Overnight Travel: The Board of Education recognizes the benefit of the knowledge obtained from seminars and meetings. However, it is also important to consider how this knowledge will benefit the district and more importantly how this knowledge will be shared. Prior to taking any travel for which the claimant will be requesting reimbursement, the employee is required to obtain approval from the appropriate budget administrator.

Reimbursement for Meals: Reimbursement for meals and incidental expenses (i.e. snacks, etc.) will be based on per diem rates established in the "Oklahoma Travel Reimbursement Act", Title 74, O.S. Section SOO.8, as amended. For current in-state and out-of-state per diem rates, please see rate listing or contact the Business Office.

In order to be reimbursed, claimants must submit itemized receipts for all travel related expenses other than meals and incidental expenses. Itemized receipts are still required for registration, air and ground transportation, lodging, parking and rentals.

Expense Reimbursement: All employees must request mileage reimbursement within 30 days of the completion of authorized travel. All travel reimbursement requests must be submitted by June 15, in order to be paid from the appropriate year's budget. A purchase order number must appear at the top of the request form when you turn in your expenses for reimbursement.

Overnight Travel: The Board of Education recognizes the benefit of the knowledge obtained from seminars and meetings. However, it is also important to consider how this knowledge will benefit the district and more importantly how this knowledge will be shared. Prior to making any commitment for travel, the employee is required to obtain approval from the appropriate budget administrator and the Board of Education.

If overnight travel has been approved, and due to extenuating circumstances, the approved individual is unable to travel, the budget administrator may designate a substitute without Board approval.

Student Travel: Reimbursement requests for student trips must be accompanied by a copy of the related student travel Board agenda item bearing the Board Clerk's approval stamp.
When filing for reimbursement, record the beginning and ending travel dates and times on form CF-R1-F3. When required, record the actual itemized expenses on this same form. If a district vehicle is utilized, indicate that fact under item three of the Travel Budget section of form CF-R1-F3. Submit to the appropriate budget administrator for approval. Incomplete or questionable items will be returned to you for clarification prior to payment approval. Your approved request will be forwarded to the Business Office for payment.

**Procedures:**

1. Obtain approval for travel from budget administrator. Approval is also required by the Board of Education if staying overnight.

2. Submit completed requisition.

3. Encumbrance clerk encumbers the requisition amount and issues a purchase order.

4. Travel

5. Submit completed claim for reimbursement to budget administrator for approval.

6. Approved claim for reimbursement should be submitted to the district Business Office for payment.

TAX EXEMPT BOND TAX COMPLIANCE GUIDELINES

Use of Tax Exempt Bond Financing

District will evaluate opportunities to utilize tax exempt bond financing for major capital projects, primarily for building construction, acquisition and renovation and may also include the acquisition or equipment or other capital expenditures. Capital costs relating to equipment and furnishings will likely be included in financings for major capital projects.

Financing with tax exempt bonds is determined through the Superintendent, Bond Counsel, and Financial Advisor, while a Bond Resolution, which outlines the intended purposes, is approved by the Board. Financing with tax exempt bonds will be coordinated with development campaigns implemented through the District's Superintendent to assure gifts, while providing support for new, renovated and existing facilities, do not serve as a replacement for bond financing.

The Board will adopt a resolution as a declaration of intent to use tax exempt financing to reimburse for project capital expenditures incurred prior to the borrowing. The Superintendent will consult with legal counsel and advisors throughout the bond financing process, including during the post-issuance term of the bonds.

Tax Exempt Bond Tax Law Compliance Requirements

Documentation:

The federal tax law requirements affecting tax exempt financing are set forth in the Arbitrage certificate and/or the Arbitrage Rebate Agreement and Arbitrage Certificate of Authority, which shall be included as a document in the closing transcript for the bonds. After the delivery of a tax exempt financing, the Financial Advisor or Bond Counsel shall provide the completed IRS Form 8038-G on a timely basis to the District, in order for a timely filing with the IRS. A copy of the ail receipt will be retained by the District with the other tax exempt financing documents.

External Counsel/Advisors:

District maintains an ongoing relationship with outside legal counsel and advisors to serve as a resource for advice regarding tax exempt bond compliance. Counsel will review all contracts or arrangements involving the use of the bond financed facilities by private parties or that may be an activity that is unrelated to the exempt purpose of the organization. District maintains a relationship with a firm to serve as financial advisor
in connection with tax exempt bond financing to advise with respect to outstanding tax exempt bonds and for future capital projects.

**Investments/Role of District or Outside Advisor:**

The investment of bond proceeds is managed by either an outside advisor or local bank. The Board determines which bank to use and negotiates with bank. Unexpended bond proceeds are held by the outside advisor or local bank who are responsible for recording all investments and transactions relating to the proceeds. The outside advisor or local bank will provide regular, periodic (monthly) statements regarding the investments and transactions involving bond proceeds.

**Arbitrage Rebate and Yield Restriction:**

District has or will as necessary engage the services of an expert advisor to assist in the calculation of arbitrage rebate attributable to the investment of bond proceeds. Investment and checking (interest bearing account) statements and other requested documents and information will be provided to the rebate service provider upon request on a prompt basis.

Arbitrage rebate and/or yield restriction determinations will be made annually, and upon the final maturity date of each bond issue, with aforementioned data being submitted annually to the arbitrage provider.

During the construction period of the capital project, the investment and expenditure of bond proceeds will be monitored and the arbitrage rebate service provider will be consulted to determine compliance with exceptions from the arbitrage rebate requirement upon the expenditure of proceeds during each 6 month spending period up to 6 months, 18 months or 24 months, as applicable, following the issuance of the bonds. Copies of all arbitrage reports, related return filings with the Internal Revenue Service, copies of cancelled checks with respect to any rebate payments and investment and checking (interest bearing account) statements will be retained by the Superintendent.

**Private Use of Bond Proceeds:**

The Superintendent will monitor the use of bond financed assets (e.g., facilities, furnishings or equipment) throughout the term of the bonds (or the expected useful life of the assets, if shorter) to identify any use by a private person, including any use that is unrelated to the tax exempt purpose of the
organization. Monitoring of such private use must assure that no more than 5% of the bond proceeds are privately used. Bond proceeds applied to pay costs of issuing the bonds are treated as a private use.

Records will be maintained identifying the assets or portion of assets that are financed with tax exempt bond proceeds of each issue. Outside legal counsel and advisers have been engaged and will be consulted to review any contracts or arrangements involving private or unrelated use of the bond financed facility and to assist in monitoring the use of bond financed assets to assure compliance with the 5% limitation on the use of bond proceeds for private use.

Records will be maintained for any contracts or arrangements involving private or unrelated use of the bond financed facility. All relevant records and contracts will be maintained as described below.

**Record Keeping Requirements**

A copy of all relevant documents and records sufficient to support that the requirements relating to the tax-exempt status of the bonds have been satisfied will be maintained by the District's Superintendent for the term of the bonds (including refunding bonds, if any) plus three years, including the following documents and records:

- Bond closing transcript and other relevant documentation.
- Electronic and paper copy of documents will be provided to the District by the Financial Advisor or Bond Counsel.
- All documents relating to capital expenditures financed by bond proceeds. Such documents will include construction contracts, purchase orders, invoices, trustee requisitions (if applicable) and payment records. Such documents will include documents relating to costs reimbursed with bond proceeds.
- Records will be maintained identifying the assets or portion of assets that are financed with tax exempt bond proceeds.
- All contracts and arrangements involving private or unrelated use of the bond financed assets.
- All reports relating to the allocation of bond proceeds and private or unrelated use of bond financed assets.
• All records of investments, investment agreements, arbitrage reports, return filings with the IRS and underlying documents, including investment and checking (interest bearing account) statements.

Tax Compliance Training

The Superintendent or designated staff responsible for monitoring post-issuance compliance matters, will attend training or educational forums no less than on an annual basis to stay up to date with tax exempt bond tax requirements.

Annual Reporting

The Superintendent and the District's Auditor will coordinate an annual review process, to investigate, monitor, assure, and document compliance with tax exempt bond tax requirements.
The District’s personnel are an important resource for achieving a successful educational program. The District shall seek to employ those persons who have the highest capabilities, the strongest commitment to quality education, and the greatest probability of effectively implementing the District's educational program.

**Employment:** The Superintendent shall be responsible for recruiting and recommending qualified persons for employment with the District as set forth in Administrative Regulations. The Board shall employ those persons whom it determines should be hired after reviewing and considering the Superintendent’s recommendation. Unless otherwise provided by law, no person shall have any right to employment in the District until such employment has been approved by the Board; provided that when it is necessary to meet the best interests of the District, the Superintendent shall have the right to employ persons on a temporary basis until the Board can take action on the Superintendent’s recommendation.

When hiring persons for the positions of assistant superintendent, building administrator, director, administrative assistant, or business manager, the Board may review the resumes and/or the applications of persons recommended by the Superintendent for employment in these positions. In addition, Board members may request an opportunity to meet any candidate recommended for employment in one of these positions.

**Creation of New Positions:** The creation of any new position, except those positions at the individual school sites, requires prior Board approval.

**Employment Contracts:** Unless otherwise specified in any applicable negotiated agreement, every person employed by the District shall enter into a written contract of employment which shall describe the position in which the person is to be employed and shall set forth the term of the employment contract. All contracts of employment must be approved by the Board and may be signed by the Board President, the Clerk of the Board, or the Superintendent.

**Compensation:** The Administration shall annually prepare and submit to the Board for review and approval compensation plans for the various categories of employees, including certified administrators, certified teachers, and support personnel. Certified teachers and support employee salaries and benefits are governed by the salary scales which are part of a negotiated agreement that is approved by the respective bargaining units and the Board of Education. Compensation is charged to non-federal sources and federal sources of revenue in accordance with these approved scales. All remuneration
(including but not limited to wages and salaries, benefits, incentives, stipends, tuition reimbursement, etc.) is prudently recommended by the administration and approved by the Board of Education in accordance with each appointed position.

Remuneration is based on the negotiated agreement for certified and non-certified personnel, at a reasonable rate that is determined in comparison with the compensation rates provided by surrounding school districts in the metro area.

Stipends for certified teachers and support personnel may be established as listed per the negotiated agreement or as approved by the Board of Education.

Compensation plans need not be prepared, reviewed, and/or approved for those categories of employees whose compensation is determined by negotiated agreement. Such compensation plans may include the provision of fringe benefits, including, but not limited to, retirement, health insurance, disability insurance, and social security benefits. Employees performing federal and non-federal activities are placed on the same pay scale, and their rendered services are consistently remunerated in accordance with state and federal laws and regulations. When applicable, charges to federal awards for salaries and wages shall be based on records that reflect the work performed, and demonstrate that charges are accurate, allowable, and properly allocated.

**Job Descriptions:** The Administration shall prepare, and periodically review and update, job descriptions for all positions within the District.

**Felony Record Searches:** The Administration is authorized to conduct a state-wide and/or national felony record search for all new employees as provided by law. Employment contracts issued to any new employee shall be on a temporary basis for sixty (60) days pending the results of any felony record search. If the results of a felony record search indicate a prior felony, the District may take into account such factors as age at time of the offense, the seriousness and the nature of the felony, the relationship of the felony to the job applied for, any rehabilitation of the applicant, and the subsequent employment history of the applicant in determining whether to recommend the applicant for employment with the District. If a felony record search reveals a prior felony and the District determines that the person should not be recommended for employment based on the prior felony, the employment relationship may be terminated by notice from the Superintendent or the Superintendent’s designee. All applicants for employment will be required to submit their fingerprints for a national criminal history record check and shall be required to pay all fees associated with such a record check.

Except as otherwise provided by law, any teacher employed by an Oklahoma public school district prior to August 15, 2020, who does not have an Oklahoma criminal history record check from the Oklahoma State Bureau of Investigation ("OSBI") as well as a national criminal history record check on file with his or her employing district, shall complete the criminal history record checks upon the next renewal of his or her Standard Teaching Certificate. Except as otherwise provided by law, any other person employed by an Oklahoma public school district prior to August 15, 2020 who does not have an Oklahoma criminal history record check shall complete the criminal history record checks upon the next renewal of his or her employment with the District.
Adopted: August 18, 1997; rev. 02/99, 10/00, 03/01, 07/10, 10/12, 7/17, 08/19, 08/20, 11/21

DISTRICT POLICY

Personnel Files: The Administration shall maintain a personnel file for each employee of the District. Each personnel file shall contain the employee’s application for employment and any other documents submitted during the application process, all evaluations, admonishments, reprimands, complaints, commendations, plans of improvement, and any other documents which Administrative Regulations may designate for inclusion. Personnel files shall be confidential and shall not be released except as provided in this policy or any applicable negotiated agreement. An employee’s personnel file may be provided to the following without the employee’s notification and/or consent:

1. members of the Board;
2. administrators and/or supervisors;
3. agents of the District authorized by the Administration; or
4. when ordered to be released by court order or subpoena.

Conflicts of Interest: In an effort to avoid conflicts of interest or the appearance of conflicts of interest, the following requirements are adopted: No person shall be employed who is related to a member of the Board within the degree prohibited by law. No employee shall directly supervise any other employee who is a member of the employee’s family within the second degree of consanguinity or affinity.

No employee shall engage in any activity that conflicts with the duties and responsibilities of the employee with the District.

Employees shall not engage in any activity involving the commercial solicitation of students or parents during school hours with whom the employee has a professional relationship in the performance of the employee’s duties. This prohibition shall not apply to camps or clinics which utilize school facilities or tutoring services, provided that the students tutored are not currently enrolled in the employee’s class. Employees shall not use official school records for student or parent contact for any reason except as may be required in the performance of the employee’s contractual duties; however, directory information may be utilized as provided by law.
Employees shall not participate in the purchasing process for any goods, supplies, equipment, or other items purchased for the District, if the employee or any member of the employee’s household is employed or has any ownership interest in the supplying company or organization.

**Outside Employment:** District employees shall not accept outside employment that requires the employee to perform services or participate in activities during the employee’s normal working hours for the District. Any exception to this prohibition shall require Board of Education approval upon recommendation of the Administration. Attendance at workshops or conferences at which employees receive an honorarium shall be permitted without Board approval, unless overnight travel is required, and such attendance has been approved in advance by the employee’s supervisor, provided such honorarium shall be submitted to the District to offset the employee’s absence. If employees receive a stipend for attendance at approved workshops or conferences, the stipend will be used to offset any reimbursement made by the District for expenses incurred for such attendance. This paragraph shall not apply to employees who participate in military activities in accordance with federal and/or state statutes or who are on approved Personal Leave or Vacation Leave. For purposes of this policy, “outside employment” is defined as the receipt of remuneration from any source other than the District for the performance of services in non-District activities.

**Assignments and Transfers:** Unless otherwise provided in any applicable negotiated agreement, employees shall be assigned to a position by the Administration and may be transferred to a position on the basis of the needs of the District, the employee’s qualifications, and the employee’s expressed desires. The needs of the District shall be the primary criteria in determining any assignments or transfers, and the secondary criteria shall be the employee’s qualifications.

**Work Hours:** Unless otherwise provided in any applicable negotiated agreement, the Administration shall establish the work hours of the different categories of employees and shall notify employees of their work hours.

**Substitutes:** The Administration shall develop and maintain a list or lists of qualified substitutes who may be called upon to temporarily replace or substitute for employees when required by an agreement or the needs of the District. The Administration shall provide such lists to appropriate personnel for their use in selecting substitute personnel. Substitutes may be employed when 1) payment of a substitute is authorized by District policy, negotiated agreement, or regulation; and 2) a qualified substitute is available.

A substitute teacher who holds a valid teaching certificate may teach for an unlimited number of school days in any assignment. A substitute teacher who does not hold a current Oklahoma certificate, but holds a bachelor’s level college degree or possesses a lapsed or expired certificate, shall be employed for a maximum period of one hundred and forty-five (145) school days during the school year whether in one teaching assignment or multiple teaching assignments. A substitute teacher who does not hold a
valid teaching certificate, and does not possess a lapsed or expired certificate or bachelor’s level college degree, may be employed for a maximum of one hundred and thirty-five (135) days during a school year, whether in one teaching assignment or multiple teaching assignments.

**Supervision and Evaluation:** Administrative Regulations shall provide for the supervision and evaluation of all District personnel, except for the Superintendent. Such regulations may provide for supervisory personnel to observe the performance of any employee for whom the supervisor will be required to complete an evaluation. Subject to any applicable negotiated agreement, the Administration shall prepare appropriate forms for the evaluation of teachers, administrators, and support personnel. Unless otherwise provided for by law, policy, or negotiated agreement, all District employees shall be evaluated in writing at least once during each fiscal year by a supervisor. All evaluations and any responses shall be maintained in the employee’s personnel file.

Any employee who violates this policy may be subject to disciplinary action which may include suspension, dismissal, non-reemployment, or termination.

Each employee shall notify the Superintendent, or the Superintendent’s designee, of any criminal drug statute conviction for a violation occurring in or on the premises of this District or while engaged in regular employment. Such notification must be made to the Superintendent, or the Superintendent’s designee, no later than five (5) days after conviction. The Superintendent, or the Superintendent’s designee, shall provide notice of such violation to the Impact Aid Program, United States Department of Education, or other appropriate government agency within ten (10) days after the Superintendent, or the Superintendent’s designee, receives such notification. Within thirty (30) days following receipt of the above notification, the District shall take appropriate disciplinary action which may include termination or require the employee to participate satisfactorily in a drug abuse assistance or rehabilitation program; provided that nothing herein will preclude the District from taking disciplinary action prior to any such notice when cause exists.

Each employee shall attend a drug-free awareness program at which employees shall be informed about the dangers of drug abuse in the workplace, available drug counseling, rehabilitation, employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations occurring in the workplace. The Board recognizes that employees who have a drug abuse problem should be encouraged to seek professional assistance. An employee who requests assistance shall be referred to a treatment facility or agency in the community if such facility or agency is available.
Drug Testing: Drug and alcohol testing of employees may be conducted in accordance with applicable federal and/or state law as set forth in any Administrative Regulation. The District shall comply with the Omnibus Transportation Testing Act of 1991 and shall establish programs effective January, 1995, that help prevent accidents and injuries resulting from misuse of alcohol and controlled substances by employees whose duties require a commercial drivers license. For purposes of this policy, a "Driver" is defined as any employee, or casual, intermittent or occasional driver, or independent contractor who may be under contract with the District, who drives a District vehicle in circumstances which require the driver to be licensed with a commercial driver's license.
DISTRICT POLICY

NEGOTIATIONS

In accordance with law, the District may enter into negotiations with any duly elected employee organization for the purpose of establishing an orderly process of communications between eligible employees and the District. Such negotiations shall be governed by a procedural agreement which shall be agreed upon by the Board and the employee organization. Negotiations may include salary as well as other terms and conditions of employment subject to any applicable limitations of law. Both the District and the employee organization shall bargain in good faith.

Except as provided by law, the Board shall make all final decisions with respect to negotiations pursuant to the applicable procedural agreement. The Board shall make all decisions with respect to the management and the administration of the District, the employment and the direction of its employees, and the determination of the District’s program of instruction, and such matters shall not be negotiable items.
DISTRICT POLICY

LEAVE

Unless an applicable agreement contains specific leave provisions contrary to this policy, this policy shall apply to all employees of the District, including certified administrators.

Sick Leave: To be eligible for Sick Leave, an employee shall be on a regular or duration of need contract and work a minimum of four (4) hours a day. An employee who is absent from duty because of personal illness, injury, or pregnancy, or serious illness in the immediate family shall be allowed Sick Leave. Immediate family includes the employee’s spouse, parents, parents of spouse, children, siblings, grandchildren, grandparents or a household member. Sick Leave shall be provided as follows:

1. 12 month employees = 12 days per fiscal year;
2. 11 month employees = 11 days per fiscal year;
3. 10 month employees = 10 days per fiscal year.
4. 9 month employees = 10 days per fiscal year.

Employees shall be vested with Sick Leave at the beginning of the fiscal year and shall be informed of the total number of days of Sick Leave for which the employee is eligible. Sick Leave shall be cumulative with no limitation on the number of days which may be accumulated. According to applicable law, accrued but unused Sick Leave may be transferred to another school district or may be used for service credit with the Oklahoma Teachers’ Retirement System.

An employee who is going to utilize sick leave shall notify his/her supervisor as much in advance as possible and may be required to provide documentation of illness in certain circumstances.

When an employee voluntarily leaves the employment of the District, the District shall compensate the employee for accrued Sick Leave up to 120 days as follows:

1. 20 or more years of employment with District -- $35.00 per day or 25% of daily rate of base pay, whichever is greater.
2. 0 to 19 years of employment -- $10 per day increased $1.00 per day for each year of employment or 10% of daily rate of base pay, per day the first year plus ½% for each additional year of service, whichever is greater.
DISTRICT POLICY

For any accrued Sick Leave beyond 120 days, the employee shall be compensated at the rate of $20.00 per day or 20% of daily rate of base pay, whichever is greater. The estate of an employee who dies while under contract or on leave with the District will be paid for all District earned unused Sick Leave at the rate of 20 or more years of employment.

**Personal Leave:** Employees shall be allowed three (3) days of Personal Leave each fiscal year, which may be granted, in whole or half-day increments. An employee desiring to utilize Personal Leave shall request approval from a supervisor by 2:00 p.m. on the day before the leave date. Supervisors may deny a request for Personal Leave when circumstances indicate that excessive numbers of employees are going to be absent for the requested day.

Personal Leave shall not be used to extend a scheduled school break. Extenuating circumstances may, however, be appealed in writing to the Chief Officer of Human Capital. Misuse of Personal Leave shall result in a reduction in the employee’s pay.

**Bereavement Leave:** An employee shall be allowed five (5) days each fiscal year for bereavement in the immediate family. Immediate family shall include the employee’s spouse and the following relatives of either the employee or the employee’s spouse: parents, step-parents, in-laws, children, step-children, grandparents, grandchildren, siblings, nieces, nephews, aunts, or uncles. Bereavement Leave shall not accumulate beyond the fiscal year and the employee shall not be entitled to compensation for Bereavement Leave upon the cessation of employment with District. The Superintendent or Chief Officer of Human Capital may grant an employee up to five (5) additional days of Bereavement Leave if the employee suffers an additional death of a parent, spouse, or child during the same fiscal year.

**Family and Medical Leave:** Pursuant to the Family and Medical Leave Act of 1993, an employee who has worked at least one thousand two hundred fifty (1250) hours during the previous twelve (12) month period shall be allowed a Leave of Absence up to (12) work weeks as provided by law for:

1. The birth, adoption, or foster placement of a child with the employee, or to care for such child;

2. To care for the employee’s spouse, child, or parent who is suffering from a serious health condition; or

3. A serious health condition the employee is experiencing.

Such leave will be unpaid unless the reason for such leave qualifies for Sick and/or Personal Leave as provided for in policy. An employee may be required to provide certification from a physician of the necessity for such leave, including the date the condition began, the anticipated duration and medical facts regarding the condition.
Jury or Witness Leave: All employees shall be excused from employment without loss of pay when summoned for jury service or when subpoenaed in a criminal or civil proceeding. The employee may retain any compensation received for such service.

Military Leave: All employees shall be excused from employment for Military Leave according to applicable law.

Leave of Absence: Any employee may request an unpaid Leave of Absence for a period which shall not exceed one school year in duration. Requests for such leave must be made in writing, submitted to the Chief Officer of Human Capital, and contain sufficient detail as to the reasons for the leave so that a decision may be made based on the merits of the request. As a condition of approval, the employee must state that the reason for the leave is not for the purpose of accepting other employment or other activities for direct personal financial gains. Final approval of leave without pay is contingent upon the needs of the District.

Vacation Leave: The District shall provide all certified twelve (12) month administrators and the Director of Finance with fifteen (15) days of paid vacation each fiscal year. Unless otherwise provided in any applicable agreement, the District shall provide all other twelve-month employees with ten (10) days of paid vacation each fiscal year. After three (3) years of continued service in a twelve (12) month position, an employee shall receive an additional day of Vacation Leave for each subsequent year of employment until the employee has been employed for seven (7) continuous years of employment when the employee shall receive fifteen (15) days of Vacation Leave each fiscal year. An employee may carry over up to ten (10) days of unused Vacation Leave through June 30. On July 1, any vacation days in excess of ten (10), from the previous year, will be converted to Sick Leave.

Employees hired before September 1, 1997, as a 12 month employee received Vacation Leave in arrears. Therefore, when an employee hired before September 1, 1997, voluntarily leaves the employment of the District, all Vacation Leave will be paid in full. Employees hired after August 30, 1997, receive Vacation Leave in advance. Therefore, when an employee hired after August 30, 1997, voluntarily leaves the employment of the District, the vacation days taken in excess of what was carried over and earned in the current fiscal year will be deducted from the final check.

Upon termination of employment, employee shall be compensated for unused, accrued Vacation Leave at the employee’s daily rate of pay when an employee voluntarily leaves the employment of the District.

Professional Leave: Professional Leave is authorized with prior approval. Educational conferences, conventions, professional development training, and other activities may be considered eligible for Professional Leave. Any Professional Leave taken must be in the best interest of the District, and travel is subject to the guidelines of district policy and availability of funds.
Emergency Leave: At any time during the fiscal year, District's Board of Education may grant up to ten (10) days of emergency leave for all employees to be used for days when District's schools are closed due to inclement weather, unsafe conditions of physical facilities, lack of proper supervision of students, unsafe conditions for students, and other unforeseen conditions that are declared an emergency. Emergency leave shall not be cumulative from year to year and will only be available to an employee if the Board approves such leave. In approving district emergency leave, the Board may designate that employees whose services are essential, are not allowed district emergency leave for the days designated as an emergency. Provisions may be made to provide district emergency leave for essential personnel at a later date following the declared emergency.
DISTRICT REGULATION

LEAVE

Sick Leave

When calculating sick leave payoff for certified employees, 120 days is considered a year of service. When calculating sick leave payoff for twelve month support employees, a calendar year from the date of employment is considered a year of service. For support employees on nine, ten, and eleven month contracts, completion of a full contract is considered a year of service.

Vacation Leave

An employee shall be vested with vacation leave at the beginning of the fiscal year and shall be informed of the total number of vacation days for which the employee is eligible.

Twelve-month employees who are hired after the beginning of the fiscal year will receive a pro-rated number of vacation days for that year. The accrual possible in a partial year of employment is computed at 1.25 days per month for 12-month employees with 15 days of vacation. For twelve-month employees with 10 days of vacation, accrual is computed at .834 days per month. If employed on or before the 15th of the month, vacation leave will be accrued that month. If employed after the 15th of the month, no vacation leave will be accrued for that month. After three (3) years of continued service in a twelve month position, an employee shall receive an additional day of vacation leave for each subsequent year of employment until the employee has been employed for seven (7) continuous years of employment when the employee shall receive fifteen (15) days of vacation leave each fiscal year.

When calculating vacation leave, an employee must be employed from July 1 through June 30, to receive credit for a year of service.

On July 1, up to ten (10) days of accrued vacation leave from the previous fiscal may be carried over. Days in excess of ten (10) will be converted to sick leave.

DISTRICT REGULATION

DI-R2

FAMILY AND MEDICAL LEAVE

Eligibility: To be eligible for Family and Medical Leave Act ("FMLA") leave, an employee must have worked for the District for 12 months and have worked a total of at least 1,250 hours during the twelve months preceding the request for leave. Full-time teachers who have been employed by the District for at least 12 months are deemed to be eligible. Full-time administrators who have been employed by the District for at least 12 months shall also be deemed to be eligible.

Availability of Leave: As set forth in District Policy, an eligible employee may take up to twelve weeks of FMLA leave in any twelve-month period for one or more of the following purposes:

1. To care for a newborn son or daughter, a recently adopted child, or a recently placed foster child.
2. To care for a spouse, child, or parent who has a serious health condition; or
3. Because of a serious health condition that makes the employee unable to perform the functions of the job.

The District’s fiscal year, July 1 to June 30, shall be used for determining the twelve-month period for FMLA leave.

Intermittent Leave: Employees who wish to take FMLA leave on an intermittent basis or to stretch their leave by working on a reduced schedule need to show medical necessity or otherwise obtain the consent of their immediate supervisors. When employees request intermittent leave because of a birth or because of the placement of a child with them for adoption or foster care, supervisors will consider how the request for intermittent leave or reduced hours will affect the work of the areas they supervise.

Special rule: The twelve-week maximum per employee per year applies to couples, rather than individual employees, if both members of a married couple work for the District AND the leave is for the purpose of caring for a new family member or sick parent. Leave requested because of an employee’s own ill health is not subject to this limitation, nor is leave to care for the employee’s sick spouse or child.

Giving Notice of Need for Leave: When possible, employees are required to give their immediate supervisors thirty (30) days notice of their expected need for family leave. Employees who do not themselves have thirty (30) days notice of their need for leave are required to give their supervisors as much notice as is practicable. Employees on leave shall call their supervisor periodically (at least every thirty (30) days) to report on their expected return dates.
Providing Evidence of Need for Leave: Every employee requesting leave will complete an FMLA leave request form. If leave is needed because of the employee’s or a family member’s health condition, the form must be accompanied by a doctor’s certificate. The District may request a second opinion in some cases.

Pay During Leave: The District provides paid leave to its employees, in accordance with the District’s policies and applicable negotiated agreements. Upon commencing FMLA leave, employees may simultaneously take any paid leave for which they are eligible, including vacation time. Once paid leave is exhausted, any remaining FMLA leave will be unpaid leave. Paid and unpaid leave both count toward the twelve-week limit of FMLA leave.

Benefits During Leave: Health care benefits will be continued during FMLA leave. Employees on FMLA leave will not be charged more than other employees for health insurance premiums. If an employee is taking paid leave in conjunction with FMLA leave, any deductions from the employee’s pay for premiums for health insurance and/or other benefits will continue during the period of paid FMLA leave. If any employee is taking unpaid FMLA leave, the employee will be responsible for the payment of any premiums for health insurance and/or other benefits which are normally deducted from the employee’s pay. The employee will have a 30-day grace period to make payments. If a timely payment has not been made, the employee’s group health insurance and/or other benefits may be canceled. Vacation and longevity benefits shall not accrue during unpaid FMLA leave.

Return From Leave: Employees returning from leave will be restored to their old jobs and pay, whenever practicable, and receive all accrued benefits. If the employee’s old job is not available; the employee shall be placed in an equivalent position.

Fitness-to-work certificate: Employees who take leave because of personal health problems may be required to provide certificates from their health care providers attesting that they are able to perform the essential functions of their jobs.

PROFESSIONAL DEVELOPMENT PROGRAM

Applicability: All licensed and certified teachers and administrators employed by the District, including teachers on temporary contracts, shall be required to meet the professional development requirements established by the Board in accordance with state law.

Professional Development Committee: The Board shall annually appoint a Professional Development Committee which shall be comprised of a majority of teachers to be appointed as provided by law and shall include administrators and parents/guardians/custodians of students in the District. The Professional Development Committee shall consult with a member of the faculty of an institution of higher education as needed.

Professional Development Program: The Professional Development Committee shall prepare and recommend a Professional Development Program as required by law which complies with the regulations of the State Department of Education. The Professional Development Committee shall present such program to the Board for review, modification, and adoption. The Professional Development Program adopted by the Board shall be submitted to the State Board of Education as required by law.

Penalties for Failure to Comply: The failure of any certified employee to meet the Professional Development Program adopted by the Board may be grounds for non-renewal of the certified employee’s contract; withholding of salary increments and/or withholding step increases.

Professional Development Certification Reimbursement Program

The School District, under limited circumstances, will provide subject area certification reimbursement to eligible employees based on the Oklahoma State Department of Education, Special Education Services (OSDE-SES) division's Certification Reimbursement Program. Reimbursement is limited to one subject area examination per individual. Prior to any employee wishing to be involved in this reimbursement program, the Superintendent or designee must agree to sponsor the request at the local level. State Department of Education approval is based on information provided by the district and available funds for the program. Please note that taking and passing a subject area examination does not, in and of itself, constitute approval for providing direct instruction in any subject area. Districts must comply with current State law regarding certification requirements.

Once sponsored or approved by the Superintendent, it will be the employee’s obligation to contact the (OSDE-SES) division for more information.
Reimbursements must be pre-approved:

Superintendent or designee must provide a statement, on district letterhead, with the following details:

1. Names of individuals for whom the reimbursement is being sought.
2. Current teaching assignment for each individual.
3. Justification for the necessity of each individual to take and pass the subject area examination.
4. Total cost.

Once pre-approval is obtained and an individual takes and passes the subject area examination, the district must submit a computer generated Expenditure Summary and Detail report and a copy of each individual’s subject area examination results. If an individual does not pass the test, the district must obtain pre-approval again. The report and copies must be faxed (405-522-2380) or emailed to appropriate staff at the Oklahoma State Department of Education, Special Education Services division.

The amount of the reimbursement will be listed on the employee’s W2 as taxable compensation in the year in which the reimbursement was received by the employee.

For questions and information regarding this program, please contact the Oklahoma State Department of Education, Special Education Services division at 405-521-3351.

DISTRICT POLICY

Professional Qualifications of Teachers: The District is committed to providing quality instruction for all students and does so by employing the most qualified individuals to teach and support each student in the classroom. The District shall notify the parents of students attending any school that receives funds under Title I, Part A that a parent may request, and the District will provide to the parent on request and in a timely manner, information regarding the professional qualifications of the student's classroom teacher(s), including a) whether the teacher has met State qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction; b) whether the teacher is teaching under an emergency license or waiver through which the State qualifications or licensing criteria have been waived; c) the baccalaureate degree major of the teacher and any other graduate certification or degree held by the teacher, and the field or discipline of the certification or degree; and d) whether the student is provided services by a paraprofessional and, if so, the qualifications of the paraprofessional. Additionally, the District shall provide each individual parent timely notice that the parent’s child has been assigned or has been taught for four or more consecutive weeks by a teacher who is not highly qualified.

Parent and Family Engagement: District operates programs, activities and procedures for the involvement of parents and family members of participating children, consistent with Section 1116 of the Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act (ESSA). These programs, activities, and procedures are developed jointly with, and agreed on, with parents and family members of participating children at the end of each school year, and distributed to families at the beginning of ensuing school year.

DEFINITION: District utilizes the statutory definition of parental involvement under ESSA, Section 8101(39), and carries out programs, activities, and procedures in accordance with the following definition:

“Parental involvement means the participation of parents in regular, two-way, and meaningful communication involving student academic learning and other school activities, including ensuring—
(A) that parents play an integral role in assisting their child's learning;
(B) that parents are encouraged to be actively involved in their child's education at school;
(C) that parents are full partners in their child's education and are included, as appropriate, in decision-making and on advisory committees to assist in the education of their child;
(D) the carrying out of other activities, such as those described in section 1116 of ESSA.”

ACCESSIBILITY: In carrying out the Title I, Part A parent and family engagement requirements, to the extent practicable, District provides full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information
and school reports required under ESSA, Section 1111 in an understandable and uniform format and, including alternative formats upon request, and, to the extent practicable, in a language parents understand.

**DEVELOPMENT:** Annually, District invites parents and family members of children from all grade levels (elementary, middle and high school levels) to jointly develop, review or revise the Parent and Family Engagement District Policy, that is in alignment with District’s expectations, goals and objectives, and to adapt to current environmental, social and emotional changes.

**RESERVATION:** District reserves one percent (1%) of the Title I, Part A allocation to assist its schools to carry out meaningful parent and family engagement activities. Parents of children from all grade levels are consulted in regard to how the one percent of Title I, Part A funds reserved for parental involvement is spent, ensuring that not less than 90 percent of the one percent reserved goes directly to the schools, with priority given to high – need schools.

**USE OF FUNDS:** District uses the funds reserved under Title I, Part A for parent and family engagement activities and strategies for one or more of the following purposes:

a) Supporting schools in providing professional development for District and school personnel regarding parent and family engagement strategies, which may be provided jointly to teachers, principals, other school leaders, specialized instructional support personnel, paraprofessionals, early childhood educators, and parents and family members.

b) Supporting programs that reach parents and family members at home, in the community, and at school.

c) Disseminating information on best practices focused on parent and family engagement, especially best practices for increasing the engagement of economically disadvantaged parents and family members.

d) Collaborating with community based or other organizations or employers with a record of success in improving and increasing parent and family engagement.

e) Engaging in any other activities and strategies that the local educational agency determines are appropriate and consistent with such agency’s parent and family engagement policy.

**BUILDING CAPACITY FOR INVOLVEMENT:** To assist and build the capacity of all its participating schools in planning and implementing effective parent and family engagement activities, District designates a Parent and Family Engagement Coordinator at the district level to coordinate, provide technical assistance, and other support necessary to improve student academic achievement and school performance. It is the responsibility of this person to coordinate District family engagement programs; facilitate district wide parent and family education events; work to build partnerships with organizations and school sites to support family engagement; provide relevant District-wide parent and family
involvement professional development; conduct an annual evaluation of the effectiveness of this policy, strategies and activities for parent and family engagement.

To support parent involvement in school activities, events and decisions, District requires all its schools shall establish a parent advisory committee, comprised of a sufficient number and representative group of parents of children served in each respective school. This committee shall support the needs of parents and family members to assist with the learning of their children, to make recommendations and participate in decisions. District and each school shall, to the extent practicable, remove barriers to greater participation of parents in school activities (specifically of parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background).

COORDINATION: To the extent feasible and whenever appropriate, District coordinates and integrates Title I, Part A parent and family engagement strategies with parent and family engagement strategies under other relevant Federal, State, and local laws and programs. Examples are, but not limited to, English Language Learner Parent Nights (under Title III, Part A), District Health Fair (under Title IV, Part A), College and Career Fair, etc.

EVALUATION: To determine the effectiveness of the parent and family engagement policy in improving the academic quality of all schools, at the end of each school year, the Parent and Family Engagement Coordinator shall conduct an annual evaluation of this policy with the involvement of parents and family members. The teacher will assign the student a book or materials of approximately equal merit and appropriate to the same or related objectives.

All challenges to remove specified material from use must be presented in writing on the appropriate form. This can be done by contacting the building principal. If the person asking for the review wishes to remain anonymous at the local level, contact the Assistant Superintendent of Curriculum and Instruction. When a request for review of instructional materials is received, action shall be taken as follows:

1. A building level review committee composed of the principal, librarian and three other faculty members, shall be appointed by the principal.

2. If a concern is settled at the building level, the complaint will be considered resolved.

3. If the complaint cannot be resolved on the building level, a district review committee will be formed. The district review committee shall be appointed by the Superintendent or his designee and shall be composed of the Director of Elementary or Secondary Education as appropriate, a curriculum coordinator, two principals, the chairperson of the particular department or grade level involved, three teachers competent in the field under question, and two patrons of the District.

4. The committee shall consider the attitudes of other teachers toward the materials, the opinions of other competent authorities, reviews of the materials by the American Library Association and other reputable reviewers, and the teacher’s written rationale for using the materials.
5. Prior to any determination of findings, the complainant shall be invited to appear before the building review committee and the district review committee, if one is required, to provide further rationale for his/her objection to the materials.

6. The report from the building and or district level committee shall be submitted to the superintendent and the superintendent will communicate that report to the board.

7. A written response shall be forwarded to the objecting party after the decision is made.

DISTRICT POLICY

STUDENT ACTIVITIES

General: Student activities are an important part of the total educational program. Student activities shall be scheduled so as to result in the least interference with curricular activities and classes.

Participation: Student participation in student activities shall be voluntary and in accordance with any Administrative Regulations governing such participation. In order to be excused from classes to participate in student activities which are scheduled during the school day, a student shall be passing in all assigned subjects and shall be in compliance with all Administrative Regulations governing such participation.

Organizations: The District shall permit the formation of student organizations as provided by Administrative Regulations and Procedures. Student organizations shall have at least one (1) faculty advisor and shall comply with state law, Board policy, and any Administrative Regulations regarding funds from student activities.

The District shall annually notify parents/guardians of students about clubs and organizations sponsored by or under the direction and control of the school. The annual notification shall be by posting on the District's website. The annual notification shall include, but is not limited to, the name, the mission or purpose, and the faculty advisor. Parents/guardians of students shall notify the school Administration in writing that the parent/guardian is withholding permission for the student to join or participate in one or more clubs or organizations. Parents/guardians shall be responsible for preventing their student from participating in a club or organization for which permission has been withheld.

Government: The District shall permit the formation and operation of student councils which shall provide students with an opportunity to participate in the workings of the democratic process. Student councils shall not have any authority to make policies and/or regulations for the District or the particular school, nor shall they have any authority regarding disciplinary matters except for recommending the removal of a council member. Student councils may make recommendations to the Administration on any topic.

Publications: Each secondary school within the District may establish an official District-sponsored publication as a forum for student expression. Official District-sponsored publications may include newspapers and yearbooks. The preparation, publication, and distribution of such student publications shall be done by students working under the supervision of a faculty advisor and shall be done in accordance with the law, Board policy, and any applicable Administrative Regulations and procedures. Any Administrative Regulations shall advise students of their First Amendment rights with respect to
such publications and advise them of those types of speech which are not protected by the First Amendment and which are therefore prohibited.

**Athletics:** A well-organized and well-conducted athletic program is a potent factor in the morale of a high school student body and an important phase of good community-school relations. Students benefit through opportunities to grow physically and intellectually, to develop self-discipline, and to contribute to a team effort which is made possible by participation in competitive interschool and intramural team and individual sports activities. The District is a member of the Oklahoma Secondary School Activities Association (OSSAA), and in all athletic matters will adhere firmly to the rules and regulations of that body and to the philosophy of sports which it encourages. The eligibility of students to participate in the District's athletic program is determined in accordance with OSSAA regulations and will be monitored by coaches and principals.

The District shall provide interscholastic athletic competition for students in grades 6-12 in a variety of sports and shall provide intramural athletic activities as an outgrowth of class instruction in physical education and commensurate with the grade level of the students involved. The District shall allow students to participate in sports on the basis of their physical condition and desire and shall provide qualified personnel to coach and supervise individual sports. The athletic program is both educational and recreational, should encourage participation by as many students as possible, and should be carried on with the best interests of the students as the first consideration without unreasonable interference with other obligations in the school community. A student may not begin practice for any athletic team until the student has been examined and approved by a medical doctor, and written consent for such participation has been obtained from the parent. Insurance against accident or injury shall be provided by the students engaging in interscholastic athletics.

**Field Trips:** Field trips are considered appropriate extensions of the classroom and should stimulate student interest and inquiry in the subject being taught.

**Concussion and Head Injury Awareness:** On an annual basis, a concussion and head injury information sheet shall be completed and returned by District athletes and their parents or guardians. The information sheet must be returned prior to the athlete's participation in practice or competition.

An athlete who is suspected of sustaining a concussion or head injury during a practice or game shall be removed from participation at that time. An athlete who has been removed from participation during a practice or game based upon a suspected concussion or head injury may not participate in practice or game-play until the athlete is evaluated by a licensed health care provider trained in the evaluation and management of concussions and has received written clearance to return to participation from that health care provider.
The Board of Education recognizes that the students’ rights to express their thoughts and opinions subject to certain limitations is guaranteed by the First Amendment to the United States Constitution. The freedom to express one's opinion goes hand in hand with the responsibility for the published material. Speech, whether written or symbolic, should be in accordance with standards of responsible journalism. Responsibly applying the First Amendment's protection of free speech is an essential learning process for students involved in student publications.

Responsibilities of Students Who Assist With Official District Sponsored Student Publications

Students who assist with official district-sponsored student publications will adhere to the tenants of responsible scholastic journalism when preparing all verbal and graphic expression intended for publication. Such tenants shall include the following responsibilities:

1. To determine the content of the student publication subject to the limitations set forth in this policy and as provided by law.

2. To exercise in writing and maintain a high regard for the truth.

3. To strive to use proper syntax, grammar, spelling and punctuation.

4. Not to use speech determined by law to not be protected by the First Amendment to the United States Constitution including those set forth as prohibited speech in this policy.

5. To report on matters of current interest and concern to the school community always being aware of the beliefs and values of the constituencies of the school.

6. To refrain from impugning any person’s race, place of national origin, creed, sex or age.

Responsibilities of Faculty Advisers

Faculty advisers who have been assigned to official district-sponsored publications shall have the following responsibilities:

1. Consult with and advise students in regard to style, grammar, format, propriety and legality of materials to be published.
2. Supervise the students in regard to the fulfillment of their responsibilities set forth in this policy, provided that no faculty adviser shall be disciplined for failing to violate the student participants’ rights guaranteed by the Oklahoma and United States Constitution.

3. Prohibit and prevent the publication of prohibited speech by students.

4. Impart to the student practical skills in writing, photography, design, layout and advertising.

5. Oversees the publication’s operation with regard to finances, supplies, equipment, contracts, and publication schedules.

6. Maintain open communication with the principal regarding the status of the assigned student publication and matters affecting the responsibilities for such publication shared with the principal.

7. Forewarn the principal of materials to be published of a controversial nature. Controversial materials are defined as those materials which may elicit strong, differing opinions and emotions among students, staff and community, provided that the fact that a certain speech is controversial shall not be cause to prevent and prohibit such speech unless it is also prohibited speech. Because “controversial” is difficult to define, when the faculty adviser is in doubt as to whether the material is controversial in nature, the principal should be forewarned. Topics which may be of a controversial nature include, but are not limited to, issues relating to human sexuality, chemical abuse, religion, school district personnel, student powers, topics in derogation of school or district image, politics, or severe emotional and physical problems of students.

8. Perform such duties and responsibilities assigned by the Principal which are not inconsistent with this policy.

**Responsibilities of the Principal**

The principal shall have the following responsibilities in regard to official district-sponsored student publications:

1. Assign a faculty adviser for student publication and supervise the faculty adviser in regard to the performance of the faculty adviser’s duties set forth in this policy.

2. Maintain open communications with the faculty adviser regarding the status of the assigned student publication and matters affecting the responsibilities for such publication held by the faculty adviser or shared between the faculty adviser and the principal.
3. Although the faculty adviser is primarily responsible for the prohibition and prevention of the publication of prohibited speech by student participants, the principal shall provide advice and counsel to the faculty adviser either upon the request of the faculty adviser or upon the principal's own volition. In the event that the principal determines that certain speech of the student participants is prohibited speech, the principal shall prohibit and prevent publication of the prohibited speech notwithstanding the opinion of the faculty adviser to the contrary.

**Prohibited Speech**

The participants in official district-sponsored publications shall have the right to freedom of speech except for that speech which is determined by law to be unprotected by the First Amendment to the United States Constitution. Such unprotected speech is referred to in this policy as “prohibited speech” and includes:

1. **Obscenity**, which is defined as:

   a. A publication the average person, applying contemporary community standards, would find, taken as a whole, appeals to a minor’s prurient interest in sex; and

   b. A publication which depicts or describes, in a patently offensive way, sexual conduct such as intimate sexual acts, masturbation, excretory functions, and lewd exhibition of the genitals: and

   c. A publication which, taken as a whole, lack serious literary, artistic, political, or social value.

2. **Libel**, which is defined as a false or unprivileged publication by writing, printing, picture or effigy or other fixed representation to the eye, which exposes any person to public hatred, contempt, ridicule or obloquy, or which tends to deprive a person of public confidence, or to injure a person in the person’s occupation, or any malicious publication as aforesaid, designed to blacken or vilify the memory of one who is dead, and tending to scandalize the person’s surviving relatives or friends.

   If the allegedly libeled individual is a “public figure” or “public official” as defined below, the false statement must be published “with actual malice”, i.e., that the person making the statement knew that the statement was false, or that the statement was published with reckless disregard for the truth - without trying to verify the truthfulness of the statement.

   (a). A public official is a person who holds an elected or appointed public office

   (b). A public figure is a person who either seeks the public's attention or is well known because of his achievements.
(c) School employees are to be considered public officials or public figures in articles concerning the performance of their school-related activities.

(d) When a statement concerns a private individual, the false statement must be published willfully or negligently, without exercising the care that a reasonably prudent person would exercise to be libelous.

(e) Under the "fair comment rule" a person is free to express an opinion on matters of public interest.

3. Speech which causes a material and substantial disruption of a school activity. "Disruption" and "school activity" are defined as

a. "Disruption" is defined as speech which substantially interferes with or materially disrupts classroom work, school activities or school functions, such as demonstrations, sit-ins, boycotts, walk-outs, stand-ins, unlawful seizures of property, destruction of property, widespread shouting or boisterous conduct and related activities. Heated discussion or debate does not constitute disruption.

In order for student speech to be considered disruptive, there must exist specific facts which it would be reasonable to forecast that a clear and present likelihood of an immediate, substantial, and material disruption of school activities would occur if the material was distributed. The mere perception or apprehension of an occurrence of a distribution without the existence of specific facts upon which it would be reasonable to forecast such disruption is not enough to constitute a disruption.

In determining whether a student publication is disruptive, consideration must be given to the context of the distribution as well as the context of the material.

In this regard, consideration should be given to past experiences in the school with similar material, past experience in the school in supervising the students in the subject school, current events influencing student activities and behavior and whether the have been any instances of actual or threatened disruption prior to or contemporaneously with the dissemination of the student publication or the student speech in question.

b. "School activity" means educational activity of students sponsored by the school and includes, by way of example and not by way of limitation, classroom work, library activities physical education classes, official assemblies and other similar gatherings, school athletic contests, band concerts, school plays and in-school lunch periods.
STUDENT ACTIVITIES

1. The teacher shall review the educational value of the field trip with the principal and receive the principal's approval prior to making arrangements for the field trip.

2. The principal must receive transportation authorization and a purchase order to expend district funds, if such expenditure is required, prior to granting approval.

3. A parental permission slip is required for each student participating in the trip, including walking or bicycling excursions. Slips will be available in each school office.

4. The teacher will provide the parents with information concerning the purpose and destination of trip, transportation, and eating arrangements, date and time of departure, and estimated time of return.

5. Board of Education or activity funds will pay the cost of transportation, admission fees, etc.

6. One or more adults in addition to the teacher will accompany each class on field trips unless otherwise approved by the principal. Teachers are responsible for informing accompanying adults of their duties and responsibilities.

8. The teacher planning the trip will be responsible for arranging an appropriate educational experience and supervision for students who do not participate in the field trip.

9. Students' safety will be a primary consideration with first aid kits required on all field trips.

10. The buddy system, or partners, is recommended to assure constant awareness of each student's whereabouts, needs, and participation.

11. Should an emergency situation occur, the teacher is responsible for notifying the principal by telephone as soon as possible.
12. Walking or bicycling trips must be made under the personal supervision of the teacher. Employee vehicles may be used for field trips in the Oklahoma City area if approved by the building principal. Such practice should be authorized in only the most unusual circumstances.

14. Arrangements for buses are to be made through the transportation office with teachers ordering buses at least one week in advance of the trip.

15. Students will not be permitted to leave the field trip group during the trip unless prior written arrangements are made by parents.

16. If students return to the school from a trip after school hours, the teacher and the principal should make provisions for their safe departure home, taking into account the age of the students and the hour.

Schools sending students on field trips and excursions shall be charged for all transportation costs. Such costs shall either be paid from the general fund or the local school activity fund at the discretion of the building principal. Procedures for payment of transportation costs are as follows:

DISTRICT POLICY

GRADING, PROMOTION, RETENTION AND GRADUATION

**Grading**: The grading system is designed to promote continuous evaluation of student performance, communicate student progress, and celebrate student successes. Administrative Regulations shall set forth the District’s grading system, including class ranking. Any students attending school on a virtual platform will be subject to the same grading scale and policies as all other District students.

**Grading Symbols (6-12)**: The following scale should be used for student work that has been completed or been attempted:

- A = 90-100
- B = 80-89
- C = 70-79
- D = 60-69
- F = 50-59

A zero can be given for work that is not turned in.

A zero can be recorded as the final grade, for an assignment, after notification has been made with the parent or guardian. Points for the assignment and length of time to complete and/or turn in the assignment will be at teacher discretion. Documentation should be kept of notifying the parent or guardian.

Teachers should keep their electronic grade books (district) updated weekly, with grades entered. These grades should be reflective of how students are mastering the standards that have been taught. Parents are encouraged to keep track of their students’ grades by checking the Parent Portal available through the district website.

Students that are placed on the ineligibility list must be given the opportunity to improve their grade each week.

Parents or guardians must be contacted by a teacher before a semester grade of “F” is given. Documentation of parent contact should be kept.
Criteria for Averaging Grades (9-12): Comprehensive tests will be given for each transcript grade. Each comprehensive test will count 20% of the transcribed grade for that period.

Course Weighting: Beginning with the class of 2020, concurrent courses will be weighted using a 4.5 scale. Beginning with the class of 2022, Advanced Placement (AP) and honors classes will be weighted using a 4.5 scale with the notation that passing the corresponding AP exam (score of 3, 4, or 5) will add an additional .5 weight to the AP course (5.0 scale).

Incomplete: When a grade of incomplete is issued, the incomplete work and timeline for completion should be communicated both verbally and in writing to the student and recorded with the principal. Make-up work shall be graded and credit awarded.

Test Exemptions: High school students with no more than three (3) absences in any given class, and no more than three (3) tardies in any given class are eligible to be exempt from their semester exams. Students must have at least a “B” average in the class of exemption to be eligible. Students who have been suspended or have missed one class due to truancy during the semester are not eligible for test exemptions.

Seniors can earn exemptions from all semester finals. Students in grades 9-11 can earn exemptions from two finals each semester.

No student, regardless of grade, may be exempt from an exam if they have an unexcused absence or more than two unexcused tardies in any given term. A student who has been placed in ISR (in school restriction) or has been suspended during any given term will lose exemption privileges.

In order to receive exemption status, a student must be within the required number of absences and tardies for each class enrolled in for that semester.

Frequency of Marking: Report cards are issued to the students at the end of each semester. A quarterly progress report will be sent to parents/guardians at the end of each nine-week period. Parents or guardians of students who are making a D or below shall be notified as soon as possible through-out the school year.

Changing a Final Grade: Final grades may be modified only by completing a “Grade Change Request” form which indicates approval of a site administrator. Registrars may modify the grade as noted on the approved request form.

Homework: Teachers may assign homework to students. The type, frequency, and quantity of homework to be assigned shall be determined by the teacher based on the needs of the students and the subject matter being taught.
Retention and Course Failure: In general, students enrolled in grades K-8 shall be placed at the grade level to which they are best adjusted academically, socially, and emotionally. The educational program shall provide for the continuous progress of students from grade to grade, with students spending one year in each grade. However, some students may benefit from staying another year in the same grade, and under certain circumstances, a student may be retained more than once. Retention may be considered when:

1. The student is achieving significantly below ability and grade level;
2. Retention would not cause an undue social and emotional adjustment; and
3. Retention would have a reasonable chance of benefiting the student's development.

Whenever a teacher recommends that a K-8 student be retained at the present grade level or recommends that a high school student not be passed in a course, the student's parent or guardian shall be notified of such recommendation. If the student's parent or guardian is dissatisfied with the recommendation, the parent or guardian may appeal the decision by complying with the District's appeal process as set forth in Administrative Regulations.

Based on the District's grading system, students in grades 9-12 shall receive credit for courses and shall be classified into grade levels based on the number of course credits completed. A teacher may recommend that a student in grades 9-12 not be given credit due to a failing grade in the course or due to a failure to meet attendance or tardiness requirements.

Reading Sufficiency Act: Each student enrolled in kindergarten in a public school shall be screened at the beginning, middle, and end of each school year for reading skills. Children at risk for reading difficulties at the beginning of the year will be monitored to measure mid-year and year-end reading progress. Kindergarten student who are not meeting grade-level targets by mid-year in reading shall be provided a program of reading instruction designed to enable the student to acquire the appropriate grade-level reading skills.

Any student enrolled in first, second, or third grade in an Oklahoma public school shall be assessed at the beginning, middle and end of each school year using a screening instrument approved by the State Board of Education. The assessment shall determine the acquisition of reading skills including, but not limited to, phonemic awareness, phonics, reading fluency, vocabulary and comprehension. Any student who is assessed and who is not meeting grade-level targets in reading shall be provided a reading instruction program to help them acquire the appropriate grade level reading skills, as provided for by law. This program shall continue until the student is determined, through the results of approved reading assessments, to be meeting grade level targets.
DISTRICT POLICY

District shall update its reading sufficiency plan annually taking into consideration all of the requirements prescribed in law as well as the input of school administrators, teachers, parents, and if possible a reading specialist.

Any first-grade, second-grade, or third-grade student who demonstrates end-of-year proficiency in reading at the third-grade level through a screening instrument which meets the reading skills criteria pursuant to law shall not be subject to retention. Upon demonstration of proficiency, the district shall notify the parent(s) or guardian(s) of the student that they have satisfied the requirements of the Reading Sufficiency Act and the student will not be subject to retention.

If a third-grade student is identified at any point during the academic year as having a significant reading deficiency, meaning the student is not meeting grade-level targets on a screening instrument which meets the reading skills criteria, the District will immediately begin a student reading portfolio and provide notice to the parent or guardian of the deficiency.

If a student has not satisfied proficiency requirements by the end of their third-grade year and still has a significant reading deficiency, has not accumulated evidence of third-grade proficiency through a portfolio, or is not subject to a good-cause exemption, the student will not be eligible for automatic promotion to the fourth grade.

The minimum criteria for grade-level performance of third-grade students pursuant to the Reading Sufficiency Act shall be that students are able to read and comprehend grade-level text.

A student not eligible for automatic promotion as provided for under the above listed paragraph and who does not meet the criteria established by the Commission for Educational Quality and Accountability on the reading portion of the statewide third-grade assessment may be evaluated for “probationary promotion” by the Student Reading Proficiency Team.

The student shall be promoted to the fourth grade if the team members unanimously recommend “probationary promotion” to the principal and the superintendent and the principal and the superintendent approve the recommendation that promotion is the best option for the student.

If a student is allowed “probationary promotion”, the team will continue to review the reading performance of the student and repeat the process above each academic year until the student demonstrates grade-level reading proficiency through a screening instrument that meets the reading skills criteria for the corresponding grade level in which the student is enrolled or transitions to a locally designed remediation plan after fifth grade which shall have the goal of ensuring that the student is on track to be college and career ready.
Students who do not meet the performance criteria established by the Commission for Educational Quality and Accountability on the reading portion of the statewide third grade criterion-referenced test, who are not subject to a good-cause exemption as provided below, and who do not qualify for promotion or “probationary promotion” as provided in this subsection, shall be retained in the third grade and provided intensive instructional services and supports.

The parent of a student who is determined to have a reading deficiency and is not meeting grade-level reading targets and has been provided a program of reading instruction as provided for by law shall be notified in writing of the following:

1. That the student has been identified as having a substantial deficiency in reading;
2. A description of the services being provided to the student pursuant to a conjoint measurement model such that a reader and a text are placed on the same scale;
3. A description of the proposed supplemental instructional services and supports that will be provided to student and are designed to remediate the identified area of reading deficiency;
4. That the student will not be promoted to the fourth grade if the reading deficiency is not remediated by the end of the third grade, unless the student is otherwise promoted as provided for by law or is exempt for good cause as set forth below;
5. Strategies for parents to use in helping the student succeed in reading proficiency;
6. The grade-level performance scores of the student;
7. That while the results of the statewide criterion-referenced tests administered pursuant to law are the initial determinant, they are not the sole determiner of the promotion and that portfolio reviews and assessments are available; and
8. The specific criteria and policies of District for midyear promotion implemented as provided for by law.

No student will be assigned to a grade level based solely on age or other factors constituting social promotion.

A student who scored unsatisfactory may be promoted if they meet one of the statutory exemptions for “good cause.” The statutory exemptions are as follows:

1. English Language Learner who has had less than two (2) years of instruction in an English language learner program.
2. Students with disabilities whose individualized education plans, consistent with state law, indicate that the student is to be assessed with alternative achievement standards through the Oklahoma Alternate Assessment Program (OAAP);

3. Students who demonstrate an acceptable level of performance on an alternative standardized reading assessment approved by the State Board of Education;

4. Students who demonstrate through a student portfolio, that the student is reading on grade level as evidenced by demonstration of mastery of the state standards beyond the retention level;

5. Students with disabilities who participate in the statewide criterion-referenced tests and who have an individualized education plan that reflects that the student has received intensive remediation for reading and has made adequate progress in reading pursuant to the student's individualized education program;

6. Students who have received intensive remediation in reading through a program of reading instruction for two or more years but still demonstrate a deficiency in reading and who were previously retained in prekindergarten for academic reasons, kindergarten, first grade, second grade, or third grade; and

7. Students who have been granted an exemption for medical emergencies by the State Department of Education.

Requests to exempt students from the mandatory retention requirements based on one of the good-cause exemptions shall be made using the following process:

1. Documentation submitted from the teacher of the student to the school principal that indicates the student meets one of the good-cause exemptions and promotion of the student is appropriate. Documentation shall be limited to the alternative assessment results or student portfolio work and the individual education plan (IEP), as applicable;

2. The principal of the school shall review and discuss the documentation with the teacher. If the principal determines that the student meets one of the good-cause exemptions and should be promoted based on the documentation provided, the principal shall make a recommendation in writing to the school district superintendent; and

3. After review, the school district superintendent shall accept or reject the recommendation of the principal in writing.

A retained student who can demonstrate that he or she is successful and independent reader, is reading at or above grade-level targets, and is ready to be promoted to fourth grade may be promoted mid-
year. District may reevaluate the student using multiple tools, including: screening assessments, alternative assessments, and portfolio reviews, in accordance with the rules of the SBE. Retained students may only be promoted midyear prior to November 1 and only upon demonstrating that the student has met the performance criteria established by the Commission for Educational Quality and Accountability on the reading portion of the statewide third-grade assessment administered pursuant to law, or upon demonstrating proficiency in reading at the third-grade level through a screening instrument administered pursuant to law, and upon showing progress sufficient to master appropriate fourth-grade-level skills, as determined by the school. A midyear promotion shall be made only upon agreement of the parent or guardian of the student and the school principal.

A student who is otherwise promoted as provided herein or is promoted for good cause shall be provided intensive reading instruction that includes specialized diagnostic information and specific reading strategies for each student until the student meets grade-level targets in reading. The District will annually report to the State Department of Education the number of students promoted to the fourth grade, as required by law.

**Dyslexia Screening**: Beginning with the 2022-2023 school year and for each school year thereafter, any student enrolled in kindergarten-third grade in an Oklahoma public school who is assessed through the Reading Sufficiency Act and is not meeting grade-level targets in reading after the beginning-of-the-year assessment shall be screened for dyslexia. Screening may also be requested by a parent or guardian, teacher, counselor, speech-language pathologist or school psychologist. All processes and characteristics of the dyslexia screening shall follow State Department of Education guidelines.

**Acceleration**: In certain circumstances, students may be accelerated ahead of grade level. Such acceleration shall only occur after discussion with the student’s teachers and counselors and approval of the student’s parent or guardian and principal.

**Graduation Requirements**: In order to receive a diploma from the District, students must complete certain course requirements and be enrolled in the District as set forth in Administrative Regulations.

**Individual Career and Academic Plan ("ICAP")**: Beginning with students entering the ninth grade in the 2019-2020 school year and for each school year thereafter, every student shall be required to complete the process of an ICAP in order to graduate with a standard diploma. An ICAP is an individualized plan developed by the student and the student’s parent/legal guardian, in collaboration with the student’s school counselors, school administrators, teachers and other school personnel. The ICAP is used to help establish personalized academic and career goals, explore postsecondary career opportunities, including, but not limited to, military careers, apprenticeship programs, career and technology programs leading to certification or licensure, educational opportunities, align coursework and curriculum, apply to postsecondary institutions, secure financial aid and ultimately enter the
workforce. Each year following a student's ninth grade year, students shall update their ICAP. The ICAP shall include, but not be limited to:

1. career and college interest surveys,
2. written postsecondary workforce goals and information of progress toward these goals,
3. intentional sequence of courses that reflect progress toward the postsecondary goal,
4. the student's academic progress, including courses taken, assessment scores, any remediation or credit recovery and any Advanced Placement, International Baccalaureate, concurrent or dual enrollment credits earned and/or career certificate(s), certification(s), or endorsements, and
5. experience in-service learning and/or work environment activities.

**Graduation Exercises:** Graduation exercises are an important event in the educational process, and student participation in and student conduct at graduation exercises shall be governed by Administrative Regulations.

• Is demonstrating a level of proficiency in reading required to score a the proficient level on the statewide third-grade criterion-referenced test or through an approved screening instrument; and

• Is showing progress sufficient to master appropriate fourth-grade-level-skills, as determined by the District.

High School Course Failure

The policy and procedures used for grading are described in ED and ED-RI. Notification of course failure will be on the report card at the end of the instructional term for the course.
Appeal Process

1. Within three (3) days of retention notification, or receipt of report card noting failure of the course(s), the parent/guardian may request a conference with the teacher(s) and principal to discuss the reasons for the grade retention or course failure. 3. If the student has attained the age of sixteen (16); upon written agreement between the principal and the parent, guardian or custodian of the student that such withdrawal is for the best interest of the student and/or community, and that the student shall thereafter be under the supervision of the parent, guardian or custodian until the student has reached the age of eighteen (18); and

4. By administrative action, if the student has had ten (10) consecutive unexcused absences.

**Placement and Assignment:** Students shall be assigned to the school which serves the attendance area in which they live. District may periodically adjust boundaries of attendance areas to relieve overcrowding and/or to attain a more effective utilization of buildings. Transfers within the District may be approved by the Administration pursuant to Administrative Regulations. Students, including students who have been home-schooled, shall be assigned to a grade level or class based upon an assessment of the student’s age, maturity, grades received, standardized test results, and/or abilities in accordance with Administrative Regulations.

A parent or guardian of multiple-birth siblings may request that the children attend the same school and be placed in the same classroom or in separate classrooms if the children are in the same grade level at the same school and meet the eligibility requirements of the class. The parent or guardian must request the classroom placement no later than fourteen (14) days after the first day of each school year or fourteen (14) days after the first day of attendance of the children during a school year if the children are enrolled in the school after the school year commences. The school may recommend classroom placement to the parents and provide professional education advice to the parents to assist them in making the best decision for their children’s education.

**Placement of Student Victims:** Upon the Superintendent’s receipt of notice from a juvenile bureau that a student of the District has been adjudicated, or that adjudication has been withheld, an offense subject to the Juvenile Sex Offender Registration Act, the District shall notify the victim and parent or guardian of the victim of their right to request to be separated from the offender at school and during school transportation. If the victim requests to be separated from the offender, the District shall take appropriate action as required by law. The decision of the victim shall be final and not reversible.

**Student Transfer Capacity:** Subject to certain exceptions provided for by law, the transfer of a student from the district in which the student resides to District shall be granted at any time during the school year unless the requested transfer exceeds the capacity of the grade level sought for each school site within the District. District’s Board will meet by the first day of January, April, July and October each year to establish the number of transfer students the school has the capacity to accept in each grade level for each school site within the District. District’s capacity will be published on District’s website and reported to the State Department of Education ("SDE").
As of January 1, 2022, District’s transfer capacity is as follows:

- **PK-5th Grades By site, the number of core grade level teachers per grade level x 18 students = capacity for that grade level.**

- **6th-8th Grades By site, the number of English Language Arts sections per grade level x 22 students = capacity for that grade level.**

- **9th-12th Grades By site, the number of English Language Arts sections per grade level x 25 students = capacity for that grade level.**

In order for a student to be transferred, the parents of the student must first submit an application form specified by the State Board of Education (“SBE”) to the District Superintendent. If the capacity of a grade level for each school site within the District is insufficient to enroll all eligible students, District shall select transfer students in the order in which District received the student transfer applications.

A transfer may be denied if it will exceed enrollment capacity, or for student discipline or attendance issues. District will begin receiving applications for the subsequent school year on or after January 1st each school year. District will not approve or deny transfer applications until after the Board’s July 1st capacity determination.

All student transfers are good only for the school year during which the transfer is granted. For all subsequent school years, students already attending school in the District on a transfer will be automatically placed at the top of the applicant list for the following school year. District may deny the continued transfer of a student based on the same criteria considered for a new transfer, which includes capacity, student discipline and attendance issues.

If the grade a student is entitled to pursue is not offered in the student’s resident district, the transfer will be automatically approved. In addition, a student whose parent or legal guardian is employed as a teacher in the District shall be allowed to transfer to the District regardless of capacity.

Any child in the custody of the Department of Human Services (“DHS”) in foster care who is living in the home of a student who transfers to the District may attend the District as provided for by law.

The brother or sister of a student who transfers to District may attend school in the District so long as the District has capacity and the brother or sister does not meet the criteria as a basis for denial. Applications will be considered in the order in which they are received by the District and a separate application must be submitted for each student who desires a transfer.
On or before the first day of January, April, July and October, the Superintendent will file with the SBE and each resident district a statement showing the names of the students who were granted transfers, their resident districts and their grade levels.

If a transfer request is denied by the District, the parent of the student may appeal the denial to District’s Board within ten (10) days of the notification of the denial as provided for by law and regulation. District’s Board will consider the appeal at its next regularly scheduled board meeting so long as the appeal is received prior to the statutory deadline for posting the Board agenda. If the appeal is not received prior to the deadline for posting the agenda, the Board shall schedule a special meeting to consider the appeal. The appeal process will be paper-only and will take place in executive session in order to protect student privacy. During executive session, the Board will review written documentation from the Superintendent regarding reasons for the transfer denial and information from the parent/guardian regarding why the transfer should have been approved. The vote to uphold or reject the Superintendent’s transfer denial will be held in open session.

If the Board upholds the denial, the parent may appeal the denial to the SBE within ten (10) days of the notification of the Board’s decision. The SBE will adopt guidelines for this process.

**Special Education and Gifted Education Transfers:** Transfers regarding these students will be considered in accordance with law and SDE regulations.

**Military Parent Transfers:** Students who are dependent children of a member of the active uniformed military services of the United States on full-time active duty status and students who are the dependent children of a member of the military reserve on active duty orders shall be eligible for admission to the District regardless of its capacity if: a) at least one (1) parent of the student has a Department of Defense-issued identification card; and b) at least one (1) parent can provide evidence that he or she will be on active duty status or active duty orders, meaning that the parent will be temporarily transferred in compliance with official orders to another location in support of combat, contingency operations, or a natural disaster requiring the use of orders for more than thirty (30) consecutive days.

**Tuition:** Students who are not residents of the District and who have not been granted a legal transfer may be considered for admission to the District upon payment of tuition. The District shall not accept students for admission by tuition and may revoke or cancel a previously granted admission by tuition for students who:

1. Have exhibited discipline problems such as suspensions, multiple discipline referrals, or discipline referrals for major infractions; or
2. Have not maintained a minimum of ninety percent (90%) attendance in semester or school year immediately preceding their application for a transfer or while attending District under a transfer.

In addition, in order to ensure that a sufficient allocation of District resources exists for potential incoming resident students, the District reserves the right to deny and/or to cancel or revoke any admission by tuition when approval or continuation of the transfer would cause the District staff, programs, or space to exceed eighty percent (80%) of available capacity. The District also reserves the right to determine an appropriate school site for any student granted admission by tuition, and the admission of a student into the District based on the payment of tuition does not guarantee the student assignment to any particular school site within the District.

The amount of tuition is computed on a yearly basis, subject to any offsets for ad valorem taxes as provided by law and is payable by term with payment due at the time of enrollment.
ADMISSION, RESIDENCY, PLACEMENT, TRANSFER AND WITHDRAWAL

ADMISSION

The District Enrollment Office (DEO) shall verify that all students seeking admission to school are residents of the District. The principal is authorized to re-verify student residency at the beginning of each school term or when information is received placing a student's residency at issue.

In order to establish the legal residence of a child for school attendance, the student's legal guardian or adult who has assumed care and custody of the student must reside in the District. Putnam City Schools will not accept custody affidavit forms, notarized affidavits obtained from the custodial parent giving care and custody to another individual, or power of attorney documents as proof of legal guardianship. All legal guardians or custodial care providers will be required to complete an Enrollment Declaration EE-R1-F1 to affirm their custodial arrangement.

All new students must provide two items for proof of residence, one from each of the categories below:

1. A copy of a current utility bill (gas, electric, or water). Telephone bills, cut-off notices and cable bills will be not accepted. If all bills are paid by the landlord, then a current statement from the landlord could be used to verify that all bills are paid and that the residents live at the stated address.
2. A copy of one of the following; lease (with the signature of the person claiming residency), home warranty deed, ad valorem statement, mortgage statement, or homestead exemption form.

All high school students enrolling after the end of the first quarter of instruction for the school year will be required to supply a transcript, withdrawal form and attendance and discipline records from their last school of attendance before the enrollment process can be completed.

A custodial parent/guardian who cannot provide the necessary information to verify their address because they are residing with a friend or relative on a temporary or permanent basis is required to complete a Residency Verification Form (EE-R1-F2). The form EE-R1-F2 requires both the Putnam City resident and the custodial parent of the student to be present when signed. Each must also provide valid identification. The person claiming district residency must also provide the documentation requested above.
At the beginning of each school year, all returning students must provide a copy of a current utility bill as described above.

A parent/guardian of a new student must sign EE-R1-F3 to verify the student was in good standing at the time of withdrawal from his/her previous district.

All necessary documentation must be provided and verified before the enrollment is considered to be finalized.

If upon review of the enrollment application, the DEO determines that the student seeking admission to school does not meet the residency requirements, the adult representing that student is referred to the district Residency Officer. The notice shall be given on Form EE-R1-F4.

The Residency Officer shall be designated by the Superintendent. The Residency Officer shall receive from the parent requesting a review such information and documents as the Residency Officer or the parties consider pertinent for the review. The Residency Officer shall render a decision and notify the DEO and parent of the decision and the rationale for the decision. Notification will be given on EE-R1-F5.

If the decision of the Residency Officer sustains the DEO’s decision, the parent may request a review of the Residency Officer’s decision by the Board of Education. The request must be made within three (3) days of the receipt of the Residency Officer’s decision and must be submitted on Form EE-R1-F6.

If a request for a review by the Board of Education is received, the Residency Officer shall submit the decision and documents received to the Board of Education prior to its next meeting to provide members of the Board of Education with an opportunity to review them prior to the meeting. At the next Board meeting, the Board of Education shall take action to either sustain the Residency Officer’s decision, admit the student to school or send the matter back to the Residency Officer for further findings.

If a challenge to a student’s residency arises after the student has been admitted to school, the student shall remain in school until the challenge is resolved by these procedures.

If it is determined residency verification has been falsified to obtain school admission, the student’s parent/guardian shall be liable for tuition for the period the student has been attending school in the district illegally.

Intra-District Assignment of Students to Schools and Classes

Administrators charged with the responsibility of approving intra-district transfers shall be guided by the following criteria:

1. Student’s academic, attendance and discipline records.
2. Receiving school can accommodate transfer with present staff and facilities and have room for normal growth.
3. Losing school maintains a cost-effective teacher-pupil ratio.
4. When a school reaches capacity less the projected normal growth expected through the year, all transfers to that site will be stopped. This capacity may be reached in grade levels in the elementary school and by curricular areas in the secondary schools so that transfers may continue to be approved in some areas and not in others.
5. Transfers from areas of declining population are to be discouraged unless such transfer is clearly beneficial to the student.
6. Unless there are extenuating circumstances due to health, safety and/or educational issues, no more than one transfer request will be approved for a student during the high school years. However, if a student requests and is granted a second transfer, the student must attend the high school to which transferred for a calendar-year before gaining eligibility for participation in OSSAA sanctioned events. The student will be allowed to participate in practice sessions.
7. Students entering 9th grade from a Putnam City middle school who desire to transfer to a Putnam City High school outside their attendance area without loss of eligibility for varsity/OSSAA athletic competition, shall have the opportunity to apply for said transfer provided application is made on or before May 15.
8. Any high school student who is making their first entry into the district and who desires to transfer to a Putnam City High school outside their attendance area without loss of eligibility for varsity/OSSAA athletic competition, shall make a request in writing to the Superintendent or designee who will form a review committee to determine whether or not eligibility requirements will be waived.
9. Students entering 9th grade from a Putnam City middle school who are approved for a transfer but fail to meet the May 15 application deadline, will be ineligible for varsity/OSSAA athletic competition for the 9th grade school year.
10. Current Putnam City School 9th through 12th grade students who are approved for transfer to another Putnam City high school shall be ineligible for all sports in which regulated games are in session at the time the student transfers and any other varsity/OSSAA athletic competition for (1)
calendar year, beginning on the first day the student attends class at the new school. The student will be allowed to participate in practice sessions.

11. When a transferred student, enrolled in an OSSAA sanctioned sport, returns to their resident area school, the student will lose interscholastic athletic eligibility for (1) calendar year, beginning on the first day the student attends class at their resident school.

12. Application for intra-district transfers must be made when transitioning from elementary to middle school and middle school to high school; otherwise, intra-district transfers will be reviewed yearly by building administration without need for reapplying.

13. If the intra-district transfer is granted, transportation shall be the responsibility of the parent. Exception: Any student attending the D.D. Kirkland Early Childhood Center PK-2 School accepted on transfer to Rollingwood Elementary or Coronado Heights Elementary school may qualify for transportation if all of the following criteria are met:

- The regularly-scheduled bus serves both schools in the same route;
- If capacity permits on the bus, and;
- If students conduct demonstrates bus rider expectations and rule of behavior.

Exception: Siblings of students who are granted bus service for the 2018-2019 and 2019-2020 school year residing in the Harvest Hills school area and attend Kenneth Cooper Middle School may qualify for transportation if all of the following criteria are met:

- If capacity permits on the bus, and;
- If students conduct demonstrates bus rider expectations and rule of behavior.

Bus transportation service may be rescinded at any time if conditions for service are not met.

14. An intra-district transfer is subject to revocation by the principal of the school to which the child has been transferred if the student’s grades, attendance (absences and/or tardies), transportation arrangements, or behavior reach an unacceptable level. In the event of the revocation, the student shall return to their home school. The student shall be ineligible for all levels of athletic competition for one (1) calendar year. The student will be allowed to participate in practice sessions.

15. Intra-district transfers may be revoked by building administration at the end of the 1st, 2nd and 4th quarters of instruction. Students will remain at their current school in the 4th quarter of instruction.

16. The Superintendent or designee may establish a review committee to consider waiving eligibility requirement for this regulation for extenuating circumstances.

*This transfer is valid only for the current school year. The transfer must be renewed when transitioning to a new school. The decision to renew a transfer will be at the discretion of the school administration. The decision will be based on availability of classes, academics, attendance, and discipline records of the student.

*You must verify your residence in the district with a current bill before the transfer can be processed.

*Transportation is the responsibility of the Custodial Parent/Legal Guardian.
Dear Parent/Guardian

Students entering Putnam City Schools will be assigned to the building which serves the attendance area in which they live. Intra-District Transfers may be approved by the principal of the receiving school when deemed in the student’s best interest. Intra-District Transfers will be administratively controlled to prevent overcrowding and/or to improve building utilization. If you are interested in an Intra-District Transfer from one Putnam City school to another Putnam City school outside of your attendance area, please complete the form on the reverse side and take the application to the Putnam City school you wish to attend. All decisions regarding new or renewal of Intra-District Transfers will be guided by the following criteria and the decision of the principal of the receiving school will be final:

- Receiving school can accommodate transfer with present staff and have room for normal growth.
- Sending school maintains a cost-effective teacher-pupil ratio.
- Intra-district transfers can be denied on the basis of grades, attendance or discipline.
- When a school reaches capacity less the projected normal growth expected through the year, all transfers to that site will be stopped. This capacity may be reached in grade levels in the elementary school and by curricular areas in the secondary schools so that transfers may continue to be approved in some areas and not in others.
- Special education students should be treated like any other student when requesting a transfer.
- Transfers from areas of declining populations are to be discouraged unless such transfer is clearly beneficial to the student.
- Current Putnam City School 9th through 12th grade students who receive “new” intra-district transfers will be ineligible for all inter-scholastic athletics/cheerleading for a period of one school year (two terms).

All Intra-District Transfers should enhance the educational opportunity of the student. If there is a clear educational or medical need to transfer a student to another site, this consideration should override the criteria set forth above. Intra-District Transfers are reviewed annually by building administration without the need to reapply each year.

Sincerely,

Joe Ellis

ATTENDANCE

General: Every student shall attend school regularly. Regular attendance at school is necessary for students to fully benefit from the educational experience, teaches students the necessity of regular attendance in preparation for work, and teaches students to be personally responsible. The Administration shall notify a student’s parent or guardian regarding the student’s absences and tardies as set forth in Administrative Regulations.

Student Absences: Excused absences are those due to illness or personal injury, medical and dental appointments, court appearances, religious holidays, and family emergencies. No student shall receive an excused absence without proper documentation. Written or verbal communication from the parent or guardian may be considered acceptable by the principal for the first five (5) excused absences during a semester. Additional absences will be considered unexcused unless official written documentation is submitted (ex: doctor’s note, verification of a court appearance, memorial service folder, etc.). The Administration may provide appropriate consequences for unexcused absences.

Middle and High School Tardiness: Tardy is defined for middle and high school students as arriving after the start of each class period. Tardies are excused for illness or personal injury, medical and dental appointments, court appearances, or religious holidays, and require written documentation.

Elementary School Tardiness: Tardy is defined for elementary school students as arriving after the official start time of school. Tardies are excused for illness or personal injury, medical and dental appointments, court appearances, religious holidays, and family emergencies.

Early Dismissal: A student shall not be excused and dismissed from school before the end of the school day without an approved written request for early dismissal from the student’s parent or guardian or the approval of an administrator. Telephone requests for early dismissal of a student will only be honored if the caller can be positively identified as the student’s parent or guardian. Additional precautions regarding excusing students from school may be taken as appropriate to the age of the student and/or as circumstances warrant.

Appeal of Attendance Record: Appeals dealing with attendances and tardies must be made to a principal-appointed committee consisting of at least three members. A request for an appeal must be made in writing and submitted to the principal within ten (10) days of receipt of the notification that attendance requirements have not been met. The committee will determine if there are extenuating circumstances for the student’s failure to meet attendance requirements and determine if absences/tardies may be excused.
**Truancy:** The District may take reasonable measures to enforce the provisions of the compulsory attendance laws to ensure that all students attend school on a consistent basis. During the times when school is in session, any Police Officer may detain and assume temporary custody of any student enrolled in the District who is subject to the compulsory attendance laws, who is found away from home, and who is absent from school without excuse. Any student located in an area of the school other than the assigned classroom may also be considered truant.

**Chronic Absenteeism:** Chronic absenteeism occurs when a student is absent from school at least ten percent (10%) of the time that school is in session and the student is included in membership, eighteen (18) or more days on a one hundred and eighty (180) day school calendar or ten percent (10%) or more of school days on a one thousand and eighty hour (1,080) hour school calendar. The district recognizes that medical exemptions from chronic absenteeism may be appropriate. Student absences which are due to a significant medical condition may be exempt from inclusion in the school site’s chronic absenteeism indicator upon determination of eligibility by district’s medical exemption review committee. District’s medical exemption review committee consists of:

A significant medical condition, for the purposes of this policy, means a severe, chronic, or life-threatening physical or mental illness, infection, injury, disease, or emotional trauma that meets the following criteria:

A. The condition affects the student so severely that it incapacitates the student from attending school for an identifiable time period or number of school days, or for which the student must receive regular medical care that requires him or her to be absent from school;

B. The student is unable to receive instruction through homebound education services for an identifiable time period or number of school days due to the medical condition or treatment of the medical condition, or homebound education is not appropriate due to brief recurring absences for treatment purposes;

C. The school or school district has been provided with written documentation of the condition that has been verified in writing by a physician licensed to practice in Oklahoma, or by a physician licensed to practice in another state if the treatment is in another state. A copy of the documentation verifying the student’s condition shall be filed in the student’s educational record. For qualifying circumstances, such as sexual assault or other events of a traumatic nature, that may not include official documentation, a letter from a school counselor or administrator explaining the student’s qualifying circumstance may qualify as documentation. District’s medical exemption review committee shall respect and protect the privacy of students and others in its review of medical exemption requests.

D. Examples of significant medical conditions may include, but are not limited to:
   a. Student has a terminal disease or degenerative illness, or has been placed in hospice care;
   b. Student is comatose;
c. Student has a serious chronic medical condition (lasting 3 months or more) and is absent for the purpose of receiving condition-related treatment (i.e. chemotherapy, dialysis);
d. Death or life-threatening injury of an immediate family member of the student (i.e. parent/guardian, sibling, child, or another member of the household); or
e. Student has sustained serious medical or physical injury as a result of a catastrophic event, such as:
   i. A natural disaster or other event;
   ii. An act of violence (i.e. physical assault, sexual assault, kidnapping, homicide, torture, or terrorism);
   iii. Drowning;
   iv. Poisoning, fall, or a traumatic brain injury; or
   v. Fire or explosion in student’s home.

E. Absent another qualifying condition, a significant medical condition does not include:
   a. Minor illness or injury that does not incapacitate the student or require recurring treatment;
   b. Short-term illness or injury resulting in absences of ten (10) or fewer consecutive instructional days, including those that require short-term hospitalization of ten (10) or fewer consecutive instructional days;
   c. Pregnancy, unless complications of the pregnancy otherwise meet the requirements of this policy; or
   d. Refusal of a parent/guardian to permit the student to attend school or receive homebound services due to illness, injury or trauma.

Student absences that are classified as “excused” under Oklahoma law and/or district policies should be classified as “excused” in the student information system and do not automatically qualify for a medical exemption for purposes of the chronic absenteeism indicator. In order to qualify for consideration under a chronic absenteeism medical exemption, an absence must fall under the definition of a “significant medical condition”. Furthermore, if a student has been determined to have a significant medical condition under the terms of this policy, only absences that are related to the student’s identified condition(s) or qualifying circumstances may be exempted from inclusion in the chronic absenteeism indicator.

District shall report any absences determined to be medically exempt to the Oklahoma State Department of Education (OSDE) Office of Accountability. All documentation considered during the medical exemption review committee’s consideration of potentially eligible absences shall be maintained by the district.

**Distance Learning or Putnam City School at Home (PCSAH):** When the District declares the need to implement its Distance Learning instructional model, and for those students enrolled in the PCSAH program, the following will apply to student attendance. The first date of attendance for a student beginning Distance Learning or PCSAH with the District shall be the first date the student completes an instructional activity. “Instructional activities” include instructional meetings and/or completed assignments/activities that are used to record a grade.
A student shall be considered in attendance or present when the student has completed the majority of instructional activities assigned for the distance learning days. Attendance will be recorded for the previous week by the student’s teacher(s) on Monday. Students will have one day for every virtual day to turn in assignments before they will be counted late. Reports will be made available to parents and students that reflect attendance/participation, progress and grades.

The recording of attendance bears no reflection on the grades earned during the week, only that the student was completing work over the course of the previous week.
ATTENDANCE

STUDENT ABSENCES/TARDIES

In carrying out Board policy, procedures related to absences/tardies are as follows:

1. A parent or guardian shall contact the school to report each absence of his/her child. If the school is not notified, school personnel shall attempt to call the parent by school messenger.

2. High school students with no more than three (3) absences in any given class, and no more than three (3) tardies in any given class are eligible to be exempt from two semester exams of their choice. Students must have at least a “B” average in the class of exemption to be eligible. Students who have been suspended or have missed one class due to truancy during the semester are not eligible for test exemptions. This exemption/attendance incentive will apply for ninth grade, tenth grade, eleventh grade and first semester seniors.

3. Seniors can earn exemptions from all semester finals. Students in grades 9-11 can earn exemption from two finals each semester.

4. The following absences do not count against the exemption:
   - School ACT (SACT) or (Q) (O)
   - Religious (R)
   - Pre-approved college visit (CV)
   - Career Tech (VOT)
   - Funeral (FNL) – day of service only (immediate family)

5. All students who earn an exemption status may choose to take the exam without the risk of their average being lowered.

6. In order to receive exemption status, a student must be within the required number of absences and tardies for each class enrolled in for that semester.

7. No student, regardless of grade, may be exempt from an exam if they have an unexcused absence or more than three unexcused tardies in any given term.

8. A student who has been placed in ISR (in school restriction) or has been suspended during any given term will lose exemption privileges.

9. For high school students, parents or guardians shall be notified when the student has one (1) unexcused absence for any class. This notification will take place by school messenger.
ATTENDANCE

TRUANCY

In carrying out Board Policy, procedures related to truancy are as follows:

1. The Superintendent will appoint a District Attendance Officer.

2. An Attendance Officer will be designated at each school.

3. Uniform procedures will be established to notify a student's parents, guardian, or legal custodian of the student's absence.

4. The District Attendance Officer shall be authorized to enforce the compulsory attendance laws of Oklahoma, and any other laws or State Department regulations related to truancy.

5. Any individual mentioned in EF (Truancy) is authorized to immediately deliver a student to either the school from which the student is absent without valid excuse or a parent, guardian or legal custodian of the student.

DISTRICT POLICY

STUDENT DISCIPLINE, SUSPENSION AND DUE PROCESS

Discipline: Good discipline is vital to the educational program. Discipline should be fair, dignified, and administered with an even temper. Discipline may include, but is not limited to, conferences with parents or guardians, in-school detention, revocation of privileges, and suspension. The District does not recognize corporal punishment as a means of discipline. Employees shall not use physical force against a student unless such force is reasonably necessary for the employee’s self-defense, for the preservation of order, for the protection of others, or for the protection of property of another person or the District.

Students with Disabilities: Discipline for students with disabilities, as defined by the Individuals with Disabilities Education Act (IDEA), shall be administered in accordance with policies and procedures established by the Oklahoma State Board of Education. Unless otherwise prohibited by law, students who are "handicapped" as defined by Section 504 of the Rehabilitation Act (Section 504) or students who are disabled as defined by the Americans with Disabilities Act (ADA) shall be subject to the same discipline policies and regulations as students without disabilities or "handicaps".

Suspension: A principal may suspend a student when the student’s behavior is in violation of the District’s Student Conduct Policy, Administrative Regulations, or directives received from school authorities and the behavior occurs while the student is:

- in attendance at school or any function authorized or sponsored by the District;
- in transit to or from school or any function authorized or sponsored by the District;
- on any property subject to the control and authority of the District; or
- not on District property but the student’s actions are either
  1. continuation of activity that was initiated under conditions (a) through (c) above,
  2. adversely affect or pose a threat to the physical or emotional safety and well-being of other students, employees, or District property, or
  3. disrupt school operations.

Before a student can be deprived by way of suspension of the student’s right to an education, the student has the right to notice of the alleged misconduct and an opportunity to respond to the allegations. After the student has had an opportunity to respond to the allegations, the Administration may proceed with the student’s suspension. The length of a suspension shall not exceed the current school semester (term) and the succeeding school semester (term), except that a student found in possession of a firearm shall be suspended for not less than one year. As set forth in Administrative Regulations, the District’s Hearing Panel shall determine the discipline to be imposed for recommended long-term suspensions.

When determining whether cause exists for suspension or determining the length of a suspension, the student’s prior history of disciplinary infractions may be considered, particularly when similar infractions have occurred and other forms of discipline have not deterred such behavior. The Administration shall
consider and apply, if appropriate, alternative in-school placement options that are not to be considered suspension, such as placement in an alternative school setting, reassignment to another classroom, or in-school detention.

**Appeal of Suspension:** A student who has received a long-term suspension may appeal the decision of the Hearing Panel to the Board as set forth in Administrative Regulations. A student who has received a short-term suspension may appeal the suspension to a local committee comprised of administrators or administrators and teachers at the school site where the student attends school as set forth in Administrative Regulations.

**Effect of Suspension:** Except as otherwise provided, when a student is suspended the student shall be allowed to make-up assignments and tests given during the suspension period for full-credit. A student who is suspended from school for longer than five (5) days shall be given assignments in core unit subjects that should be completed and returned to the school on a regular basis according to an education plan to be developed and provided to the student and the student's parent or guardian. If a suspended student is not turning in assignments while on an education plan then the teacher should notify the appropriate administrator and parent contact should be made. Students will not receive credit for assignments not turned in as required by their educational plan.

A student who is suspended for possession of a weapon or a firearm shall not be provided an education plan, shall not be allowed to make-up any work missed during the period of suspension, and shall not receive any credit during the suspension. A student who is suspended for possession of a controlled dangerous substance for the first time shall be provided an education plan, shall be allowed to make-up any work missed during the period of suspension, and shall receive credit during the suspension. However, any student suspended more than once for possession of a controlled dangerous substance shall not be provided an education plan, shall not be allowed to make-up any work missed during the period of suspension, and shall not receive any credit during the suspension.

**Extra-curricular Activities:** A student may not attend or participate in any school activities, including all extra-curricular functions, while suspended from school. A suspension is effective until the end of the day on the last date of suspension.
STUDENT DISCIPLINE, SUSPENSION AND DUE PROCESS

SUSPENSION

The school administration will prescribe a plan that provides education to the student, which shall be complied with by the parent/guardian.

Short-Term Suspension

When the suspension is for ten (10) school days or less, the principal/assistant principal may make the decision to suspend the student provided the student has been given oral or written notice of the alleged misconduct and of the evidence supporting the charges and has had the opportunity to either admit or deny the charges and respond to the evidence. If the administrator determines that cause for suspension exists, the student may be suspended for ten (10) school days or less.

A student may appeal a short-term suspension to a committee at the school site where the student attends school or to a committee assigned by the school administrator. The committee shall be comprised of those administrators or administrators and teachers who did not participate in the decision regarding the student’s suspension. The appeal to the committee shall consist of a review of any statements submitted on behalf of the administrator assigning the suspension and the student. After having reviewed the statements submitted, the committee shall determine the guilt or innocence of the student and the reasonableness of the term of the out-of-school suspension. The decision of the committee shall be final and shall not be appealable to the Board of Education.

Long-Term Suspension

When the principal/assistant principal determine that a long-term suspension should be given, the principal/assistant principal shall implement a suspension of no more than through the current and following semester unless the charges involve a weapon in which district policy allows for a suspension of up to one calendar year. The parent or guardian must be given written notice of the charges, nature of evidence supporting the long-term suspension and the student’s rights to appeal the suspension to the building principal and/or site level committee. This request for an appeal must be made within two (2) school days of being notified of the long-term suspension.

If the appeal at the building level upholds the suspension, the parent or guardian has the right to request a hearing at the district level for an appeal of the long-term suspension. The request for a hearing must be made to the district administration offices within two (2) days of notice of building level appeal decision. All hearings for a long-term suspension will be closed to the public and will be conducted in accordance with District Regulation, EG-R2, Student Due Process-Hearing Panel.
Procedures. Failure to request a hearing within the specified time shall constitute a waiver of the student’s right to a hearing.

After receipt of the decision of the Hearing Panel, the student shall have five (5) school days within which to appeal directly to the Board of Education by submitting a completed Request for Appeal of Long-Term Suspension Decision (Form EG-R3F1).

If a Request for Appeal of Long-Term Suspension Decision is timely filed, the Board of Education shall review the charges, the evidence submitted, the findings of the Hearing Panel, the written statement of the parent or guardian summarizing the student’s position and reason(s) for appeal, and the Hearing Panel’s decision. The Board of Education shall render a verbal decision in an open meeting stating whether the decision of the Hearing Panel is to be upheld, overturned or modified. A written decision will follow. The decision of the Board of Education shall be final.

STUDENT DISCIPLINE, SUSPENSION AND DUE PROCESS FOR SPECIAL EDUCATION STUDENTS

Student discipline, suspension and due process for special education students, as defined by the Individuals with Disabilities Education Act (IDEA), shall be administered in accordance with “The Policies and Procedures Manual for Special Education in Oklahoma” published by the Oklahoma State Board of Education. Federal law or regulation and Oklahoma State law or regulation pertaining to students with disabilities shall take precedence over Putnam City School Board Policy and Regulation in all matters that are specifically addressed by federal and state law or regulation. Where Federal and Oklahoma law or regulation permit, are silent of do not directly address issues dealing with student with disabilities, Putnam City School Board Policy and Regulations will be followed.

   a. Identifying representatives and/or spokespersons;
   b. Clarifying the purpose of the hearing;
   c. Establishing hearing protocol;
   d. Accepting stipulations;
   e. Discussing other issues of special concern.

2. **DUE PROCESS HEARING.** The Hearing Officer shall:

   b. Inform the parties that a record is being made of the proceedings. Such record may be made either by a tape recording or by a court reporter. The district shall incur the expense of the court reporter only if the district requests a court reporter.
   c. Inform all present that the hearing will be closed. The student may be accompanied by his/her parents and a representative if desired. The principal may be accompanied by his/her representative and the appropriate director. Any additional person(s) attending the hearing must be approved in advance by the Hearing Officers.    d. Inform the parties that the hearing will be held according to school board policy and procedures.

   • The hearing will not be conducted under the evidentiary rules of a court of law.
   • Hearsay evidence will be admissible. Written statements may be introduced as evidence. Witnesses will be permitted to testify, if Hearing Officers determine that the testimony of witnesses is required to provide the student with due process of law.
   • Each party will be given the opportunity to present its case, present the finding of fact, and make a concluding statement. Each party shall be limited to a total of thirty (30) minutes. Hearing Officers shall have the authority to grant additional time to each party if required to provide the student with due process of law.
   • Hearing Officers may question either party. Questioning and/or cross examination of witnesses by representatives will be permitted. Hearing Officers shall have the authority to limit interrogatories that do not appear relevant or appropriate.
   • If the student chooses to be represented by legal counsel, the parent/guardian must inform the Administration by completing Hearing Request or Waiver Form (EG-R1-F5).
3. **STATEMENT OF THE CHARGES READ INTO THE RECORD.** The Hearing Officer shall read the charges sent to the student’s parent(s) or guardian(s) into the record and ask the parent(s) to verify that they received notice of the charges.

4. **RESPONSE OF THE STUDENT TO THE CHARGES.** The Hearing Officer shall ask the student if the student agrees with or disputes the charges which constitute the basis for long-term suspension. If the student admits the truth of the charges, the student may make a statement regarding any mitigating circumstances and be questioned by the Hearing Officer concerning any such matters.

The Hearing Officers shall have the authority to uphold the long-term suspension, overturn the long-term suspension, modify the length of the suspension, or impose any other lawful discipline he/she deems appropriate.

9. **REVIEW OF BACKGROUND INFORMATION.** Prior to determining the disciplinary action, but after determining that the student should be disciplined, the Hearing Officers must review relevant background information. This process must include a review of all the alternatives considered, and those used, prior to assigning the suspension. Background information may include disciplinary log entries, attendance, and grades.

10. **DECISION OF THE HEARING OFFICERS.** Hearing Officers shall render a verbal decision and adjourn the hearing. The Hearing Officers will issue a written decision, which shall be mailed to the parent(s) or guardian(s) and/or student and delivered to the school administration. If, because of the complexity of the case or the existence of multiple hearings arising out of the same incident, the Hearing Officers determine that additional time is required to review the evidence or conclude other hearings, he/she may recess the hearing to reconvene at the earliest practicable time.

11. **THE RIGHT TO APPEAL.** The student shall be informed of the right to appeal the decision of the Hearing Panel to the Board of Education (EG-R2-F5). Buses are provided for those students whose distance from school or health makes this service available. When transporting students, safety is our top priority. Riding the bus is a privilege for our students and they must comply with the following rules of conduct.

1. Observe the same rules of conduct expected in the classroom and school building.
2. Follow the directions of the driver the first time they are given.
3. Remain seated. Bus drivers are authorized to assign seats.
4. Keep head, hands, and feet inside the bus, out of the aisle, and to yourself.
5. Use appropriate language - no profanity or yelling.
6. Refrain from eating and drinking on the bus.
Purpose: The District has determined that disruptions can come in a number of forms. Ringing cell phones or the receipt of text messages can disrupt classes and distract students who should be paying attention to instruction. Personally owned devices could be used to send messages and/or e-mails which could be used to facilitate cheating. Personally owned devices with cameras could be used to take photos of exams and/or tests or to take pictures of students changing clothes in gym locker areas. Personally owned devices with Internet access can be used to look up answers to test questions.

Personally owned devices could also have valuable instruction uses that support student learning. Therefore, the District encourages the authorized use of personally owned devices but prohibits unauthorized use of these devices during the instructional day. Administrators and teachers may specify times appropriate for use.

Definitions:

1. Personally owned devices include, but are not limited to, a cellular or digital telephones, two-way radios, tablets, laptops and smartphones.
2. Instructional day shall be defined by each school site but shall, at a minimum, include any and all times when classes are being conducted. The instructional day shall not include those times when students are on campus before or after school or on weekends for extra-curricular activities.
3. Authorized use of personally owned devices: Use directed by or facilitated by a teacher or administrator tied to learning standards.

Discipline for Misuse of a Personally owned device:

Whenever a student is suspected of unauthorized use of a personally owned device, a principal, an assistant principal or a teacher shall verify such suspicion by observation and/or documentation. The following discipline shall be imposed on students who violate the provision of EH relating to unauthorized use of a personally owned device.

First Offense: The student shall receive a verbal warning, and a written notice shall be sent with the student to the student's parent describing what will occur if there are subsequent offenses.
Subsequent Offenses: For subsequent violations during a school year regarding unauthorized use of a personally owned device during the instructional day, the device will be taken from the student and secured in the office, then returned to the student at the end of the day.

A student with repeated offenses may be asked to check their device into the office at the beginning of each day for a period of time.

**Search for and of Personally owned device:** Whenever school personnel have a reasonable suspicion that a student is misusing a device during regular school hours, school personnel have the authority to search the student and remove the device from the student's possession. School personnel must have a reasonable suspicion, based on objective and articulated facts, that the search of the device will provide evidence that the student used the device to violate some other provision of the Student Conduct Code or the law. Such a search may include, but not be limited to, searching text messages, photos, phone numbers, and e-mails stored in the device. The scope of such a search must be reasonably related to the objectives of the search and not excessively intrusive in light of the nature of the infraction.

**Responsibility for device:** The District is not responsible for lost and/or stolen personally owned devices.
You are hereby advised that [Student Name] was found to be in possession of a Personally Owned Device which was turned on and able to send/receive communications during the instruction day on [Date] in violation of Policy EH and Regulation EH-R5.

This is a:

- First Offense: The student shall receive a verbal warning, and a written notice shall be sent with the student to the student’s parent describing what will occur if there are subsequent offenses.
- Subsequent Offense: The device shall be taken from the student for three (3) school days or until the parent retrieves the device. A confiscated device shall be locked in a secure location in the school office. A confiscated device shall not be returned to the student until the required school days have passed and shall be returned to the student at the end of the school day on which the removal period ends upon the signing of a receipt for the device by the student or the student’s parent. If the parent comes to school to pick up a confiscated device, the parent shall sign a receipt for the device. The school shall send written notice with the student to the parent regarding the subsequent offense.

This provision applies to those students that originate the transmission as well as those students who distribute or post it in any manner other than submit it to appropriate school or law enforcement authorities. School officials will provide all such material to appropriate law enforcement authorities, and it shall be at the discretion of the District Attorney of Oklahoma County whether the transmission of

**Procedures:**
The following steps shall apply to the investigation of reported incidents of bullying, hazing, sexting, or threatening behavior:

5. Parents and guardians of both victims and perpetrator of verified bullying, hazing, sexting, or threatening behavior will be notified by site administration regarding the situation and steps taken to rectify the actions of students involved in a timely manner.

6. During the pendency of the investigation, site administration may take appropriate action to ensure the safety of all students or school personnel involved.

7. As required by law or District policy or regulation, site administration shall notify law enforcement and/or the Department of Human Services of the reported incident and cooperate with any law enforcement investigation.

8. If the student’s actions are determined to constitute bullying, hazing, sexting, or threatening behavior, site administration may, as a condition and part of any disciplinary action that is taken, recommend that available community mental health care options be provided to the student.

9. Site administration may further require the student (if 18 or over) or the parent or guardian of the student to allow the mental health care provider to disclose any information concerning the student who has received mental health care for conduct which indicates an explicit threat to the safety of students or school personnel as a condition of being allowed to return to school.
10. Site administration may also require that the student and the student’s parent or guardian meet with the administrator, a school counselor, and/or other appropriate school personnel before being allowed to return to school.

11. If it is determined that an act of bullying has occurred, a referral will be made to a delinquency prevention and diversion program administered by the Office of Juvenile Affairs.

Information from this regulation shall be posted on the District website, at each school (cafeterias, bulletin boards, administration offices, and other areas deemed appropriate by school administration), and will be included in all student and faculty handbooks. An annual written notice of the policy will be provided to parents, guardians, staff, volunteers and students.

Site administration will conduct an annual training of preventing, identifying, responding and reporting incidents of bullying with their faculty and staff. Schools will also provide for an educational program for students and parents in preventing, identifying, responding to and reporting incidents of bullying in consultation with the Office of Juvenile Affairs and as designed by the State Department of Education.

Each school site shall have a Safe School Committee that assists in promoting a positive school climate through planning, implementing and evaluating effective prevention, readiness and response strategies that includes the terms of this regulation. Said committee may include administrators, school staff, school volunteers, community representatives and local law enforcement agencies.

Purpose
Putnam City School District (the District) recognizes the important role that schools play in the development of children's lifelong health habits, their ability to learn, and their overall well-being. Schools can improve the health of students not only by educating them about the importance of healthy behaviors, but also by implementing policies that promote those behaviors. Therefore, the District establishes the following policy to ensure its schools comply with those standards established by federal and state law.

Definitions
- School campus- All areas of the property under the jurisdiction of the school that are accessible to students during the school day.
- School day- The period of time from the midnight before to 30 minutes after the end of the instructional day.
- Competitive foods and beverages- Foods and beverages that are sold on campus outside of the federal reimbursable school meals program during the school day (e.g., in vending machines or school stores).
- Smart Snacks standards- Nutrition standards, issued by the USDA that set limits on the amount of calories, salt, sugar, and fat in competitive foods and beverages.

Nutrition Guidelines/Standards
Child Nutrition Program
The District will make nutritious foods available on campus during the school day to promote student and staff health. At a minimum, the District Child Nutrition Program will serve reimbursable meals that meet the United States Department of Agriculture’s (USDA) requirements and follow the Dietary Guidelines for Americans (DGA).

Specifically, the District will ensure that all meals are the following:
- Accessible to all children.
- Calorically appropriate, moderate in sodium, low in saturated fat and have zero grams of trans fat.
- Contain fresh fruits and vegetables from local sources to the greatest extent possible.
- Contain plenty of whole grains and fat-free/low-fat milk to meet their nutritional needs.

The District will:
- Encourage students to start each day with a healthy breakfast.
- Provide breakfast through the USDA School Breakfast Program.
- Make safe, unflavored, cool drinking water available and accessible without restriction at no charge throughout the school day. Only low or non-fat varieties of milk will be allowed. Juice will be 100% juice with no added caloric sweeteners.
• Allow school gardens on District property through project review process
• Ensure food and beverages will not be used to punish academic performance or student behavior.

Information and Promotion of the School Lunch Program
As required under the National School Lunch Program (7 CFR 210.12), the District will promote activities to involve students and parents in the School Lunch Program.

Child Nutrition Staff
• Child Nutrition staff will be engaged in wellness activities and educational opportunities that support healthy eating behavior and food safety.
• Annual training is provided to Child Nutrition staff on basic nutrition, nutrition education, safe food preparation and nutrition standards for preparing healthy meals.
• Training and support are provided to enable Child Nutrition staff to become full partners in providing excellent food to our students.

Nutrition Guidelines and Standards for Competitive Foods
All competitive foods and beverages sold to students during the school day, including fundraising, vending machines, ala carte and school stores, must meet Smart Snacks standards set by the United States Department of Agriculture (USDA).

Fundraising on Campus during the School Day:
• Only fundraisers that feature non-food items or foods and beverages that meet the Smart Snacks standards will be permitted.
• The District, however, may allow exemptions for up to 30 fundraisers at each school site during the school year, during which the foods and beverages sold are not required to meet the Smart Snacks standards.
• The maximum duration of any individual fundraiser shall be fourteen (14) days.
• Exempted fundraisers are prohibited from taking place while meals are being served to students under the National School Lunch Program of the National School Breakfast Program, and while afterschool snacks are being served to students under the Afterschool Snack Program.
• Each school site shall designate a Smart Snacks in School Exempt Fundraiser contact person, who shall be responsible for maintaining up-to-date documentation regarding each exempt fundraiser held at the school site. For each individual exempt fundraiser, documentation must be kept on file at the school site showing the school organization, activity, class, or other group that benefits from the fundraiser, and the date(s) the fundraiser is conducted.

Other Foods Provided at School
• At a minimum, 50% of other foods and beverages provided (not sold) on campus (e.g., for classroom parties and celebrations) must meet the USDA’s Smart Snacks standards.
• Schools may allow for up to two (2) celebrations or parties during the school year, during which the foods and beverages served are not required to meet the Smart Snacks standards.
• All food brought from outside of the school premises for classroom parties or similar functions during the school day must be pre-packaged with a food label in order to protect students with food allergies.
• The District will provide parents and teachers with a list of ideas for healthy foods as well as non-food alternatives for classroom parties and celebrations.

Marketing of Food and/or Beverages
Only foods and beverages that meet the USDA’s Smart Snacks standards may be marketed in schools. Marketing, advertising, banners, brochures, coupons and/or signage that shows only the brand or logo is acceptable to display in school buildings, stadiums and athletic fields. Such items cannot display foods (pictures, videos or other) or promote purchasing foods that are not Smart Snacks approved during the school day. If the non-compliant advertising is a permanent feature of a permanent fixture (e.g. a scoreboard), such advertising can remain until the permanent fixture is removed or replaced. After the school day, use of any marketing, advertising, banners, brochures, coupons, and/or signage is acceptable.

Nutrition and Healthy Food Promotion
The District will promote healthy food and beverage choices and appropriate portion sizes by encouraging the following:
• Exhibiting posters, signs, or other displays on the school campus that promote healthy nutrition choices.
• Providing age-appropriate activities, such as contests, food demonstrations, and taste-testing that promote healthy eating habits.
• Offering information to families (via communications with parents, educational workshops, screening services, and health-related exhibitions and fairs) and encouraging them to teach their children about nutrition and healthy eating behaviors.
• Encouraging school staff to display healthy eating habits and physical activity choices to students (e.g., by eating with students during meal times, consuming only healthy snacks, meals, and beverages in front of students, sharing positive experiences with physical activity with students, etc.).

Nutrition Education
The goal of nutrition education is to facilitate the adoption of healthy eating and other health-promoting nutrition-related behaviors. Schools will offer and integrate into the curriculum nutrition education where applicable, providing students the knowledge and skills necessary for lifelong health eating behaviors. In addition, nutrition education will:
• Include what it means to eat a balanced diet and how to read nutrition labels.
• Comply with state learning objectives and standards.
• Occur in the classroom as well as the larger school community.
• Be coordinated with Child Nutrition Services to reinforce messages on healthy eating.
Community and Family Involvement
The district recognizes that parents and guardians have a primary and fundamental role in promoting and protecting their children’s health and well-being. The district supports parents’ efforts to provide a healthy diet and daily physical activity for their children. The district encourages parents to provide healthy lunches and snacks and to refrain from including beverages and foods that do not meet good nutrition standards for foods and beverages. The school will further promote family and community involvement of the district’s wellness initiatives through various school activities and functions. Information will be communicated through a variety of methods, including publication in newsletters, on the website, back to school nights, enrollment and similar activities.

PHYSICAL ACTIVITY GUIDELINES
The Putnam City School District recognizes the importance of physical activity and physical education in promoting health and academic achievement. Physical activity is an important part of a student’s comprehensive, well-rounded education program that will positively impact life-long health and well-being. The District supports high-quality physical activity throughout the school day. Elementary students will participate in 120 minutes of physical activity per week, including physical education (PE), recess, and other opportunities for physical activity.

At least once every three years, the District will assess the extent to which schools are in compliance with the local wellness policy, as well as progress made in attaining the policy’s goals. Once the assessment is completed, the committee will develop an action plan to implement the wellness policy within the district. The plan will be regularly assessed, reviewed and updated due to district needs and to ensure compliance with the latest local, state and federal regulations. Additionally,
- The Safe, Healthy and Fit School Advisory Committees will conduct an assessment and create an action plan, utilizing the School Health Index.

The types, locations and record custodians of educational records maintained by the District are listed in LOCATION OF EDUCATIONAL RECORDS EL-R1-E2. This form may be used as a reference or posted in areas where education records are kept.
STUDENT RECORDS

FAMILY EDUCATIONS RIGHTS AND PRIVACY ACT (FERPA)

Notification of Rights

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age (“eligible students”) certain rights with respect to the student's education records. They are:

1. The right to inspect and review the student's education records within 45 days of the day the District receives a request for access.

   Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate or misleading.

   Parents or eligible students may ask the District to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

   If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise them or their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

   One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a person serving on an official
committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate education interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the District discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office

DIRECTORY INFORMATION: The Family Educational Rights and Privacy Act (FERPA), a federal law, requires that the Putnam City Schools, with certain exceptions, obtain written consent or parents/guardians prior to the disclosure of personally identifiable information from students’ education records.

However, Putnam City Schools may disclose appropriately designated “directory information” without parent/guardian written consent unless parents/guardians advise the district to the contrary. The primary purpose of directory information is to allow Putnam City Schools to use this type of information from students’ education records in certain school publications or media stories. Examples of these uses include:

- Honor roll or other recognition lists
- Graduation programs
- School directories
- Sports programs, such as for football, showing weight and height of team members
- A play program showing student roles in fine arts programs
- Stories written or taped by newspaper, television, radio or Internet media
Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent/guardian prior written consent. Outside organizations include, but are not limited to:

- Companies that manufacture class rings
- Companies that publish yearbooks
- Companies that provide tutoring
- Putnam City has designated the following information as directory information:
  - Student's name
  - Parent's or guardian's name
  - Address
  - Telephone number
  - Date and place of birth
  - Weight and height
  - Grade level
  - Dates of enrollment
  - Honors and awards received
  - Most recent previous school attended
  - Student statements/quotes
  - Photographs
  - Audio or videotapes which identify the student's participation in and/or achievements earned in enrolled courses or recognized activities and sports.

The district will be free to release or use directory information as appropriate without prior consent, unless parent/guardians notify the school principal in writing within 10 days of the date of receiving notice that the above information should not be released without consent. Parents/guardians may write a letter or use a form available in the school counseling office.
DIRECTORY INFORMATION AND MILITARY RECRUITING: Provisions of the No Child Left Behind Act of 2001 (P.L. No. 107-110), Title IX General Provisions § 9528 and the National Defense Authorization Act of 2002 require high schools to provide to military recruiters, upon request, access to secondary students’ directory information unless parents/guardians have “opted out.” In accordance with those acts, military recruiters are entitled to receive the name, address, and telephone listing of juniors and seniors in high school.

By law, though, parents/guardians may opt-out of the provision of student directory information to military recruiters. Parents/guardians who do not wish Putnam City Schools to release their child’s name, address and phone number to military recruiters may opt-out by notifying your child’s school in writing. To opt-out of disclosure of student information to military recruiters, parents/guardians must provide written notice to the school principal. Parents/guardians may write a letter or use a form available in the school counseling office.

If parents/guardians do not provide written notice, their child’s directory information will be released to military recruiters as required by law.

Provisions of the No Child Left Behind Act of 2001 (P.L. No. 107-110), Title IX General Provisions § 9528, and the National Defense Authorization Act of 2002 require high schools to provide to military recruiters, upon request, directory information on students unless a student’s parent has "opted out." In accordance with those acts, military recruiters are entitled to receive the name, address, and telephone listing of juniors and seniors in high school.

If you do not wish Putnam City Schools to release your child’s name, address, and phone number to military recruiters, you may opt-out by completing and returning this form to your child’s school. This opt-out will remain in effect until you make a written request to change it.

PARENT/GUARDIAN OPT-OUT FOR RELEASE OF DIRECTORY INFORMATION

The Family Educational and Privacy Act (FERPA) authorizes Putnam City Schools to designate certain student information as directory information. The primary purpose of directory information is to allow Putnam City Schools to use this type of information from your child's education records in certain school publications or media stories. Examples of these uses include, but are not limited to, honor roll or other recognition lists, graduation programs, school directories, sports programs, such as for football, showing weight and height of team members; a play program showing student roles in fine arts programs; and stories written or taped by newspaper, television, radio or Internet media. Directory information can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings, companies that publish yearbooks and companies that provide tutoring.

In accordance with the provisions of FERPA, the district will be free to release or use such information as appropriate without prior consent, unless notified in writing that any or all of the above information should not be released without consent. If you do not wish Putnam City Schools to release your child's directory information, you may opt-out by completing and returning this form to your child's school. LIBRARY MEDIA PROGRAM

**Philosophy:** The primary objective of District library media programs is to provide curriculum support for the instructional programs. Materials in the library media centers are provided to meet information needs of students, for both academic projects and leisure reading. These materials are print, audiovisual, and electronic. Special emphasis is placed on cultural diversity, technology, personal values, and contemporary social and political issues.

The library media specialists will conduct a continuous collection development and evaluation process that focuses on regular, collaborative assessment of teaching and diverse learning needs, and the formats and resources to meet them.

**Goals and principles of the school library media program:**

1. The library media program is founded on a commitment to the right of intellectual freedom.
2. The library media center will provide access to information and resources in a wide variety of formats to all students and staff.
3. The library media center will utilize a wide variety of resources to assist with student mastery of subject and grade-level standards.
4. The library media center will meet the objectives of the school's curriculum.
5. The library media program will continually strive to improve collections through emphasis on instructional needs of both teachers and students.
Criteria for the selection of materials

The following factors will be considered in the selection process:

- Accuracy of information.
- Appeal to age group.
- Appropriateness of content considering developmental stages of students.
- Favorable reviews in standard selection sources.
- Objectivity and integrity.
- Present and potential relevance.
- Quality of illustrations, if applicable.
- Quality of physical format.
- Respect for and understanding of the multi ethnic, pluralistic nature of the United States.
- Suitability of subject, style, and reading level for intended audience.
- Support of the curriculum.
- Value commensurate with cost and/or need.
- Variety of formats.
- Varying points of view.

Gifts:  Gifts and donated books, audiovisual materials, computer software and hardware must meet the same selection criteria as materials purchased by the District. Once accepted, these materials become the property of the District.

Deselection or Weeding: Materials should be reviewed systematically and regularly to ensure that they meet the original selection criteria. Those that do not meet the criteria or that have become physically unusable should be removed from the collection. Examples of materials that are physically unusable are those that are badly soiled, torn, loose from binding, broken, etc., and are beyond repair.

Evaluation: Evaluation is a part of the continuous process of collection development. This activity should be done collaboratively, involving teachers, students, and staff. Library collections should be evaluated regularly to ensure that the collection is meeting its stated instructional goals.
Requests for re-evaluation of materials: The board will make an effort to provide stimulating, effective instructional materials that will be appropriate to this community’s values and the student’s ability and maturity level. When questions or challenges from parents or other individuals or groups in the community regarding books or other instructional materials occur, the following procedures have been developed to deal with the concern.

There are two types of requests concerning materials alleged to be objectionable: requests that an individual student be excused from reading certain specified material; and requests that specified material be removed from the library collection.

When a parent or guardian of an individual student desires that the student be excused from reading specified material, the teacher or principal shall be contacted. The teacher will assign the student a book or materials of approximately equal merit and appropriate to the same or related objectives.

All challenges to remove specified materials from the library must be presented in writing on the form EM-F. This can be done by contacting the building principal. If the person asking for the review wishes to remain anonymous at the local level, he/she may contact an administrator in the district Library Media Services Department. When a request for review of library materials is received, action shall be taken as follows:

1. The challenge may be received at the school site by either the principal or library media specialist(s) or the challenge may be received at the district Library Media Services Department. All three parties will be informed by whoever receives the notification first.
2. Every attempt will be made by the principal to arrange a meeting between the library media specialist(s) and the party/parties bringing the complaint in order to try and resolve the issue.
3. If the complaint cannot be resolved at this point, and form EM-F has been returned to the principal or library media specialist(s) by the complainant, a building level review committee, composed of the principal, librarian, and three other faculty members, shall be appointed. A representative from the district Library Media Services Department will chair the meeting, in a non-voting capacity, with the complainant and the building level committee.

The building level review committee has an obligation to solicit any information or ask any questions it deems appropriate to help the committee reach a decision. The complainant will have five minutes to present its challenge to the material at hand. The library media specialist will have five minutes to present rationale for the item being included in the library collection.
Once the committee has reached a decision, it will be communicated in writing to the complainant.

1. If a concern is settled at the building level, the complaint will be considered resolved.
2. If the complainant is not satisfied with the building level decision, an appeal may be filed and a district level review committee will be formed. The district review committee shall be appointed by the Superintendent or his designee and shall be composed of the following:
   - Assistant Superintendent of Elementary or Secondary Education as appropriate,
   - A curriculum specialist,
   - Two principals,
   - The chairperson of the particular department, vertical or grade level involved,
   - Three teachers competent in the field under question,
   - Two patrons of the District.
3. The committee will be chaired by a non-voting representative of the district Library Media Services Department.
4. Prior to any determination of findings, the complainant shall be invited to appear before the district review committee to provide further rationale for his/her objection to the materials. Both the complainant and library media specialist shall be granted five minutes to present their arguments.
5. The committee shall consider the attitudes of other teachers toward the materials, the opinions of other competent authorities, reviews of the materials by the American Library Association and other reputable reviewers, as well as the complainant’s and the library media specialist’s written rationale for using the materials. Written documentation may be provided by the participants to the review committee. Furthermore, the members of the committee may ask questions of the participants or request additional documentation. The committee may, at its discretion, allow others to speak on behalf of or in defense of the participants. The committee has the prerogative of setting a time limit on comments.
6. A written report from the district level committee shall be submitted to the superintendent, and the superintendent will communicate that report to the Board.
7. A written response shall be forwarded to the objecting party after the Board has been notified of the decision of the committee.

STUDENT DRUG TESTING POLICY

Purpose and Intent: In an effort to protect the health and safety of its students from illegal and/or performance-enhancing drug use and abuse, the Board adopts the following policy for drug testing of students who participate in competitive extra-curricular activities (“Activity Students”) as well as any other student who voluntarily wishes to be tested. This policy supplements and complements all other policies, rules, and regulations of the District regarding possession or use of illegal and/or performance-enhancing drugs. The District believes that accountability is a powerful tool to help students avoid using illegal and/or performance-enhancing drugs and that early detection and intervention can save students’ lives.

Although the Board, administration, and staff desire that every student in the District refrain from using or possessing illegal drugs, District officials realize that their power to restrict the possession or use of illegal and/or performance-enhancing drugs is limited. Therefore, this policy governs performance-enhancing and/or illegal drug use by students participating in competitive extra-curricular activities and those who voluntarily participate in the drug testing program. The sanctions imposed for violations of this policy by an Activity Student will be limited to the opportunity of such student to exercise the privilege of participating in competitive extra-curricular activities. No suspensions from school or academic sanctions will be imposed for violations of this policy.

In addition to Activity Students, the parent, legal custodian, legal guardian of a student or a student who is 18 years of age who does not participate in any competitive extra-curricular activities may request and provide permission for the student to be tested on a random and a reasonable suspicion basis. This would allow parents and guardians to be notified as to a potential drug problem and enable them to seek help.

Participation in school-sponsored competitive extra-curricular activities at the District is a privilege. Students who participate in these activities should be respected by the student body as well as the District and the community they represent. Accordingly, students in competitive extra-curricular activities carry a responsibility to themselves, their fellow students, their parents and their school to set the highest possible examples of conduct, sportsmanship, and training, which includes avoiding the use or possession of illegal drugs. Illegal and performance-enhancing drug use of any kind is incompatible with the physical, mental, and emotional demands placed upon participants in extra-curricular activities and upon the positive image these students project to other students and to the community on behalf of the District. For the safety, health, and well-being of students in extra-curricular activities, and for those students whose parent, legal custodian, legal guardian of a student or a student who is 18 years
of age voluntarily consent, the District has adopted this policy for use by all participants in competitive extra-curricular activities in grades 9-12.

The purposes of this policy are five-fold:

1. To educate students as to the serious physical, mental, and emotional harm caused by illegal and/or performance-enhancing drug use.
2. To alert students with possible substance-abuse problems to the potential harms that drug use poses for their physical, mental, and emotional well-being and offer them the privilege of competition as an incentive to stop using such substances.
3. To ensure that students adhere to a training program that bars the intake of illegal and/or performance-enhancing drugs.
4. To prevent injury, illness, and harm for students that may arise from illegal and/or performance-enhancing drug use.
5. To offer students practices, competition and school activities free of the effects of illegal and/or performance-enhancing drug use.

Definitions:

• “Activity Student” means a member of any District sponsored extra-curricular organization which participates in interscholastic competition in Grades 9-12. This includes any student who represents the District in extra-curricular activities in interscholastic competition, including, but not limited to, Pom-Pon, FCCLA, Academic Bowl Team, Band, Vocal, Cheerleading, and Athletics.
• “Drug use test” means a scientifically substantiated method to test for the presence of illegal or performance-enhancing drugs (including alcohol) or the metabolites thereof in a person’s saliva.
• “Illegal drugs” means any substance which an individual may not sell, possess, use, distribute, or purchase under either federal or Oklahoma law. “Illegal drugs” includes, but is not limited to, all scheduled drugs as defined by the Oklahoma Uniform Controlled Dangerous Substance Act, all prescription drugs obtained without authorization, and all prescribed and over-the-counter drugs being used for an abusive purpose. “Illegal drugs” shall also include alcohol.
• “Non-Activity Student” means a student who does not participate in any district sponsored interscholastic competition in grades 9-12 and whose parent, legal custodian, legal guardian or student who is 18 years of age that has requested and given permission for the student to be tested on a random and reasonable suspicion basis.
• “Participating Student” means all Activity Students and Non-Activity Students participating in the District’s drug testing program which is the subject of this Drug Testing Policy.
• “Performance-enhancing drugs” include anabolic steroids and any other natural or synthetic substance used to increase muscle mass, strength, endurance, speed or other athletic ability. The term “performance-enhancing drugs” does not include dietary or nutritional supplements.
such as vitamins, minerals and proteins which can be lawfully purchased in over-the-counter transactions.

- “Positive” when referring to a drug use test administered under this policy means a toxicological test result which is considered to demonstrate the presence of an illegal or a performance-enhancing drug or the metabolites thereof using the standards customarily established by the testing laboratory administering the drug use test.
- “Random Selection Basis” means a mechanism for selecting Participating Students for drug testing that:
  A. results in an equal probability that any Participating Student from a group of Participating Students subject to the selection mechanism will be selected, and
  B. does not give the District discretion to waive the selection of any Participating Student selected under the mechanism.
- “Reasonable suspicion” means a suspicion of illegal or performance-enhancing drug use based on specific observations made by coaches, administrators, sponsors, teachers, or Campus Police of changes in the appearance, speech, or behavior of a student; the reasonable inferences that are drawn from those observations; and/or information of illegal or performance-enhancing drug use by a student supplied to school officials by credible sources. Additionally, in the context of performance-enhancing drugs, “reasonable suspicion” specifically includes unusual increases in the size, strength, weight, or athletic abilities of a student.

Procedures:

1. **Consent Form: Activity Students** Each Activity Student shall be provided with a copy of the form “Student Drug Testing Consent: Activity Student” which shall be read, signed, and dated by the student and parent or guardian before such student shall be eligible to practice or participate in any competitive extra-curricular activities. The consent requires Activity Students to provide a saliva sample and submit to drug testing: [a] as part of the Activity Student’s annual physical or for eligibility for participation; [b] when the Activity Student is selected by the random selection basis to provide a saliva sample; [c] at any time when there is reasonable suspicion to test for illegal and/or performance-enhancing drugs. No Activity Student shall be allowed to practice or participate in any competitive extra-curricular activities involving interscholastic competition unless the Activity Student has returned the properly signed Consent Form. An Activity Student who moves into the District after the school year begins will have to provide a Consent Form before he/she will be eligible for participation in any competitive extra-curricular activity.

2. **Consent Form: Non-Activity Students** Non-Activity Students participating in the District’s drug testing program shall be provided a copy of the form “Student Drug Testing Consent: Non-Activity Student.” No coach/sponsor signature is required on this form. Non-Activity Students who participate in the drug testing program consent to provide a saliva sample when the
student is selected by the random selection basis or at any time when there is reasonable suspicion to test for illegal or performance enhancing drugs.

3. **Orientation:** Prior to the commencement of drug testing each year, an orientation session will be held to educate Participating Students of the sample collection process, privacy arrangements, drug testing procedures, and other areas which may help to reassure the student and help avoid embarrassment or uncomfortable feelings about the drug testing process. Each Participating Student shall receive a copy of the Student Drug Testing Policy. The administration will be responsible for explaining the policy to all Participating Students and for preparing an educational presentation to acquaint the students with the harmful consequences of drug and alcohol use and abuse.

4. **Testing:** Drug use testing for Participating Students will be chosen on a random selection basis from a list of all Participating Students. The District will determine a number of Participating Student names to be drawn at random to provide a saliva sample for drug use testing for illegal drugs or performance-enhancing drugs. In addition, any Participating Student for whom the administration has reasonable suspicion of illegal and/or performance-enhancing drug use by that particular student will be included with the random tests and will not be identified in any way as separate from the random group.

Any drug use test will be administered by or at the direction of a professional laboratory chosen by the District. The professional laboratory shall be required to use scientifically validated toxicological testing methods, have detailed written specifications to assure chain of custody of the specimens, and proper laboratory control and scientific testing.

All aspects of the drug use testing program, including the taking of specimens, will be conducted so as to safeguard the personal and privacy rights of the student to the maximum degree possible. The test specimen shall be obtained in a manner designed to minimize intrusiveness of the procedure. If at any time during the testing procedure the monitor has reason to believe or suspect that a student is tampering with the specimen, the monitor may stop the procedure and inform the principal/athletic director, who will then determine if a new sample should be obtained. The monitor shall give each student a form on which the student may list any medications legally prescribed for the student he or she has taken in the preceding thirty (30) days. The parent or legal guardian shall be able to confirm the medication list submitted by their child during the twenty-four (24) hours following any drug test. The medication list shall be submitted to the lab in a sealed and confidential envelope and shall not be viewed by district employees.

An initial positive test result will be subject to confirmation by a second and different test of the same specimen. The second test will use the gas chromatography/mass spectrometry technique or equivalent methodology such as Liquid Chromatography / Mass Spectrometry. A specimen shall not be reported positive unless the second test, utilizing one of these procedures, is positive for the presence of an illegal drug or the metabolites thereof. The unused portion of a specimen that tested positive shall be preserved by the laboratory for a period of six months or
the end of the school year, whichever is shorter. Student records will be retained until the end of
the school year.

Confidentiality: The laboratory will notify the principal/athletic director or designee of any positive test.
To keep the positive test results confidential, the principal/athletic director or designee will only notify
the student, the head coach/sponsor (if applicable), and the parent or custodial guardian of the student
of the results. The principal/athletic director or designee will schedule a conference with the student
and parent or guardian and explain the student’s opportunity to submit additional information to the
principal/athletic director or to the lab. The District will rely on the opinion of the laboratory which
performed the test in determining whether the positive test result was produced by something other
than consumption of an illegal and/or performance-enhancing drug.

Test results will be kept in files separate from the student’s other educational records, shall be disclosed
only to those school personnel who have a need to know, and will not be turned over to any law
enforcement authorities.

Appeal: An Activity Student who has been determined by the principal/athletic director to be in
violation of this policy shall have the right to appeal the decision to the Superintendent or his/her
designee(s). Such request for a review must be submitted to the Superintendent in writing within five (5)
calendar days of notice of the positive test. An Activity Student requesting a review will remain eligible
to participate in any extracurricular activities until the review is completed. The Superintendent or his/
her designee(s) shall then determine whether the original finding was justified. No further review of the
Superintendent’s decision will be provided and his/her decision shall be conclusive in all respects. Any
necessary interpretation or application of this policy shall be in the sole and exclusive judgment and
discretion of the Superintendent which shall be final and non-appealable.

Consequences: Any Activity Student who tests positive in a drug test under this policy shall be subject
to the following consequences. These consequences and requirements shall begin immediately and be
consecutive in nature for a period of one calendar year, unless a review appeal is filed following receipt
of a positive test. However, a student who on his or her own volition informs (self-refers) the athletic
director, principal, or coach/sponsor of illegal and/or performance-enhancing drug usage before being
notified to submit to a drug use test will be allowed to remain active in all activities covered under this
policy. Such student will, however, be considered to have committed his/her first offense under the
policy and will be required to re-test as would a student who has tested positive. A student will be
allowed to self-refer only once during the time he/she spends in the District.

First Offense: Within 2 school days of receipt of a positive test result, the District will contact and
schedule a private conference with the parent/guardian to present the test results to the parent/
guardian. This conference will include the student, parent/guardian, athletic director or sponsor as
DISTRICT POLICY

appropriate, and the principal, and the purpose of the meeting is to discuss the positive drug test. A student with a positive drug test will be suspended from participating in any meetings, practices, scrimmages, or competitions for extra-curricular activities for five (5) school days. After the five (5) day suspension, in order to continue participation in the activity, the student and parent/guardian must provide proof to the principal that the student has received drug counseling from a qualified drug treatment program or counseling entity. After a first offense, students may receive drug counseling and/or treatment through the District’s partnership with Chance to Change at no cost to the student’s parent/guardian. The cost of any other counseling and/or treatment programs in which a student participates shall not be the responsibility of the District. The student will be randomly tested monthly for the remainder of the school year. The time and date will be unknown to the student and determined by the principal/athletic director or designee.

Second Offense (same calendar year): Within 2 school days of receipt of a second positive test result, the District will contact and schedule a private conference with the parent/guardian to present the test results to the parent/guardian. This conference will include the student, parent/guardian, athletic director or sponsor as appropriate, and the principal, and the purpose of the meeting is to discuss the positive drug test. A student with a second positive drug test will be suspended from participating in any meetings, practices, scrimmages, or competitions for extra-curricular activities for ten (10) school days. After the ten (10) day suspension, in order to continue participation in the activity, the student and parent/guardian must provide proof to the principal that he/she is actively participating in a program of substance abuse education/counseling from a qualified drug treatment program or counseling entity, the cost of which shall be paid by the student or his/her parent/guardian. The student will be randomly tested monthly for the remainder of the school year. The time and date will be unknown to the student and determined by the principal/athletic director or designee.

Third Offense (same calendar year): An Activity Student who commits a third offense under this policy will be suspended from participation in all extra-curricular activities including all meetings, practices, performances, and competition for the remainder of the school year or eighty-eight (88) school days (one semester) whichever is longer. Parents should strongly consider additional assistance from outside sources, including, but not to be limited to, the possibility of drug treatment centers.

Refusal to Submit to Drug Use Test: A Participating Student who refuses to submit to a drug test authorized under this policy shall not be eligible to participate in any activities covered under this policy, including all meetings, practices, performance and competitions for the remainder of the school year. Additionally, such student shall not be considered for any interscholastic activity honors or awards given by the District.

Virtual Education Policy

Putnam City Schools may enter into partnership agreements with accredited virtual online learning providers to deliver instruction to students for extended learning opportunities. Online courses may be taken for substitution and course acceleration. The selected provider will be approved by the State Board of Education and will conform to rules specified by the State Board.

Virtual instruction may provide students access to a variety of courses that may not be offered in the district and virtual classes provide for flexible scheduling. However, the high rigor, self-discipline, and self-motivation required for virtual learning do not make it the best educational environment for every student.

Academic progress and a student's final grades for the completion of a course through the online provider, will be treated the same as any other course offered by the district.

Eligibility: Students must reside within Putnam City school district boundaries in order to be eligible to enroll in Putnam City's Virtual school. A parent or guardian of the student must submit an application along with his or her academic profile to the district's virtual school coordinator for review. A student’s application and academic profile will be used to determine if the full time online or supplemental online learning environment will properly suit the student's needs and remain as an academically appropriate placement for the student.

Putnam City Schools may restrict the number of virtual enrollments per year based on allocated funding for the virtual school program. Enrollments will be accepted in the order they were received. In the event the district has exceeded its allocation, students may transfer to the State Virtual School.

Students are required to provide their own computers and internet service or have regular access in order to complete their assignments. Minimum requirements for both are listed at www.putnamcityschools.org/virtual.

Extra-curricular Participation: Students will be allowed to participate in extra-curricular activities at their school of attendance. A student’s eligibility will be determined on the OSSAA's rules; in addition, students must remain in good standing and in compliance with Putnam City's student handbook and board policy.
Enrollment: Applications are available online through a link on the district website or at www.putnamcityschools.org/virtual

The student and/or parent/guardian of a student who has been denied enrollment into Putnam City's virtual school may appeal the decision in writing to executive director of Information Technology. The request must be made within the enrollment period to be eligible for enrollment. Specific timelines for enrollment may be found on the district website.

Virtual school course enrollment is not intended for credit recovery and will not be offered as a summer school option. Students who have failed a course in the past may not re-enroll in the same course to attempt credit recovery.

Both the student and the parent/legal guardian are required to sign and comply with Putnam City's virtual school contract, learning coach agreement, and academic honesty agreement. They must also sign the Oklahoma State Department of Education Student Assessment Results Release form or the FERPA waiver prior to enrollment.

Requirements: All students enrolled in virtual courses are required to take all state mandated tests as required by state statutes. Tests will be administered at the student's high school of record.

Students may be withdrawn from the virtual program at any time if they do not maintain regular attendance and/or meet set benchmarks for completion. A parent or guardian must submit a student's attendance each day. Failure to take attendance or failure to log in for more than 10 days will result in an automatic withdrawal from the virtual school program.

All students enrolled will be required to maintain a full schedule with Putnam City Schools. Elementary and middle school students will be enrolled as a full-time virtual student. High school students may enroll in one course or up to seven courses to make a complete schedule. Juniors and seniors are eligible to enroll in up to eight courses per semester. Juniors and seniors may be eligible to enroll in one virtual course at no cost to the student. Those interested may contact their school counselor for more information. The school counselor must approve all schedules for high school students.

Students may enroll in AP courses if available. The student’s weighted academic average will be determined on the student’s required coursework and not additional or alternative AP placements.
Students are expected to complete their coursework by the end of each semester according to the district's annual calendar. Seniors will be required to meet the expectations of Putnam City School's policies in order to participate in graduation ceremonies and to receive a diploma from Putnam City Schools.

**Withdrawing:** Students accepted into the Putnam City Virtual program will be required to attend the entire semester.

Academic dishonesty and/or misconduct may result in a student being withdrawn from the virtual school program.

Students dropping, withdrawing prematurely or failing to successfully complete their virtual school course will not receive credit for the course.

**Course Pacing:** Students may work at their own progress; however, students will not be allowed to fall behind and suffer academically. Students may work ahead but will not be allowed to start the following semester until the semester begins according to the district’s academic calendar.

**Students on an Individualized Education Plan (IEP):** Prior to making a change of placement for a student with an Individualized Education Plan (IEP), parents/legal guardian will be required to request and have an IEP meeting to allow the IEP team to determine if virtual school will be academically educationally appropriate for the student. If an IEP team decides that virtual school is academically appropriate for the student, then a change of placement will be necessary. A current copy of the student's IEP with the IEP team’s approval must be included with the application. Putnam City Schools will provide the online provider with a copy of the current IEP for a student enrolled in the district and participating in Putnam City's virtual school program.
DISTANCE LEARNING POLICY

The District may provide for virtual instruction or distance learning program on dates to be determined by the Superintendent or their designee. This power shall be provided by the Board of Education so that the students of the district may be allowed to continue instruction in the event of a school closure for an emergency. Such dates shall be provided to parents and students on the school website with as much advance notice as possible under the circumstances.

Students and staff will be expected to participate, and attendance shall be taken in accordance with district attendance policies and procedures for students and employees. The school district will provide resources to ensure that all students have access to virtual or distance learning programs. All instruction will be provided in compliance with Oklahoma’s Academic Standards. Grades will be assigned which will reflect the progress of the student with regard to assignments and/or tests provided. Students will be allowed to participate in extracurricular activities in accordance with requirements set by the school district.

In the event of an emergency declared by a federal or state government entity that impacts the operation of public schools in Oklahoma, or upon an action taken by the State Board of Education declaring such an emergency that leads to the temporary emergency closure of school campus or otherwise significantly impairs the operation of public schools in Oklahoma, the school district may implement distancing learning plans which provide for distance learning that is accessible to all students.

The district may provide for short-term implementation of a distance learning plan due to a localized emergency such as a weather-related school closure or a localized public health emergency. The school calendar may include one or more emergency closure “makeup days” to be delivered through the distance learning plan.
HOMELESS STUDENTS

In accordance with the Federal McKinney Homeless Assistance Act, homeless children have the right to enroll in school immediately even if they are lacking documentation normally required for enrollment, such as, previous school records, medical or immunization records, proof of residency, birth certificate, proof of guardianship or other documents.

Children who are homeless have access to the same free and appropriate public education as provided to other children including access to academic and extracurricular activities, such as schools which require application for admission, summer school, career and technical education, advance placement, and online learning.

The district will provide to each homeless child such school services that are comparable to services offered to other students in the district and that are determined to be in the child's best interest. Such services will include:

1. Public preschool programs;
2. Special education, Title I, and English language development programs for which they are eligible;
3. Career Tech programs;
4. Gifted and talented programs;
5. Before and after school programs;
6. School meal programs; and
7. Transportation services.

The district homeless liaison shall make reasonable efforts to identify homeless children within the district, encourage their enrollment, and eliminate existing barriers to their education that may exist in district policies or practices. No child or youth shall be discriminated against in this school district because of homelessness.
Children and youth are deemed to be homeless if they lack a fixed, regular and adequate nighttime residence and are living in one of the following situations:

1. Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, or camping grounds due to the lack of alternative adequate accommodations, living in emergency or transitional shelters;

2. A primary nighttime residence that is a publicly or privately operated shelter designed to provide temporary living accommodations, a temporary residence prior to institutionalization, or a place not designed or ordinarily used as a regular sleeping accommodation for humans;

3. Living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar setting;

4. Migratory according to the definition established in Section 1309 of the Elementary and Secondary Act of 1965;

5. Unaccompanied youth not in the physical custody of a parent or guardian;

6. Have run away from home and live in a runaway shelter, abandoned building, the street, or other inadequate accommodations;

7. Have been placed in a state institution because they have no other place to live;

8. Have been abandoned by his/her family and who is staying in a medical facility;

9. Have parents or a guardian will not permit them to live at home and who lives on the street, in a shelter, or in other transitional or inadequate accommodation;

10. Are school-age unwed mothers or expectant mothers who are living in homes for unwed mothers because they have no other available living accommodations;

11. Other barriers to school attendance by homeless youth will be waived at the discretion of the superintendent or designee.
