### **Pocatello/Chubbuck School District Swim Team**

**Pocatello** – This year, the Idaho High School Activities Association sanctioned swimming as a new sport for Idaho high schools.

The Pocatello/Chubbuck School District has embraced this opportunity for students and developed a co-operative team. In a cooperative team organization all school's students practice together and compete together as one team at dual and local meets. During district and state competition they compete individually or as a team for their own school.

The District has entered into a rental agreement with ISU for use of their pool for student practices and to host swim meets.

**PHC**  
Pocatello - Highland - Century  
Swim Team

The co-operative team currently has 50 students; 4 from Pocatello High School, 27 from Highland High School and 19 from Century High School. They are competing as the PHC Swim Team. Each athlete wears a swim cap with their individual schools logo and colors.
