Approximately 460 students in grades 7-12 sacrificed their summer to recover credits, and are better prepared to start school this upcoming fall. Fifteen students will graduate after the summer program. Forty-two staff members, including teachers, paraprofessionals, and support personnel, gave up their summer months to assist these students in moving forward academically this summer. The school district and Pocatello community want to congratulate all our students who successfully reached their academic goals and wish them all the best of luck this fall.
