

Newfield Elementary School

Newfield Elementary School is a Kindergarten through 5th grade Responsive Classroom Leadership school located in the residential neighborhood of Pepper Ridge Road in Stamford. As a Responsive Classroom Leadership school for over 20 years, we provide an atmosphere that celebrates a diverse community in a warm and nurturing environment. With a veteran staff we have built strong student, parent and community engagement highlighted by our thriving partnership with Building One Community.

Our Mission:

In support of Stamford Public Schools' mission, Newfield Elementary provides an inclusive standards-based, responsive, instructional program that cultivates productive habits of mind, body and heart in every student.

The Responsive Classroom philosophy is the cornerstone of our academic community. It promotes the development of a social curriculum that believes that the school's greatest contribution to the future will be the way it helps to weave and strengthen the social fabric of the community it serves. How children are treated and how they learn to treat others is of utmost importance at Newfield School. As the social skills of cooperation, assertion, responsibility, empathy and self-control increase, the behavior problems decrease, and a noticeable family-like climate permeates the school.
