Final Budget

Change in Sentiment from Albany- Quotes from Governor Hochul

"Everything that we're putting in the budget we're going to be able to fund, but I'm also very cognizant of the fact that we could be facing a recession," she said. "I cannot count on the revenues, the tax receipts as well as the stock market revenues, being there for us next year."

It was only a few months ago the governor's budget office was projecting billions of dollars in additional money that could help fund schools and health care for the next several years. The state's finances were turbo-charged by a combination of federal pandemic relief and tax increases on upper-income earners.

"We may be having to get ourselves out of a recession," she said.

Expenses – Five (5) Components

Code 1000 - General Support - This code area includes budget lines for the Board of Education, District Clerk, the annual budget vote and election, as well as Central Administration (including the Superintendent's office, business operations and human resources), operations and maintenance, utilities and insurance.

Code 2000 – Instruction - By far the largest category of expenditures, all regular elementary and secondary classrooms and other instruction are included here as well as expenditures for special education programs, as required by law, and budgets for extracurricular activities (clubs, intramurals, etc.) and interscholastic athletics.

Code 5000 – Transportation - All student transportation, whether by our own buses or by contract with private companies, are coded here. Salaries for drivers and mechanics as well as the purchase and maintenance of the fleet are included.

Code 7000 – Recreation - This includes the purchase of equipment and supplies for recreation.

Code 9000 – Undistributed - This code refers to budgeted items paid to agencies rather than vendors or individuals. Included here are all employee benefits, such as health, dental and life insurance as provided for by contract with employee groups, as well as payments to the Social Security and retirement systems. Also included here are payments for interest and principal payments for borrowing, whether for short-term purposes or for long-term debt for capital projects. The term "undistributed" means that the item is not assigned to the function for which it is expended; for example, the district makes one large payment to the Teachers Retirement System for all employees covered by that system instead of distributing the payment among numerous payroll codes.
