

TO: All Bidders
FROM: Vivens Joachim, BOE Management Analyst/Purchasing Agent
CC: Ryan Fealey, Director of Finance; Jeanie Valentine, Buyer
DATE: April 27, 2022
RE: B-4040 TOQUAM SCHOOL, PHASE 2 UPGRADE PROJECT

ADDENDUM 1

VENDOR QUESTIONS & ANSWERS

1. Will the bidding contractor (s) supply and install all circuit setters?
Yes. The bidding contractor will supply and install all circuit setters and must have submittal approved by CDA design engineer. They will also supply credit cost for material only of circuit setters. Because of SBE concerns on lead-time of material, the SPS would like the option of pre purchasing all circuit setter, and bidding contractor will be responsible for installing and all re-insulating required.
2. Will the bidding contractor supply a list of any bad perimeter baseboard heat pneumatic actuators?
Yes. The bidding contractor will supply a list of any bad perimeter baseboard heat pneumatic actuators only and any deficiencies found during project that fall outside contract.
3. What about submittal to CDA?
The bidding contractor needs to supply submittal to CDA on type of strainer they plan to install for all new circuit setter/control valves.
4. Must they match existing white vinyl jacking?
All pipe and any other re-insulating installed by bidding contractor must match existing and have white vinyl jacking as existing.

All other specification and requirements remain unchanged.
