**Re:** RFP 20-08 Kitchen Hood Cleaning Services

### ADDENDUM 1

#### VENDOR QUESTIONS & ANSWERS FOR RFP 20-08

1. I am curious how big the hoods actually are, I see the previous contact was at 9k for semiannual cleanings and I am trying to figure out if that price was every 6 months or the entire year. It makes sense for every 6 months averaging a little over \$300 per hood but it could be the entire year, we have seen weirder things. We wouldn't necessarily come in at the same price anyway but it helps to be in the same range, could you clarify that please?

**Answer:** There was no contract previously for hood cleaning. The contract you are referencing is for hood inspections/ansul inspections. That is a different contract. Our last hood cleaning was done via gathering 3 price quotes. The price was \$3,740. This also did NOT include 2 schools that were under construction at the time.
