

Cloonan Middle School

Cloonan is a school which draws students all across Stamford from Waterside to the New York Border. As a result we have a rich tapestry of cultures, languages and experiences. Cloonan was recognized as a College For Every Student (CFES) Brilliant Pathways School of Distinction for 10 consecutive years. Every day, our students engage in our Core Practices – Pathways to College and Career, as well as leadership through service and mentoring – with the guidance of educators and others they already know, who are committed to their success.

What We Offer

Cloonan Middle School recognizes that in our diverse community, each child is an individual and has an inherent capacity for learning. Cloonan's mission is to create a safe and nurturing environment of learning excellence for early adolescents in which all stakeholders work as partners to equip students with the knowledge, skills, character, compassion, confidence and desire to build successful lives and communities.

We encourage students to develop healthy habits of mind, body, and heart. In addition, we have a robust mentoring program, featuring SPEF Volunteers, West Point Cadets and UConn students. We believe that youth can impact the world right now, both globally and locally. Our students explore and develop new interests, learn leadership skills, and learn how to positively impact his or her community, including everything from supporting pet shelters to fundraising for infant cardiac surgery, to KIVA Club which provides micro loans for individuals in developing nations. Building-wide initiatives include our Charity DodgeBall tournaments and penny wars.

What We Do

- Theater Programs
- Cross Country
- Soccer
- Baseball
- Softball
- Mathletes
- Science Bowl
- Kiva Club
- Scripts Spelling Bee
- Odyssey of the Mind
