The Math Success Center

Did you know that High School Students have access to the Math Success Center at Santiago Canyon College? The Math Success Center (a.k.a. MSC) is a FREE service provided by SCC that provides students with supplemental learning to the classroom. A math faculty member, Instructional Assistants and student tutors are always on duty to assist students with questions from their math class. All staff members are dedicated to student success! Additionally, computers are available for students to access mathematical software or complete internet-based assignments for any math class.

To use the Math Success Center, High School Students need to become CAP students. It is as easy as filling out a form through our admissions and records department. Once the form has been processed students need to enroll in MATHCE 100. You can do this on your first visit to the MSC by logging into the registration computer. Staff members are here to assist you with the registration process. Please stop by the center for assistance and start using the MSC the same day! No appointment needed! The Math Success Center is located in room D-209.
