

AUSD Seeks Part-Time Staff to Support Re-Opening Secondary Schools

Dear AUSD Families,

As we continuously work towards our April reopening of our middle and high schools, many needs remain and many issues still need to be solved.

For example: AUSD needs to expand part-time staffing to support the additional protocols and student supervision needs that our initial reopening will require.

As such, we are currently seeking to recruit part-time Student/Campus Supervisors to help at our middle and high school sites for the remainder of the school year.

Traditionally known as "Noon Supervisors," these part-time employees will work shifts that are approximately four hours long (10:30 am to 2:00pm Tuesday – Thursday). Duties during reopening could include:

- Supervise and ensure the safety of students who exhibit general symptoms and so need to be isolated in large spaces, away from their peers, until families can pick them up
- Support student check-in in the early stages of an in-person return (e.g., verifying that health screenings are complete, possibly taking temperatures, etc.)

Individuals filling these roles will supervise in areas that are ventilated or outdoors and be provided personal protective equipment (PPE). They will also receive COVID-19 testing, depending on regional public health conditions.

Please consider joining our efforts to reopen schools safely by joining our team! You can find more information at: <https://www.edjoin.org/Home/DistrictJobPosting/1378344>.

Sincerely,

Pasquale Scuderi
Superintendent

Tim Erwin
Chief Human Resources Officer
